

Research Funding Opportunity

Application Materials

- ▶ 1 page proposal
- ▶ current CV
- ▶ description of your budget needs

Combine all materials into a single PDF and **send by email to:**

valmed at nber.org

(Subject Line: Pilot Funding)

Eligibility

Faculty or Post-Doctoral researchers

Applicants from diverse backgrounds, including individuals from under-represented racial and ethnic groups, individuals with disabilities, and women are encouraged to apply.

Deadline: Applications will be reviewed as received through **January 25, 2018**

Applicants will be notified by email on or before **February 28, 2018**

The Value of Health Research

The National Bureau of Economic Research (NBER) and Institute for Fiscal Studies (IFS) have obtained grant funding to support pilot research on topics related to **the value of health research.**

Topics of interest include (but are not limited to):

- Identifying metrics of the output of the research process
- Understanding the research involved in health improvement
- The interaction between public and private research inputs and outputs
- Incorporating distributional issues when valuing the benefits of health research or innovation

Awards of up to \$25,000 in direct costs. Funds may be requested for investigator salary, research assistance, data purchases or data preparation services, travel expenses for colleague exchanges, or other research needs. Small-budget proposals are welcome. *All funds are awarded directly, not by subcontract.*

Who may apply: Faculty or post-doctoral researchers in any relevant discipline (economics, epidemiology, medical research, etc.) are invited to submit a one-page proposal on any topic related to the value of health research. Affiliation with NBER or IFS is not required.
