NOTICE

With issuance of this Number 5, for Winter-Spring 1977/78, of Volume 6, the National Bureau of Economic Research is terminating the publication of *Annals of Economic and Social Measurement*.

Since its inception in 1972, we feel this journal has evoked considerable interest and achieved a measure of national recognition among persons concerned with quantitative economic and social research. Although the NBER will no longer be publishing the *Annals*, we hope that other journals may wish to give some emphasis to similar work on methodological issues and analytic techniques.

To the members of our Editorial Board and others who have participated in the reviewing of manuscripts, we extend our special thanks.
