Emilio G. Collado	Gottfried Haberler	Boris Shishkin
Solomon Fabricant	Albert J. Hettinger, Jr.	Willard L. Thorp
Frank Fetter	George B. Roberts	Theodore O. Yntema

Relation of the Directors to the Work and Publications of the National Bureau of Economic Research

1. The object of the National Bureau of Economic Research is to ascertain and to present to the public important economic facts and their interpretation in a scientific and impartial manner. The Board of Directors is charged with the responsibility of ensuring that the work of the National Bureau is carried on in strict conformity with this object.

2. The President of the National Bureau shall submit to the Board of Directors, or to its Executive Committee, for their formal adoption all specific proposals for research to be instituted.

3. No research report shall be published by the National Bureau until the President has sent each member of the Board a notice that a manuscript is recommended for publication and that in the President's opinion it is suitable for publication in accordance with the principles of the National Bureau. Such notification will include an abstract or summary of the manuscript's content and a response form for use by those Directors who desire a copy of the manuscript for review. Each manuscript shall contain a summary drawing attention to the nature and treatment of the problem studied, the character of the data and their utilization in the report, and the main conclusions reached.

4. For each manuscript so submitted, a special committee of the Directors (including Directors Emeriti) shall be appointed by majority agreement of the President and Vice Presidents (or by the Executive Committee in case of inability to decide on the part of the President and Vice Presidents), consisting of three Directors selected as nearly as may be one from each general division of the Board. The names of the special manuscript committee shall be stated to each Director when notice of the proposed publication is submitted to him. It shall be the duty of each member of the special manuscript committee to read the manuscript. If each member of the manuscript committee signifies his approval within thirty days of the transmittal of the manuscript, the report may be published. If at the end of that period any member of the manuscript committee withholds his approval, the President shall then notify each member of the Board, requesting approval or disapproval of publication, and thirty days additional shall be granted for this purpose. The manuscript shall then not be published unless at least a majority of the entire Board who shall have voted on the proposal within the time fixed for the receipt of votes shall have approved.

5. No manuscript may be published, though approved by each member of the special manuscript committee, until forty-five days have elapsed from the transmittal of the report in manuscript form. The interval is allowed for the receipt of any memorandum of dissent or reservation, together with a brief statement of his reasons, that any member may wish to express; and such memorandum of dissent or reservation shall be published with the manuscript if he so desires. Publication does not, however, imply that each member of the Board has read the manuscript, or that either members of the Board in general or the special committee have passed on its validity in every detail.

6. Publications of the National Bureau issued for informational purposes concerning the work of the Bureau and its staff, or issued to inform the public of activities of Bureau staff, and volumes issued as a result of various conferences involving the National Bureau shall contain a specific disclaimer noting that such publication has not passed through the normal review procedures required in this resolution. The Executive Committee of the Board is charged with review of all such publications from time to time to ensure that they do not take on the character of formal research reports of the National Bureau, requiring formal Board approval.

7. Unless otherwise determined by the Board or exempted by the terms of paragraph 6, a copy of this resolution shall be printed in each National Bureau publication.

(Resolution adopted October 25, 1926, as revised through September 30, 1974)

Acknowledgments

This volume, consisting of papers presented at a conference held at Williamsburg, Va., 2–3 April 1981, is a progress report on the National Bureau of Economic Research project, *The Changing Roles of Debt and Equity in Financing U.S. Capital Formation*. The National Bureau has undertaken this project—including the conference, the research described in this volume, and the publication of the volume itself—with the support of the American Council of Life Insurance.

The many people whose advice and assistance have helped to make this volume possible include National Bureau directors George T. Conklin, Jr., Robert C. Holland, and Eli Shapiro; National Bureau research associates David F. Bradford, Robert J. Shiller, and Lawrence H. Summers; National Bureau staff members Mark Fitz-Patrick, Kirsten Foss, Lawrence McFaddin, Cynthia Nelson, and Annie Spillane; J. Robert Ferrari of the Prudential Insurance Company; Francis H. Schott of the Equitable Life Assurance Society; and Kenneth M. Wright of the American Council of Life Insurance.

The opinions expressed in this volume are those of the respective authors. They do not necessarily reflect the views of the National Bureau of Economic Research, the American Council of Life Insurance, or any other organization.
