

This PDF is a selection from a published volume from the National Bureau of Economic Research

Volume Title: American Universities in a Global Market

Volume Author/Editor: Charles T. Clotfelter, editor

Volume Publisher: University of Chicago Press

Volume ISBN: 0-226-11044-3; 978-0-226-11044-8

Volume URL: <http://www.nber.org/books/clot08-1>

Conference Date: October 2-4, 2008

Publication Date: May 2010

Chapter Title: List of contributors, indexes

Chapter Author: Charles T. Clotfelter

Chapter URL: <http://www.nber.org/chapters/c12681>

Chapter pages in book: (405 - 413)

Contributors

James D. Adams
Department of Economics
Rensselaer Polytechnic Institute
3406 Russell Sage Laboratory
Troy, NY 12180-3590

Eric Bettinger
Stanford University School of
Education
CERAS 522, 520 Galvez Mall
Stanford, CA 94305

Grant C. Black
School of Business and Economics
Indiana University, South Bend
1700 Mishawaka Avenue
South Bend, IN 46634

Lex Borghans
Department of Economics and
Research Centre for Education and
the Labour Market (ROA)
Maastricht University
P.O. Box 616
6200 MD Maastricht, The Netherlands

John Bound
Department of Economics
University of Michigan
Ann Arbor, MI 48109-1220

Charles T. Clotfelter
Sanford School of Public Policy
Box 90245
Duke University
Durham, NC 27708

Frank Cörvers
Research Centre for Education and the
Labour Market (ROA)
Maastricht University
P.O. Box 616
6200 MD Maastricht, The Netherlands

Richard B. Freeman
National Bureau of Economic
Research
1050 Massachusetts Avenue
Cambridge, MA 02138

Devesh Kapur
University of Pennsylvania
Centre for Advanced Study of India
3600 Market Street, Suite 560
Philadelphia, PA 19104-2653

E. Han Kim
Stephen M. Ross School of Business
University of Michigan
701 Tappan Street
Ann Arbor, MI 48109-1234

Sunwoong Kim
Department of Economics
College of Letters and Science
University of Wisconsin, Milwaukee
P.O. Box 413
Milwaukee, WI 53201-0413

Haizheng Li
School of Economics
Georgia Institute of Technology
Atlanta, GA 30332-0615

Ofer Malamud
Harris School of Public Policy Studies
University of Chicago
1155 E. 60th Street, Suite 172
Chicago, IL 60637

Paula E. Stephan
Department of Economics
Andrew Young School of Policy
Studies
Georgia State University
Box 3992
Atlanta, GA 30302-3992

Sarah Turner
Department of Economics
University of Virginia
2015 Ivy Road, Room 312
P.O. Box 400182
Charlottesville, VA 22904-4182

- Netherlands: case study of Americanization of higher education in, 244–50; decline of home languages, in economic journals, 256–58; languages of doctoral dissertations in, 253, 254f
- Nobel Prizes, US resident winners of, 38, 39t
- Overseas degree programs, 16–17, 163–65; anecdotal evidence for, 173–78; data on, 179–80; data on host country characteristics and, 184–85; data on universities and, 180–84; economic motives for, 168–71; nonpecuniary factors and, 171–73; regression results for likelihood of having, 188–92; regression results for location choice for, 192–96; regression results for tuition discounts and, 196–99; summary statistics on, 185–88
- Physical sciences, doctorates in, 73, 74
- Postdoctoral scholars, 140–42
- Relative wages, major choices and, 80–82
- Research and Development (R&D), 34–35; growth of, 52–56; importance of language for, 250–58; post–World War II spending on, 38–40, 40f; regression findings for, 56–64. *See also* Laboratories
- Science, growth of doctorates in, 378–79
- Science, technology, engineering, and math (STEM) fields, 10–11; changing patterns for women and minorities and, 93–95; gender and, 74, 75f; introduction to, 69–72; major choices and, 76–80; race and, 74, 75f; role of relative wages and, 80–82
- Science, technology, engineering, and math (STEM) pipeline, 72–80; STEM major choices and, 72–80
- Scientific output, since 1980s, 42–46, 43f, 44f, 45f
- Scientific research, US share of, 33–34
- Scottish Credit and Qualification Framework (SCQF), 214
- Sorbonne Declaration, 221
- South Korea, 19; brain drain (1953–1970), 340–43; brain gain (1970–1997), 343–54; government education programs in, 360–64; history of higher education in, 339–40; importance of, in US higher education, 337–39; internationalization of higher education and, 354–66; introduction to higher education in, 335–37; reform initiatives by universities in, 356–60; research output of, 364–66; universities in, 22–23
- STEM fields. *See* Science, technology, engineering, and math (STEM) fields
- Teams, research, importance of, 130–32
- Undergraduate education: effects of expansion of foreign doctorate students on, 119–26; for foreign students, 113–19
- United States: impact of global expansion of higher education for, 373–74, 399–401; organization of higher education in, 34; postsecondary programs in, 18–19; post-war demand for higher education in, 40–42, 41f; share of scientific research of, 3–34
- Universities: data on, and overseas programs, 180–84; documenting American preeminence of, 2–6; as firms in global competition, 13–17; for-profit corporations vs., 165–68; governance of, 166; growth of, 389–93; production of, 13–14; world ranking of, 5t. *See also* American universities
- Visa status, trends in production of PhDs and, 137–42
- Wages, relative, major choices and, 80–82
