

This PDF is a selection from an out-of-print volume from the National Bureau of Economic Research

Volume Title: The Quality of Consumer Instalment Credit

Volume Author/Editor: Moore, Geoffrey H. and Philip A Klein

Volume Publisher: UMI

Volume ISBN: 0-870-14484-7

Volume URL: <http://www.nber.org/books/moor67-1>

Publication Date: 1967

Chapter Title: Appendix E: Income, Employment, and Delinquency Rates by Region, 1948-65

Chapter Author: Geoffrey H. Moore, Philip A Klein

Chapter URL: <http://www.nber.org/chapters/c1468>

Chapter pages in book: (p. 207 - 215)

Appendix E: Income, Employment, and Delinquency Rates by Region, 1948-65

Personal income data are from Department of Commerce, *Survey of Current Business*, April 1966, p. 10. Nonagricultural employment data are from Bureau of Labor Statistics, *Employment and Earnings Statistics for States and Areas*, Bulletin 1307-2, p. xx, and Bulletin 1307-3, p. xxii; *Employment and Earnings and Monthly Report on the Labor Force*, August 1966, p. 31. Delinquency rates are from American Bankers Association, *Delinquency Survey*. The number of loans delinquent thirty days and over is taken as a percentage of the number of accounts outstanding.

See Table B-1 for the list of states included in each region. The regions correspond to those used in the ABA delinquency reports. Beginning in 1955, the ABA reports classify Iowa, Missouri, Kansas, and Nebraska in a separate West Central region; for comparability with earlier data we include them in the West North Central region. We classify Michigan and Wisconsin in the East North Central region, although in the ABA reports the northern parts of these states are West North Central.

The national totals for employment differ slightly from the sums of the regional data. Alaska and Hawaii are included beginning in 1960; for computation of percentage change, 1959-60, the 1960 totals, excluding Alaska and Hawaii, are \$396,605,000 for personal income and 53,958,000 for employment. The national average delinquency rates are unweighted averages for nine regions, 1948-54, and for ten regions, 1955-64 (West North Central is divided into two sections); these series end in 1964 because the ABA discontinued publication of regional data.
