# NATIONAL BUREAU OF ECONOMIC RESEARCH

1964

## OFFICERS

Albert J. Hettinger, Jr., *Chairman*  
Arthur F. Burns, *President*  
Frank W. Fetter, *Vice-President*  
Donald B. Woodward, *Treasurer*  
Solomon Fabricant, *Director of Research*  
Geoffrey H. Moore, *Associate Director of Research*  
Hal B. Lary, *Associate Director of Research*  
William J. Carson, *Executive Director*

## DIRECTORS AT LARGE

Robert B. Anderson, *New York City*  
Wallace J. Campbell, *Foundation for Cooperative Housing*  
Erwin D. Canham, *Christian Science Monitor*  
Solomon Fabricant, *New York University*  
Marion B. Folsom, *Eastman Kodak Company*  
Crawford H. Greenewalt, *E. I. du Pont de Nemours & Company*  
Gabriel Hauge, *Manufacturers Hanover Trust Company*  
A. J. Hayes, *International Association of Machinists*  
Albert J. Hettinger, Jr., *Lazard Frères and Company*  
Nicholas Kelley, *Kelley Drye Newhall Maginnes & Warren*  
H. W. Laidler, *League for Industrial Democracy*  
Charles G. Mortimer, *General Foods Corporation*  
George B. Roberts, *Larchmont, New York*  
Harry Scherman, *Book-of-the-Month Club*  
Boris Shishkin, *American Federation of Labor and Congress of Industrial Organizations*  
George Soule, *South Kent, Connecticut*  
Joseph H. Willits, *Langhorne, Pennsylvania*  
Donald B. Woodward, *A. W. Jones and Company*

## DIRECTORS BY UNIVERSITY APPOINTMENT

V. W. Bladen, *Toronto*  
Francis M. Boddy, *Minnesota*  
Arthur F. Burns, *Columbia*  
Lester V. Chandler, *Princeton*  
Melvin G. de Chazeau, *Cornell*  
Frank W. Fetter, *Northwestern*  
R. A. Gordon, *California*  
Harold M. Groves, *Wisconsin*  
Gottfried Haberler, *Harvard*  
Maurice W. Lee, *North Carolina*  
Lloyd G. Reynolds, *Yale*  
Paul A. Samuelson, *Massachusetts Institute of Technology*  
Theodore W. Schultz, *Chicago*  
Willis J. Winn, *Pennsylvania*

## DIRECTORS BY APPOINTMENT OF OTHER ORGANIZATIONS

Percival F. Brundage, *American Institute of Certified Public Accountants*  
Nathaniel Goldfinger, *American Federation of Labor and Congress of Industrial Organizations*  
Harold C. Halcrow, *American Farm Economic Association*  
Murray Shields, *American Management Association*  
Willard L. Thorp, *American Economic Association*  
W. Allen Wallis, *American Statistical Association*  
Harold F. Williamson, *Economic History Association*  
Theodore O. Yntema, *Committee for Economic Development*

## DIRECTORS EMERITI

Shepard Morgan, *Norfolk, Connecticut*  
N. I. Stone, *New York City*  
Jacob Viner, *Princeton, New Jersey*

**RELATION OF THE DIRECTORS  
TO THE WORK AND PUBLICATIONS  
OF THE NATIONAL BUREAU OF ECONOMIC RESEARCH**

1. The object of the National Bureau of Economic Research is to ascertain and to present to the public important economic facts and their interpretation in a scientific and impartial manner. The Board of Directors is charged with the responsibility of ensuring that the work of the National Bureau is carried on in strict conformity with this object.

2. To this end the Board of Directors shall appoint one or more Directors of Research.

3. The Director or Directors of Research shall submit to the members of the Board, or to its Executive Committee, for their formal adoption, all specific proposals concerning researches to be instituted.

4. No report shall be published until the Director or Directors of Research shall have submitted to the Board a summary drawing attention to the character of the data and their utilization in the report, the nature and treatment of the problems involved, the main conclusions, and such other information as in their opinion would serve to determine the suitability of the report for publication in accordance with the principles of the National Bureau.

5. A copy of any manuscript proposed for publication shall also be submitted to each member of the Board. For each manuscript to be so submitted a special committee shall be appointed by the President, or at his designation by the Executive Director, consisting of three Directors selected as nearly as may be one from each general division of the Board. The names of the special manuscript committee shall be stated to each Director when the summary and report described in paragraph (4) are sent to him. It shall be the duty of each member of the committee to read the manuscript. If each member of the special committee signifies his approval within thirty days, the manuscript may be published. If each member of the special committee has not signified his approval within thirty days of the transmittal of the report and manuscript, the Director of Research shall then notify each member of the Board, requesting approval or disapproval of publication, and thirty additional days shall be granted for this purpose. The manuscript shall then not be published unless at least a majority of the entire Board and a two-thirds majority of those members of the Board who shall have voted on the proposal within the time fixed for the receipt of votes on the publication proposed shall have approved.

6. No manuscript may be published, though approved by each member of the special committee, until forty-five days have elapsed from the transmittal of the summary and report. The interval is allowed for the receipt of any memorandum of dissent or reservation, together with a brief statement of his reasons, that any member may wish to express; and such memorandum of dissent or reservation shall be published with the manuscript if he so desires. Publication does not, however, imply that each member of the Board has read the manuscript, or that either members of the Board in general, or of the special committee, have passed upon its validity in every detail.

7. A copy of this resolution shall, unless otherwise determined by the Board, be printed in each copy of every National Bureau book.

*(Resolution adopted October 25, 1926,  
as revised February 6, 1933, and February 24, 1941)*

## Acknowledgments

---

This paper is the first publication to appear as part of the National Bureau's study of productivity in the service industries. This study, which was begun in August 1963 with the assistance of a grant from the Ford Foundation, is aimed at determining the facts concerning output, input, and productivity in the service industries, analyzing the factors responsible for productivity change, and identifying the obstacles to greater efficiency in this important and growing sector of the economy.

My greatest obligation is to Solomon Fabricant for his generous guidance and helpful criticisms. I am grateful to Erwin D. Canham, R. A. Gordon, and George Soule of the National Bureau's Board of Directors for their review of the manuscript. Professor Gordon also made many useful comments on an early draft of this paper. I have also benefited from suggestions made by Robert Hartman, Hal B. Lary, H. Gregg Lewis, and Robert E. Lipsey. My research colleagues on the service industry project, Harry Gilman, Ernest Kurnow, David Schwartzman, and Jean Wilburn, have all contributed directly or indirectly to this paper. The cooperation of the Office of Business Economics, U. S. Department of Commerce, is also gratefully acknowledged.

Thanks are due to James F. McRee, Jr., who prepared the paper for press; to Joyce Rose for secretarial and editorial assistance; to H. Irving Forman, who drew the charts; and to Irving Leveson for research assistance.
