Leo Wolman

RELATION OF THE DIRECTORS
TO THE WORK AND PUBLICATIONS
OF THE NATIONAL BUREAU OF ECONOMIC RESEARCH

1. The object of the National Bureau of Economic Research is to ascertain and to present to the public important economic facts and their interpretation in a scientific and impartial manner. The Board of Directors is charged with the responsibility of ensuring that the work of the National Bureau is carried on in strict conformity with this object.

2. To this end the Board of Directors shall appoint one or more Directors of Research.

3. The Director or Directors of Research shall submit to the members of the Board, or to its Executive Committee, for their formal adoption, all specific proposals concerning researches to be instituted.

4. No report shall be published until the Director or Directors of Research shall have submitted to the Board a summary drawing attention to the character of the data and their utilization in the report, the nature and treatment of the problems involved, the main conclusions and such other information as in their opinion would serve to determine the suitability of the report for publication in accordance with the principles of the National Bureau.

5. A copy of any manuscript proposed for publication shall also be submitted to each member of the Board. For each manuscript to be so submitted a special committee shall be appointed by the President, or at his designation by the Executive Director, consisting of three Directors selected as nearly as may be one from each general division of the Board. The names of the special manuscript committee shall be stated to each Director when the summary and report described in paragraph (4) are sent to him. It shall be the duty of each member of the committee to read the manuscript. If each member of the special committee signifies his approval within thirty days, the manuscript may be published. If each member of the special committee has not signified his approval within thirty days of the transmittal of the report and manuscript, the Director of Research shall then notify each member of the Board, requesting approval or disapproval of publication, and thirty additional days shall be granted for this purpose. The manuscript shall then not be published unless at least a majority of the entire Board and a two-thirds majority of those members of the Board who shall have voted on the proposal within the time fixed for the receipt of votes on the publication proposed shall have approved.

6. No manuscript may be published, though approved by each member of the special committee, until forty-five days have elapsed from the transmittal of the summary and report. The interval is allowed for the receipt of any memorandum of dissent or reservation, together with a brief statement of his reasons, that any member may wish to express; and such memorandum of dissent or reservation shall be published with the manuscript if he so desires. Publication does not, however, imply that each member of the Board has read the manuscript, or that either members of the Board in general, or of the special committee, have passed upon its validity in every detail.

7. A copy of this resolution shall, unless otherwise determined by the Board, be printed in each copy of every National Bureau book.

*(Resolution adopted October 25, 1926
and revised February 6, 1933 and February 24, 1941)*

COMMITTEE ON RESEARCH IN FINANCE

In the planning and conduct of its studies in finance the National Bureau benefits from the advice and guidance of its Committee on Research in Finance. The members of the Committee are:

- RALPH A. YOUNG, Chairman — *Director, Division of Research and Statistics, Board of Governors of the Federal Reserve System*
- RAYMOND J. SAULNIER, Secretary — *Barnard College, Columbia University; Director, Financial Research Program, National Bureau of Economic Research*
- BENJAMIN HAGGOTT BECKHART — *Columbia University; Economic Consultant, The Chase National Bank*
- ARTHUR F. BURNS — *Columbia University; Director of Research, National Bureau of Economic Research*
- WILLIAM J. CARSON — *University of Pennsylvania; Executive Director, National Bureau of Economic Research*
- GEORGE W. COLEMAN — *Economist, Mercantile Trust Company*
- EDISON H. CRAMER — *Chief, Division of Research and Statistics, Federal Deposit Insurance Corporation*
- ERNEST M. FISHER — *Columbia University*
- E. A. GOLDENWEISER
- F. CYRIL JAMES — *Principal and Vice-Chancellor, McGill University*
- WALTER LICHTENSTEIN
- WALTER MITCHELL, JR. — *Managing Director, Controllers Institute of America*
- SHEPARD MORGAN
- WILLIAM I. MYERS — *Dean, College of Agriculture, Cornell University*
- JAMES J. O'LEARY — *Director of Investment Research, Life Insurance Association of America*
- GEORGE BASSETT ROBERTS — *Vice-President, The National City Bank; Treasurer, National Bureau of Economic Research*
- HAROLD V. ROELSE — *Vice-President, Federal Reserve Bank of New York*
- CASIMIR A. SIENKIEWICZ — *President, Central-Penn National Bank of Philadelphia*
- WOODLIEF THOMAS — *Economic Adviser, Board of Governors of the Federal Reserve System*
- DONALD S. THOMPSON — *Vice-President, Federal Reserve Bank of Cleveland*
- JOHN H. WILLIAMS — *Graduate School of Public Administration, Harvard University; Economic Adviser, Federal Reserve Bank of New York*
- JOHN H. WILLS — *Second Vice-President, Northern Trust Company*
- LEO WOLMAN — *Columbia University; Research Staff, National Bureau of Economic Research*
- DONALD B. WOODWARD — *Second Vice-President, Mutual Life Insurance Company of New York*

ACKNOWLEDGMENTS

The study on which this paper is based was conducted under generous grants from the Life Insurance Association of America; the American Life Convention; the Association of Reserve City Bankers; J. Reed Morss, President, Boston Five Cents Savings Bank; the Savings Banks Trust Company of New York; and the Trust Investment Study Committee of the New York State Bankers Association. It was supported, as well, by general funds of the National Bureau of Economic Research. The underlying tabulations, which will be presented in a complete report, were prepared on equipment provided by the International Business Machines Corporation. The New York State Banking Department, the American Bankers Association, and the Life Insurance Investment Research Committee cooperated actively in the work of the project.

The data of the study were largely compiled by the Corporate Bond Project, a Work Projects Administration study sponsored by the Federal Deposit Insurance Corporation, supervised by the National Bureau of Economic Research, and carried on with the cooperation of several public agencies and private investment services.

In the preparation of this paper and throughout the investigation, I have benefited greatly from the advice and encouragement of my fellow economists, both inside and outside the National Bureau. In particular, I wish to thank Donald R. Belcher, Arthur F. Burns, William J. Carson, Lewis N. Dembitz, Solomon Fabricant, Raymond W. Goldsmith, Geoffrey H. Moore, George B. Roberts, Raymond J. Saulnier, Elizabeth T. Simpson, Melville J. Ulmer, Leo Wolman, and members of the National Bureau's Technical Committee on Corporate Bond Research. Acknowledgment is also due to Martha S. Jones and Georgette M. Welscher for aid in the statistical computations, to Ruth W. Harris for the preparation of the charts, and to Mary Phelps for editorial assistance.

W. BRADDOCK HICKMAN
