RELATION OF THE DIRECTORS TO THE WORK AND PUBLICATIONS
OF THE NATIONAL BUREAU OF ECONOMIC RESEARCH

1. The object of the National Bureau of Economic Research is to ascertain and to present to the public important economic facts and their interpretation in a scientific and impartial manner. The Board of Directors is charged with the responsibility of ensuring that the work of the National Bureau is carried on in strict conformity with this object.

2. The President of the National Bureau shall submit to the Board of Directors, or to its Executive Committee, for their formal adoption all specific proposals for research to be instituted.

3. No research report shall be published until the President shall have submitted to each member of the Board the manuscript proposed for publication, and such information as will, in his opinion and in the opinion of the author, serve to determine the suitability of the report for publication in accordance with the principles of the National Bureau. Each manuscript shall contain a summary drawing attention to the nature and treatment of the problem studied, the character of the data and their utilization in the report, and the main conclusions reached.

4. For each manuscript so submitted, a special committee of the Board shall be appointed by majority agreement of the President and Vice Presidents (or by the Executive Committee in case of inability to decide on the part of the President and Vice Presidents), consisting of three directors selected as nearly as may be one from each general division of the Board. The names of the special manuscript committee shall be stated to each Director when the manuscript is submitted to him. It shall be the duty of each member of the special manuscript committee to read the manuscript. If each member of the manuscript committee signifies his approval within thirty days of the transmittal of the manuscript, the report may be published. If at the end of that period any member of the manuscript committee withholds his approval, the President shall then notify each member of the Board, requesting approval or disapproval of publication, and thirty days additional shall be granted for this purpose. The manuscript shall then not be published unless at least a majority of the entire Board who shall have voted on the proposal within the time fixed for the receipt of votes shall have approved.

5. No manuscript may be published, though approved by each member of the special manuscript committee, until forty-five days have elapsed from the transmittal of the report in manuscript form. The interval is allowed for the receipt of any memorandum of dissent or reservation, together with a brief statement of his reasons, that any member may wish to express; and such memorandum of dissent or reservation shall be published with the manuscript if he so desires. Publication does not, however, imply that each member of the Board has read the manuscript, or that either members of the Board in general or the special committee have passed on its validity in every detail.

6. Publications of the National Bureau issued for informational purposes concerning the work of the Bureau and its staff, or issued to inform the public of activities of Bureau staff, and volumes issued as a result of various conferences involving the National Bureau shall contain a specific disclaimer noting that such publication has not passed through the normal review procedures required in this resolution. The Executive Committee of the Board is charged with review of all such publications from time to time to ensure that they do not take on the character of formal research reports of the National Bureau, requiring formal Board approval.

7. Unless otherwise determined by the Board or exempted by the terms of paragraph 6, a copy of this resolution shall be printed in each National Bureau publication.

*(Resolution adopted October 25, 1926, and revised February 6, 1933,
February 24, 1941, and April 20, 1968)*

ADVISORY COMMITTEE ON THE INTEREST RATES STUDY

In the planning and review of its studies of interest rates, the National Bureau has benefited from the advice and guidance of this committee. The committee's concurrence with the views expressed in this report, however, is not to be assumed. The members of the committee are:

W. Braddock Hickman (chairman), Federal Reserve Bank of Cleveland
Julian D. Anthony, Hartford Life Insurance Company
Daniel H. Brill, Division of Research and Statistics, Board of Governors
of the Federal Reserve System
Lester V. Chandler, Princeton University
W. A. Clarke,* W. A. Clarke Mortgage Company
George T. Conklin, Jr., The Guardian Life Insurance Company of America
Milton Friedman, The University of Chicago
Raymond W. Goldsmith, Yale University
Sidney Homer, Salomon Brothers & Hutzler
Norris O. Johnson, formerly of First National City Bank of New York
Robert G. Link, Federal Reserve Bank of New York
Roger F. Murray, Teachers Insurance and Annuity Association
James J. O'Leary, U.S. Trust Company of New York
Roy L. Reiersen, Bankers Trust Company
Eli Shapiro, Harvard University
Henry C. Wallich, Yale University
Kenneth M. Wright, Life Insurance Association of America
C. Richard Youngdahl, Aubrey G. Lanston & Co., Inc.

* W. A. Clarke was a member of the Committee until his death on February 8, 1965.

T A B L E S

1. Measures of the Relative Importance of the Seasonal Components of the Four Series of Short-Term Securities, 1948-65	30
2. Sample Correlation Coefficients Between the Seasonal Factors for Treasury Bill Rates and Those for Other Short-Term Rates for Selected Years	36
3. Suggested Periods for Adjusting Short-Term Series	43
4. Measures of the Relative Importance of the Seasonal Components in the Variation of Yields on Long-Term Bonds, 1948-65	44
5. Variance of Seasonal Factors of a Given Year for Selected Years for All Securities Considered in this Study	47
6. Coefficients of Correlation Among the Seasonal Factors in 1957 for All the Long-Term Securities Considered	48
7. Coefficients of Correlation Among the Seasonal Factors in 1953 for All the Long-Term Securities Considered	50
8. Coefficients of Correlation Among the Seasonal Factors in 1965 for All the Long-Term Securities Considered	51
9. Average Seasonal Factors for Yields on Long-Term Securities for Selected Years	52
10. Suggested Periods for Accepting Seasonally Adjusted Interest Rate Series	64
11. Summary Statistics for Kuznets' Amplitude-Ratio Method Regressions, 1948-65	69
12. Seasonal Factors in Treasury Bill Rates for July and December Computed with the X-11 on the Original and Seasonally Adjusted Series, and with the Kuznets' Method	70
13. Seasonal Factors for Selected Years Computed for Both the Original and the Seasonally Adjusted Treasury Bill Rate Series	72
14. Costs and Returns of Arbitrage for Twenty-Year Securities Between Seasonal Peaks and Troughs Under Certain Hypothetical Conditions	79

15. The Differential in the Trend-Cycle Values Between Nine- to Twelve-Month and 91-Day Treasury Securities for June Through November, 1948-65	86
16. The Regression of Seasonal Factors of Treasury Bill Rates on the Seasonal Factors of Money Supply, 1948-65	94
17. The Regression of Seasonal Factors of Treasury Bill Rates on the Seasonal Factors of Money Supply and Total Bills Outstanding, 1948-65	95
18. Multiple Regression Statistics for the Pooled Data of the Seasonal Factors of Treasury Bill Rates on Those of the Money Supply and the Total Number of Bills Outstanding, All Months, 1948-65	97
19. Multiple Regression Statistics for the Variance of the Seasonal Factors of Treasury Bill Rates on the Variances of the Seasonal Factors of Money Supply and Total Bills Outstanding, 1948-65	98
20. Multiple Regression Statistics for the Pooled Data of the Seasonal Factors for Money Supply on Those of Treasury Bill Rates and Total Bills Outstanding, All Months, 1948-65	99

CHARTS

1. Seasonal Factors on Short-Term Securities for Selected Years	4
2. Seasonal Factors for Yield on Call Money, Macaulay's Series, 1915	5
3. Seasonal Factors for Bankers' Acceptance Rates and Yields on Municipal Bonds, Highest Rating, 1958	10
4. Variances of Seasonal Factors of Yields on U.S. Government Securities, 1948-65	11
5. Seasonal Factors for Yields on Selected Long-Term Securities, 1954	12
6. Seasonal Factors for Yields on Corporate Bonds and Industrial Bonds, Highest Rating, 1952 and 1957	13
7. SI Ratios and Seasonal Factors for Treasury Bill Rates, 1948-65	33
8. Variation of Monthly Factor Curves and SI Ratios of Treasury Bill Rates Through Years, 1948-65	35
9. SI Ratios and Seasonal Factors for Bankers' Acceptance Rates, 1948-65	37
10. SI Ratios and Seasonal Factors for Commercial Paper Rates, 1948-65	39
11. SI Ratios and Seasonal Factors for Yields on Nine- to Twelve-Month U.S. Government Securities, 1948-65	40
12. Seasonal Factors for Short-Term Interest Series, 1948-65	42
13. SI Ratios and Seasonal Factors for Yields on Long-Term U.S. Bonds, 1948-65	53
14. SI Ratios and Seasonal Factors for Yields on U.S. Government Three- to Five-Year Securities, 1948-65	55
15. SI Ratios and Seasonal Factors for Yields on Municipal Bonds, Highest Rating, 1948-65	57
16. SI Ratios and Seasonal Factors for Yields on Corporate Bonds, Lowest Rating, 1948-65	59

17. SI Ratios and Seasonal Factors for Yields on Corporate Bonds, Lowest Rating, One Month at a Time, 1948-65	60
18. Seasonal Factors for Long-Term Interest Rates, 1948-65	62
19. Original and Seasonally Adjusted Series of Treasury Bill Rates, 1948-65	66
20. Unmodified SI Ratios, Seasonal Factors, Implicit Seasonal Factors, and Kuznets' Factors for Treasury Bill Rates	73
21. SI Ratios, Seasonal Factors, Kuznets' Factors, and Implicit Factors for Treasury Bill Rates; Selected Years	74
22. Seasonal Factors for Treasury Bill Rates, Money Supply, and Total Bills Outstanding, 1948-65	90

ACKNOWLEDGEMENTS

The late William H. Brown, Jr., left a partial manuscript on the present subject that contributed to this study. In addition I discussed various aspects of the study with Geoffrey Moore, Phillip Cagan, Jack Guttentag, Anna Schwartz, Otto Eckstein, Walter D. Fisher and Walter E. Hoadley, all of whom read at least one draft of the paper. Although I acted on many of their comments, I assume full responsibility for the results.

Jae Won Lee assisted me from the beginning both in the considerable data handling involved, as well as in the development of the ideas.

H. Irving Forman drew the charts, and Gnomi Schrift Gouldin both edited the manuscript and handled the production arrangements.

STANLEY DILLER
