About the Author

Robert Eisner is William R. Kenan Professor of Economics at Northwestern University and a Senior Research Associate of the National Bureau of Economic Research. He is an Associate Editor of *The Review of Economics and Statistics*, a Fellow of the Econometric Society and of the American Academy of Arts and Sciences, on the Board of Directors of the Social Science Research Council, and a member of the Conference Board Economic Forum. He has most recently been a Vice President of the American Economic Association.

Professor Eisner is the author of several monographs and numerous articles in professional journals on the subject of investment.
