This PDF is a selection from an out-of-print volume from the National Bureau of Economic Research

Volume Title: Substituting a Value Added Tax for the Corporate Income Tax: First-Round Analysis

Volume Author/Editor: Stephen P. Dresch, An-loh Lin, and D. K. Stout

Volume Publisher: NBER

Volume ISBN: 0-884-10474-5

Volume URL: http://www.nber.org/books/dres77-1

Publication Date: 1977

Chapter Title: Index

Chapter Author: Stephen P. Dresch, An-loh Lin, D. K. Stout

Chapter URL: http://www.nber.org/chapters/c4573

Chapter pages in book: (p. 199 - 216)

About the Authors

Stephen P. Dresch is president of the Institute for Demographic and Economic Studies and a research associate of the National Bureau of Economic Research and of Yale University's Institution for Social and Policy Studies. He received his baccalaureate degree from Miami University (Ohio) in 1963 and his Ph.D. in economics from Yale University in 1970. Mr. Dresch has undertaken studies for and/or served as advisor to the Ford Foundation, the Alfred P. Sloan Foundation, the United Nations Department of Economic and Social Affairs, the U.S. Departments of Health Education and Welfare, of Commerce, and of the Interior, the U.S. Office of Education, the Comptroller General of the United States, the National Institute of Education, and other agencies on such subjects as disarmament, tax policy and higher education. A frequent participant in conferences and symposia devoted to issues in education, public finance and related fields, Mr. Dresch is the author of many publications and papers dealing with these topics.

An-loh Lin is an economist with the Federal Reserve Bank of New York. He is a graduate of the University of Rochester, Ph.D., 1972. A former Research Associate with the National Bureau of Economic Research, he participated in numerous research projects and publications for NBER and is the author of several publications on economic research.

David K. Stout is a graduate of Sydney University and Magdalen College, Oxford. He was an Official Fellow in Economics at University

College, Oxford, from 1959 to 1976 when he was appointed the Economic Director of the Office of the United Kingdom National Economic Development Council (the tri-partite planning and discussion body set up in 1962). Mr. Stout is the author of numerous publications, many of them on the subject of the Value-Added Tax, and a frequent consultant to governmental commissions on taxation policy.
