

This PDF is a selection from an out-of-print volume from the National Bureau of Economic Research

Volume Title: The Behavior of Interest Rates: A Progress Report

Volume Author/Editor: Joseph W. Conard

Volume Publisher: UMI

Volume ISBN: 0-87014-081-7

Volume URL: <http://www.nber.org/books/cona66-1>

Publication Date: 1966

Chapter Title: Index

Chapter Author: Joseph W. Conard

Chapter URL: <http://www.nber.org/chapters/c5782>

Chapter pages in book: (p. 139 - 145)

Index

- Andersen, Leonall, 50, 53
- "b-coefficients," 24*n*
interest rate amplitudes, 62
- Balance of payments, 15, 52
- Bank loans:
amplitude, 61
bank investments and, 67
cyclical movements of interest rates, 58, 67
- Bankers' acceptances:
amplitudes, 61
cyclical movements of interest rates, 58
seasonal movements of interest rates, 42-43, 48, 54-55
- Beck, Morris, 12, 133
- Bill rates, *see* Treasury bills
- Bonds, *see* Corporate securities
- Borrower's income, effect on interest rate, 31-32
- Brown, William H., Jr., 14, 41, 42, 53, 89
- Burns, Arthur F., 59
- Business activity, effect of change in interest rates on, 7, 10
- Business cycles:
amplitude, 61
cyclical movements of interest rates and, 56-62, 69
effect on risk premiums, 83-84
monetary cycles and, 66
money supply and, 64-66
- Cagan, Phillip, 14, 55-56, 59, 61, 64, 65-68, 135
- Call money:
cyclical movements of interest rates, 58-59
amplitude of, 60
- Capital gains:
influence on yield spread, 123-125
low coupon bonds for, 111
- Capital market, 117-118
direct placements and, 12-13
effect of yield spread of corporates, 16
mortgage market, 9-12
- Capital market (*cont.*)
perfection of, 117-118
primary market, 116-117
- Cohan, Avery B., 13, 25, 33, 34, 38, 95, 134
- Commercial paper:
association between monetary growth rate and, 65-66
cyclical movements of interest rates, 58-59
amplitude of, 60, 61
seasonal movements of interest rates, 43-46, 53-54
- Conard, Joseph W., 1, 4*n*, 15-16, 71, 79, 84-85, 88, 94, 96
- Consumer credit, extensions of current research, 136
- Consumption spending, 5
- Corporate securities:
average risk premiums, 1900-54 (*chart*), 79
direct placements, 12-13, 33-39
Durand's basic yield data on, 70, 73, 76, 78-81, 85, 88, 92, 94, 97, 100
mortgage debt compared with, 9-10
public offerings, 12
seasonal movements of interest rates, 46
Aaa long-terms, 48
adjustment factors, Treasury bills and, 1954-60 (*chart*), 47
yield spread between new and seasoned, 15-16, 106-130
capital gains on low coupon, 111
data for, 106-109
direct implications of regressions, 110-113
effect of call price, 111, 120-130
elements of heterogeneity, 118
high coupon and low coupon issues, 110-111, 126-127
Homer Series of Aa utilities, 106-110, 113, 114, 115, 118-121
hypotheses for explanation of, 113-118

- Corporate securities, yield spread between new and seasoned (*cont.*)
 influence of capital gains, 123-125
 influence of coupon and call, 111, 120-130
 lag in movement of seasoned yields, 115-116
 Moody's series of Aa's, 106-107, 111, 113, 114, 116, 118-119
 perfection of capital market, 117-118
 primary market, 116-117
 regression analysis, 106
 spurious spread, 110-111
 variables affecting, 106, 111-112
- Coupons, influence on yield, 111, 120-130
- Credit, consumer, studies in, 136
- Cyclical movement of interest rates, 14, 56-70
 amplitudes of, 14, 41-42, 47, 56, 59-62
 average amplitude per month of specific cycles of interest rates, 60
 definition, 59
 ratio of interest rate amplitudes in specific cycles of 1950's and 1920's, 61
 regression analysis, 62
 causes of behavior, 62-68
 bank loans and investments, 67
 money supply, 64-67
 compared with business cycle, 56-62
 description of, 56-62
 governments, 68-70
 rate of change, 56
 reference-cycle patterns of commercial paper rate and monetary growth rate, 1904-14, 1919-38, 1945-61 (*chart*), 65
 timing, 56-59
 clustering to turning points among interest rate series, 59
 long-term securities, 56-58
 short-term securities, 58-59
- Dealers:
 expectations of future rates, 114-115, 120
 reaction to expectation hypotheses, 94
 sweetening yield on new issues, 113, 114-115
- Debt, mortgage, outstanding, 9-11
 annual changes, 1954-63 (*chart*), 11
 long-term, 1948-62, 10
- Demand and supply:
 "investment demand," 4
 loanable funds, 4-5
 hypothetical curves (*chart*), 5
- Diller, Stanley, 14
- Direct placements, 12-13, 33-39
 compared to public offerings, 12
 data for study, 34
 definition, 33
 economic contribution, 33
 exclusions, 33
 growth of, 33
 industrials, 36-37
 initial objectives, 12
 new long-term security issues, 1950-62 (*chart*), 13
 public utility issues, 37
 scope and procedure, 33-34
 time series of yields, 12, 38-39
 use of "quality" characteristics, 13
 yield-determining characteristics, 12, 33-39
 earning to interest ratio, 37
 influence of variables on industrials, 34-38
 size of enterprise, 37
 term to maturity, 37
 yields on industrials, 37-38
 direct placements and new public offerings, 1951-61 (*chart*), 37
 on FHA mortgages and long-term governments, 1951-61 (*chart*), 36
 yields on Class I public offerings, 1951-61 (*chart*), 38
- Durand's basic yield data on corporate securities, 70
 basic yield curves, 73, 76
 use in testing expectations hypothesis, 73, 76, 78-81, 85, 88, 92, 94, 97, 100
- Econometric analysis, 135
- Economic activity, influence of interest rates, on, 10, 138
- Expectations hypothesis:
 definition, 71
 difficulty in testing, 72
 forecasting ability, 86-90
 further research, 96-100
 Hicksian modification, 73-75, 81, 96, 100
 inertia hypotheses and, 86, 88-89
 long-term rates as average of expected short-term rates, 72

- Expectations hypothesis (*cont.*)
 Meiselman's hypothesis about formation of expectations, 72-73, 76-77, 93, 96, 99-100
 merger with liquidity preference theory, 92-94
 reaction of financial practitioners, 94
 risk premiums, 74-75, 77
 two general tests, 76-77
 unmodified version, 71
- F test, 42n, 43, 46, 48, 54
 Federal Home Loan Bank, 19
 Federal Housing Administration (FHA), 10, 31
 Federal National Mortgage Association, 10, 19, 21
 Federal Reserve Bank of Chicago, 19
 Federal Reserve Bank of New York, 12
 Federal Reserve Bank of St. Louis, 50
 Federal Reserve Board:
Annual Report, 53
 open-market operations, 40, 53
 Financial institutions, study of recent and historical changes, 137
 Frankena, Mark, 16, 111, 120, 125
 Freudenthal, Jonathan, 15, 71, 76, 79, 84-85, 88, 90, 93, 94, 96, 98-99
- Governments:
 cyclical movements, 14, 68-70
 amplitude, 14
 Federal Reserve action, 53
 holding period yields on short- and long-term governments, 89, 91
 interest rates affected by supply of, 55
 long-term:
 liquidity premiums, 79, 80-81
 seasonal movements of interest rates, 47
 yields on, 36, 89, 91
 short-term rates, 70
 liquidity premiums, 79-80
 seasonal movement of interest rates, 47
 test of expectation hypothesis, 76-77
 yield curves, 87
 Guttentag, Jack M., 12, 21, 22-30, 95, 133
- Hickman, W. Braddock, 90
 Hicks, John R., 73-75, 81, 96, 100
 Homer, Sidney, 106, 119, 120, 128, 130
 series of Aa utilities, 106-110, 111, 113, 114, 116, 118, 120, 121
- Inertia hypotheses, term structure of interest rates, 86, 88-89
 Institutional investors, effect on yield of new issues, 119
 Interest rates:
 control through monetary action, 55
 correlation between risk premiums and, 84
 cyclical behavior, 14, 56-70
 effect of changes in investment and saving curve, 7
 effect of monetary policy, 3, 55
 extensions of current research, 135, 137-138
 importance of understanding, 3-8
 seasonal behavior, 13-14, 40-55
 studies of determinants, 8, 9, 12, 14
 studies of relationships, 6, 135
 term structure, 14-15, 71-105
 theories, 4-6
 "liquidity preference," 4
 loanable funds, 4-6
 shapes of curves and forces that cause shifts, 7
 Investment Bankers Association, 13
 Investment demand, 4-6
 curve for, 5, 7
 effect of interest rates on, 4-6
- Jung, Allen S., 22
 Juster, F. Thomas, 135, 136
- Kessel, Reuben A., 14-15, 56, 68-70, 71-86, 88, 90, 93-96
 Keynes, John Maynard, 4, 6, 91-92
- Lender differentials, effect on interest rates, 22-24
 Life Insurance Association of America, 3
 Life insurance companies:
 direct placements made by, 34
 preference for long-terms, 31, 35, 94-95
 Linkage of markets:
 extensions of current research, 134, 137
 term structure of interest rates, 14-15
 yield spread of corporates, 15-16
 "Liquidity preference" theory of interest, 4, 92-94
 Liquidity premiums, 75-81
 long-term governments, 79, 80-81
 mean "forecasting errors," 80

- Liquidity premiums (*cont.*)
 short-term governments, 79-80
 turnaround costs and, 85
- Loan size, 24-25
 effect on borrower risk, 24-25
 effect on interest rates, 24-25
- Loan-value ratio, 25-27
 mortgage loans, 25-27
- Loanable funds theory of interest, 4-6
 hypothetical demand and supply
 curves, 5-8
- Location of property, effect on interest
 rates, 20-22
- Marketing forecasts:
 expectations hypothesis and, 86-90
 of future interest rates, 86-90
 future ninety-one-day bill rates, 1959-
 62 (*chart*), 88
- Maturity, term to, 27-32
- Meiselman, David, 71, 72-73, 76-77, 93,
 96, 99-100
- Mitchell, Wesley C., 59
- Monetary policy:
 for controlling interest rates, 3, 15, 55
 federal pattern of borrowing and re-
 payment, 50-55
 mortgage market and, 10
 need to study term structure, 15
- Money market, tightness of, 54, 114
- Money supply:
 business cycle and, 64-66
 effect on cyclical behavior of interest
 rates, 6, 64-67
 reference-cycle patterns of commercial
 paper rate and monetary growth
 rate, 1904-14, 1919-38, 1945-61
 (*chart*), 65
- Moody's series, 15-16
 Aa corporates yield spread, 106-109,
 111, 113, 114, 116, 118-119
 Aaa corporates, 57
 seasonal movements of interest rates,
 46, 48
- Morris, Frank E., 13
- Morrison, George R., 135
- Mortgage market, 9-12, 19-32
 collection of data, 19
 cross-section analysis, 19
 cyclical timing of rates, 32
 debt outstanding, 9-11
 annual changes, 1954-63 (*chart*), 11
 extensions of current research, 133-
 134, 135-136
 federal underwriting programs, 10, 21,
 31
- Mortgage market (*cont.*)
 long-term debt, 1948-62, 10
 regional yield differentials, 21-22
 residential mortgages, 12, 19-32
 term to maturity, 27-32
