

This PDF is a selection from an out-of-print volume from the National Bureau of Economic Research

Volume Title: National Saving and Economic Performance

Volume Author/Editor: B. Douglas Bernheim and John B. Shoven, editors

Volume Publisher: University of Chicago Press

Volume ISBN: 0-226-04404-1

Volume URL: <http://www.nber.org/books/bern91-2>

Conference Date: January 6-7, 1989

Publication Date: January 1991

Chapter Title: List of Contributors, Indices

Chapter Author: B. Douglas Bernheim, John B. Shoven

Chapter URL: <http://www.nber.org/chapters/c5997>

Chapter pages in book: (p. 377 - 386)

Contributors

Alan J. Auerbach
Department of Economics
McNeil Building, Room 160
University of Pennsylvania
3718 Locust Walk
Philadelphia, PA 19104-6297

Philippe Bacchetta
ESADE
Avda. de Pedralbes 60-62
08034 Barcelona
Spain

Robert J. Barro
Department of Economics
Littauer Center 120
Harvard University
Cambridge, MA 02138

B. Douglas Bernheim
Department of Economics
210 Fisher Hall
Princeton University
Princeton, NJ 08544-1021

David F. Bradford
Woodrow Wilson School
Princeton University
Princeton, NJ 08544-1013

Christopher D. Carroll
Federal Reserve Board of Governors
R and S Division, EA Section
28th and C Streets, NW
Washington, DC 20007

Susan M. Collins
Department of Economics
Littauer M-7
Harvard University
Cambridge, MA 02138

James Davies
Department of Economics
Social Science Centre
University of Western Ontario
London, Ontario N6A 5C2
Canada

Angus S. Deaton
Woodrow Wilson School
221 Bentheim Hall
Princeton University
Princeton, NJ 08544-1013

Rudiger Dornbusch
Department of Economics
Room E52-357
Massachusetts Institute of Technology
Cambridge, MA 02139

Martin Feldstein
President and Chief Executive Officer
National Bureau of Economic Research
1050 Massachusetts Avenue
Cambridge, MA 02138-5398

Jeffrey A. Frankel
Department of Economics
Evans Hall
University of California
Berkeley, CA 94720

Robert E. Hall
Hoover Institution
Stanford University
Stanford, CA 94305-6010

Kevin Hassett
Graduate School of Business
Uris Hall
Columbia University
New York, NY 10027

Anne O. Krueger
Department of Economics
227 Social Science Building
Duke University
Durham, NC 27706

N. Gregory Mankiw
National Bureau of Economic Research
1050 Massachusetts Avenue
Cambridge, MA 02138-5398

Maurice Obstfeld
Department of Economics
Littauer Center M-7
Harvard University
Cambridge, MA 02138

James M. Poterba
Department of Economics
Room E52-350
Massachusetts Institute of Technology
Cambridge, MA 02139

Sherwin Rosen
Department of Economics
University of Chicago
1126 East 59th Street
Chicago, IL 60637

Michael Rothschild
Office of the Divisional Dean
Social Sciences
Mail Code Q-064
University of California at San Diego

Subject Index

- Ando-Modigliani life-cycle consumption function, 52, 71–73
- Auerbach-Kotlikoff-Skinner (AKS) model, 171
- Ballard-Fullerton-Shoven-Whalley (BFSW) model, 138–41; parameters for, 141–46; sensitivity analysis in, 148–55
- Capital gains, 63–64
- Capital markets, 9–10
- Capital mobility, international, 202–3; crowding out potential of, 263–69; effect on investment and savings rate, 227–28; equalized real interest rates definition for, 235–40; Feldstein-Horioka definition of perfect, 228–35; uncovered interest parity definition of, 240–52
- CES. *See* Consumer Expenditure Surveys (CES) data
- CES-LES utility structure. *See* Constant elasticity of substitution/linear expenditure system
- Computational general equilibrium (CGE) models: applications for, 161–62; methodology for, 133–34; Pagan-Shannon approach, 135–36, 138; Shoven-Whalley versions of, 132–33
- Constant elasticity of substitution/linear expenditure system, 139, 141–46. *See also* Ballard-Fullerton-Shoven-Whalley (BFSW) model
- Constant relative risk aversion (CRRA) utility function, 164, 175, 177
- Consumer Expenditure Surveys (CES) data, 103, 105–13
- Consumption: from assets, 88–93; capital gains impact on, 63–64; correlation with corporate cash flow, 51–55, 71–72; correlation with corporate wealth, 93, 100–101; correlation with dividend taxation, 58–62, 64; correlation with realized capital gain, 63–64; determinants of, 23–24; dividend taxation impact on, 58–62, 71–72; effect of income changes on, 84–88; liquidity constraints in estimating, 329–35; using adequate theory of, 46
- Corporate veil: analysis to determine existence of, 79–84; definition and perceptions of, 49–50, 68n1; piercing of, 76, 88–93
- CRRA. *See* Constant relative risk aversion (CRRA) utility function
- CSSA. *See* Systematic sensitivity analysis
- Current account balance, 203–4
- Data estimates (tax discrimination variables), 55–57
- Data sources: for consumption behavior/income growth relationship, 337–41; for corporate veil analysis, 82, 85, 90, 93–94; for dividends and corporate veil, 57–58; for government expenditures, 299; for retirement account analysis, 105–13; for saving behavior in developing countries, 370–71

- Diamond growth model, 344–46
Driffill-Rosen (DR) model, 163–64, 169–71
- Economic growth, steady-state model, 278–80
- Factor price revision rule, 140
Feldstein-Horioka (FH) study, 201
- Government policy: effect on saving and economic growth, of, 271–78; fiscal policy of, 204–5
Growth rates for ten developing countries, 352–53
- Human capital: analysis for formation of, 171–87, 197–200; defined, 165–66; estimates of stock value of, 190–92; in steady-state growth model, 278–80; when incorporated into analysis, 166–68
- Income: distribution of, 353, 355; effect on consumption of changes in, 84–88; different concepts of, 45; growth of, 329–35
- Individual retirement accounts (IRAs): description from data of, 105; estimates of substitution for, 117–24; incentive effects of, 113–17; saving patterns for households with, 105–13
- Infinite-horizon consumer model (Ramsey model), 308–10
- Information: dependence of asset valuation on, 28; effect on IRA contribution of incomplete, 113–14; as form of human capital investment, 192n4
- Interest rates: country differentials for, 240–52; lack of correlation with growth, 347
- Investment, domestic: effect of population growth on, 278; effect of trade policy on, 203–4, 218–20, 227; relation to budget deficit, 219; relation to saving rate, 201–2
- Investment, OECD countries, 214–18
- Kotlikoff-Summers (KS) model, 163–64, 169–71, 174–75
- Life-cycle growth model, 171–87
Life-cycle model, 361–66
Life-cycle simulation, 171
Linear expenditure system, 129
- Market value: data evaluation for time series of, 29–34; as measure of saving, 22–24, 27–29, 45–46
- Monte Carlo simulation, 159–60
- National income and product account (NIPA), 16–17; values, 26–27, 29–36, 39, 47
Net national product, 16–17
Net worth as measure of saving, 24–26
NIPA. *See* National income and product account
- Pagan-Shannon model, 132–38
Perfect-substitution theory, 129–30
Population growth, steady-state growth model, 278–81
- Ramsey model. *See* Infinite-horizon consumer model
Romer growth model, 346–47
