

This PDF is a selection from an out-of-print volume from the National Bureau of Economic Research

Volume Title: Issues in the Economics of Immigration

Volume Author/Editor: George J. Borjas, editor

Volume Publisher: University of Chicago Press

Volume ISBN: 0-226-06631-2

Volume URL: <http://www.nber.org/books/borj00-1>

Publication Date: January 2000

Chapter Title: List of Contributors, Indices

Chapter Author: George J. Borjas

Chapter URL: <http://www.nber.org/chapters/c6061>

Chapter pages in book: (p. 387 - 400)

Contributors

Julian R. Betts
Department of Economics
University of California, San Diego
La Jolla, CA 92093

George J. Borjas
Kennedy School of Government

Subject Index

- Age at migration: as determinant of education level, 76; as determinant of labor market performance, 77–82
- Agricultural workers: legalization program for special (SAWs), 201, 206
- Aid to Families with Dependent Children (AFDC): eligibility for Medicaid under, 273, 303–4t; payments to immigrant children under, 272. *See also* Temporary Aid for Needy Families (TANF)
- AIME. *See* Average indexed monthly earnings (AIME)
- Anti-Drug Abuse Act (1988), 367
- Anti-Terrorism and Effective Death Penalty Act (1996), 367
- Assimilation of immigrants: influence on socioeconomic outcomes, 9; process of, 6; and their native-born children, 249–64
- Average indexed monthly earnings (AIME): under prorated benefit system, 319–21
- California: California Department of Corrections (CADOC) data, 353–55, 370; fiscal impact of immigration, 7; Proposition 187 enacted, 2
- Communication: in model of immigration policy to enhance diversity, 120–31; between native born and immigrants, 140; related to language fluency and education levels, 133–35
- Competition: states' setting of welfare benefits, 7
- Country of origin. *See* Source country
- Criminal justice system, U.S.: treatment of deportable aliens, 369–70
- Data sources: for analysis of immigrant skill composition, 213–15; Barro-Lee education-related data, 86, 97; California Department of Corrections (CADOC), 353–55, 370; to compile openness index, 38–39; CPS data on native-born children of immigrants, 228; Current Population Survey (CPS), 193–98, 228, 230–31; deficiencies in labor market surveys, 221–22; Health and Retirement Survey (HRS), 310, 314, 322–32, 338–42; Immigration and Naturalization Service (INS), 53, 58, 152, 187; INS green card recipient data, 189–90; INS records of legal immigrants, 222; for measure of per capita GDP, 38; National Center for Education Statistics, 104; National Health Interview Survey (NHIS), 279–80, 282–87, 305t; Public Use Microdata Samples (PUMS) 1 percent sample, 23–25, 46, 132, 145, 231; Summers-Heston data on GDP per capita, 97; Survey of Income and Education (SIE), 91–92; Survey of Inmates of State Prisons, 376–77; UNESCO data on earnings of immigrants and

- Data sources (*cont.*)
 native born, 86; UNESCO education-related data, 86, 97; U.S. Censuses of Population and Housing, 52–53
- Deportation: for aggravated felony, 367; effect of INS deportation holds, 370–82; Institutional Hearing Program (IHP), 368; legislation identifying crimes qualifying for, 352, 367–68; retroactive criminal grounds for, 367–68; treatment of deportable aliens, 369–70
- Determinate Sentencing Law (1982), California, 354n3, 361
- Diversity: with balanced immigration policy, 141; choosing immigrant type to gain, 125–28; conditions for cultural diversity, 137; costs of, 118, 131–32; gains from, 8–9, 119; gains in model of, 123–24
- Earnings of immigrants: compared to native-born Americans, 17, 322–26; education as determinant of, 8, 77–82; effect of 12 to 16 years of education on, 82–87, 111t; men before and after Immigration Act of 1990, 218; occupational earnings of new legal immigrants and U.S. men (1972–95), 192–96; occupational earnings of recent immigrants (1970–90), 191–92
- Earnings of native-born Americans: compared to immigrants (1970, 1990), 17, 322–26; effect of 12 to 16 years of education on, 82–87, 111t; wages (1940, 1970, 1994–96), 237–49
- Education: comparison of native and foreign born, 322–26; immigrants' crowding out native born, 52, 102–8; immigrants' postmigration investment in, 44–46; native- and foreign-born females (1970, 1980, 1990), 53–60; native- and foreign-born males (1970, 1980, 1990), 53–55; pre- and postmigration returns to, 83–85t, 87–97. *See also* Enrollment rates
- Education levels: age at migration as determinant of, 76; among native born and immigrants (1970, 1980, 1990), 8, 53–55; among racial and ethnic groups, 55; deficit of recent male and female immigrants, 188–89; for immigrants (1940, 1970, 1994–96), 232–37; impact on earnings of immigrants and native born, 82–87; for native-born Americans (1940, 1970, 1994–96), 232–37; for native-born children of immigrants (1940, 1970, 1994–96), 232–37; relation to language fluency, 140; for women among native born and immigrants (1970, 1980, 1990), 55–60
- Education of immigrants: effect on earnings of 12 to 16 years of education, 82–87, 111t; by place of birth, 137–38; by region of ancestry, 133–35, 137; returns to pre- and postmigration, 87–97; source country related to returns to education, 96–102
- Education of native-born Americans: effect of immigration on, 52, 102–8; effect on earnings of 12 to 16 years of education, 82–87, 111t
- Emigration: of immigrants returning to home countries, 344–45; related to distance from country of origin, 39; without collecting Social Security benefits, 12, 344–45
- Employment-immigrant principals, 203–4
- Employment rates: convergence of immigrants', 145–46, 150–55; determinants of, 165–66; effect of household composition on, 155–58; effect of source country characteristics on, 158–60; patterns during previous week, 148–51, 174–80t; postmigration lower, 144, 155–58; pre-1980 immigrants', 154–55; proficiency in English related to, 163–65; role of skills related to changes in, 160–66, 181–82t. *See also* Education; Labor force participation; Labor market, U.S.; Skills of immigrants
- Enrollment rates: differences between native and foreign born, 65–72; by immigrant male arrival cohorts, 63–64; native and foreign born in U.S. schools (1970, 1980, 1990), 58–59, 62; in post-secondary education for native- and foreign-born men, 62–64; by premigration education levels, 64–65; probability of immigrants' postmigration enrollment, 65–67, 76–77
- Federation for American Immigration Reform (FAIR), 363
- Foreign-born people: comparison of characteristics of native born with, 322–25; comparison of prison inmates in Cali-

- fornia to native-born inmates, 353–63; earnings covered by Social Security (1940–80s and later), 314–15, 349t; INS holds in California, 358; INS status of prison inmates, 353–54, 356–61; years of education of males and females (1970, 1980, 1990), 53–60
- Human capital:** accumulation related to source country characteristics, 44; effect of immigrants' investment in, 18–23; ethnic model of, 251; immigrants' investment in, 162; relationship between entry wage, wage growth, and, 21–23; restatement of model, 17–18; source country characteristics as measure of, 37–41; two-period model of accumulation, 18–19
- Human capital production function:** Ben-Porath specification, 19; defined, 18; relative neutrality, complementarity, and substitutability, 19–23
- Illegal Immigration Reform and Immigrant Responsibility Act (1996),** 201, 367
- Immigrant and Nationality Acts (1924),** 229–30
- Immigrant children:** effects of Medicaid eligibility on coverage and use by, 278–99; eligibility for AFDC, 299–301; eligibility for U.S. welfare programs, 271–72; increase in number of, 271; Medicaid options for, 275–78; undocumented, 280n5. *See also* Native-born children of immigrants
- Immigrant families:** availability of Medicaid and food stamps for, 272–75, 340; eligibility for Supplemental Security Income (SSI), 340; receiving U.S. public assistance, 6–7; transaction cost trade-offs, 275–78; use of welfare, 6. *See also* Aid to Families with Dependent Children (AFDC); Medicaid; Social Security system; Welfare programs, U.S.
- Immigrant flows, U.S.:** changing composition of, 227; composition under current policy regime, 198–203; effect of policy changes on, 203; factors influencing volume (1972–92), 212–21; illegal immigrants, 203; inconsistent with diversity, 119; increases (1970–90), 271; rate of inflow (1900–1990), 2–3, 228–29. *See also* Age at migration
- Immigrants:** assimilation of, 249–64; change in composition and in countries of origin (1940, 1970, 1994–96), 240–49; characteristics (1940, 1970, 1994–96), 232–37; comparison of work history with native born, 322–26; economic performance in United States, 4–5, 7–8; education-adjusted wages and wage growth (1970–90), 27–28; educational levels (1970, 1980, 1990), 53–60; effect of changes in law on skill composition, 202–12; effect of Immigration Act of 1990 on, 207–12; eligibility for Medicaid, 272–75; eligibility for U.S. welfare programs, 271–72; employment outcomes relative to native born (1980, 1990), 145–55, 168–73t; entry of male spouses, 209–10; geographic clustering in United States, 39; growing number of imprisoned, 352; Herfindahl index to measure concentration of cohorts, 39; human capital stock of, 17–21; husbands of U.S. citizens as, 187–88; impact of education on earnings of, 82–87; legal ways to obtain permanent U.S. residency, 202–3; payroll taxes paid (pre-1940 through post-1980), 330–31; postmigration investments in human capital, 44–46; pre- and postmigration schooling (1970, 1980, 1990), 60–62; regression estimates of wage convergence, 30–36; relation of skills to employment rates, 160–66; relative wages and wage growth (1970–90), 24–25; return on Social Security taxes paid, 310; skill levels of spouses, 203–4; Social Security transfer of benefits to, 309; trends in skills of, 58; wage convergence by country of origin (1970, 1980, 1990), 28–30; wage convergence estimates using instrumental variables, 36–37; wealth and income distribution of, 338–40. *See also* Age at migration; Assimilation of immigrants; Deportation; Earnings of immigrants; Education of immigrants; Foreign-born people; Immigrant children; Immigration and Naturalization Service (INS); Immigration laws, U.S.; Immigration policy, U.S.; Native-born children of immigrants; Skills of immigrants
- Immigrants, illegal:** effect of policy regime change on flow of, 203; skill levels of, 203–4; in United States, 3. *See also* De-

- Immigrants, illegal (*cont.*)
 portation; Immigration and Naturalization Service (INS); Immigration laws, U.S.; Immigration Reform and Control Act (IRCA, 1986)

Books of Related Interest

Immigration and the Work Force: Economic Consequences for the United States and Source Areas

Edited by **GEORGE J. BORJAS** and **RICHARD B. FREEMAN**

In this unique volume, economists analyze new data sets on the labor force, wage rates, and demographic conditions of U.S. and source-area economies through the 1980s. They examine immigrant education and job performance; the impact of remittances to family members on the gross domestic product of source areas; rates of assimilation and fertility; and the effect of labor market conditions in source areas on the flow of immigration.

An NBER Project Report

Immigration, Trade, and the Labor Market

Edited by **JOHN M. ABOWD** and **RICHARD B. FREEMAN**

Prompted by the growing internationalization of the U.S. labor market since the 1970s, contributors to *Immigration, Trade, and the Labor Market* provide an innovative and comprehensive analysis of the labor market impact of the international movements of people, goods, and capital. Their provocative findings are brought into perspective by studies of two other major immigrant-recipient countries, Canada and Australia. The differing experiences of each nation stress the degree to which labor market institutions and economic policies can condition the effect of immigration and trade on economic outcomes.
