

This PDF is a selection from an out-of-print volume from the National Bureau of Economic Research

Volume Title: Issues in Pension Economics

Volume Author/Editor: Zvi Bodie, John B. Shoven, and David A. Wise, eds.

Volume Publisher: University of Chicago Press

Volume ISBN: 0-226-06284-8

Volume URL: <http://www.nber.org/books/bodi87-1>

Publication Date: 1987

Chapter Title: List of Contributors, Indexes

Chapter Author: Zvi Bodie, John B. Shoven, David A. Wise

Chapter URL: <http://www.nber.org/chapters/c7041>

Chapter pages in book: (p. 365 - 378)

Contributors

B. Douglas Bernheim

Subject Index

- Accrual ratios, 327
Actuarial fairness, 190, 196, 207
Adverse selection, 178
Age: accrual levels and, 294, 333, 337;
age-specific factors, 113; of
beneficiaries, 45; of initial
employment, 327; of labor force,
96, 102, 108, 332; of older workers,
332; racial groups and, 348; of
retirement, 7, 289, 300, 311, 342;
uncertain lifetimes, 176, 182; wealth-
age profiles, 176, 192, 237. *See also* Cohort analysis; Elderly
persons
Aggregate capital, 189
Aggregating benefits, 164
Alloy Tek case, 50
American option, 51, 53
Amortization, 88
Annuities, 156; actuarial valuation of,
253; age-wealth profile and, 238;
insurance, 212; integrated plans, 161;
markets for, 8, 195, 199, 211–36;
rationing, 176, 210. *See also* specific
plans
Arrow-Pratt measure, 122
Asset allocation, 3, 5, 15–47

Baa bond rates, 26, 99
Balance sheets: consolidated, 83;
leverage, 21, 91
Bankers' Trust study, 351, 362

Bankruptcy, 50, 60; market valuation
and, 101; modeling of, 60, 61; PBGC
liability and, 64; termination of plans
and, 5, 60, 62, 64, 74, 78
Bargaining, 220; insurance and, 216; two-
person solution, 214, 218
Benefit formulas, 284, 351
Bequests, 175, 188, 196, 211, 212, 270;
accidental, 176, 187; bequeathable
wealth, 234, 241–52; estate data, 243;
housing, 239; inheritance tax, 235;
involuntary, 222; motives, 198; selfish
behavior, 214–15; time pattern of, 245;
uncertainty, 235
Beta estimates, 25, 90
Binomial jumps, 78
Blacks, 349; compensation inequality, 11;
coverage data, 341; pattern plans and,
355; pension ratios, 356
Black-Scholes formula, 156
Bonds, 25, 29, 46; asset allocation and,
16; Baa rate, 26; dedication
framework, 40; overfunded plans in,
20; PBGC puts, 38; pension funds in,
3; risk and, 21; tax status and, 18,
29
Brownian motion, 156, 168
Bulow-Scholes model, 85
Bureau of Labor Statistics, 115, 286–87

Capital stock, 189, 211–36
Capital structure, 15

- Center for Research in Security Prices, 26
- Certainty bonus, 128
- Children, 6; costs of, 121, 124, 143. *See also* Families
- Choice model, 177
- Chrysler Corporation, 74n. 2
- Clerical workers, 303
- Cliff vesting, 285, 289, 300, 313, 329, 333
- Cobb-Douglas function, 189
- Cohort analysis, 144, 179, 242, 271, 342, 346
- College tuition, 85
- Compensation contracts, 85
- Compensation inequality, 341
- Complete-market assumptions, 79
- Compustat tape, 99
- Consolidated balance sheet, 83
- Construction industry, 326
- Consumer finances survey, 195
- Consumer population survey, 342
- Consumption patterns: insurance and, 226; isoelastic, 214; life-cycle and, 206; retirement levels, 116, 120, 145; social security and, 8; uncertainty in, 178
- Contingent claims analysis, 7, 161
- Conventional plan, 351
- Corporate finances, 2–6; corporate perspective, 17, 19, 22, 25–40; funding status, 6; higher-risk firms, 39; large plans, 45; levels of, 91; long-term debt, 99; net pension wealth, 83; Pension Plan study, 351; residual claimants, 84; several plans, 34; smaller companies, 37; weak firm problem, 100. *See also* Bankruptcy; Profitability; *specific parameters*
- Cost of living, 1, 115, 116
- Counting algorithm, 343
- Couples, 123, 126, 133; dissaving and, 269; retired, 240, 245, 260. *See also* Families
- Covered compensation, 149
- Cross-sectional valuation, 91–97
- Cross-section test, 6
- Current Population Survey, 96, 360
- Deaths. *See* Mortality
- Debt/equity ratios, 26
- Deception, of workers, 170
- Decumulation effects, 244
- Deferred compensation, 82, 95, 102
- Defined benefit plans, 2, 17, 49, 74n. 3, 86, 149, 156, 351; consolidated balance sheets, 83; inflation and, 171; insured by PBGC, 3, 17; pay-related formulas, 168; size of firm and, 40
- Degrees of freedom, 345
- Demographics, 24, 54, 353
- Department of Labor (DOL), 22, 115, 286–87
- Depletion rates, 251
- Depreciation, 25, 99
- Diamond-Mirrlees schedule, 166
- Difference methods, 77
- Diffusion process, 53, 61
- Direct utility function, 121
- Discontinuities, in accruals, 286, 332
- Discounting, 273; actuarial vs. simple, 238–60; effects of, 254; simple, 253, 276, 277
- Discount rates, 27, 45; age and, 45; Baa rate and, 46; choice of, 5, 22; DOL constraints and, 22; FASB rules, 22, 44; liabilities, 4, 24; management obscured by, 23; profitability and, 16, 27; uncertainty and, 179
- Discrete-time formulations, 78
- Discretionary funding, 58, 62
- Discretion levels, 196
- Dissaving: actuarial factors, 258; annuitization and, 186, 272; annuity wealth and, 261; behavioral rate of, 260; couples and, 269; discounting and, 273; dissaving factor, 256; durable goods and, 270; life cycle hypothesis and, 237, 264; rapid, 261; risk aversion and, 183; theory of, 253
- DOL. *See* Department of Labor
- Drift term, 53
- Durable goods, 270
- Early retirement, 10, 293–301, 311–14, 334, 337, 339; cliff vesting and, 335. *See also* Replacement rates; Retirement
- Earnings, 142, 240; high-income ceiling, 176; high-three average, 134; inequalities in, 341–63; lifetime, 182; potential, 90. *See also* Replacement rates
- Elderly persons: aging process, 177; consumption patterns of, 120, 185; cost of living, 116; earnings replacement,

- 113; economic well-being of, 114; financial status of, 1; income of, 6–8, 113, 116; leisure for, 121; older workers, 332; replacement rates, 115; retirement income, 6–8; savings and, 237; taxes and, 6; well-being of, 113. *See also* Age; Medicare; Social Security
- Employee Retirement Income Security Act (ERISA), 2, 21, 49, 51; nondiscrimination provisions, 172; pension obligation and, 83
- Equilibrium models, 108, 189
- Equity, value of, 66, 108
- ERISA. *See* Employee Retirement Income Security Act
- Estates. *See* Bequests
- European option, 50, 153
- Event study approach, 98
- Excess plan, 149, 167
- Exercise price, 54, 56–57
- Explicit contract model, 108
- Exploitative strategy, 67
- Factor prices, 213
- Families, 203, 220, 222–25, 232, 270; annuitization through, 272; family deals, 214, 218; uncertainties and, 235. *See also* Intergenerational transfers

Financial Aspects of the United States Pension System

Edited by ZVI BODIE *and* JOHN B. SHOVEN

"This volume represents a fundamental contribution to the analysis of the financial and economic aspects of the private pension system in the U.S. It is a collection of fourteen papers, each followed by a comment, by 30 contributors who represent the country's leading experts in the field—from Martin Feldstein to Paul Samuelson. . . . It is essential reading for scholars, practitioners, and policymakers who are concerned with pension planning or regulation."—*Choice*

An NBER Project Report

1983 452 pages Cloth ISBN: 0-226-06281-3

Pensions, Labor, and Individual Choice

Edited by DAVID A. WISE

The papers in this volume address two aspects of the relation between varieties of labor coverage and participation in the labor force: first, the strong correlation between age at retirement and kind of pension coverage and, second, the high cost imposed by pension plans on workers who change jobs, thus reducing instances of job change.

An NBER Project Report

1985 464 pages Cloth ISBN: 0-226-90293-5

Pensions in the American Economy

LAURENCE J. KOTLIKOFF *and* DANIEL E. SMITH

The most comprehensive guide to American government and private pension plans ever compiled, this book has hundreds of tables and a lucid text that explains and highlights the information. Without the aid of a pension specialist, any reader can now compare pension vesting, retirement, and benefit provisions by plan type, plan size, industry, union status, and many more characteristics. A book equally useful for workers, employers, pension specialists, and scholars.

"An extraordinarily useful store of information."—Roger F. Murray,
