

This PDF is a selection from an out-of-print volume from the National Bureau of Economic Research

Volume Title: A Retrospective on the Bretton Woods System: Lessons for International Monetary Reform

Volume Author/Editor: Michael D. Bordo and Barry Eichengreen, editors

Volume Publisher: University of Chicago Press

Volume ISBN: 0-226-06587-1

Volume URL: <http://www.nber.org/books/bord93-1>

Conference Date: October 3-6, 1991

Publication Date: January 1993

Chapter Title: List of Contributors, Indexes

Chapter Author: Michael D. Bordo, Barry Eichengreen

Chapter URL: <http://www.nber.org/chapters/c7042>

Chapter pages in book: (p. 659 - 676)

Contributors

Alberto Alesina
Department of Economics
Harvard University
Cambridge, MA 02138

Robert Z. Aliber
Graduate School of Business
University of Chicago
1101 East 58th Street
Chicago, IL 60637

C. Fred Bergsten
Director
Institute for International Economics
11 DuPont Circle, N.W.
Washington, DC 20036-1207

Edward M. Bernstein
The Brookings Institution
1775 Massachusetts Avenue, N.W.
Washington, DC 20036-2188

Stanley W. Black
Department of Economics
CB #3305 Gardner Hall
University of North Carolina
Chapel Hill, NC 27599-3305

Michael D. Bordo
Department of Economics
New Jersey Hall
Box 5055
Rutgers University
New Brunswick, NJ 08903

William H. Branson
Woodrow Wilson School
Princeton University

Subject Index

- Adjustable peg system: evolution of, 80; of fixed parities, 5, 81, 83, 215; with limited capital mobility, 247–48; triggering of, 74
- Adjustment mechanism: under classical gold standard, 50; of Hume, 213–14, 221; pre-Bretton Woods, 28–29; as problem under Bretton Woods, 50–60, 203–7, 215–28; use in Bretton Woods of, 228–34, 313, 314–15
- Adjustment mechanism model, 248–51
- Algeria crisis (1956), 136
- Anglo-American Loan (1945), 34, 43, 45, 192
- Arbitrage: under classical gold standard, 213; between gold and foreign exchange markets, 125–28; multicurrency under EPU, 43; under operating Bretton Woods system, 49; without capital controls, 521
- Atlantic Charter (1941), 32, 170
- Balance of payments: adjustment under Bretton Woods and gold standard, 50–51; response to U.S. decline in, 525
- Bancor, 32, 118–19, 365
- Bank for International Settlements (BIS), 43
- Banking school (of monetary policy), 110
- Baring crisis (1890), 130, 212
- Bellagio conference (1964), 50, 66
- Bernstein plan, 66
- Bilateralism, post-World War II, 37–38
- Bimetallism (1890–96), 149, 265
- Bretton Woods: sterilization policies under, 339, 342
- Bretton Woods Agreement: Soviet role in, 195–98
- Bretton Woods Agreement Act (United States), 502
- Bretton Woods system: argument for replacement of, 317; asymmetry in, 215–28, 512; breakdown of, 80–85, 262, 301, 303–4, 312–13, 461–63, 613–14, 624; contribution of, 100, 264, 312; convertibility under, 37–38n30, 49–74; core value of, 312–13; design and management of, 83–85, 262–64; difference from classic gold standard, 129, 351; economic performance of, 622–23; evolution of monetary standard, 307; exchange rate system of, 475, 588; initial phase of, 332; key problem under, 378; political positions in creation of, 156–58; preconvertible and convertible phases of, 5, 6, 41–48; provision of liquidity under, 279–80, 282, 307, 474–75; rules governing dollar standard (1950–70), 602–4; rules of, 101, 262–63, 358, 600–601, 602, 615; solutions to cooperation in, 364; stability of, 83–85; was never followed, 613, 615–17
- British plan. *See* Keynes plan (for international monetary system)
- Brussels conference (1920), 116
- Capital controls: under Bretton Woods system, 129, 615–16, 623–24; in Britain, 519–23, 524f, 542; effect of, 529, 537, 551; under European Monetary System

- Capital controls (*continued*)
 (EMS), 551; in Germany, 523–25, 526f;
 under IMF, 35, 204; influence of, 518–
 19; two types of, 519; in United States,
 58–59, 525–29
- Capital flows: under Bretton Woods, 285; de-
 terminant of direction of, 103; post-
 World War II flight, 38; problem of cur-
 rent, 596–97; from United States to Can-
 ada (1950), 46. *See also* Capital mobility
- Capital markets: under classical gold stan-
 dard, 213; post–World War II, 215–20.
See also Exchange rate markets; Finan-
 cial markets
- Capital mobility: in breakdown of Bretton
 Woods, 315; under Bretton Woods, 234,
 247, 273; under classical gold standard,
 211–15; convertibility with perfect, 307;
 indicators of international, 235–42; in
 international liquidity, 272–73; role in
 international money operation, 103

 organizations), 391–92
- Commodity price stabilization scheme, 48–91
- Competitive devaluation strategy (CD), 372–
 73, 375, 392
- Composite reserve unit (CRU), 66
- Conditionality: for IMF drawings, 383; im-
 portance of IMF, 403
- Confidence: under Bretton Woods, 51, 68–
 73, 82, 203–7; in interwar period, 29
- Consensus, international, 161–64
- Convertibility: Anglo-American differences
 over, 191–93; collapse of gold's, 478–
 82; maintenance of, 307; policy consen-
 sus on, 162; post–World War II achieve-
 ment of, 43; timing of, 595–96
- Convertibility escape clause, 366, 380
- Cooperation, international: alternative solu-
 tions to problems of, 362–64; costs and
 rewards of devaluation game, 359–62;
 incentives for, 370–76, 359–64, 399;
 role of international organizations in,
 391. *See also* Devaluation game; Non-
 cooperative behavior
- Copper corner (1889), 130
- Country premium, 518–19, 520, 537
- Covered interest differentials: Britain: during
 and after capital controls, 519–23; con-
 ditions for, 517–19, 537; Germany: dur-
 ing and after capital controls, 523–25;
 United States: during and after capital
 controls, 525–29
- Covered interest parity theorem, 237–38, 242
- Credibility: under classical gold standard,
 211–15; of gold standard and Bretton
 Woods rules, 124–41; model of im-
 ported, 113
- Credit tranches, 36, 367, 383
- CRU. *See* Composite reserve unit
- Currencies: British devaluations (1949,
 1967), 44–45, 46, 379, 463; Canada
 floats (1950), 46–47; convertible and
 nonconvertible, 332; devaluations
 (1949), 19, 81, 228, 379; effect of sub-
 stitutions for, 314; equality under Bret-
 ton Woods system, 36–37; French deval-
 uation (1948), 46; shifts in interwar
 period, 29; unrestricted convertibility re-
 quired for, 307. *See also* Bancor; Unitas

- Escape clauses: in IMF Articles of Agreement, 202
- European Central Bank, 305
- European Monetary Cooperation Fund (EMCF), 612
- European Monetary System (EMS): goals of, 99–100; importance of design for, 264; inflation experience of members, 550; proposed fixed exchange rate regime in, 304–5; rejections under, 216; successful elements of, 84, 101, 588; target zone system of, 486
- European Monetary Union (EMU): conditions for low inflation under proposed, 618; importance of design for, 304–5
- European Payments Union (EPU): establishment and role of, 41–43, 45–46, 81, 602; IMF relations with, 102
- Exchange rate markets: under Bretton Woods, 136–41; under classical gold standard, 129–36. *See also* Forward rates; Gold points
- Exchange rate mechanism: comparison of Bretton Woods and EMS changes in, 551–53; design for pegging, 304–5; effect on relative prices of, 318; of EMS, 573; of G10 countries (1946–71), 23–28; states of EMS, 582–83
- Exchange rates: under Bretton Woods, 129; changes in 1950–70 period, 602; under classical gold standard, 125–28; with currency inconvertibility, 50; effect of gold standard breakdown on, 364; effect of instability in, 598; flexibility under par value system, 512; IMF role in stabilizing, 366; reasons for flexibility, 405; volatility after Bretton Woods, 516, 517t. *See also* Fixed exchange rates; Multiple exchange rates; Nominal exchange rates, G7 countries (1880–1989); Pegged exchange rates; Real exchange rates
- Financial markets, international: effect of Bretton Woods system on, 266; effect of incomplete, 322–24, 323; pre–World War I, 265
- Fiscal policy: proposed in adjustment mechanism, 217–19
- Fixed-exchange-rate model, 329
- Fixed exchange rates: argument against, 317–18; costs of, 515–16; in ideal international economy, 207–11; implication of, 283–84; intra–European Monetary System (EMS), 551
- Fixed-exchange-rate system: arguments for and against, 5; of Bretton Woods system, 3, 73; as commodity price stabilization scheme, 486–91; cost of devaluing under, 359–60; destabilization of, 303; discipline of, 6; emerges from adjustable peg, 50; end of (1973), 463; implications for design of, 304–5; institutional arrangements of, 285; monetary autonomy implied in, 304–5; as monetary rule, 113, 123; move away from, 405–6, 475; recommendations for well-designed, 84–85
- Fixed parities: in adjustable peg system, 5
- Floating exchange-rate system: advantages and disadvantages of, 6; argument for adoption of, 317; effect of, 608; international transmission with, 318, 330; with no capital controls, 529
- Folk theorem, 360
- Foreign Direct Investment Program, United States, 526
- Forward rates: under Bretton Woods, 136–41; under classical gold standard, 129–36
- G7 countries: performance of (1880–1989), 6–22; performance under Bretton Woods, 12–22, 26–28
- G10 countries: exchange rate and gold arrangements of, 23–28; loss of effectiveness, 80; post–World War II economic

- G10 countries (*continued*)
 performance of, 23–25, 27–28; swaps and standby arrangements among, 66
- General Agreement on Tariffs and Trade (GATT): accomplishments of, 376, 378, 391; establishment of, 34n27, 192; evolution and role of, 54, 369; rules of the game under, 358
- General Arrangements to Borrow (GAB), 462, 606; function of, 59n62; as IMF line of credit, 66
- Genoa conference (1922), 28, 116
- Gold: in Bretton Woods convertibility era, 68–69; Britain suspends convertibility of (1931), 28, 29; current influences on price of, 611; demonetized in United States (1968), 70, 72, 607; different levels of convertibility, 115; as liquid dollar claim, 463–67, 475–77; private and official market prices for, 462; real price of, 61; rise in price (1934, 1960), 69; role in Keynes plan of, 118; scarcity of post-World War I, 607; stabilization in price of, 69; value of unitas fixed in, 120
- Gold dollar exchange standard, 81–82; determination of structure of, 605; effect of expansion and contraction of demand for, 477–82; evolution of, 49–50; failure of, 309–10, 614
- Gold exchange standard: breakdown of, 31; of Bretton Woods, 307; as commodity stabilization scheme, 60; defection in 1930s from, 33, 60, 504, 511; effect of, 50–51, 74, 80–81, 83; in interwar period, 115–17, 149, 152, 166, 179; problems of, 28–29
- Gold Index Plan (proposed), 612
- Gold markets: post-World War II activity of, 223–24; two-tier, 82, 247, 261, 464–67
- Gold points: under Bretton Woods, 141; under classical gold standard, 129–36, 213
- Gold Pool (1961–68), 69–70, 80; effect of, 462, 464, 466f; establishment of, 59; function of, 223, 462; run on, 475–76; two-tier system left by, 212; U.S. provision of gold to, 504
- Gold prices: post-World War II levels, 223
- Gold Reserve Act (1934), United States, 504
- Gold reserves: depletion of U.S., 502–4; inadequacy of world, 61–62, 65; source of new international, 511; U.S. policy to protect, 59, 69, 71–72
- Gold Stabilization Fund (proposed), 612
- Gold standard, classical: adjustment mechanism of, 211–15, 265; advantages and disadvantages of, 5, 616; balance of payments adjustment under, 50, 499; basic monetary rule of, 130; collapse of, 151–52, 479; convertibility under, 37n30; credibility and capital mobility under, 211–15; difference of Bretton Woods from, 351; international capital flows under, 212–13; international monetary rules under, 115; long and short interest rates under, 15, 19; real interest rates under, 19; rules under, 115–17, 124–41, 149; stabilization of exchange rates under, 125; visible rule of, 116; world economic performance under, 211
- Gold stocks: of IMF and EMCF, 612; inadequacy of world monetary, 49, 61, 63–64, 69–70; levels of world, 51, 56, 69–70; U.S. post-World War II, 38, 56, 69; world levels of, 475–76
- Gold tranche (IMF), 66, 367
- Gold window, 3, 4, 74, 106, 462–63, 614
- Great Depression: causes of, 496
- Gresham's law, 309
- Growth seigniorage, 57n58
- Havana conference (1947), 368
- Hegemony, U.S., 106–7, 159, 179, 303, 312
- ICU. *See* International Clearing Union (ICU)
- Inflation: before and after gold window close, 351; analysis of Bretton Woods era, 290–99; Bretton Woods and EMS compared, 551–53; determinants of trend in national and world, 285, 296; effect of U.S., 76, 80, 83, 618; with floating exchange-rate system, 608–9; of G7 countries (1880–1989), 12–13; with gold standard, 12; individual country control over, 345; international transmission of, 77–78, 332–46; levels of U.S., 69–70, 74, 303; levels of world, 74, 289–301; maintenance of low rate of, 617
- Interest Equalization Tax (1963), 58
- Interest rates: ceilings on U.S. (1970+), 526; of G7 countries (1880–1989), 15, 17–19; volatility under three monetary regimes, 516, 518t
- International Bank for Reconstruction and Development. *See* World Bank

- International Clearing Union (ICU): in Keynes international monetary system plan, 32, 34, 65, 81, 117, 365; proposed function of, 174, 276–77, 495–96
- International Currency (or Clearing) Union. See International Clearing Union (ICU)
- International Monetary Fund (IMF): administration of par value system, 373–75, 378–91; adoption of dollar standard, 605–6; Articles of Agreement for, 34–37, 121; contribution of, 404; establishment of, 365; exchange rate policies of, 378–82; expansion of resources (1960, 1966), 66; financial incentives of, 370; lack of success of, 102–3; lending practices of, 382–86; in preconvertibility era, 45–47; provisions for international liquidity in, 277–79; role and function of, 366, 368, 370–71; role under Bretton Woods system, 74, 623; rules of, 129; scarce currency provision of, 366, 496; special drawing account of, 66. *See also* Par value system
- International negotiation: to promote cooperation, 363; role of financial assistance in, 370–71
- International organizations: to solve cooperation problems, 363–64
- International quantity theory, 310–11
- International Stabilization Fund, 33, 117, 276–77
- International Trade Organization (ITO), 357–58, 368–69, 378
- Interwar period: deflation in, 12; gold exchange standard in, 115–17, 149, 152, 166, 179; international cooperative arrangement during, 359; international monetary regimes during, 6; perceived problems of, 28–31
- Johnson administration, 58–59
- Kennedy administration, 58–59
- Keynesian international-adjustment models, 216–17
- Keynes plan: attempt at rule-based system, 152, 153; for International Clearing Union, 174; for international monetary order, 32–33, 34, 45–47, 81, 117–19, 195–96, 364–65, 375–76, 600; objectives of, 117–18
- Keynesianism, 163, 164–67
- Liquidity: increases under Bretton Woods regime, 278; interwar problem of, 29
- Liquidity, international: concept of, 270–73; definitions of, 273–74, 277, 279, evolution of, 279–89; perception of, 505–6; problems in defining, 271–73; as problem under Bretton Woods system, 50–51, 82, 203–7
- London Economic Conference (1933), 163
- Louvre meeting (1987), 610
- McKinley Tariff Act (1890), 265
- Macroeconomic policy, Keynesian, 600–601
- Marshall Plan (1948–51): accumulation of international reserves under, 279; aid under, 45, 204, 234, 377, 384; effect of, 41–42, 45–46; effect on IMF conditionality of, 384; Soviet role in, 198
- Monetary hegemony, 101, 107
- Monetary policy: country control of inflation through, 345; dependent and independent, 346; international transmission in sticky-price model, 329–30; rules-versus-discretion theory of, 109–10; swap arrangements of U.S., 59, 69; of United States under Bretton Woods, 223–24
- Monetary policy, national: with fixed exchange-rate system, 304; need for disciplined, 617
- Monetary rules: under classical gold standard and Bretton Woods, 124, 142; defined, 124; fixed-exchange-rate system as, 113, 123
- Monetary system, commodity-based, 485–91
- Monetary system, international: Bretton Woods preconvertible and convertible, 81; current challenges of, 103–4; dollar in preconvertibility era, 47–48; interwar (1919–39), 6; need for national self-interest in, 617; rules-versus-discretion in, 110–15
- Money: growth of U.S., 74–78, 106
- Money stock: determinants of national, 285; growth of G7 countries (1880–1989), 15–16
- Money stock, world: defined, 285; determinants of, 285; growth of, 74–78
- Money-supply shock transmission, 322
- Morgan-Belmont syndicate (1895), 130, 133, 265
- Multilateral Investment Guarantee Agency (MIGA), 594

- Multiple exchange rate system, 46
- Mutual Aid Agreement (1942), 32, 192
- Nixon administration, 80
- Nominal exchange rates, G7 countries (1880–1989), 19, 22, 27–28
- Noncooperative behavior: incentives for international, 401; raising costs of, 399
- Organization for Economic Cooperation and Development (OECD), 105
- Organization for European Economic Cooperation (OEEC): establishment of, 41–42; post–World War II deficit of, 39
- Ottawa Agreements (1932), 170, 171, 191
- Panama Canal failure (1889), 130, 134
- Paper dollar standard, 607
- Par value system: in Bretton Woods system, 35, 364, 365, 367; failure of, 398–99, 400; IMF administration of, 378–82; role of financial assistance in, 371–76
- Payments system: under IMF, 35, 38
- Payments union: proposal for, 103–4. *See also* European Payments Union (EPU)
- Pegged exchange rates: effect on monetary policy, 351; international transmission with, 330–32
- Peso problem, 530, 533, 543
- Phasing concept, 413
- Policy community, international: Anglo-American differences and compromises in, 169–79, 187–89, 193–94; evolving role of, 167–69; players in, 161–67; timing of emergence, 179–80
- Policy-mix prescription, 217–18
- Preference shocks: effect on traded and non-traded goods sectors of, 327; in international transmission, 324–25
- Preference system, imperial, 169–71, 191–92
- Prices: with abandonment of Bretton Woods, 318; international transmission of sticky, 328–32; response under Bretton Woods of, 242–46, 247; response under gold standard, 244, 246; stability during Bretton Woods regime, 12; sticky, 328–32
- Productivity shock transmission, 325–27, 349
- Protectionism, interbloc, 598
- Quantitative restrictions, 598
- Real exchange rates: during Bretton Woods regime, 19, 27–28; of G7 countries (1880–1989), 19, 26–28; of unanchored flexible-exchange-rate regime, 609
- Real interest rates: effect of unanchored flexible-exchange-rate system of, 609; of G7 countries (1880–1989), 19–21
- Reciprocal Trade Agreement Act (1934), 170
- Reference ranges (for target zones), 589–92
- Reserves, international: accumulation and redistribution of, 279–80, 282; analysis of Bretton Woods era, 290–99; concept of total, 279–80; distribution of, 285; dollar used as, 49–50; effect of explosion of, 303; holding of hard currency, 307; as international liquidity; 274; policy consensus on, 162; scenarios limiting explosion of, 300–302
- Revaluations: of deutsche mark (1961, 1969), 231, 233–34; against dollar, 462
- Reverse-causation hypothesis, 345
- Risk premium: in covered interest differential, 518–19; effect of, 541; with uncovered interest parity, 529–37. *See also* Country premium; Forward rates
- Roosevelt administration, 38, 163–67, 170, 186, 192
- Rules: under classical gold standard, 115–17; combined with discretion, 112; credibility of gold standard and Bretton Woods, 124–41; in design of Bretton Woods system, 117–23; with escape clauses, 116–17; in IMF-GATT cooperation, 391; for monetary institutions, 110; to stabilize expectations, 111–12; when countries do not play by, 363. *See also* Monetary rules
- Rules-based solutions: of GATT for cooperation, 369; to problems of cooperation, 362–63, 364
- Rules of the game: broken under gold exchange standard, 29; defined, 124; enforcement under par value system, 378–82; inappropriateness of, 101; incentives under Keynes plan to adhere to, 376; rejection of law by Keynes and White, 308; two-tier system in IMF for, 386; U.S. monetary policy under Bretton Woods, 337n15, 351
- Rules-versus-discretion theory: in Bretton Woods system, 152; on fixed exchange rates, 109–10

- Scarce currency, 499–500
- Scarce currency clause (IMF charter), 34, 36, 366
- SDRs. *See* Special Drawing Rights (SDRs)
- Seigniorage: in ideal international economy, 207–11; presumed U.S. earnings of, 56–57; under special drawing rights plan, 68. *See also* Growth seigniorage
- Sherman Silver Purchase Act (1890), 265
- Smithsonian Agreement (1971), 221, 222n29, 463, 533–34, 610; created of unanchored dollar standard, 607–8; role of, 4n1
- Smoot–Hawley tariff (1930), 191
- Snake, the, 548, 572
- Special drawing rights (SDRs), 36, 45–47, 60, 65; as additional liquid dollar claims, 479; categories of drawings under IMF, 367; effects of, 278; function of, 66–67; gold-guaranteed, 608; as international reserve asset, 511–12; issues in use of, 68–69; as mechanism to increase liquidity, 462; reasons for creation of, 82
- Stabilization Fund. *See* International Stabilization Fund
- Standby arrangements (IMF), 367, 384, 386
- Sterling. *See* Devaluations
- Suez crisis (1956), 136
- Swap arrangements, 59, 69
- Target zones: as commodity price stabilization schemes, 486; reference ranges to achieve, 589–92; steps in moving to, 589–92
- Technology transmission, 322–27
- Trade, international, 332; GATT rules–based solution for disputes, 369; liberalization under Marshall Plan, 41–42; timing of liberalization of, 595
- Transmission, international: benchmark model of, 319–22; channels for, 318, 325–27; with incomplete financial markets, 322–24
- Triffin dilemma, 61, 65, 106, 247, 269, 279, 511
- Tripartite Agreement (1936), 164, 166, 193, 605
- Uncovered interest differentials: during Bretton Woods period, 532, 533; between Euromarkets, 530–33; with fixed exchange rates, 542; under fluctuating exchange rates, 542
- Unitas, 33, 120
- U.S. plan. *See* White plan (for international monetary system)
- Voluntary Foreign Credit Restraint Program, United States, 526
- White plan: bank for reconstruction and development in, 365; differences from Keynes plan, 174; features of IMF in, 366–67; for international monetary order, 33, 34, 35, 81, 117, 120–23, 195–96, 364–65, 375–76; Stabilization Fund of, 164, 193–94, 276–77, 365
- World Bank: accomplishments of, 376–78, 391; decision to establish, 196; establishment and role of, 34n27, 365–66; financial incentives of, 370; role of, 367
