

This PDF is a selection from an out-of-print volume from the National Bureau of Economic Research

Volume Title: Immigration and the Workforce: Economic Consequences for the United States and Source Areas

Volume Author/Editor: George J. Borjas and Richard B. Freeman, editors

Volume Publisher: University of Chicago Press

Volume ISBN: 0-226-06633-9

Volume URL: <http://www.nber.org/books/borj92-1>

Conference Date: January 14-17, 1990

Publication Date: January 1992

Chapter Title: List of Contributors, Indexes

Chapter Author: George J. Borjas, Richard B. Freeman

Chapter URL: <http://www.nber.org/chapters/c7044>

Chapter pages in book: (p. 271 - 282)

Subject Index

- Asia: fertility rates in, 126; increase in immigration from, 43, 93
- Asian immigrants: earnings levels of, 80; educational levels of, 70
- Assimilation: as determinant of earning capacity, 82; estimates of, in wage determination analysis, 79–86; estimates of immigrant, 73, 88–91; immigrant intergenerational, 68; of immigrants to labor market, 68; indicators of immigrant, 8–10, 87; model of, 98, 100–111; netting out effect of, 24–26; occurrence in wage determination model, 75, 79–80. *See also* Earnings; Fertility rates
- Balance of payments effect, 219
- Black market, El Salvador, 159
- Capital flows, El Salvador, 136
- Caribbean, the: fertility rates in, 126; increased emigration from, 3–4, 135; increase in immigration to U.S., 93
- Child quality, 94, 97, 100, 126
- Current Population Survey (CPS), 181, 217, 226–28
- Data sources: effects of immigration and trade, 213, 217; effects of national origin, 23–24; immigrant labor market assimilation, 78, 88; immigrant women's fertility, 95, 101, 126; intragenerational immigrant assimilation, 68; migratory patterns of native workers, 250–51; out-migration and return migration, 57; Puerto Rican migrant-nonmigrant education, 194, 203–5; Puerto Rican minimum wage, 180–81; Salvadoran emigration, 136n1, 139, 172–73; Salvadoran remittance, 151, 153, 167
- Earnings: decline in immigrant, 70–73; effect of migration on Puerto Rican, 203; effect of minimum wage on Puerto Rican, 177–78, 180–83, 203; as indicator of immigrant assimilation, 8–9, 68, 78–87; national origin and, 39, 44–45; native-immigrant log-experience profiles, 84–86; native-immigrant worker, 26–27, 30–31, 45; native white-Hispanic, 86; native worker, 8–9, 12–14; in Puerto Rico, 61–65, 208; of Salvadoran immigrants, 145–48; years of schooling and, 43. *See also* Life-cycle earnings; Wage determination model; Wage rates
- Economic conditions: effect of source country, 44–45, 94, 107; effect on immigrant assimilation, 88; and mobility decisions of potential migrants, 23
- Economic development: effect of source-country level of, 44–45; effect on Puerto Rican migration, 50–52; factors contributing to source country, 6
- Education: higher returns to, and migration, 55–56; as indicator of skill, 197; returns to, in Puerto Rico, 56, 61, 64, 195–96; returns to, in source country, 43; returns

- Education (*continued*)
 to, in U.S., 56, 195–96; *See also* Earnings; Skill levels; Years of schooling
- Educational levels: correlation of national origin with, 35–39; and earnings, 233–41; of immigrants, 26, 32–38, 42, 214, 228–32; of immigrant women, 103–6, 126; of native U.S. workers, 230, 232–33; of Puerto Rican migrants, 178, 194–95, 197–99; of Puerto Ricans as residents of U.S. or Puerto Rico, 60–61; of Salvadoran emigrants, 139, 142, 145–49; of source-country immigrants, 70; of U.S. labor supply, 219–23. *See also* Skill levels; Years of schooling
- Emigrants, Salvadoran: characteristics and motivation of, 139, 142–46, 160; destination of, 138; estimates of volume of, 135–38, 162–66, 170–71. *See also* Remittances, El Salvador
- Emigration flows: from Central America, 3–4, 135; effect on economic policy in El Salvador, 11; effect on Salvadoran labor market, 149–54; relation to labor force participation in El Salvador, 157–60. *See also* Out-migration; Remittances, El Salvador
- Employment, Puerto Rico, 178; effect of age, grade, and language, 209; effect of minimum wage, 182–89, 203; experience, for pre-migrants, 191–93. *See also* Unemployment rate
- Ethnic groups: assimilation of, 68; change in composition of, 69–71
- European immigrants: earnings levels of, 71–72; educational level of, 70–71
- Exchange rate, El Salvador, 159
- Fair Labor Standards Act (FLSA) 1938, 177–78, 194
- Family reunification policy, U.S., 20–21
- Fertility models: disruption effect model, 118–22, 127; reduced-form methodology and results, 102, 110–11, 114–16, 120–21, 130–31; structural form, 102, 111–12, 116, 120–21
- Fertility rates: effect of disruption on, 99, 101, 109, 118–22, 127; effect of economic conditions on, 107; effect of source-country differences on, 103–11, 122–26; factors influencing, 111–15, 126–27; native-immigrant comparison of, 95–97, 111–15, 126–27; for recent and less-recent immigrant women, 111; response to source-country economic conditions, 107–8; in source countries and U.S., 93–94, 96, 126; trends in immigrant-native, 115–18. *See also* Child quality; Fertility models
- Heckscher-Ohlin trade model, 8, 214, 233
- Household surveys, El Salvador, 139–42, 160. *See also* Emigrants, Salvadoran
- Human capital: changing levels of immigrant, 88; immigrants from source countries with low, 69; immigration as investment in, 100; of Salvadoran emigrants, 139; of U.S.-born Puerto Ricans, 50. *See also* Earnings; Education; Educational levels; Skill levels; Years of schooling
- Immigrant flow: differences in educational levels in, 26, 42; effect on composition of U.S. labor supply, 214–25; evidence for changes in ethnic composition, 71; factors influencing nature of, 19; immigration policy redirects origin of, 19–20; increase in, 1; prediction for increased, 14; self-selection in, 43; shift in national origin of, 2–3, 6–7, 22–23, 39–45; women in composition of, 93
- Immigrants: changes in skills of, 70, 73; characteristics of, 24–27, 32–35; decline in quality of, 68–69; differences in assimilation of, 68; in import industries, 214; labor market performance of, 23–41, 45; locational decisions of, 249–50; out-migration rate of, 18; self-selection effect for, 126–27; shift in occupational distribution of, 27, 40; skill differences in groups of, 71; stock in U.S. labor force, 226–28. *See also* Asian immigrants; Caribbean, the; Emigrants, Salvadoran; Mexican immigrants
- Immigrants, illegal: educational levels, 228–29; flow of, into U.S., 3–4, 14, 17; uncounted, 226–28
- Immigrant waves: characteristics of new, 45–46; earnings of, 17–18, 26, 30–31; educational levels of, 26; occupational distribution of, 27; skill differentials among, 18, 29–30. *See also* Educational levels; National origin mix; Skill levels; Source countries
- Immigration: as component of demographic change, 17; disruption-of-fertility model

- of, 118–22, 127; effect on U.S. policy of, 11; as form of human capital investment, 100; and supply of less-skilled labor, 8. *See also* Emigration flows; Migration; Out-migration
- Immigration Act (1990), U.S., 1, 3, 14
- Immigration and Nationality Act (1952), U.S.: 1965 Amendments to, 2, 18, 68; national origins and preference quota systems of, 20–21
- Immigration policy, U.S.: changes in, 2, 18–23, 45; skill criterion in, 20–21. *See also* Family reunification policy, U.S.
- Immigration Reform and Control Act (IRCA) 1986: amnesty under, 1, 3; effect of, 14; immigration-effect reports under, 268; legalization of immigration status under, 229
- Industrial distribution: native-immigrant worker, 27–30; of workers in Puerto Rico, 178, 203
- Industries: cross-industry analyses, Puerto Rico, 187–89; export and import, 8, 214, 219
- Intergenerational mobility, 68
- IRCA. *See* Immigration Reform and Control Act
- Kaitz minimum wage index, 184, 186–87, 190, 204
- Labor force: effect of emigration on Salvadoran, 157–59; effect of out-migration on, 142; female participation in, 94; participation estimates for Salvadoran, 139; participation rate for immigrants, 32, 36–41, 45; participation rate for natives-immigrants, 26. *See also* Earnings; Employment; Minimum wage; Unemployment rate; Wage rates; Work force
- Labor market: effect of emigration and remittances on Salvadoran, 149–54, 160; effect of emigration on source country, 3–4, 10–11; effect of emigration on labor market supply, 135; effect of migration on Puerto Rican, 199–203; effect of minimum wage on Puerto Rican, 182–89; effect on immigrants of cyclical change, 30; immigrant assimilation into, 68–69; immigration as force in, 1; performance of national origin groups in, 31–41. *See also* Labor force; Labor supply; Work force
- Labor market, local: effect of immigrant arrivals on, 13–14, 267; native worker response to immigrant arrivals in, 255–57; proportion of immigrants in, 252–53
- Labor supply: decrease in U.S. native worker, 232; effect of trade on, 8, 214–25, 232–33; equivalents of trade, 215–17; factors contributing to changes in, 215–25; factors influencing volume and skill levels, 214; immigrant contribution to U.S., 226–33; of skilled and less-skilled workers, 214; trade and immigration effect on different educational levels of, 233–41. *See also* Work force
- Language differences, 52, 197–99
- Latin America: fertility rates in, 126; increase in immigration from, 43, 93
- Life-cycle earnings, 84, 86
- Mariel Boatlift, 11–12, 261
- Mexican immigrants: applying for legalization of status, 229; earnings levels of, 71–73, 80–82; educational levels of, 70–71, 228; illegal, as ratio of all illegal immigrants, 228
- Middle East: fertility rates in, 126; increase in immigrants from 93
- Migrants, Puerto Rican: characteristics of, 57–61, 178; earnings analysis of, 61–65; employment experience of, 191–93; years of schooling of, 58–61, 193–97. *See also* Nonmigrants, Puerto Rican; Return migrants, Puerto Rican
- Migrant selection: on observable and unobservable characteristics, 55–57; positive, negative, and refugee, 54–55. *See also* Self-selection; Self-selection migration model
- Migration: based on labor supply considerations, 7–8; effect of changes in minimum wage on, 189–99; flow, Puerto Rico–U.S., 49; internal, 11–12, 253–55, 259–61, 265, 267; of natives, 242; Puerto Rican, 50–57, 189–203; Salvadoran, 154–60, 162–66; self-selection model analysis, 53–57, 61–65; within U.S., 51–52. *See also* Out-migration
- Migration behavior model, 247–49
- Migration model, self-selection. *See* Self-selection migration model
- Minimum wage, Puerto Rico: effect on labor market, 54–55, 199–203; employment

- Minimum wage (*continued*)
 effects, 182–89; levels (1950–87), 179–80; regulations, 177–78
- National origin: effect on earnings and wage rates, 39; effect on occupational distribution, 40. *See also* Quota system, U.S.
- National origin mix: changes in immigrant, 2–3, 19–23, 45; as factor in declining immigrant skills, 19, 31–41
- Native workers, U.S.: changes in occupational distribution, 27; characteristics of, 24–27; educational levels of, 229–30; migration of, defined, 252; migration patterns across cities, 253; response to cyclical change, 30; response to immigrant arrivals, 6, 11–12, 254–57, 263, 267
- NBER Immigration, Trade, and Labor Markets Data Files, 217, 218t
- Nonmigrants, Puerto Rican: earnings analysis of, 61–65; years of schooling of, 58–61, 193–97
- Occupational distribution: effect of national origin of immigrants on, 39–41; of native-immigrant workers, 27, 45. *See also* Industrial distribution
- Out-migration: from El Salvador, 136; from U.S., of immigrants, 18
- Political conditions: in Central America and the Caribbean, 135; effect of changes in, 45, 94; effect on Puerto Rican migration, 65
- Quota system, national origins (U.S.): disintegration of, 20–23; enactment of (1920), 19–20; pre-1965, 2.
- Quota system, preference (U.S.), 20
- Refugees/asylum seekers, 21–22, 109
- Remittances, El Salvador: calculations of, 167–69; effect on exchange rate, 159; effect on labor market, 6, 149–54; estimated volume of, 136–38, 151, 153; macroeconomic effect of, 154–59; role of, 11, 135
- Resident population, Puerto Rico. *See* Nonmigrants, Puerto Rican
- Return migrants, Puerto Rican: characteristics of, 56–57, 61, 65; earnings analysis of, 61–65; flow of, 49–50; predicted wage rates of, 65; years of schooling of, 58–60
- Selection model. *See* Self-selection migration model
- Self-selection: as factor in lower immigrant fertility rates, 101; of immigrant women as low-fertility group, 6, 99, 121, 126; of migrants in Puerto Rico, 194–95; among Salvadoran emigrants, 139; theory of, 43. *See also* Fertility rates; Immigrant flow; Migrant selection; Migration; Women, immigrant
- Self-selection migration model: Borjas version, 50, 53–57, 61–65; Roy version, 43, 53, 65
- Skill levels: changing distribution of immigrant, 6–7, 70–73; decline in immigrant, 31–41, 73; differentials among immigrant waves, 18; differentials in U.S. export and import industries, 8, 214, 219; education as indicator of, 70, 197; effect of national origin on, 40–41, 44; effect on earnings, 233–41; of immigrants in labor market, 32–41, 45; influence of trade on, 8, 232–33; native-immigrant comparison, 84; of Puerto Rican migrants, 61, 65; of U.S. labor supply, 219–23, 232–33. *See also* Education; Educational levels; Years of schooling
- Source countries: change in mix of, 2–3, 22, 69; earnings of migrants from different, 71–73; economic and political changes in, 45, 94; economic development of, 6, 44–45; effect of differences in characteristics of, 42–45, 122–26; effect on emigration of conditions in, 18–19; and fertility rates, 93–94, 100, 103–11, 121–26; frequencies of immigrants from, 128–29; levels of education in, 42; returns to education in, 61, 64, 195–96; returns to skills in, 43. *See also* National origin mix
- Standard Metropolitan Statistical Areas (SMSAs), 246, 253–54
- Trade: effect on educational levels, 233–41; effect on labor supply, 223–25; effect on skills, 8, 219–23, 232–33; labor supply equivalent of, 215–17

Books of Related Interest

Immigration, Trade, and the Labor Market

Edited by John M. Abowd and Richard B. Freeman

A provocative and comprehensive study of the labor market impact of the international movements of people, goods, and capital. The volume includes examinations of the United States, Canada, and Australia.

An NBER Project Report

American Immigration, Second Edition

Maldwyn Allen Jones

This new edition covers the major changes in immigration patterns to the United States through 1990, addressing the effects of such important legislation as the Immigration and Nationality Act of 1965. "It is done with a grasp of regional, chronological, national, and racial information, plus that 'feel' for the situation which can come only from vast resources and a gift for interpretation."—A. T. DeGroot, *Christian Century*

Chicago History of American Civilization Series,
edited by Daniel J. Boorstin

Structuring Diversity

Ethnographic Perspectives on the New Immigration

Edited by Louise Lamphere

Anthropologists and sociologists reveal what it's like to be an immigrant in the United States in the 1990s, offering vivid and detailed accounts of everyday interactions at work, in housing arrangements, on neighborhood streets, and in schools, community organizations, and local governments.
