Prefatory Note

This volume of *Studies in Income and Wealth* is devoted to a discussion of regional income. It contains the ten papers which were prepared for the Conference on Research in Income and Wealth held in June 1955, together with the comments of participants.

We express our appreciation to Duke University for being host to the Conference. The program committee consisted of Charles F. Schwartz, Chairman, Walter Isard, and Frank A. Hanna. Mr. Hanna has also served as editor of this volume. H. Irving Forman prepared the charts and maps and Mary C. Wing saw the volume through the press.
