ASA/NBER Business Outlook Survey: First Quarter 1977	188
EXPLORATIONS 1976: CONTENTS AND AUTHOR'S INDEX	

National Bureau of Economic Research is a private, nonprofit organization founded in 1920 as a center for independent and impartial economic research. In the belief that such research can contribute significantly to the sound treatment of economic problems, it has sought to conduct its activities under conditions that safeguard the scientific nature of the findings and help make them authoritative and acceptable to persons of different interests and opinions. The National Bureau is supported by grants from philanthropic foundations, business associations, and various government agencies for particular studies; by investment income on capital sum grants; and by unrestricted contributions and subscriptions from companies, banks, labor organizations, foundations, and individuals. Further information regarding contributions can be obtained from the office of Sam Parker, Director of Finance and Administration, National Bureau of Economic Research, Inc., 261 Madison Avenue, New York, N.Y. 10016.

NATIONAL BUREAU OF ECONOMIC RESEARCH
OFFICERS

Arthur F. Burns, <i>Honorary Chairman</i>	Charles E. McLure, Jr., <i>Executive Director of Research</i>
James J. O'Leary, <i>Chairman</i>	Douglas H. Eldridge, <i>Executive Secretary</i>

Martin S. Feldstein	Irving B. Kravis	Robert T. Michael	Anna J. Schwartz
Milton Friedman	Anne O. Krueger	Jacob Mincer	Edward K. Smith
Victor R. Fuchs	David T. Kresge	Ilse Mintz	Robert J. Willis
J. Royce Ginn	Edwin Kuh	Geoffrey H. Moore	Victor Zarnowitz

Explorations in Economic Research is designed to expedite publication and increase the exposure of research findings generated within the program of the National Bureau of Economic Research. NBER staff members, who work in such areas as economic growth, business cycles including studies of inflation and inflationary expectations, industrial organization and location, transportation and regional development, corporate and public finance, human capital, housing, and natural resources and environmental concerns, are invited to submit papers. While on occasion, all or a large portion of an issue may be focused on a particular subject area, in general the opportunity to assemble special issues will be relinquished in order to reduce delays between the completion and publication of research results. We hope that *Explorations in Economic Research* proves to be a flexible and convenient publication, responsive to the needs of both those who participate in the National Bureau's research program and those who take an interest in or benefit from its research product.

Since the present volume is a record of conference proceedings, it has been exempted from the rules governing submission of manuscripts to, and critical review by, the Board of Directors of the National Bureau.

RELATION OF THE DIRECTORS TO THE WORK AND PUBLICATIONS OF THE NATIONAL BUREAU OF ECONOMIC RESEARCH

1. The object of the National Bureau of Economic Research is to ascertain and to present to the public important economic facts and their interpretation in a scientific and impartial manner. The Board of Directors is charged with the responsibility of ensuring that the work of the National Bureau is carried on in strict conformity with this object.

2. The President of the National Bureau shall submit to the Board of Directors, or to its Executive Committee, for their formal adoption all specific proposals for research to be instituted.

3. No research report shall be published by the National Bureau until the President has sent each member of the Board a notice that a manuscript is recommended for publication and that in the President's opinion it is suitable for publication in accordance with the principles of the National Bureau. Such notification will include an abstract or summary of the manuscript's content and a response form for use by those Directors who desire a copy of the manuscript for review. Each manuscript shall contain a summary drawing attention to the nature and treatment of the problem studied, the character of the data and their utilization in the report, and the main conclusions reached.

4. For each manuscript so submitted, a special committee of the Directors (including Directors Emeriti) shall be appointed by majority agreement of the President and Vice Presidents (or by the Executive Committee in case of inability to decide on the part of the President and Vice Presidents), consisting of three Directors selected as nearly as may be one from each general division of the Board. The names of the special manuscript committee shall be stated to each Director when notice of the proposed publication is submitted to him. It shall be the duty of each member of the special manuscript committee to read the manuscript. If each member of the manuscript committee signifies his approval within thirty days of the transmittal of the manuscript, the report may be published. If at the end of that period any member of the manuscript committee withholds his approval, the President shall then notify each member of the Board, requesting approval or disapproval of publication, and thirty days additional shall be granted for this purpose. The manuscript shall then not be published unless at least a majority of the entire Board who shall have voted on the proposal within the time fixed for the receipt of votes shall have approved.

5. No manuscript may be published, though approved by each member of the special manuscript committee, until forty-five days have elapsed from the transmittal of the report in manuscript form. The interval is allowed for the receipt of any memorandum of dissent or reservation, together with a brief statement of his reasons, that any member may wish to express; and such memorandum of dissent or reservation shall be published with the manuscript if he so desires. Publication does not, however, imply that each member of the Board has read the manuscript, or that either members of the Board in general or the special committee have passed on its validity in every detail.

6. Publications of the National Bureau issued for informational purposes concerning the work of the Bureau and its staff, or issued to inform the public of activities of Bureau staff, and volumes issued as a result of various conferences involving the National Bureau shall contain a specific disclaimer noting that such publication has not passed through the normal review procedures required in this resolution. The Executive Committee of the Board is charged with review of all such publications from time to time to ensure that they do not take on the character of formal research reports of the National Bureau, requiring formal Board approval.

7. Unless otherwise determined by the Board or exempted by the terms of paragraph 6, a copy of this resolution shall be printed in each National Bureau publication.

(Resolution adopted October 25, 1926, as revised through September 30, 1974)
