Other Related Press Releases:

April 12, 2010  
January 7, 2008  
October 21, 2003  
December 21, 1990  
December 31, 1979  
October 25, 1979  
July 27, 1979

Prior to 1979, there were no formal announcements of business cycle turning points.

---

The NBER does not define a recession in terms of two consecutive quarters of decline in real GDP. Rather, a recession is a significant decline in economic activity spread across the economy, lasting more than a few months, normally visible in real GDP, real income, employment, industrial production, and wholesale-retail sales. For more information, see the latest announcement from the NBER's Business Cycle Dating Committee, dated 9/20/10.
