Disability and Technology  
Access to Health Care  
Health Disparities  
Innovation and Health

*\*Financial Support provided by  
the National Institute on Aging.  
All awards are subject to  
continued funding.*

NBER's pre-doctoral fellowship program, funded by the National Institute on Aging under the direction of Professor David A. Wise, gives pre-doctoral fellows exposure to a wide range of NBER research projects related to the economics of aging and health care. Participating fellows pursue independent research while benefiting from opportunities for regular interaction with the Bureau's large network of prominent investigators working in this field. More information about research priorities for this fellowship may be found at <https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-025.html>

Fellows receive a 12 month stipend of \$22,920; carrel space and use of computer facilities at the Bureau's Cambridge office; tuition support; and limited funds for travel and research expenses.

### Eligibility

Applicants must be

- US citizens, non-citizen nationals, or lawfully admitted to the US for *permanent* residence
- Enrolled in a PhD program in the greater-Boston area

*Note:* We will consider applications from students enrolled in other PhD programs who are resident in the Boston area during the fellowship period.

NBER encourages applications from individuals from under-represented racial and ethnic groups; individuals with disabilities; and individuals from disadvantaged backgrounds.

### Application Materials Required

- Resume or CV
- Brief Summary (no more than 500 words) of academic background and research interests
- Names and contact info of two academic references

National Bureau of Economic Research
