**Financial Support provided by
the National Institute on Aging.
All awards are subject to
continued funding.*

NBER's pre-doctoral fellowship program, funded by the National Institute on Aging under the direction of Professor David Cutler and Professor Amy Finkelstein, gives trainees exposure to a wide range of NBER research projects related to the economics of aging and health. Participating fellows pursue independent research while benefiting from opportunities for regular interaction with the Bureau's large network of prominent investigators in this field. For information about research priorities for this fellowship please refer to <https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-025.html>

Fellows receive a 12-month stipend of \$23,376; carrel space and use of computer facilities at the Bureau's Cambridge office; tuition support; and limited funds for travel and research expenses.

Eligibility

Applicants must be

- US citizens, non-citizen nationals, or lawfully admitted to the US for *permanent* residence
- Enrolled in a PhD program in the greater-Boston area

Note: We will consider applications from students enrolled in other PhD programs who are resident in the Boston area during the fellowship period.

NBER encourages applications from individuals from under-represented racial and ethnic groups; individuals with disabilities; and individuals from disadvantaged backgrounds.

Application Materials Required

- Resume or CV
- Brief Summary (no more than 500 words) of academic background and research interests
- One faculty recommendation, entered here: <https://goo.gl/forms/6WG1IQRVXJF68Wcg1>

Applicants should forward the link to their advisor when asking for the recommendation.
