

2019—2020*

An Invitation to NBER's

Fellowship Program in Aging & Health Research

National Bureau of Economic Research

Participating fellows pursue independent research while benefitting from:

Opportunities for regular interaction with the Bureau's **large network of prominent investigators** in this field

Inclusion in **NBER's vibrant research community**, with access to many seminar series in Cambridge/Boston

Excellent **group of young scholars**

Invitations to the **NBER Summer Institute Workshops** on Aging and Health Care

Access to **NBER's extensive data collection**, including Medicare data, with full-time IT support

***Financial support** for this program is provided by the National Institute on Aging and the National Bureau of Economic Research. Appointees must be US citizens or lawfully admitted for **permanent** residence.*

NBER strongly encourages applications from women, minorities, people with disabilities, and veterans

NBER's Fellowship Program in Aging and Health Research enables outstanding early-career economists to visit NBER's Cambridge office for one year of intensive research. Applications from researchers who are just completing their PhDs, as well as from junior faculty members who may be able to combine this fellowship with an early career leave, are welcome.

The fellowship offers a 12-month stipend of \$80,000-\$92,500 (depending on years of experience), reimbursement for health insurance, limited research expenses, and an office at the NBER's Cambridge headquarters. Fellows are expected to spend the academic year at the NBER, and fellowship-related activities are expected to represent their primary responsibility during the year.

Successful applications will respond to NIH priorities for Health Economics Research, and describe projects in which health outcomes and behaviors are the primary focus, with a clear and explicit connection to an improved understanding of health. (<https://grants.nih.gov/grants/guide/notice-files/NOT-OD-16-025.html>)

Eligibility

Applications are being accepted for the 2019-20* academic year. Applicants must have completed a PhD before they begin the program, and must be US Citizens or *permanent* residents.

Application Materials Required

- ◆ CV
- ◆ Job Market Paper
- ◆ Recommendation Letters
- ◆ Research statement on future planned research (up to 3 pages of text, 2 pages of tables/graphs, 1 page references)
