*\*Financial Support provided by  
the National Institute on Aging.  
All awards are subject to  
continued funding.*

NBER's pre-doctoral fellowship program, funded by the National Institute on Aging under the direction of Professor David A. Wise, gives pre-doctoral fellows exposure to a wide range of NBER research projects related to the economics of aging and health care. Participating fellows pursue independent research while benefiting from opportunities for regular interaction with the Bureau's large network of prominent investigators working in this field.

Fellows receive a 12 month stipend of \$21,600 as well as carrel space, use of computer facilities at the Bureau's Cambridge office, tuition support, and limited funds for travel and research expenses.

### Eligibility

Applicants must be

- enrolled in a PhD program in the greater-Boston area, *and*
- US citizens, non-citizen nationals, or lawfully admitted to the US for *permanent* residence.

NBER encourages applications from individuals from under-represented racial and ethnic groups; individuals with disabilities; and individuals from disadvantaged backgrounds.

### Application Materials Required

- Resume or CV
- Brief Summary (no more than 500 words) of academic background and research interests
- Names and contact info of two academic references
