

Stanford

Matthew Gentzkow

BROWN

Jesse M. Shapiro

RESEARCH ASSISTANT

We are looking for highly skilled and motivated individuals to work as our full-time research assistants for a period of at least one year. The positions will be based at the Stanford Economics Department and the Stanford Institute for Economic Policy Research (SIEPR). We hire on an ongoing basis and the starting date is negotiable.

The job will entail close collaboration on a number of new and ongoing projects in applied microeconomics. We structure the work to provide the experience and skills needed for success in graduate school. Previous holders of this position have gone on to Ph.D. programs at Stanford, Harvard, MIT, Princeton, and the University of Chicago.

The ideal candidate will: (i) have a strong quantitative background; (ii) have strong computer science and programming skills; (iii) be able to work independently to solve problems; and (iv) have a long-term interest in pursuing research in economics. Background in economic research is a plus, but not necessary – we welcome candidates with strong technical backgrounds who are looking for more exposure to economics.

If interested, please submit a cover letter, CV, and copies of your transcripts by following the link [here](#).
