1. *Thomomys talpoides* (Gmelin) 2. *Peromyscus maniculatus* (Linnaeus) 3. *Peromyscus boylii* (Gray)

One student left (about) a week ago.

(M) Manufacturing by itself is a waste.

(1) *Faculteit en cultuur en identiteit* [Faculteit en cultuur en identiteit]

(9) **What is the best way to prevent a recurrence?**

The term "white balance" refers to the adjustment of the camera's color reproduction to match the color temperature of the light source.

It is a well-known fact that the number of species per genus in a family is correlated with the number of genera in the family. This correlation is positive and significant (Simpson, 1949).
