## ABSTRACT

*Survey of Income and Program Participation (SIPP) 2001 Panel Wave 7 Core Microdata File, [machine-readable data file] / conducted by the U.S. Bureau of the Census. -Washington: The Bureau [producer and distributor], 2005.*

### Type of File

Microdata; unit of observation is an individual.

### Universe Description

The universe is the resident population of the United States, excluding persons living in institutions and military barracks.

### Subject-Matter Description

The file contains basic demographic and social characteristics data for each member of the household. These include age, sex, race (White; Black; American Indian, Aleut, and Eskimo; Asian or Pacific Islander), ethnic origin (34 categories including 9 Spanish origin categories), marital status, household relationship, education, and veteran status. Limited data are provided on housing unit characteristics such as units in structure, tenure, and access. Core questions, which are repeated at each interview, cover labor force activity, types and amounts of income, and participation in various cash and noncash benefit programs for each month of the four-month reference period. Data for employed persons include number of hours and weeks worked, earnings, and weeks without a job. Nonworkers are classified as unemployed or not in the labor force. In addition to income data associated with labor force activity, data include nearly 50 other types of income. Core data also cover post secondary school attendance, public or subsidized rental housing, low-income energy assistance, and school breakfast and lunch participation.

The sample in each wave consists of 4 rotation groups, each interviewed in a different month. For Wave 7, the interview months are from February 2003 to May 2003. For each group, the reference period for reporting labor force activity and income is the four calendar months preceding the interview month.

SIPP is a longitudinal survey where each sampled household and each descendent household is reinterviewed at 4-month intervals for 9 interviews or "waves." This file contains the results of the **Seventh** interview. Unique codes are included on each record to allow linking together the same persons from the preceding and subsequent waves.

### Geographic Coverage

United States. Codes are included for 45 individual States and the District of Columbia, **although the sample was not designed to produce State estimates**. Areas in the SIPP sample in the other States are identified in groups for confidentiality reasons. The file identifies a subsample of metropolitan residents, along with codes for selected metropolitan statistical areas (MSA's), consolidated metropolitan statistical areas (CMSA's) and primary metropolitan statistical areas (PMSA's).

## Technical Description

**File Structure:** Rectangular. Each logical record for a sampled person includes information on the household and family of which the person was a part during each month of the reference period, as well as characteristics of the person and each source of income received during the period. Beginning in 1990 the unit observation changed from one record for each person to **one record for each person for each month in sample**.

**File Size:** 274,651 logical records; 2,192 characters per record

**File Sort Sequence of Sample Units:** Sampling unit sequence number, by entry address ID, by person number within sampling unit and reference month.

## Reference Materials

*Survey of Income and Program Participation (SIPP) 2001 Panel, Wave 7 Core Microdata Files Technical Documentation.* The documentation includes this abstract, the data dictionary, an index to the data dictionary, relevant code lists, questionnaire facsimiles, and general information on SIPP.

*Survey of Income and Program Participation Users' Guide.* *The Users' Guide* contains a general overview of the file as well as chapters on survey design and content, structure and use of cross-sectional files, linking waves and reliability of the data. It is available at <http://www.sipp.census.gov/sipp/pubs.html>

## Related Reports Online and in Print:

Related reports include working papers, compilations of papers presented at annual meetings of the American Statistical Association, articles appearing in the *Journal of Economic and Social Measurement*, and reports in the P-70 series of the Current Population Reports. These reports are available online in PDF in the Publications Library at <http://www.census.gov/prod/www/titles.html> and in some cases in printed form from the Customer Services Center. Forthcoming reports will be cited in the *Census Product Update*, an online newsletter issued every two weeks. To subscribe or to view past issues, go to <http://www.census.gov/mp/www/cpu.html>

## Related Machine-Readable Data Files:

SIPP files from all Waves of the 1984 through 1993 Panels, 1996 Panel, and 2001 Panel are available from the Customer Services Center. Files (1990 forward) may be downloaded from the Federal Electronic Research and Review Extraction Tool (FERRET) at <http://www.ferret.bls.census.gov/cgi-bin/ferret>

## File Availability:

You can order the file on disc from the Customer Services Center at (301) 763-INFO (4636) or through our online sales catalog (click "Catalog" on the Census Bureau's home page). This file also may be downloaded from the Federal Electronic Research and Review Extraction Tool (FERRET) at <http://www.ferret.bls.census.gov/cgi-bin/ferret>

## FILE INFORMATION

### Person Month File

The use of the SIPP public use data over the past four years has taught us a number of lessons. Foremost in those lessons is that the relational file structure is too complex for nearly all users. A close second is that the rectangular file, developed to simplify the relational file, is still too complicated for most users. We have also learned a number of ways to aid users in getting through the complexity of the rectangular file and have distributed those wherever possible. But the root of this lesson is that a public use file that is simpler than the current rectangular file is needed.

This solution does not provide a simpler file structure. In fact the person-month file structure is more complex than the rectangular person level file. What this solution provides is simplification and consistency to the content of the SIPP files. That simplification is achieved by coding everything to the monthly level.

The most confusing aspect of the SIPP data for most users is time. Data in SIPP are collected for particular weeks, all weeks, months, two or more months, and all months in the reference period. Disaggregating data collected for several months and aggregating data collected below the monthly level provide a variety of sources of confusion and error. The person-month structure puts all data at the month level with the appropriate aggregation or disaggregation.

The person-month structure is a natural unit because the basic building block of SIPP data is the month. All income, with the exception of a few asset income amounts, are collected at the monthly level and all household and family relationships are defined on a month-by-month basis. In collecting the data we have chosen to identify all changes except labor force changes as occurring between months. Data on labor force participation is given at both the weekly and monthly level. Changes in age and marital status occur from month-to-month. Income is recorded and recoded in monthly amounts. Data on participation in means-tested transfer programs is recorded on a monthly basis. You are considered a participant for a month, not on a week-by-week basis.

When analysts look at the SIPP data they see a large array of monthly and non-monthly data. Their problem then is to disaggregate the non-monthly data down to the month. In some cases this has been done for them. Households and families and their characteristics are defined on a monthly basis. But for most analysis there is considerable information that is carried only once per interview, or once for every four months, that must be disaggregated to the months. The person-month structure solves this problem by carrying all data at the monthly level. This requires a simple and straight forward assumption that the non-monthly data collected in the interview is the best proxy for the months covered by that interview.

A second source of confusion in the SIPP data is the volume of data combined with the presence of duplicated data. When the SIPP data were first released the Census Bureau chose to include all data, both collected and recoded, on the public use files. For those with experience with the survey, this was a valuable service. Edit routines could be checked by comparing the edited and unedited variables. Recodes could be checked by looking at the source codes used to develop these recodes. Universes could be determined by following through the skip patterns in the survey.

For most users this abundance of data results in confusion. It is difficult to understand why there are eight variables labeled sex in the file or why there are several variables that identify whether or not the

person is a parent or guardian. Most users are expecting only one variable for each concept, not two or more.

## **Goals of the Redesign**

This redesign effort is aimed at solving the problems of time and duplication on the SIPP public use data files. Time is simplified by carrying all variables on the monthly records. Data duplication is simplified by eliminating most if not all of the variables carried more than once per month. The third goal of this redesign is to reduce the total number of variables necessary and to impose a simple logical structure to the record layout. This paper will describe the record layout for a single month of data.

In order to eliminate duplicate data, the general principle followed here is to eliminate all unedited variables that also exist in edited form. All source codes that are carried in recoded or edited fields are also eliminated.

In order to reduce the number of variables on SIPP files, several variables have been eliminated. All check items have been eliminated. They carry information that is from other parts of the questionnaire or control card and are not edited. Creating person-month records also reduces the number of variables by a factor of four. A single record layout describes all of the variables available for a single month. That record is then repeated for each month.

## **Defining the Monthly Record**

There are certain structural elements of the current record layout that are useful to maintain in the person-month record. Household and family characteristics and aggregates are difficult to create regardless of how the file is structured, and there is little reason for each user to independently derive these aggregates. Thus the beginning of each monthly record shows the household, family, and subfamily characteristics created by the Census Bureau. Following those are person characteristics.

There are three basic kinds of person characteristics collected in the SIPP data: 1) demographic characteristics such as age, marital status, and education; 2) labor force and reciprocity characteristics collected in section 1 of the questionnaire; and 3) job and income characteristics collected in sections 2 and 3 of the questionnaire.

The first set of person characteristics at the monthly level are the standard age, sex, race, and education variables. In addition, this section shows critical status characteristics like interview status and reason for exit are carried. The demographic characteristics are followed by a series of labor force participation items which describe the weekly labor force data that go into the monthly employment status recode (RMESR). The RMESR variable defines monthly labor force participation in eight categories. Weekly labor force data are recoded into a similar employment status variable. This section also carries a set of income recodes for total income, earnings, property income, means-tested cash transfers, and other income.

Data on jobs held follow the labor force participation data, and some editing is needed to adequately present these data. Currently SIPP carries space for two wage and salary jobs and two self-employment jobs for each individual. This is done because it is possible for a person to have more than one job during the four month period. For example, anyone who changes employer during the reference period is considered to have two jobs during the four months. It is also possible for a person to hold two jobs

simultaneously (dual job holders). The difficulty that arises from this is that there is no simple way to distinguish job 1 from job 2. For some respondents it represents a change in employer and job 1 covers the first two months of the reference period and job 2 the last two months. For others, both jobs are held simultaneously. For still others, the two jobs are held simultaneously for a brief period of transition from one to the other. Each interviewer is instructed about which job to list as job 1 and job 2; however, no edit is performed to make sure those rules are followed. In addition, the instructions give the interviewer a choice of listing first the job lasting the longest or the job earning the most money.

These same situations can occur in any given month, although the chances for confusion are somewhat less. In this file, data for job 1 and job 2 will be presented for dual job holders. In all other cases the job for which the person earned the most money during the 4 month period will be listed as job 1 and job 2 will be the job for which the person earned the second largest amount of money during the monthly periods. There will also be a new recode created indicating whether this person has job information for 0, 1, or 2 jobs this month. This same procedure will be used for persons with more than one reported self-employment job in a given month. Earnings for each job are presented separately.

Data on each of the 39 sources of other income collected in SIPP follow the data on self-employment. This section contains a single field for each income source, and imputation flags that show that an amount was imputed.

The last section of the monthly record contains information on asset income. Asset income is collected as a single amount for the four month period, and in most cases for a set of income sources. Asset income also is collected for both joint and individual reciprocity. For example, a single amount is collected for individual interest income received during the four month reference period. That amount includes interest from regular savings accounts (ISS100), money market deposit accounts (ISS101), certificates of deposit (ISS102), and interest from NOW or super NOW accounts (ISS103). A second amount is recorded for one member of the household on interest from those sources where the account was owned jointly with another adult member of the household.

The asset income section contains a monthly value for each of the amounts collected in the questionnaire. The reference period amount is divided by four to get the monthly amount. In addition, joint income is split evenly between husband and wife. This section also carries an indicator for each source of income. If an individual has interest from both a regular savings account and a NOW account, both will be indicated. Of course, there is no way to allocate the income to these sources separately since separate information was not collected to begin with.

## **Geographic Coverage**

State codes are shown except for nine States which are identified in three groups. A subsample of metropolitan residents is identified along with codes for selected metropolitan statistical areas (MSA's) and consolidated metropolitan statistical areas (CMSA's). **The sample was not designed to produce State or MSA/CMSA level estimates.** State codes are primarily useful in relating a respondent's reciprocity of benefits to thresholds which may vary from State to State. MSA/CMSA codes may be used in relating respondent characteristics with contextual variables.

## **Identification Number System**

The SIPP identification scheme is designed to uniquely identify individuals in each wave, provide a means of linking the same individuals over time, and group individuals into households and families over time.

The various components of the identification scheme are listed below:

- Sample Unit Identification Number
- Address ID
- Entry Address ID
- Person Number

The sample unit identification number was created by scrambling together the PSU, segment, and serial numbers used for Census Bureau administrative purposes. This identifier is constructed the same way on each wave regardless of moves, to enable matching from wave to wave.

The two-digit address ID code identifies each household associated with the same sample unit identification number. The first digit of the address ID code indicates the wave in which that address was first assigned for interview. The second digit sequentially numbers multiple households that have the same serial number. The address ID code is 11 for all sample addresses in Wave 1. As SIPP sample persons move to new addresses, new address ID codes are assigned. Any new address to which sample unit members moved during Wave 4 is numbered in the 40's.

The person ID is a five-digit number consisting of the two-digit entry address ID and a three-digit person number. Person numbers 101, 102, etc., are assigned in Wave 1; 201, 202, etc., are assigned to persons added to the roster in Wave 2, and so forth. This five-digit number is not changed or updated, regardless of moves.

The sampling unit serial number and address ID code uniquely identifies each household in any given wave. The sampling unit serial number can link all households in subsequent waves back to the original Wave 1 household.

## **Topcoding of Income Variables**

To protect against the possibility that a user might recognize the identity of a SIPP respondent with very high income, income from every source is "topcoded" so that no individual income amounts above \$150,000 are revealed. While the data dictionary indicates a topcode of 50,000 for monthly income, this topcode will rarely be used. In most cases the monthly income is shown as an individual dollar amount of \$12,500, with \$12,500 actually representing "\$12,500 or more." (the \$150,000 annual income topcode is \$12,500 multiplied by 12 months). Individual monthly amounts above \$12,500 may occasionally be shown if the respondent's income varied considerably from month to month, as long as the average does not exceed \$12,500. For example, if a respondents' income from a single job were concentrated in only one of the four reference months, a figure as high as \$50,000 could be shown. (Income from interest or property have lower topcodes).

Summary income figures on the person, family, and household records are simple sums of the components shown on the file after topcoding, and are not independently topcoded. Thus, a person with high income from several sources (jobs, businesses, property) could have aggregate monthly income well over the topcode for each source. Families and households with a number of high income members could theoretically have aggregate income shown well over \$150,000, though well below the \$1.5 million shown as the highest allowable value in the data dictionary.

The user is cautioned against trying to make much use of the occasional monthly figures above \$12,500, except in calculating aggregates or observing patterns across the 4-month period for a single individual, family, or household. Those units with higher monthly amounts shown are a biased sample of high income units, more likely to include units with income from multiple sources than other units with equally high aggregate income which comes from a single source.

## GLOSSARY OF SELECTED TERMS

**Absent 1 or more weeks.** Absent 1 or more weeks means absent without pay from a job or business. Persons were absent without pay in a month if they were “with a job” during the entire month, but were not at work at that job during at least 1 full week (Sunday through Saturday) during the month, and did not receive wages or a salary for any time during that week. Reasons for an unpaid absence include vacation, illness, layoff, bad weather, labor disputes, and waiting to start a new job.

**Family household.** A family household is a household maintained by a family; any unrelated persons (unrelated subfamily members and/or secondary individuals) who may be residing there are included. The number of family households is equal to the number of families. The count of family household members differs from the count of family members, however, in that the family household members include all persons living in the household, whereas family members include only the householder and his/her relatives.

**Family.** A family is a group of two or more persons (one of whom is the householder) related by birth, marriage, or adoption and residing together; all such persons (including related subfamily members) are considered members of one family.

**Farm-nonfarm residence.** The farm population refers to rural residents living on farms. Under this definition, a farm is any place in rural territory from which sales of crops, livestock, and other agricultural products amounted to \$1,000 or more during the previous 12-month period.

**Full-time and part-time.** The data on full- and part-time workers pertain to the number of hours a person usually worked per week during the weeks worked in the 4-month reference period of the survey. If the hours worked per week varied considerably, the respondent was asked to report an approximate average of the actual hours worked each week.

Persons 16 years old and over who reported usually working 35 or more hours each week during the weeks they worked are classified as “full-time” workers; persons who reported that they usually worked fewer than 35 hours are classified as “part-time” workers. The same definitions are used in the CPS.

**Household.** A household consists of all persons who occupy a housing unit. A house, an apartment or other group of rooms, or a single room is regarded as a housing unit when it is occupied or intended for occupancy as separate living quarters; that is, when the occupants do not live and eat with any other persons in the structure and there is either (1) direct access from the outside or through a common hall or (2) a kitchen or cooking equipment for the exclusive use of the occupants.

A household includes the related family members and all the unrelated persons, if any, such as lodgers, foster children, wards, or employees who share the housing unit. A person living alone in a housing unit or a group of unrelated persons sharing a housing unit as partners is also counted as a household. The count of households excludes group quarters. Examples of group quarters include rooming and boarding houses, college dormitories, and convents and monasteries.

**Householder.** Survey procedures call for listing first the person (or one of the persons) in whose name the home is owned or rented. If the house is owned jointly by a married couple, either the husband or the wife may be listed first, thereby becoming the reference person, or householder, to whom the relationship of the other household members is recorded. One person in each household is designated as the “householder.” The number of householders, therefore, is equal to the number of households.

**Layoff.** In general, the word “layoff” means release from a job because of slack work, material shortages, inventory taking, plant remodeling, installation of machinery, or other similar reasons. For this survey, persons were also on “layoff” who did not have job but who responded that they has spent at least 1 week on layoff from a job and that they were available to accept a job.

In addition, persons were on “layoff” in a given month if they were 16 years old or over and (a) were “with a job” but “absent without pay” from that job for at least 1 full week during that month, and (b) they responded that their main reason for being absent from their job or business was “layoff.” “On layoff” also includes a small number of persons who responded that they were waiting to report to a new wage and salary job that was to begin within 30 days. In other words, persons waiting to begin a new job are classified together with persons waiting to return to a job from which they have been laid off.

**Looking for work.** Persons who “looked for work” in a given month are those who were 16 years old or over and (a) were without a job during at least 1 week during the month, (b) tried to get work or establish a business or profession in that week, and (c) were available to accept a job. Examples of jobseeking activities are (1) registering at a public or private employment office, (2) meeting with prospective employers, (3) investigating possibilities for starting a professional practice or opening a business, (4) placing or answering advertisements, (5) writing letters of application, and (6) being on a professional register.

The CPS uses a similar concept of “looking for work.” The term “unemployed” as used in the CPS includes persons who were looking for work in the reference week and those who were “on layoff” or “waiting to begin a new job in 30 days.”

**Low-Income Home Energy Assistance Program.** Benefits from the Federally funded LIHEAP authorized by Title XXVI of the Omnibus Budget Reconciliation Act of 1981, or comparable assistance provided through State funded assistance programs, may be received in the form of direct payment to the household as reimbursement for heating or cooling expenses or paid directly to the fuel dealer or landlord.

**Means-tested benefits.** The term means-tested benefits refers to programs that require the income or assets (resources) of the individual or family be below specified guidelines in order to qualify for benefits. These programs provide cash and noncash assistance to the low-income population.

**Medicaid.** This term refers to the Federal-State program of medical assistance for low-income individuals and their families as provided for by Title XIX of the Social Security Act. The phrase “Medicaid covered” refers to persons enrolled in the Medicaid program, regardless of whether they actually utilized any Medicaid covered health care services during the survey reference period.

**Medicare.** This term refers to the Federal Health Insurance Program for the Aged and Disabled as provided for by Title XVIII of the Social Security Act. The phrase “Medicare covered” refers to persons enrolled in the Medicare program, regardless of whether they actually utilized any Medicare covered health care services during the survey reference period.

**Monthly income.** The monthly income estimates for households are based on the sum of the monthly income received by each household member age 15 years old or over.

Rebates, refunds, loans, and capital gain or loss amounts from the sale of assets, and interhousehold transfers of cash such as allowances are not included. Accrued interest on Individual Retirement Accounts, KEOUGH retirement plans, and U.S. Savings bonds are also excluded. This definition differs somewhat from that used in the annual income reports based on the March CPS Income supplement questionnaire. These data, published in the Consumer Income Series, P-6O, are based only on income received in a regular or periodic manner and, therefore, exclude lump-sum or one-time payments such as inheritances and insurance settlements. The March CPS income definition, however, does exclude the same income sources excluded by SIPP.

The income amounts represent amounts actually received during the month, before deductions for income and payroll taxes, union dues, Part B Medicare premiums, etc.

The SIPP income definition includes three types of earnings: wages and salary, nonfarm self-employment, and farm self-employment. The definition of nonfarm self-employment and farm self-employment is not

based on the net difference between gross receipts or sales and operating expenses, depreciation, etc. The monthly amounts for these income types are based on the salary or other income received from the business by the owner of the business or farm during the 4-month reference period.

The Bureau of Labor Statistics publishes quarterly averages for an earnings concept called “usual weekly earnings” for employed wage and salary workers. The concept differs from the SIPP earnings concept since it is based on usual, not actual earnings, excludes the self-employed, and excludes earnings from secondary jobs.

While the income amounts from most sources are recorded monthly for the 4-month reference period, property income amounts, interest, dividends, rental income, etc., were recorded as totals for the 4-month period. These totals were distributed equally between months of the reference period for purposes of calculating monthly averages.

**Nonfamily household.** A nonfamily household is a household maintained by a person living alone or with nonrelatives only.

**Persons of Spanish origin.** Persons of Spanish origin were determined on the basis of a question that asked for self-identification of the person’s origin or descent. Respondents were asked to select their origin (or the origin of some other household member) from a “flash card” listing ethnic origins. Persons of Spanish origin, in particular, were those who indicated that their origin was Mexican, Puerto Rican, Cuban, Central or South American, or some other Spanish origin. It should be noted that persons of Spanish origin may be of any race.

**Population coverage.** The estimates are restricted to the civilian noninstitutional population of the 50 States and members of the Armed Forces living off post or with their families on post.

**Race.** The population is divided into groups on the basis of race: White; Black; American Indian, Eskimo, or Aleut; Asian or Pacific Islander; and “other races.”

**Special Supplemental Food Program for women, Infants, and Children (WIC).** Benefits are received in the form of vouchers that are redeemed at retail stores for specific supplemental nutritious foods. Eligible low-income recipients are infants and children up to age five and pregnant, postpartum, and breastfeeding women.

**Unemployment compensation.** This term refers to cash benefits paid to unemployed workers through a State or local unemployment agency. These include all benefits paid under the Federal-State unemployment insurance program as established under the Social Security Act, as well as those benefits paid to State and local government employees, Federal civilian employees, and veterans.

**With a Job.** Persons are classified “with a job” in a given month if they were 16 years old or over and, during the month, either (a) worked as paid employees or worked in their own business or profession or on their own farm or worked without pay in a family business or farm or (b) were temporarily absent from work either with or without pay. In general, the word “job” implies an arrangement for regular work for pay where payment is in cash wages or salaries, at piece rates, in tips, by commission, or in kind (meals, living quarters, supplies received). “Job” also includes self-employment at a business, professional practice, or farm. A business is defined as an activity which involves the use of machinery or equipment in which money has been invested or an activity requiring an office or “place of business” or an activity which requires advertising; payment may be in the form of profits or fees.

The Current Population Survey (CPS), the official source of labor force statistics for the Nation, uses the same definition for a job or business. The term “with a job,” however, should not be confused with the term “employed” as used in the CPS. “With a job” includes those who were temporarily absent from a job because of layoff and those waiting to begin a new job in 30 days; in the CPS these persons are not considered “employed.” See “Worked each week” below.

**With labor force activity.** The term “with labor force activity” includes all persons with a job (as defined above) and those looking for work or on layoff from a job for at least 1 week during a given month. Conversely, those persons “with no labor force activity” had no job, were not on layoff from a job and made no effort to find a job during the month.

**Work disability.** Persons were classified as having a work disability if they were identified by the respondent as having a physical, mental, or other health condition that limits the kind or amount of work they can do.

**Worked each week.** Persons “worked each week” in a month if, for the entire month, they were “with a job” and not “absent without pay” from the job. In other words, a person worked each week in any month when they were (a) on the job the entire month, or (b) they received wages or a salary for all weeks in the month, whether they were on the job or not. Persons also worked each week if they were self-employed and spent time during each week of the month at or on behalf of the business or farm they owned, as long as they received or expected to receive profit or fees for their work.

In the CPS, the concept at “work” includes those persons who spent at least 1 hour during the reference week at their job or business. In the CPS, however, “at work” does not include persons who were temporarily absent from their jobs during the entire reference week on paid vacation, sick leave, etc. In SIPP, “worked each week” does include persons on paid absences.

## INDEX TO 2001 WAVE 7 CORE MICRODATA FILES

### Key to Concept Labels

AF - Armed Forces Variables  
 AS - Asset Variables  
 BS - Business Variables

<u>Variable</u>	<u>Description</u>	<u>Position</u>
T35AMT	GI: Amount of local government pension (ISS Code 35)	1612 - 1616
T36AMT	GI: Amount of income from paid-up life insurance policy	1618 - 1622
T37AMT	GI: Amount from estates or trusts (ISS Code 37)	1624 - 1628
T38AMT	GI: Amt. from other retirement, disability or survivor	1630 - 1635
T39AMT	GI: Amount of pension/retirement lump sums (ISS Code 39)	1637 - 1642
T42AMT	GI: Amount of draw from an IRA/Keough/401k or Thrift Plan	1644 - 1648
T50AMT	GI: Amount of income assistance from a charitable group	1650 - 1654
T51AMT	GI: Amount of money from relatives or friends	1656 - 1660
T52AMT	GI: Amount of lump sum payments (ISS Code 52)	1662 - 1666
T53AMT	GI: Amount of income from roomers or boarders	1668 - 1672
T55AMT	GI: Amount of incidental or casual earnings	1674 - 1678
T56AMT	GI: Amount of miscellaneous cash income	1680 - 1684
T75AMT	GI: Amount of other government income (ISS Code 75)	1686 - 1691
TAGE	PE: Age as of last birthday	575 - 576
TAGESS	GI: Age Social Security Disability payments began	1324 - 1325
TBDJTINT	AS: Amnt of monthly interest from joint municipal bonds	1994 - 1998
TBDOINT	AS: Amount of monthly int. from own municipal/corp bonds	2003 - 2007
TBMSUM1	BS: Income received this month	1085 - 1089
TBMSUM2	BS: Income received this month	1170 - 1174
TBSIND1	BS: Industry code	1103 - 1104
TBSIND2	BS: Industry code	1188 - 1189
TBSOCC1	BS: Occupation code	1106 - 1108
TBSOCC2	BS: Occupation code	1191 - 1193
TBYEAR	PE: Year of birth	526 - 529
TCDJTINT	AS: Amount of monthly interest from joint CDs	1976 - 1980
TCDOINT	AS: Amount of monthly interest from solely owned CDs	1985 - 1989
TCKJTINT	AS: Amount of monthly interest from joint checking account	1922 - 1926
TCKOINT	AS: Amount of monthly interest from own checking account	1931 - 1935
TCSAGY	GI: Amount received by Agency on ...'s behalf	1693 - 1697
TDIVINC	AS: Total amount of all dividend income	2093 - 2097
TEBDATE1	BS: Date operation of business ended	1039 - 1046
TEBDATE2	BS: Date operation of business ended	1124 - 1131
TEJDATE1	JB: Ending date of job	887 - 894
TEJDATE2	JB: Ending date of job	963 - 970
TEMPALL1	JB: Number of employees at all locations	905 - 906
TEMPALL2	JB: Number of employees at all locations	981 - 982
TEMPB1	BS: Maximum number of employees	1060 - 1061
TEMPB2	BS: Maximum number of employees	1145 - 1146
TEMPSIZ1	JB: Employees at worker's location	908 - 909
TEMPSIZ2	JB: Employees at worker's location	984 - 985
TFAFDC	FA: Total Family public assistance payments	375 - 380
TFEARN	FA: Total family earned income for this month	294 - 300
TFFDSTP	FA: Total Family Food Stamps Received Recode	381 - 386
TFIPSST	HH: FIPS State Code	42 - 43
TFLUMPSM	FA: Family retirement lump sum payments	343 - 350
TFOTHINC	FA: Total 'other' family income for this month	316 - 322
TFPNDIST	FA: Family distributions from pension plans	336 - 342
TFPRPINC	FA: Total family property income for this month	301 - 308
TFSOCSEC	FA: Total Family Social Security Income Recode	351 - 356
TFSSI	FA: Total Family Supplemental Security Income Recode	357 - 362
TFTOTINC	FA: Total family income for this month	323 - 330
TFTRNINC	FA: Total family means-tested cash transfers for this month	309 - 315
TFUNEMP	FA: Total Family Unemployment Income Recode	363 - 368
TFVETS	FA: Total Family Veterans Payments Recode	369 - 374

UAF4	AF: UNEDITED - When did ... next serve on active duty?	549 - 549
UAF5	AF: UNEDITED - When did ... next serve on active duty?	550 - 550
UENTMAIN	PE: UNEDITED VARIABLE - Main reason entered household	613 - 614
UEVRDIV	PE: UNEDITED VARIABLE - Has ... ever been divorced?	539 - 539
UEVRWID	PE: UNEDITED VARIABLE - Has ... ever been widowed?	538 - 538
ULFTMAIN	PE: UNEDITED VARIABLE - Main reason left household	611 - 612
WFFINWGT	WW: 'WPFINWGT' for head of family	284 - 293
WHFNWGT	WW: Household weight	63 - 72
WPFINWGT	WW: Person weight	563 - 572
WSFINWGT	WW: 'WPFINWGT' for head of subfamily	410 - 419

## HOW TO USE THE DATA DICTIONARY

The Data Dictionary describes the file contents and provides locations for each variable (record layout of the public-use computer tape file.) The first line ("D" Line) of each data item description gives the variable name, size of the data field, and the begin position of that field. The components include a short mnemonic or field name for use with software packages; field size; starting position; and a description of field contents with possible values.

The next few lines contain descriptive text and any applicable notes. Categorical value codes and labels are given where needed. Comment notes marked by an (\*) are provided throughout for the rest of the dictionary components. Comments should be removed from the machine-readable version of the data dictionary before using it to help access the data file.

The first line of each data item description begins with the character "D" (left-justified, two characters). The "D" flag indicates lines in the data dictionary containing the name, size and begin position of each data item. The second line of each data item description begins with the character "T" (left-justified, two characters). The "T" flag indicates lines in the data dictionary containing the category code and short description of the variable. The line beginning with the character "U" describes the universe for that item. Lines containing categorical value codes and labels follow next and begin with the character "V". The special character (.) denotes the start of the value labels. Two examples of data item descriptions follow:

```
D RNOTAKE      2      813
T LF: Reason couldn't start job
    Why couldn't ... have started a job?
U All persons 15+ at the end of the
  reference period who were unable to start
  a job during weeks on layoff or looking
  for work.
  EPOPSTAT = 1 and RTAKJOB = 2
V      -1 .Not in universe
V      1 .Waiting for a new job to begin
V      2 .Own temporary illness
V      3 .School
V      4 .Other
```

```
D RRRSN        2      1218
T GI: Reason for receipt of Railroad
  Retirement pay
    For what reason or reasons did ...
    receive Railroad Retirement pay during
    the reference period? ISS Code 2
U All persons 15 to 69 who receive
  disability income and/or persons 15+ at
  the end of the reference period who
  receive retirement income and/or survivor
  benefits.
V      -1 .Not in universe
V      1 .Disability
V      2 .Retirement
V      3 .Survivor
V      4 .Disability and retirement
V      5 .Disability and survivor
V      6 .Retirement and survivor
V      7 .Disability, retirement, and
V      .survivor
V      8 .No payment received
```

**SOURCE AND ACCURACY STATEMENT**  
for the 2001 Public Use Files from the  
Survey of Income and Program Participation<sup>1</sup>

**SOURCE OF DATA**

The data were collected in the 2001 panel of the Survey of Income and Program Participation (SIPP). The population represented (the population universe) in the 2001 SIPP is the civilian noninstitutionalized population living in the United States. The institutionalized population, which is excluded from the population universe, is composed primarily of the population in correctional institutions and nursing homes (91 percent of the 4.1 million institutionalized people in Census 2000). The population includes persons living in group quarters, such as dormitories, rooming houses, and religious group dwellings. Crew members of merchant vessels, Armed Forces personnel living in military barracks, and institutionalized persons, such as correctional facility inmates and nursing home residents, were not eligible to be in the survey. Also, United States citizens residing abroad were not eligible to be in the survey. Foreign visitors who work or attend school in this country and their families were eligible; all others were not eligible to be in the survey. With the exceptions noted above, persons who were at least 15 years of age at the time of the interview were eligible to be in the survey.

The 2001 panel of the SIPP sample is located in 322 Primary Sampling Units (PSUs), each consisting of a county or a group of contiguous counties. Within these PSUs, living quarters (LQs) were systematically selected from lists of addresses prepared for the 1990 decennial census to form the bulk of the sample. To account for LQs built within each of the sample areas after the 1990 census, a sample containing clusters of four LQs was drawn of permits issued for construction of residential LQs up until shortly before the beginning of the panel.

In jurisdictions that do not issue building permits or have incomplete addresses, we systematically sampled expected clusters of four LQs which were listed by field personnel and then subsampled in the field. In addition, we selected sample LQs from a supplemental frame that included LQs identified as missed in the 1990 census.

Sample households within a given panel are divided into four random subsamples of nearly equal size. These subsamples are called rotation groups and one rotation group is interviewed each month. Each household in the sample was scheduled to be interviewed at 4 month intervals over a period of roughly 3 years beginning in February 2001. The reference period for the questions is the 4-month period preceding the interview month. In general, one cycle of four interviews covering the entire sample, using the same questionnaire, is called a wave.

In Wave 1, we fielded a sample consisting of 88 reduction groups (88 comparable representative subsamples) which resulted in an average sampling interval of approximately 2,420 housing units. In this wave, we obtained interviews from occupants of about 35,100 of the 40,500 eligible living quarters. We found most of the remaining 15,400 living quarters in the panel to be vacant, demolished, converted to

nonresidential use, or otherwise ineligible for the survey. However, we did not interview approximately 5,400 of the 15,400 living quarters in the panel because the occupants, (1) refused to be interviewed, (2) could not be found at home, (3) were temporarily absent, or (4) were otherwise unavailable. Thus, occupants of about 87 percent of all eligible living quarters participated in the first interview of the panel.

Due to budget constraint, we cut the sample in Wave 2 by 13 reduction groups which resulted in an average sampling interval of approximately 2,840 housing units. We did not cut the sample in the remaining waves (Wave 3 to Wave 9). For interviews in Wave 2 to Wave 9, only original sample persons (those in Wave 1 sample households which survived the sample cut in Wave 2 and interviewed in Wave 1) and persons living with them were eligible to be interviewed. We followed original sample persons if they moved to a new address, unless the new address was more than 100 miles from a SIPP sample area. Then, we attempted telephone interviews. Based on these follow-up criteria, we interviewed about 28,100 living quarters of the approximately 30,500 eligible living quarters for Wave 2, about 27,500 living quarters of the approximately 30,900 eligible living quarters for Wave 3, about 27,200 living quarters of the approximately 31,100 eligible living quarters for Wave 4, about 26,800 living quarters of the approximately 31,300 eligible living quarters for Wave 5, about 26,600 living quarters of the approximately 31,400 eligible living quarters for Wave 6, about 26,500 living quarters of the approximately 31,500 eligible living quarters for Wave 7, about 26,000 living quarters of the approximately 31,600 eligible living quarters for Wave 8, about 25,500 living quarters of the approximately 31,700 eligible living quarters for Wave 9. In each of these waves, we did not interview some of the eligible living quarters because the occupants either directly or indirectly refused our interview in the same manner described for Wave 1 or moved to an unknown address. The rates of non-interviewed living quarters due to direct or indirect refusal were 6.2% for Wave 2, 8.4% for Wave 3, 9.5% for Wave 4, 10.9% for Wave 5, 11.6% for Wave 6, 12.3% for Wave 7, 13.3% for Wave 8, and 14.7% for Wave 9. The rates of non-interviewed living quarters due to moving to an unknown address were 1.7% for Wave 2, 2.7% for Wave 3, 3.2% for Wave 4, 3.6% for Wave 5, 3.7% for Wave 6, 3.8% for Wave 7, 4.5% for Wave 8, and 4.8% for Wave 9.

The public use files include core and supplemental (topical module) data. Core questions are repeated at each interview over the life of the panel. Topical modules include questions which are asked only in certain waves. The 2001 panel topical modules are given in Table 1.

Table 2 indicates the reference months and interview months for the collection of data from each rotation group for the 2001 panel. For example, Wave 1 rotation group 1 of the 2001 panel was interviewed in February 2001 and data for the reference months October 2000 through January 2001 were collected. This source and accuracy statement can also be accessed through the U.S. Census Bureau website at "[http://www.sipp.census.gov/sipp/sourceac/S&A01\\_w1tow9\\_cross\\_puf.pdf](http://www.sipp.census.gov/sipp/sourceac/S&A01_w1tow9_cross_puf.pdf)."

**Estimation.** We used several stages of weight adjustments in the estimation procedure to derive the SIPP cross-sectional person level weights. We gave each person a base weight (**BW**) equal to the inverse of probability of selection of a person's household. We applied two noninterview adjustment factors. One factor adjusted the weights of interviewed persons in interviewed households to account for households which were eligible for the sample but which field representatives could not interview at the first interview ( $F_{N1}$ ). The second factor compensated for person noninterviews occurring in subsequent interviews ( $F_{N2}$ ). We used a Duplication Control Factor (**DCF**) which adjusts for subsampling done in the field when the number of sample units is much larger than expected. We applied a Mover's Weight

(**MW**), which adjusts for persons in the SIPP universe who move into sample households after Wave 1. The last factor applied is the Second Stage Adjustment Factor ( $F_{2s}$ ). This factor adjusts estimates to population controls and causes husbands' and wives' weights to be equal. See the next section on population controls for more information on how they are obtained.

**Population Controls.** This survey's estimation procedure adjusts weighted sample results to agree with independently derived population estimates of the civilian noninstitutional population of the United States. We control to independent population estimates in an attempt to reduce our mean square error by partially correcting for undercoverage. To obtain the controls, we take the CPS weights and do a "March type" family equalization. That is, we assign wives' weights to husbands and then proportionally adjust the weights of persons by month, rotation group, race, sex, age, and by the marital and family status of householders. Using these weights with CPS data, the controls for SIPP are obtained. These are prepared annually to agree with the most current set of population estimates that are released as part of the Census Bureau's population estimates and projections program.

The population controls for the nation are distributed by demographic characteristics in two ways:

- age, sex, and race (Non Black, Black) and
- age, sex, and Hispanic origin.

The estimates begin with the latest decennial census as the base and incorporate the latest available information on births and deaths along with the latest estimates of net international migration.

The net international migration component in the population estimates includes a combination of:

- legal migration to the U.S.,
- emigration of foreign born and native people from the U.S.,
- net movement between the U.S. and Puerto Rico,
- estimates of temporary migration, and
- estimates of net residual foreign-born population, which include unauthorized migration.

Because the latest available information on these components lag the survey date, to develop the estimate for the survey date, it is necessary to make short-term projections of these components.

The final cross-sectional weight is  $Fw_c = BW \times DCF \times F_{n1} \times F_{2s}$  for Wave 1 and is

$Fw_c = IW \times F_{n2} \times F_{2s}$  for Waves 2+, where  $IW$  is either  $BW \times DCF \times F_{n1}$  or  $MW$ .

James (1995) and Siegel (1995a) describe SIPP cross-sectional weighting in greater detail.

Researchers both inside and outside the Census Bureau conducted evaluations of SIPP weighting methodology and researched alternative methodologies. Several improvements to SIPP weighting methods were implemented beginning with the 1996 panel. They are described below.

- We dropped the first stage factor ( $F_{1s}$ ) from cross-sectional weighting. This factor adjusted for differences between the Census count of population and an estimate of that count based on Census data for sample PSUs. James (1994) found that it did not reduce variance as was previously believed. Jabine, et al (1990) describe the first stage factor used in earlier panels.
- We are using additional variables in nonresponse adjustment. We added high/low poverty stratum code to the Wave 1 nonresponse adjustment, and we added household income, geographic

division, and number of imputations for selected income and asset items to the nonresponse adjustment for Waves 2+. Research by Rizzo, et al (1994) and by Folsom and Witt (1994) pointed out the potential of the latter three variables in reducing nonresponse bias.

- We redefined nonresponse adjustment cells for Waves 2+ weighting. We formed the nonresponse cells by successively partitioning data from five panels by whichever variable most reduced the bias of the household income to poverty threshold ratio. We used data from a sixth panel to evaluate the results. We calculated the nonresponse bias of six variables at Waves 2 and 7 for both the new cells and the original cells using initial weights and data from the most recent interview in the calculations. The new cells had lower bias for five of the six variables (Siegel, 1995b).

Research was conducted on a number of promising weighting improvements. Allen and Petroni (1994) reported on an adjustment for mover attrition. Folsom and Witt (1994) and Rizzo, et al (1994) studied alternative nonresponse adjustments using response propensity models. Each study computed weights using an alternative methodology. The researchers then compared estimates of various items to benchmarks. The benchmarks came from administrative records and survey data with less nonresponse than the SIPP. The comparisons did not provide strong evidence of lower bias using the alternative weighting methods.

### **Additional Methodology**

**Use of Weights.** Each household and each person within each household, on each core wave file has four weights. These four weights are reference month specific and therefore can be used only to form reference month estimates. Reference month estimates can be averaged to form estimates of monthly averages over some period of time.

**Example,** using the proper weights, one can estimate the monthly average number of households in a specified income range over November and December 2001. To estimate monthly averages of a given measure (such as, total, mean) over a number of consecutive months, sum the monthly estimates and divide by the number of months.

To form an estimate for a particular month, use the reference month weight for the month of interest, summing over all persons or households with the characteristic of interest whose reference period includes the month of interest. Multiply the sum by a factor to account for the number of rotations contributing data for the month. This factor equals four divided by the number of rotations contributing data for the month. For example, December 2000 data is only available from rotations 1, 2, and 3 for Wave 1 of the 2001 panel (See Table 2), so a factor of  $4/3$  must be applied.

When estimates for months with less than four rotations worth of data are constructed from a wave file, factors greater than 1 must be applied, as above. However, when core data from consecutive waves are used together, data from all four rotations may be available, in which case the factors are equal to 1.

These core wave files contain no weight for characteristics that involve a person's or household's status over two or more months (such as, number of households with a 50 percent increase in income between December 2000 and January 2001).

**Producing Estimates for Census Regions and States.** The total estimate for a region is the sum of the state estimates in that region. Using this sample, estimates for individual states are subject to very high variance and may not be state representative due to the nature of the sample design. Therefore, estimates for individual states are not recommended. The state codes on the file are primarily of use in linking respondent characteristics with appropriate contextual variables (for example, state-specific welfare criteria) and for tabulating data by user-defined groupings of states.

## ESTIMATES

SIPP estimates are based on a sample; they may differ somewhat from the figures that would have been obtained if a complete census had been taken using the same questionnaire, instructions, and enumerators. There are two types of errors possible in an estimate based on a sample survey: nonsampling and sampling. We are able to provide estimates of the magnitude of SIPP sampling error, but this is not true of nonsampling error. Found in the next sections are descriptions of sources of SIPP nonsampling error, followed by a discussion of sampling error, its estimation, and its effect in data analyses.

**Nonsampling Error.** Nonsampling errors can be attributed to many sources:

- inability to obtain information about all cases in the sample
- definitional difficulties
- differences in the interpretation of questions
- inability or unwillingness on the part of the respondents to provide correct information
- inability to recall information, errors made in the following: collection such as in recording or coding the data, processing the data, estimating values for missing data
- biases resulting from the differing recall periods caused by the interviewing pattern used
- and undercoverage.

Quality control and edit procedures were used to reduce errors made by respondents, coders and interviewers. More detailed discussions of the existence and control of nonsampling errors in the SIPP can be found in the *SIPP Quality Profile, 1998 SIPP Working Paper Number 230, issued May 1999*.

Undercoverage in SIPP results from missed living quarters and missed persons within sample households. It is known that undercoverage varies with age, race, and sex. Generally, undercoverage is larger for males than for females and larger for Blacks than for non-Blacks. Ratio estimation (second stage weight adjustment) to independent age-race-sex population controls partially corrects for the bias due to survey undercoverage. However, biases exist in the estimates to the extent that persons in missed households or missed persons in interviewed households have characteristics different from those of interviewed persons in the same age-race-sex group. Further, the independent population controls used have been adjusted for undercoverage in the Census.

A common measure of survey coverage is the coverage ratio, the estimated population before ratio adjustment divided by the independent population control. The Table below shows SIPP coverage ratios for age-sex-race groups for one month-February 2001 prior to the weighting adjustment. The SIPP coverage ratios exhibit some variability from month to month, but these are a typical set of coverage

ratios. Other Census Bureau household surveys (like the Current Population Survey) experience similar coverage.

**Comparability with Other Estimates.** Caution should be exercised when comparing data from this with data from other SIPP products or with data from other surveys. The comparability problems are caused by such sources as the seasonal patterns for many characteristics, different nonsampling errors, and different concepts and procedures. Refer to the *SIPP Quality Profile* for known differences with data from other sources and further discussions.

**Sampling Variability.** Standard errors indicate the magnitude of the sampling error. They also partially measure the effect of some nonsampling errors in response and enumeration, but do not measure any systematic biases in the data. The standard errors for the most part measure the variations that occurred by chance because a sample rather than the entire population was surveyed.

## USES AND COMPUTATION OF STANDARD ERRORS

**Confidence Intervals.** The sample estimate and its standard error enable one to construct confidence intervals, ranges that would include the average result of all possible samples with a known probability. For example, if all possible samples were selected, each of these being surveyed under essentially the same conditions and using the same sample design, and if an estimate and its standard error were calculated from each sample, then:

1. Approximately 68 percent of the intervals from one standard error below the estimate to one standard error above the estimate would include the average result of all possible samples.
2. Approximately 90 percent of the intervals from 1.6 standard errors below the estimate to 1.6 standard errors above the estimate would include the average result of all possible samples.
3. Approximately 95 percent of the intervals from two standard errors below the estimate to two standard errors above the estimate would include the average result of all possible samples.

The average estimate derived from all possible samples is or is not contained in any particular computed interval. However, for a particular sample, one can say with a specified confidence that the average estimate derived from all possible samples is included in the confidence interval.

**Hypothesis Testing.** Standard errors may also be used for hypothesis testing, a procedure for distinguishing between population characteristics using sample estimates. The most common types of hypotheses tested are 1) the population characteristics are identical versus 2) they are different. Tests may be performed at various levels of significance, where a level of significance is the probability of concluding that the characteristics are different when, in fact, they are identical.

To perform the most common test, compute the difference  $X_A - X_B$ , where  $X_A$  and  $X_B$  are sample estimates of the characteristics of interest. A later section explains how to derive an estimate of the standard error of the difference  $X_A - X_B$ . Let that standard error be  $S_{DIFF}$ . If  $X_A - X_B$  is between  $-1.6$  times  $S_{DIFF}$  and  $+1.6$  times  $S_{DIFF}$ , no conclusion about the characteristics is justified at the 10 percent significance level. If, on the other hand,  $X_A - X_B$  is smaller than  $-1.6$  times  $S_{DIFF}$  or larger than  $+1.6$  times  $S_{DIFF}$ , the observed difference is significant at the 10 percent level. In this event, it is commonly accepted practice to say that the characteristics are different. Of course, sometimes this conclusion will be wrong. When the characteristics are the same, there is a 10 percent chance of concluding that they are different.

Note that as more tests are performed, more erroneous significant differences will occur. For example, at the 10 percent significance level, if 100 independent hypothesis tests are performed in which there are no real differences, it is likely that about 10 erroneous differences will occur. Therefore, the significance of any single test should be interpreted cautiously.

**Note Concerning Small Estimates and Small Differences.** Because of the large standard errors involved, there is little chance that estimates will reveal useful information when computed on a base smaller than 200,000. Care must be taken in the interpretation of small differences since even a small amount of nonsampling error can cause a borderline difference to appear significant or not, thus distorting a seemingly valid hypothesis test.

**Calculating Standard Errors for SIPP Estimates.** There are three main ways we calculate the Standard Errors for SIPP Estimates. They are as follows:

- Replicate Weighting Methods,
- Generalized Variance parameters (denoted as  $a$  and  $b$ ),
- Simplified tables using the  $a$  and  $b$  parameters.

SIPP uses the Replicate Weighting Method to produce Generalized Variance parameters. Using the Generalized Variance parameters, we create simplified tables.

**Standard Error Parameters and Tables and Their Use.** Most SIPP estimates have greater standard errors than those obtained through a simple random sample because PSUs are sampled and clusters of living quarters are sampled for the SIPP in the area and new construction frames. To derive standard errors that would be applicable to a wide variety of estimates and could be prepared at a moderate cost, a number of approximations were required. Estimates with similar standard error behavior were grouped together by characteristics at the person level and characteristics of households (including unrelated persons). Two parameters (denoted  $a$  and  $b$ ) were computed for each characteristic in order to approximate the standard error behavior. These  $a$  and  $b$  parameters vary according to wave and characteristic as well as the demographic subgroup of the group to which the estimate applies. Because the actual standard error behavior was not identical for all characteristics and groups, the standard errors computed using these parameters provide an indication of the order of magnitude of the standard error estimate for a specific group. Table 3 provides tables of base  $a$  and  $b$  parameters by wave to be used for the 2001 panel estimates. There are four sets of parameters in Table 3: the first set of parameters per item is given to be used for calculations based on persons or households interviewed during Wave 1 the second set is for Waves 2 and 3, the third set is for Wave 4 to Wave 6, and the fourth set is for Wave 7 to Wave 9. Table 9 provides the base generalized variance  $a$  and  $b$  parameters for calculating 2001 topical module variances.

Table 2 lists the reference months for each interview month. Use Table 4 (if needed) to select the adjustment factor appropriate to the wave. Multiply this factor by the  $a$  and  $b$  base parameters of Table 3 to produce  $a$  and  $b$  parameters for the variance estimate for a specific subgroup and reference period. For example, the base  $a$  and  $b$  parameters for total number of households are  $-0.00003286$  and  $3546$ , respectively. Using Table 4 for Wave 1, the factor for November 2000 is 2 *since only 2 rotation months of data are available*. So the  $a$  and  $b$  parameters for the variance estimate of a white household characteristic in November 2000 based on Wave 1 are  $-0.00003286 \times 2 = -0.00006572$  and  $3546 \times 2 = 7,092$ , respectively.

Similarly, the factor for the last quarter of 2000 is 1.8519 (Table 4) since the only data available are the 6 rotation months from Wave 1 (namely, as indicated in Table 2, rotation 1 provides three rotation months, rotation 2 provides two rotation months, and rotation 3 provides one rotation month of data.) So the  $a$  and  $b$  parameters for the variance estimate of a white household characteristic in the last quarter of 2000 are  $-0.00003286 \times 1.8519 = -0.00006085$  and  $3546 \times 1.8519 = 6,567$ , respectively.

The  $a$  and  $b$  parameters may be used to calculate the standard error for estimated numbers and percentages. Because the actual standard error behavior was not identical for all estimates within a group, the standard errors computed from these parameters provide an indication of the order of magnitude of the standard error for any specific estimate. Methods for using these parameters for computation of

approximate standard errors are given in the following sections.

For those users who wish further simplification, we have also provided base standard errors for estimates of total and estimates of percentages in Tables 5 through 8. Note that these base standard errors only apply when data from all four rotations are used and must be adjusted by an  $f$  factor provided in Table 3. The standard errors resulting from this simplified approach are less accurate. Methods for using these parameters and tables for computation of standard errors are given in the following sections.

The procedures described below apply only to reference month estimates or averages of reference month estimates. Refer to the section "Use of Weights" for a more detailed discussion of the construction of estimates.

Variance stratum codes and half sample codes are included on the tapes (data sets) to enable the user to compute the variances directly and more accurately by methods such as balanced repeated replications (BRR). William G. Cochran provides a list of references discussing the application of this technique. (See Sampling Techniques, 3rd Ed., New York: John Wiley and Sons, 1977, p. 321.)

**Standard Errors of Estimated Numbers.** The approximate standard error,  $s_x$ , of an estimated number of persons, households, families, unrelated individuals and so forth, can be obtained in two ways. Both apply when data from all four rotations are used to make the estimate. However, only the second method (formula 2) should be used when less than four rotations of data are available for the estimate. Note that neither method should be applied to dollar values.

The standard error may be obtained by the use of the formula

$$s_x = fs \tag{1}$$

where  $f$  is the appropriate  $f$  factor from Table 3, and  $s$  is the base standard error on the estimate obtained by interpolation from Table 5 or 6. Alternatively,  $s_x$  may be approximated by the formula

$$s_x = \sqrt{ax^2 + bx} \tag{2}$$

from which the base standard errors in Tables 7 and 8 were calculated. Here  $x$  is the size of the estimate and  $a$  and  $b$  are the parameters from Table 4 which are associated with the characteristic being estimated (and the wave which applies). Use of formula 2 will generally provide more accurate results than the use of formula 1.

Illustration.

Suppose SIPP estimates based on Wave 1 of the 2001 panel show that there were 1,700,000 black households with monthly household income above \$4,000 in January 2001. The appropriate parameters and factor from Table 3 and the appropriate general standard error from Table 5 are

$$a = -0.00019168 \quad b = 2,495 \quad f = 0.84 \quad s = 76,800$$

Using formula 1, the approximate standard error is

$$s_x = (0.84)(76,800) = 64,512$$

Using formula 2, the approximate standard error is

$$\sqrt{(-0.00019168)(1,700,000)^2 + (2,495)(1,700,000)} = 60,725$$

Using the standard error based on formula 2, the approximate 90-percent confidence interval as shown by the data is from 1,600,107 to 1,799,893. Therefore, a conclusion that the average estimate derived from all possible samples lies within a range computed in this way would be correct for roughly 90% of all samples.

**Standard Error of a Mean.** A mean is defined here to be the average quantity of some item (other than persons, families, or households) per person, family or household. For example, it could be the average monthly household income of females age 25 to 34. The standard error of a mean can be approximated by formula 3 below. Because of the approximations used in developing formula 3, an estimate of the standard error of the mean obtained from this formula will generally underestimate the true standard error. The formula used to estimate the standard error of a mean  $\bar{x}$  is

$$s_{\bar{x}} = \sqrt{\left(\frac{b}{y}\right) s^2} \tag{3}$$

where  $y$  is the size of the base,  $s^2$  is the estimated population variance of the item and  $b$  is the parameter associated with the particular type of item.

The population variance  $s^2$  may be estimated by one of two methods. In both methods, we assume  $x_i$  is the value of the item for unit "i." (Unit may be person, family, or household). To use the first method, the range of values for the item is divided into "c" intervals. The upper and lower boundaries of interval  $j$  are  $Z_{j-1}$  and  $Z_j$ , respectively. Each unit is placed into one of "c" groups such that  $Z_{j-1} < x_i \leq Z_j$ .

The estimated population variance,  $s^2$ , is given by the formula:

$$s^2 = \sum_{j=1}^c p_j m_j^2 - \bar{x}^2, \tag{4}$$

where  $p_j$  is the estimated proportion of units in group  $j$ , and  $m_j = (Z_{j-1} + Z_j) / 2$ . The most representative value of the item in group  $j$  is assumed to be  $m_j$ . If group “c” is open-ended, or there is no upper interval boundary exists, then an approximate value for  $m_c$  is

$$m_c = \frac{3}{2} Z_{c-1}.$$

The mean,  $\bar{x}$  can be obtained using the following formula:

$$\bar{x} = \sum_{j=1}^c p_j m_j$$

In the second method, the estimated population mean,  $\bar{x}$ , and variance,  $s^2$  are given by

$$\begin{aligned} \bar{x} &= \frac{\sum_{i=1}^n w_i x_i}{\sum_{i=1}^n w_i} \\ s^2 &= \frac{\sum_{i=1}^n w_i x_i^2}{\sum_{i=1}^n w_i} - \bar{x}^2, \end{aligned} \tag{5}$$

where there are  $n$  units with the item of interest and  $w_i$  is the final weight for unit “I”. (Note that  $\sum w_i = y$  in formula 3.)

### Illustration.

Suppose that based on Wave 1 data, the distribution of monthly cash income for persons age 25 to 34 during the month of January 2001 is given in Table 10.

Using formula 4 and the mean monthly cash income of \$2,530 the approximate population variance,  $s^2$ , is

$$\begin{aligned} s^2 &= \left( \frac{1,371}{39,851} \right) (150)^2 + \left( \frac{1,651}{39,851} \right) (450)^2 + \dots + \\ &\quad \left( \frac{1,493}{39,851} \right) (9,000)^2 - (2,530)^2 = 3,159,887. \end{aligned}$$

Using formula 3 and the appropriate base  $b$  parameter from Table 3, the estimated standard error of a mean  $\bar{x}$  is

$$s_{\bar{x}} = \sqrt{\left(\frac{4,263}{39,851,000}\right) (3,159,887)} = \$18.39$$

**Standard error of an aggregate.** An aggregate is defined to be the total quantity of an item summed over all the units in a group. The standard error of an aggregate can be approximated using formula 6.

As with the estimate of the standard error of a mean, the estimate of the standard error of an aggregate will generally underestimate the true standard error. Let  $y$  be the size of the base,  $s^2$  be the estimated population variance of the item obtained using formula (4) or (5) and  $b$  be the parameter associated with the particular type of item. The standard error of an aggregate is

$$s_x = \sqrt{(b) (y) s^2} \tag{6}$$

**Standard Errors of Estimated Percentages.** The reliability of an estimated percentage, computed using sample data for both numerator and denominator, depends upon both the size of the percentage and the size of the total upon which the percentage is based. Estimated percentages are relatively more reliable than the corresponding estimates of the numerators of the percentages, particularly if the percentages are 50 percent or more, e.g., the percent of people employed is more reliable than the estimated number of people employed. When the numerator and denominator of the percentage have different parameters, use the parameter (and appropriate factor) of the numerator. If proportions are presented instead of percentages, note that the standard error of a proportion is equal to the standard error of the corresponding percentage divided by 100.

There are two types of percentages commonly estimated. The first is the percentage of persons, families or households sharing a particular characteristic such as the percent of persons owning their own home. The second type is the percentage of money or some similar concept held by a particular group of persons or held in a particular form. Examples are the percent of total wealth held by persons with high income and the percent of total income received by persons on welfare.

For the percentage of persons, families, or households, the approximate standard error,  $s_{(x,p)}$ , of the estimated percentage  $p$  can be obtained by the formula

$$s_{(x,p)} = f s \tag{7}$$

when data from all four rotations are used to estimate  $p$ .

In this formula,  $f$  is the appropriate  $f$  factor from Table 3 (for the appropriate wave) and  $s$  is the base standard error of the estimate from Table 7 or 8.

Alternatively, it may be approximated by the formula

$$s_{(x,p)} = \sqrt{\frac{b}{x} (p) (100-p)} \quad (8)$$

from which the standard errors in Tables 7 and 8 were calculated. Here  $x$  is the size of the subclass of social units which is the base of the percentage,  $p$  is the percentage ( $0 < p < 100$ ), and  $b$  is the parameter associated with the characteristic in the numerator. Use of this formula will give more accurate results than use of formula 7 above and should be used when data from less than four rotations are used to estimate  $p$ .

#### Illustration.

Suppose that, in the month of January 2001, 6.7 percent of the 16,812,000 persons in nonfarm households with a mean monthly household cash income of \$4,000 to \$4,999, were black. Using formula 8 and the  $b$  parameter of 4,475 from Table 3 and a factor of 1 for the month of January 2001 from Table 4, the approximate standard error is

$$\sqrt{\frac{4,475}{(16,812,000)} (6.7) (100-6.7)} = 0.41 \text{ percent}$$

Consequently, the 90 percent confidence interval as shown by these data is from 6.03 to 7.37 percent.

For percentages of money, a more complicated formula is required. A percentage of money will usually be estimated in one of two ways. It may be the ratio of two aggregates:

$$p_I = 100 (X_A / X_N)$$

or it may be the ratio of two means with an adjustment for different bases:

$$p_I = 100 (\hat{p}_A \bar{X}_A / \bar{X}_N)$$

where  $x_A$  and  $x_N$  are aggregate money figures,  $\bar{x}_A$  and  $\bar{x}_N$  are mean money figures, and  $\hat{p}_A$  is the estimated number in group A divided by the estimated number in group N. In either case, we estimate the standard error as

$$s_I = \sqrt{\left(\frac{\hat{P}_A \bar{x}_A}{\bar{x}_N}\right)^2 \left[\left(\frac{s_p}{\hat{P}_A}\right)^2 + \left(\frac{s_A}{\bar{x}_A}\right)^2 + \left(\frac{s_B}{\bar{x}_N}\right)^2\right]}, \quad (9)$$

where  $s_p$  is the standard error of  $\hat{P}_A$ ,  $s_A$  is the standard error of  $\bar{x}_A$  and  $s_B$  is the standard error of  $\bar{x}_N$ . To calculate  $s_p$ , use formula 8. The standard errors of  $\bar{x}_N$  and  $\bar{x}_A$  may be calculated using formula 3.

It should be noted that there is frequently some correlation between  $\hat{P}_A$ ,  $\bar{x}_N$ , and  $\bar{x}_A$ . Depending on the magnitude and sign of the correlations, the standard error will be over or underestimated.

### Illustration.

Suppose that in January 2001, 9.8% of the households own rental property, the mean value of rental property is \$72,121, the mean value of assets is \$78,734, and the corresponding standard errors are 0.19 %, \$5799, and \$2867, respectively. In total there are 86,790,000 households. Then, the percent of all household assets held in rental property is

$$= 100 \left( (0.098) \frac{72121}{78734} \right) = 9.0\%$$

Using formula (9), the appropriate standard error is

$$s_I = \sqrt{\left(\frac{(0.098)(72121)}{78734}\right)^2 \left[\left(\frac{0.0019}{0.098}\right)^2 + \left(\frac{5799}{72121}\right)^2 + \left(\frac{2867}{78734}\right)^2\right]}$$

$$= 0.008 = 0.8\%$$

**Standard Error of a Difference.** The standard error of a difference between two sample estimates is approximately equal to

$$s_{(x-y)} = \sqrt{s_x^2 + s_y^2} \quad (10)$$

where  $s_x$  and  $s_y$  are the standard errors of the estimates  $x$  and  $y$ . The estimates can be numbers, percents, ratios, etc. The above formula assumes that the correlation coefficient between the

characteristics estimated by  $x$  and  $y$  is zero. If the correlation is really positive (negative), then this assumption will tend to cause overestimates (underestimates) of the true standard error.

### Illustration.

Suppose that SIPP estimates show the number of persons age 35-44 years with monthly cash income of \$4,000 to \$4,999 was 3,186,000 in the month of January 2001 and the number of persons age 25-34 years with monthly cash income of \$4,000 to \$4,999 in the same time period was 2,619,000. Then, using parameters from Table 3 and formula 2, the standard errors of these numbers are approximately 115,689 and 105,029, respectively. The difference in sample estimates is 567,000 and using formula 10, the approximate standard error of the difference is

$$\sqrt{(115,689)^2 + (105,029)^2} = 156,253$$

Suppose that it is desired to test at the 10 percent significance level whether the number of persons with monthly cash income of \$4,000 to \$4,999 was different for persons age 35-44 years than for persons age 25-34 years. To perform the test, compare the difference of 567,000 to the product  $1.645 \times 156,253 = 257,036$ . Since the difference is greater than 1.645 times the standard error of the difference, the data show that the two age groups are significantly different at the 10 percent significance level.

**Standard Error of a Median.** The median quantity of some item such as income for a given group of persons, families, or households is that quantity such that at least half the group have as much or more and at least half the group have as much or less. The sampling variability of an estimated median depends upon the form of the distribution of the item as well as the size of the group. To calculate standard errors on medians, the procedure described below may be used.

An approximate method for measuring the reliability of an estimated median is to determine a confidence interval about it. (See the section on sampling variability for a general discussion of confidence intervals.) The following procedure may be used to estimate the 68-percent confidence limits and hence the standard error of a median based on sample data.

1. Determine, using either formula 7 or formula 8, the standard error of an estimate of 50 percent of the group.
2. Add to and subtract from 50 percent the standard error determined in step 1.
3. Using the distribution of the item within the group, calculate the quantity of the item such that the percent of the group with more of the item is equal to the smaller percentage found in step 2. This quantity will be the upper limit for the 68-percent confidence interval. In a similar fashion, calculate the quantity of the item such that the percent of the group with more of the item is equal to the larger percentage found in step 2. This quantity will be the lower limit for the 68-percent confidence interval.

4. Divide the difference between the two quantities determined in step 3 by two to obtain the standard error of the median.

To perform step 3, it will be necessary to interpolate. Different methods of interpolation may be used. The most common are simple linear interpolation and Pareto interpolation. The appropriateness of the method depends on the form of the distribution around the median. If density is declining in the area, then we recommend Pareto interpolation. If density is fairly constant in the area, then we recommend linear interpolation. Note, however, that Pareto interpolation can never be used if the interval contains zero or negative measures of the item of interest. Interpolation is used as follows. The quantity of the item such that  $p$  percent have more of the item is

$$X_{pN} = \exp\left[\left(\frac{\ln\left(\frac{pN}{N_1}\right)}{\ln\left(\frac{N_2}{N_1}\right)}\right) \ln\left(\frac{A_2}{A_1}\right)\right] A_1 \quad (11)$$

if Pareto Interpolation is indicated and

$$X_{pN} = \left[ \frac{pN - N_1}{N_2 - N_1} (A_2 - A_1) + A_1 \right] \quad (12)$$

if linear interpolation is indicated, where

- $N$  is the size of the group,
- $A_1$  and  $A_2$  are the lower and upper bounds, respectively, of the interval in which  $X_{pN}$  falls
- $N_1$  and  $N_2$  are the estimated number of group members owning more than  $A_1$  and  $A_2$ , respectively
- $exp$  refers to the exponential function and
- $Ln$  refers to the natural logarithm function

### Illustration.

To illustrate the calculations for the sampling error on a median, we return to Table 10, and suppose that the income tabulated for this group is for January 2001. The median monthly income for this group is \$2,158 in January 2001. The size of the group is 39,851,000.

1. Using formula 8 (with  $b = 4,263$  for Wave 1), the standard error of 50 percent on a base of 39,851,000 is about 0.5 percentage points.
2. Following step 2, the two percentages of interest are 49.5 and 50.5.

3. By examining Table 10, we see that the percentage 49.5 falls in the income interval from 2000 to 2499. (Since 55.5% receive more than \$2,000 per month, the dollar value corresponding to 49.5 must be between \$2,000 and \$2,500). Thus,  $A_1 = \$2,000$ ,  $A_2 = \$2,500$ ,  $N_1 = 22,106,000$ , and  $N_2 = 16,307,000$ .

In this case, we decided to use Pareto interpolation. Therefore, the upper bound of a 68% confidence interval for the median is

$$\$2,000 \exp \left[ \left( \ln \left( \frac{(.495)(39,851,000)}{22,106,000} \right) / \ln \left( \frac{16,307,000}{22,106,000} \right) \right) \ln \left( \frac{2,500}{2,000} \right) \right] = \$2174$$

Also by examining Table 10, we see that 50.5 falls in the same income interval. Thus,  $A_1, A_2, N_1$  and  $N_2$  are the same. We also use Pareto interpolation for this case. So the lower bound of a 68% confidence interval for the median is

$$\$2,000 \exp \left[ \left( \ln \left( \frac{(.505)(39,851,000)}{22,106,000} \right) / \ln \left( \frac{16,307,000}{22,106,000} \right) \right) \ln \left( \frac{2,500}{2,000} \right) \right] = \$2142$$

Thus, the 68-percent confidence interval on the estimated median is from \$2142 to \$2174. An approximate standard error is

$$\frac{\$2174 - \$2142}{2} = \$16$$

**Standard Errors of Ratios of Means and Medians.** The standard error for a ratio of means or medians is approximated by:

$$s_{\frac{x}{y}} = \sqrt{\left(\frac{x}{y}\right)^2 \left[ \left(\frac{s_y}{y}\right)^2 + \left(\frac{s_x}{x}\right)^2 \right]} \quad (13)$$

where  $x$  and  $y$  are the means or medians, and  $s_x$  and  $s_y$  are their associated standard errors. Formula 13 assumes that the means are not correlated. If the correlation between the population means estimated by  $x$  and  $y$  are actually positive (negative), then this procedure will tend to produce overestimates (underestimates) of the true standard error for the ratio of means.

**Standard Errors Using SAS or SPSS.** Standard errors and their associated variance, calculated by SAS or SPSS statistical software package, do not accurately reflect the SIPP's complex sample design. Erroneous conclusions will result if these standard errors are used directly. We provide adjustment factors by characteristics that should be used to correctly compensate for likely under-estimates. The factors called DEFF available in Table 3, must be applied to SAS or SPSS generated variances. The square root of DEFF can be directly applied to similarly generated standard errors. These factors approximate design effects which adjust statistical measures for sample designs more complex than simple random sample.

### Interview Status Code for Households

- 201 Completed interview
- 203 Compl. partial- missing data; noTYPE-Z
- 207 Complete partial - TYPE-Z; no futher followup
- 213 TYPE-A, language problem
- 215 TYPE-A, insufficient parital
- 216 TYPE-A, no one home (noh)
- 217 TYPE-A, temporarily absent (ta)
- 218 TYPE-A, hh refused
- 219 TYPE-A, other occupied (specify)
- 234 TYPE-B, entire hh institut. or temp. ineligible
- 248 TYPE-C, other (specify)
- 249 TYPE-C, sample adjustment
- 250 TYPE-C, hh deceased
- 251 TYPE-C, moved out of country
- 252 TYPE-C, living in armed forces barracks
- 253 TYPE-C, on active duty in Armed Forces
- 254 TYPE-C, no one over age 15 years in hhld
- 255 TYPE-C, no Wave 1 persons remaining in hhld
- 260 TYPE-D, moved address unknown
- 261 TYPE-D, moved w/in U.S. but outside SIPP
- 262 Merged with another SIPP household
- 270 Mover, no longer located in same fr's area
- 271 Mover, new address located in same fr's area

### Industry Classification Codes for Jobs

- 1 Not in universe
- 10 Agricultural production, crops (01)
- 11 Agricultural production, livestock (02)
- 12 Veterinary services (074)
- 20 Landscape and horticultural services (078)
- 30 Agricultural services, n.e.c. (071, 072, 075, 076)
- 31 Forestry (08)
- 32 Fishing, hunting, and trapping (09)
- 40 Metal mining (10)
- 41 Coal mining (12)
- 42 Oil and gas extraction (13)
- 50 Nonmetallic mining and quarrying, except fuel (14)
- 60 Construction (15, 16, 17)
- 100 Meat products (201)
- 101 Dairy products (202)
- 102 Canned, frozen and preserved fruits and vegetables (203)
- 110 Grain mill products (204)
- 111 Bakery products (205)
- 112 Sugar and confectionery products (206)
- 120 Beverage industries (208)
- 121 Miscellaneous food preparations and kindred products (207, 209)
- 122 Not specified food industries
- 130 Tobacco manufactures (21)
- 132 Knitting mills (225)
- 140 Dyeing and finishing textiles, except wool and knit goods (226)
- 141 Carpets and rugs (227)
- 142 Yarn, thread, and fabric mills (221-224, 228)
- 150 Miscellaneous textile mill products (229)
- 151 Apparel and accessories, except knit (231-238)
- 152 Miscellaneous fabricated textile products (239)
- 160 Pulp, paper, and paperboard mills (261-263)
- 161 Miscellaneous paper and pulp products (267)
- 162 Paperboard containers and boxes (265)
- 171 Newspaper publishing and printing (271)
- 172 Printing, publishing, and allied industries, except newspapers (272-279)
- 180 Plastics, synthetics, and resins (282)
- 181 Drugs (283)
- 182 Soaps and cosmetics (284)
- 190 Paints, varnishes, and rel. products (285)
- 191 Agricultural chemicals (287)
- 192 Industrial and miscellaneous chemicals (281, 286, 289)

APPENDIX A5 - INDUSTRY CLASSIFICATION CODES FOR JOBS

- 200 Petroleum refining (291)
- 201 Miscellaneous petroleum and coal products (295, 299)
- 210 Tires and inner tubes (301)
- 211 Other rubber products, and plastics footwear and belting (302-306)
- 212 Miscellaneous plastics products (308)
- 220 Leather tanning and finishing (311)
- 221 Footwear, except rubber and plastic (313, 314)
- 222 Leather products, except footwear (315-317, 319)
- 230 Logging (241)
- 231 Sawmills, planing mills, and millwork (242, 243)
- 232 Wood buildings and mobile homes (245)
- 241 Miscellaneous wood products (244, 249)
- 242 Furniture and fixtures (25)
- 250 Glass and glass products (321-323)
- 251 Cement, concrete, gypsum, and plaster products (324, 327)
- 252 Structural clay products (325)
- 261 Pottery and related products (326)
- 262 Miscellaneous nonmetallic mineral and stone products (328, 329)
- 270 Blast furnaces, steelworks, rolling and finishing mills (331)
- 271 Iron and steel foundries (332)
- 272 Primary aluminum industries (3334, part 334, 3353-3355, 3363, 3365)
- 280 Other primary metal industries (3331,3339, part 334,3351,3356-57,3364,3366,3369,339)
- 281 Cutlery, handtools, and general hardware (342)
- 282 Fabricated structural metal products (344)
- 290 Screw machine products (345)
- 291 Metal forgings and stampings (346)
- 292 Ordnance (348)
- 300 Misc fabricated metal products (341, 343, 347, 349)
- 301 Not specified metal industries
- 310 Engines and turbines (351)
- 311 Farm machinery and equipment (352)
- 312 Construction and material handling machines (353)
- 320 Metalworking machinery (354)
- 321 Office and accounting machines (3578, 3579)
- 322 Computers and rel. equipment (3571-3577)
- 331 Machinery, except electrical, n.e.c. (355, 356, 358, 359)
- 332 Not specified machinery
- 340 Household appliances (363)
- 341 Radio, TV, and communication equipment (365, 366)
- 342 Electrical machinery, equipment, and supplies, n.e.c. (361, 362, 364, 367, 369)
- 350 Not specified electrical machinery, equipment, and supplies
- 351 Motor vehicles and motor vehicle equipment (371)
- 352 Aircraft and parts (372)
- 360 Ship and boat building and repairing (373)
- 361 Railroad locomotives and equipment (374)
- 362 Guided missiles, space vehicles, and parts (376)

## SIPP FILES

370 Cycles and miscellaneous transportation equipment (375, 379)  
371 Scientific and controlling instruments (381, 382 except 3827)  
372 Medical, dental, and optical instruments and supplies (3827, 384, 385)  
380 Photographic equipment and supplies (386)  
381 Watches, clocks, and clockwork operated devices (387)  
390 Toys, amusement, and sporting goods (394)  
391 Miscellaneous manufacturing industries (39 except 394)  
392 Not spec manufacturing industries  
400 Railroads (40)  
401 Bus service and urban transit (41, except 412)  
402 Taxicab service (412)  
410 Trucking service (421, 423)  
411 Warehousing and storage (422)  
412 U.S. Postal Service (43)  
420 Water transportation (44)  
421 Air transportation (45)  
422 Pipe lines, except natural gas (46)  
432 Services incidental to transportation (47)  
440 Radio and television broadcasting and cable (483, 484)  
441 Telephone communications (481)  
442 Telegraph and miscellaneous communications services (482, 489)  
450 Electric light and power (491)  
451 Gas and steam supply systems (492, 496)  
452 Electric and gas, and other combinations (493)  
470 Water supply and irrigation (494, 497)  
471 Sanitary services (495)  
472 Not specified utilities  
500 Motor vehcls and equipment (501)  
501 Furniture and home furnishings (502)  
502 Lumber and construction materials (503)  
510 Professional and commercial equipment and supplies (504)  
511 Metals and minerals, except petroleum (505)  
512 Electrical goods (506)  
521 Hardware, plumbing and heating supplies (507)  
530 Machinery, equipment, and supplies (508)  
531 Scrap and waste materials (5093)  
532 Miscellaneous wholesale, durable goods (509 except 5093)  
540 Paper and paper products (511)  
541 Drugs, chemicals and allied products (512, 516)  
542 Apparel, fabrics, and notions (513)  
550 Groceries and related products (514)  
551 Farm-product raw materials (515)  
552 Petroleum products (517)  
560 Alcoholic beverages (518)  
561 Farm supplies (5191)  
562 Misc wholesale, nondurable goods (5192-5199)

APPENDIX A5 - INDUSTRY CLASSIFICATION CODES FOR JOBS

571 Not specified wholesale trade  
580 Lumber and building material retailing (521, 523)  
581 Hardware stores (525)  
582 Stores, retail nurseries and garden (526)  
590 Mobile home dealers (527)  
591 Department stores (531)  
592 Variety stores (533)  
600 Stores, misc general merchandise (539)  
601 Grocery stores (541)  
602 Stores, dairy products (545)  
610 Retail bakeries (546)  
611 Food stores, n.e.c. (542, 543, 544, 549)  
612 Motor vehicle dealers (551, 552)  
620 Stores, auto and home supply (553)  
621 Gasoline service stations (554)  
622 Miscellaneous vehicle dealers (555, 556, 557, 559)  
623 Stores, apparel and accessory, except shoe (56, except 566)  
630 Shoe stores (566)  
631 Stores, furniture and home furnishings (571)  
632 Stores, household appliance (572)  
633 Stores, radio, TV, and computer (5731, 5734)  
640 Music stores (5735, 5736)  
641 Eating and drinking places (58)  
642 Drug stores (591)  
650 Liquor stores (592)  
651 Stores, sporting goods, bicycles, and hobby (5941, 5945, 5946)  
652 Stores, book and stationery (5942, 5943)  
660 Jewelry stores (5944)  
661 Gift, novelty, and souvenir shops (5947)  
662 Sewing, needlework and piece goods stores (5949)  
663 Catalog and mail order houses (5961)  
670 Vending machine operators (5962)  
671 Direct selling establishments (5963)  
672 Fuel dealers (598)  
681 Retail florists (5992)  
682 Stores, Miscellaneous retail (593, 5948, 5993-5995, 5999)  
691 Not specified retail trade  
700 Banking (60 except 603 and 606)  
701 Savings institutions, including credit unions (603, 606)  
702 Credit agencies, n.e.c. (61)  
710 Security, commodity brokerage, and investment companies (62, 67)  
711 Insurance (63, 64)  
712 Real estate, including real estate-insurance offices (65)  
721 Advertising (731)  
722 Services to dwellings and other buildings (734)  
731 Personnel supply services (736)

## SIPP FILES

732 Computer and data processing services (737)  
740 Detective and protective services (7381, 7382)  
741 Business services, n.e.c. (732, 733, 735, 7383-7389)  
742 Automotive rental and leasing, w/out drivers (751)  
750 Automotive parking and carwashes (752, 7542)  
751 Automotive repair and rel. services (753, 7549)  
752 Electrical repair shops (762, 7694)

205 Health record technologists and technicians (364)  
206 Radiologic technicians (365)  
207 Licensed practical nurses (366)  
208 Health technologists and technicians, n.e.c. (369)  
213 Electrical and electronic technicians (3711)  
214 Industrial engineering technicians (3712)  
215 Mechanical engineering technicians (3713)  
216 Engineering technicians, n.e.c. (3719)  
217 Drafting occupations (372)  
218 Surveying and mapping technicians (373)  
223 Biological technicians (382)  
224 Chemical technicians (3831)  
225 Science technicians, n.e.c. (3832, 3833, 384, 389)  
226 Airplane pilots and navigators (825)  
227 Air traffic controllers (392)  
228 Broadcast equipment operators (393)  
229 Computer programmers (3971, 3972)  
233 Tool programmers, numerical control (3974)  
234 Legal assistants (396)  
235 Technicians, n.e.c. (399)  
243 Supervisors and Proprietors, Sales Occupations (40)  
253 Insurance sales occupations (4122)  
254 Real estate sales occupations (4123)  
255 Securities and financial services sales occupations (4124)  
256 Advertising and rel. sales occupations (4153)  
257 Sales occupations, other business services (4152)  
258 Sales engineers (421)  
259 Sales representatives, mining, manufacturing, and wholesale (423, 424)  
263 Sales workers, motor vehicles and boats (4342, 4344)  
264 Sales workers, apparel (4346)  
265 Sales workers, shoes (4351)  
266 Sales workers, furniture and home furnishings (4348)  
267 Sales workers, radio, Tv, hi-fi, and appliances (4343, 4352)  
268 Sales workers, hardware and building supplies (4353)  
269 Sales workers, parts (4367)  
274 Sales workers, other commodities (4345, 4347, 4354, 4356, 4359, 4362, 4369)  
275 Sales counter clerks (4363)  
276 Cashiers (4364)  
277 Street and door-to-door sales workers (4366)  
278 News vendors (4365)  
283 Demonstrators, promoters and models, sales (445)  
284 Auctioneers (447)  
285 Sales support occupations, n.e.c. (444, 446, 449)  
303 Supervisors, general office (4511, 4513, 4514, 4516, 4519, 4529)  
304 Supervisors, computer equipment operators (4512)  
305 Supervisors, financial records processing (4521)

## SIPP FILES

306 Chief communications operators (4523)  
307 Supervisors, distribution, scheduling, and adjusting clerks (4522, 4524-4528)  
308 Computer operators (4612)  
309 Peripheral equipment operators (4613)  
313 Secretaries (4622)  
314 Stenographers (4623)  
315 Typists (4624)  
316 Interviewers (4642)  
317 Hotel clerks (4643)  
318 Transportation ticket and reservation agents (4644)  
319 Receptionists (4645)  
323 Information clerks, n.e.c. (4649)  
325 Classified-ad clerks (4662)  
326 Correspondence clerks (4663)  
327 Order clerks (4664)  
328 Personnel clerks, except payroll and timekeeping (4692)  
329 Library clerks (4694)  
335 File clerks (4696)  
336 Records clerks (4699)  
337 Bookkeepers, accounting, and auditing clerks (4712)  
338 Payroll and timekeeping clerks (4713)  
339 Billing clerks (4715)  
343 Cost and rate clerks (4716)  
344 Billing, posting, and calculating machine operators (4718)  
345 Duplicating machine operators (4722)  
346 Mail preparing and paper handling machine operators (4723)  
347 Office mach. operators, n.e.c. (4729)  
348 Telephone operators (4732)  
353 Communications equipment operators, n.e.c. (4733, 4739)  
354 Postal clerks, except mail carriers (4742)  
355 Mail carriers, postal service (4743)  
356 Mail clerks, except postal service (4744)  
357 Messengers (4745)  
359 Dispatchers (4751)  
363 Production coordinators (4752)  
364 Traffic, shipping, and receiving clerks (4753)  
365 Stock and inventory clerks (4754)  
366 Meter readers (4755)  
368 Weighers, measurers, checkers, and samplers (4756, 4757)  
373 Expeditors (4758)  
374 Material recording, scheduling, and distributing clerks, n.e.c. (4759)  
375 Insurance adjusters, examiners, and investigators (4782)  
376 Investigators and adjusters, except insurance (4783)  
377 Eligibility clerks, social welfare (4784)  
378 Bill and account collectors (4786)  
379 General office clerks (463)

APPENDIX A6 - OCCUPATION CLASSIFICATION CODES FOR JOBS

383 Bank tellers (4791)  
384 Proofreaders (4792)  
385 Data-entry keyers (4793)  
386 Statistical clerks (4794)  
387 Teachers' aides (4795)  
389 Administrative support occupations, n.e.c. (4787, 4799)  
403 Launderers and ironers (503)  
404 Cooks, private household (504)  
405 Housekeepers and butlers (505)  
406 Child care workers, private hhd (506)  
407 Private hhd cleaners and servants (502, 507, 509)  
413 Supervisors, firefighting and fire prevention occupations(5111)  
414 Supervisors, police and detectives (5112)  
415 Supervisors, guards (5113)  
416 Fire inspection and fire prevention occupations (5122)  
417 Firefighting occupations (5123)  
418 Police and detectives, public service (5132)  
423 Sheriffs, bailiffs, and other law enforcement officers(5134)  
424 Correctional institution officers (5133)  
425 Crossing guards (5142)  
426 Guards and police, except public service (5144)  
427 Protective service occupations, n.e.c. (5149)  
433 Supervisors, food preparation and service occupations(5211)  
434 Bartenders (5212)  
435 Waiters and waitresses (5213)  
436 Cooks (5214, 5215)  
438 Food counter, fountain and rel. occupations (5216)  
439 Kitchen workers, food preparation (5217)  
443 Waiters'/waitresses' assistants (5218)  
444 Miscellaneous food preparation occupations (5219)  
445 Dental assistants (5232)  
446 Health aides, except nursing (5233)  
447 Nursing aides, orderlies, and attendants (5236)  
448 Supervisors, cleaning and building service workers (5241)  
449 Maids and housemen (5242, 5249)  
453 Janitors and cleaners (5244)  
454 Elevator operators (5245)  
455 Pest control occupations (5246)  
456 Supervisors, personal service occupations (5251)  
457 Barbers (5252)  
458 Hairdressers and cosmetologists (5253)  
459 Attendants, amusement and recreation facilities (5254)  
461 Guides (5255)  
462 Ushers (5256)  
463 Public transportation attendants (5257)  
464 Baggage porters and bellhops (5262)

## SIPP FILES

465 Welfare service aides (5263)  
466 Family child care providers (part 5264)  
467 Early childhood teacher's assistants (part 5264)  
468 Child care wrkrs, n.e.c. (part 5264)  
469 Personal service occupations, n.e.c. (5258, 5269)  
473 Farmers, except horticultural (5512-5514)  
474 Horticultural specialty farmers (5515)  
475 Managers, farms, except horticultural (5522-5524)  
476 Managers, horticultural specialty farms (5525)  
477 Supervisors, farm workers (5611)  
479 Farm workers (5612-5617)  
483 Marine life cultivation workers (5618)  
484 Nursery workers (5619)  
485 Supervisors, rel. agricultural occupations (5621)  
486 Groundskeepers and gardeners, except farm (5622)  
487 Animal caretakers, except farm (5624)  
488 Graders and sorters, agricultural products (5625)  
489 Inspectors, agricultural products (5627)  
494 Supervisors, forestry and logging workers (571)  
495 Forestry workers, except logging (572)  
496 Timber cutting and logging occupations (573, 579)  
497 Captains and other officers, fishing vessels (part 8241)  
498 Fishers (583)  
499 Hunters and trappers (584)  
503 Supervisors, mechanics and repairers (60)  
505 Automobile mechanics (part 6111)  
506 Auto mechanic apprentices (part 6111)  
507 Bus, truck, and stationary engine mechanics (6112)  
508 Aircraft engine mechanics (6113)  
509 Small engine repairers (6114)  
514 Automobile body and rel. repairers (6115)  
515 Aircraft mechanics, except engine (6116)  
516 Heavy equipment mechanics (6117)  
517 Farm equipment mechanics (6118)  
518 Industrial machinery repairers (613)  
519 Machinery maintenance occupations (614)  
523 Electronic repairers, communications and industrial equipment (6151, 6153, 6155)  
525 Data processing equipment repairers (6154)  
526 Hhld appliance and power tool repairers (6156)  
527 Telephone line installers and repairers (6157)  
529 Telephone installers and repairers (6158)  
533 Miscellaneous electrical and electronic equipment repairers (6152, 6159)  
534 Heating, air conditioning, and refrigeration mechanics (616)  
535 Camera, watch, and musical instrument repairers (6171, 6172)  
536 Locksmiths and safe repairers (6173)  
538 Office machine repairers (6174)

APPENDIX A6 - OCCUPATION CLASSIFICATION CODES FOR JOBS

539 Mechanical controls and valve repairers (6175)  
543 Elevator installers and repairers (6176)  
544 Millwrights (6178)  
547 Specified mechanics and repairers, n.e.c. (6177, 6179)  
549 Not specified mechanics and repairers  
553 Supervisors, brickmasons, stonemasons, and tile setters (6312)  
554 Supervisors, carpenters and rel. workers (6313)  
555 Supervisors, electricians and power transmission installers (6314)  
556 Supervisors, painters, paperhangers, and plasterers (6315)  
557 Supervisors, plumbers, pipefitters, and steamfitters (6316)  
558 Supervisors, construction, n.e.c. (6311, 6318)  
563 Brickmasons and stonemasons (part 6412, part 6413)  
564 Brickmason and stonemason apprentices (part 6412, part 6413)  
565 Tile setters, hard and soft (part 6414, part 6462)  
566 Carpet installers (part 6462)  
567 Carpenters (part 6422)  
569 Carpenter apprentices (part 6422)  
573 Drywall installers (6424)  
575 Electricians (part 6432)  
576 Electrician apprentices (part 6432)  
577 Electrical power installers and repairers (6433)  
579 Painters, construction and maintenance (6442)  
583 Paperhangers (6443)  
584 Plasterers (6444)  
585 Plumbers, pipefitters, and steamfitters (part 645)  
587 Plumber, pipefitter, and steamfitter apprentices (part 645)  
588 Concrete and terrazzo finishers (6463)  
589 Glaziers (6464)  
593 Insulation workers (6465)  
594 Paving, surfacing, and tamping equipment operators (6466)  
595 Roofers (6468)  
596 Sheetmetal duct installers (6472)  
597 Structural metal workers (6473)  
598 Drillers, earth (6474)  
599 Construction trades, n.e.c. (6467, 6475, 6476, 6479)  
613 Supervisors, extractive occupations (632)  
614 Drillers, oil well (652)  
615 Explosives workers (653)  
616 Mining machine operators (654)  
617 Mining occupations, n.e.c. (656)  
628 Supervisors, production occupations (67, 71)  
634 Tool and die makers (part 6811)  
635 Tool and die mkr apprentices (part 6811)  
636 Precision assemblers, metal (6812)  
637 Machinists (part 6813)  
639 Machinist apprentices (part 6813)

## SIPP FILES

643 Boilermakers (6814)  
644 Precision grinders, filers, and tool sharpeners (6816)  
645 Patternmakers and model makers, metal (6817)  
646 Lay-out workers (6821)  
647 Precious stones and metals workers (Jewelers) (6822, 6866)  
649 Engravers, metal (6823)  
653 Sheet metal workers (part 6824)  
654 Sheet metal wrkr apprentices (part 6824)  
655 Misc precision metal workers (6829)  
656 Patternmkr and model makers, wood (6831)  
657 Cabinet makers and bench carpenters (6832)  
658 Furniture and wood finishers (6835)  
659 Misc precision woodworkers (6839)  
666 Dressmakers (part 6852, part 7752)  
667 Tailors (part 6852)  
668 Upholsterers (6853)  
669 Shoe repairers (6854)  
674 Misc precision apparel and fabric workers (6856, 6859, part 7752)  
675 Hand molders and shapers, except jewelers (6861)  
676 Patternmakers, lay-out workers, and cutters (6862)  
677 Optical goods workers (6864, part 7477, part 7677)  
678 Dental laboratory and medical appliance technicians (6865)  
679 Bookbinders (6844)  
683 Electrical/electronic equipment assemblers (6867)  
684 Msc precision workers, n.e.c. (6869)  
686 Butchers and meat cutters (6871)  
687 Bakers (6872)  
688 Food batchmakers (6873, 6879)  
689 Inspectors, testers, and graders (6881, 828)  
693 Adjusters and calibrators (6882)  
694 Water and sewage treatment plant operators (691)  
695 Power plant operators (part 693)  
696 Stationary engineers (part 693, 7668)  
699 Miscellaneous plant and system operators (692, 694, 695, 696)  
703 Set-up operators, lathe and turning machine (7312)  
704 Operators, lathe and turning machine (7512)  
705 Milling and planing machine operators (7313, 7513)  
706 Punching and stamping press machine operators (7314, 7317, 7514, 7517)  
707 Rolling machine operators (7316, 7516)  
708 Drilling and boring machine operators (7318, 7518)  
709 Grinding, abrading, buffing, and polishing machine operators (7322, 7324, 7522)  
713 Forging machine operators (7319, 7519)  
714 Numerical control machine operators (7326)  
715 Miscellaneous metal, plastic, stone, and glass working machine operators (7329, 7529)  
717 Fabricating machine operators, n.e.c. (7339, 7539)  
719 Molding and casting machine operators (7315, 7342, 7515, 7524)

APPENDIX A6 - OCCUPATION CLASSIFICATION CODES FOR JOBS

723 Metal plating machine operators (7343, 7543)  
724 Heat treating equipment operators (7344, 7544)  
725 Misc metal and plastic processing machine operators (7349, 7549)  
726 Wood lathe, routing, and planing machine operators (7431, 7432, 7631, 7632)  
727 Sawing machine operators (7433, 7633)  
728 Shaping and joining machine operators (7435, 7635)  
729 Nailing and tacking machine operators (7636)  
733 Miscellaneous woodworking machine operators (7434, 7439, 7634, 7639)  
734 Printing press operators (7443, 7643)  
735 Photoengravers and lithographers (6842, 7444, 7644)  
736 Typesetters and compositors (6841, 7642)  
737 Miscellaneous printing machine operators (6849, 7449, 7649)  
738 Winding and twisting machine operators (7451, 7651)  
739 Knitting, looping, taping, and weaving machine operators (7452, 7652)  
743 Textile cutting machine operators (7654)  
744 Textile sewing machine operators (7655)  
745 Shoe machine operators (7656)  
747 Pressing machine operators (7657)  
748 Laundering and dry cleaning machine operators (6855, 7658)  
749 Miscellaneous textile machine operators (7459, 7659)  
753 Cementing and gluing machine operators (7661)  
754 Packaging and filling machine operators (7462, 7662)  
755 Extruding and forming machine operators (7463, 7663)  
756 Mixing and blending machine operators (7664)  
757 Separating, filtering, and clarifying machine operators (7476, 7666, 7676)  
758 Compressing and compacting machine operators (7467, 7667)  
759 Painting and paint spraying machine operators (7669)  
763 Roasting and baking machine operators, food (7472, 7672)  
764 Washing, cleaning, and pickling machine operators (7673)  
765 Folding machine operators (7474, 7674)  
766 Furnace, kiln, and oven operators, except food (7675)  
768 Crushing and grinding machine operators (part 7477, part 7677)  
769 Slicing and cutting machine operators (7478, 7678)  
773 Motion picture projectionists (part 7479)  
774 Photographic process machine operators (6863, 6868, 7671)  
777 Miscellaneous machine operators, n.e.c. (part 7479, 7665, 7679)  
779 Machine operators, not specified  
783 Welders and cutters (7332, 7532, 7714)  
784 Solderers and brazers (7333, 7533, 7717)  
785 Assemblers (772, 774)  
786 Hand cutting and trimming occupations (7753)  
787 Hand molding, casting, and forming occupations (7754, 7755)  
789 Hand painting, coating, and decorating occupations (7756)  
793 Hand engraving and printing occupations (7757)  
795 Miscellaneous hand working occupations (7758, 7759)  
796 Production inspectors, checkers, and examiners (782, 787)

## SIPP FILES

797 Production testers (783)  
798 Production samplers and weighers (784)  
799 Graders and sorters, except agricultural (785)  
803 Supervisors, motor vehicle operators (8111)  
804 Truck drivers (8212-8214)  
806 Driver-sales workers (8218)  
808 Bus drivers (8215)  
809 Taxicab drivers and chauffeurs (8216)  
813 Parking lot attendants (874)  
814 Motor transportation occupations, n.e.c. (8219)  
823 Railroad conductors and yardmasters (8113)  
824 Locomotive operating occupations (8232)  
825 Railroad brake, signal, and switch operators (8233)  
826 Rail vehicle operators, n.e.c. (8239)  
828 Ship captains and mates, except fishing boats (part 8241, 8242)  
829 Sailors and deckhands (8243)  
833 Marine engineers (8244)  
834 Bridge, lock, and lighthouse tenders (8245)  
843 Supervisors, material moving equipment operators (812)  
844 Operating engineers (8312)  
845 Longshore equipment operators (8313)  
848 Hoist and winch operators (8314)  
849 Crane and tower operators (8315)  
853 Excavating and loading machine operators (8316)  
855 Grader, dozer, and scraper operators (8317)  
856 Industrial truck and tractor equipment operators (8318)  
859 Misc material moving equipment operators (8319)  
864 Supervisors, handlers, equipment cleaners, and laborers, n.e.c. (85)  
865 Helpers, mechanics, and repairers (863)  
866 Helpers, construction trades (8641-8645, 8648)  
867 Helpers, surveyor (8646)  
868 Helpers, extractive occupations (865)  
869 Construction laborers (871)  
874 Production helpers (861, 862)  
875 Garbage collectors (8722)  
876 Stevedores (8723)  
877 Stock handlers and baggers (8724)  
878 Machine feeders and offbearers (8725)  
883 Freight, stock, and material handlers, n.e.c. (8726)  
885 Garage and service station rel. occupations (873)  
887 Vehicle washers and equipment cleaners (875)  
888 Hand packers and packagers (8761)  
889 Laborers, except construction (8769)  
905 Persons whose current labor force status is unemployed and last job was Armed Forces

## APPENDIX A7

### Occupation Classification Codes for Businesses

- 1 Not in universe
- 4 Chief executives and general administrators, public administration (112)
- 5 Administrators and officials, public administration (1132-1139)
- 6 Administrators, protective services (1131)
- 7 Financial managers (122)
- 8 Personnel and labor relations managers (123)
- 9 Purchasing managers (124)
- 13 Managers, marketing, advertising, and public relations (125)
- 14 Admin, education and rel. fields (128)
- 15 Managers, medicine and health (131)
- 17 Managers, food serving and lodging establishments (1351)
- 18 Managers, properties and real estate (1353)
- 19 Funeral directors (part 1359)
- 21 Managers, service organizations, n.e.c. (127, 1352, 1354, part 1359)
- 22 Managers and administrators, n.e.c. (121, 126, 132-1343, 136-139)
- 23 Accountants and auditors (1412)
- 24 Underwriters (1414)
- 25 Other financial officers (1415, 1419)
- 26 Management analysts (142)
- 27 Personnel, training, and labor relations specialists (143)
- 28 Purchasing agents and buyers, farm products (1443)
- 29 Buyers, wholesale and retail trade except farm products (1442)
- 33 Purch. agents and buyers, n.e.c. (1449)
- 34 Business and promotion agents (145)
- 35 Construction inspectors (1472)
- 36 Inspectors and compliance officers, except construction (1473)
- 37 Management rel. occupations, n.e.c. (149)
- 43 Architects (161)
- 44 Aerospace engineers(1622)
- 45 Metallurgical and materials engineers (1623)
- 46 Mining engineers (1624)
- 47 Petroleum engineers (1625)
- 48 Chemical engineers (1626)
- 49 Nuclear engineers (1627)
- 53 Civil engineers (1628)
- 54 Agricultural engineers (1632)
- 55 Engineers, electrical and electronic (1633, 1636)
- 56 Engineers, industrial (1634)
- 57 Engineers, mechanical (1635)
- 58 Marine and naval architects (1637)
- 59 Engineers, n.e.c. (1639)
- 63 Surveyors and mapping scientists (164)

APPENDIX A7 - OCCUPATION CLASSIFICATION CODES FOR BUSINESSES

- 64 Computer systems analysts and scientists (171)
- 65 Operations and systems researchers and analysts (172)
- 66 Actuaries (1732)
- 67 Statisticians (1733)
- 68 Mathematical scientists, n.e.c. (1739)
- 69 Physicists and astronomers (1842, 1843)
- 73 Chemists, except biochemists (1845)
- 74 Atmospheric and space scientists (1846)
- 75 Geologists and geodesists (1847)
- 76 Physical scientists, n.e.c. (1849)
- 77 Agricultural and food scientists (1853)
- 78 Biological and life scientists (1854)
- 79 Forestry and conservation scientists (1852)
- 83 Medical scientists (1855)
- 84 Physicians (261)
- 85 Dentists (262)
- 86 Veterinarians (27)
- 87 Optometrists (281)
- 88 Podiatrists (283)
- 89 Health diagnosing practitioners, n.e.c. (289)
- 95 Registered nurses (29)
- 96 Pharmacists (301)
- 97 Dietitians (302)
- 98 Respiratory therapists (3031)
- 99 Occupational therapists (3032)
- 103 Physical therapists (3033)
- 104 Speech therapists (3034)
- 105 Therapists, n.e.c. (3039)
- 106 Physicians' assistants (304)
- 113 Earth, environmental, and marine science teachers (2212)
- 114 Biological science teachers (2213)
- 115 Chemistry teachers (2214)
- 116 Physics teachers (2215)
- 117 Natural science teachers, n.e.c. (2216)
- 118 Psychology teachers (2217)
- 119 Economics teachers (2218)
- 123 History teachers (2222)
- 124 Political science teachers (2223)
- 125 Sociology teachers (2224)
- 126 Social science teachers, n.e.c. (2225)
- 127 Engineering teachers (2226)
- 128 Math. science teachers (2227)
- 129 Computer science teachers (2228)
- 133 Medical science teachers (2231)
- 134 Health specialties teachers (2232)
- 135 Business, commerce, and marketing teachers (2233)

## SIPP FILES

- 136 Agriculture and forestry teachers (2234)
- 137 Art, drama, and music teachers (2235)
- 138 Physical education teachers (2236)
- 139 Education teachers (2237)
- 143 English teachers (2238)
- 144 Foreign language teachers (2242)
- 145 Law teachers (2243)
- 146 Social work teachers (2244)
- 147 Theology teachers (2245)
- 148 Trade and industrial teachers (2246)
- 149 Home economics teachers (2247)
- 153 Teachers, postsecondary, n.e.c. (2249)
- 154 Postsecondary teachers, subject not specified
- 155 Teachers, prekindergarten and kindergarten (231)
- 156 Teachers, elementary school (232)
- 157 Teachers, secondary school (233)
- 158 Teachers, special education (235)
- 159 Teachers, n.e.c. (236, 239)
- 163 Counselors, Educational and Vocational (24)
- 164 Librarians (251)
- 165 Archivists and curators (252)
- 166 Economists (1912)
- 167 Psychologists (1915)
- 168 Sociologists (1916)
- 169 Social scientists, n.e.c. (1913, 1914, 1919)
- 173 Urban planners (192)
- 174 Social workers (2032)
- 175 Recreation workers (2033)
- 176 Clergy (2042)
- 177 Religious workers, n.e.c. (2049)
- 178 Lawyers and Judges
- 183 Authors (321)
- 184 Technical writers (398)
- 185 Designers (322)
- 186 Musicians and composers (323)
- 187 Actors and directors (324)
- 188 Painters, sculptors, craft-artists, and artist printmakers (325)
- 189 Photographers (326)
- 193 Dancers (327)
- 194 Artists, performers, and rel. workers, n.e.c. (328,329)
- 195 Editors and reporters (331)
- 197 Public relations specialists (332)
- 198 Announcers (333)
- 199 Athletes (34)
- 203 Clinical laboratory technologists and technicians (362)
- 204 Dental hygienists (363)

APPENDIX A7 - OCCUPATION CLASSIFICATION CODES FOR BUSINESSES

205 Health record technologists and technicians (364)  
206 Radiologic technicians (365)  
207 Licensed practical nurses (366)  
208 Health technologists and technicians, n.e.c. (369)  
213 Electrical and electronic technicians (3711)  
214 Industrial engineering technicians (3712)  
215 Mechanical engineering technicians (3713)  
216 Engineering technicians, n.e.c. (3719)  
217 Drafting occupations (372)  
218 Surveying and mapping technicians (373)  
223 Biological technicians (382)  
224 Chemical technicians (3831)  
225 Science technicians, n.e.c. (3832, 3833, 384, 389)  
226 Airplane pilots and navigators (825)  
227 Air traffic controllers (392)  
228 Broadcast equipment operators (393)  
229 Computer programmers (3971, 3972)  
233 Tool programmers, numerical control (3974)  
234 Legal assistants (396)  
235 Technicians, n.e.c. (399)  
243 Supervisors and Proprietors, Sales Occupations (40)  
253 Insurance sales occupations (4122)  
254 Real estate sales occupations (4123)  
255 Securities and financial services sales occupations (4124)  
256 Advertising and rel. sales occupations (4153)  
257 Sales occupations, other business services (4152)  
258 Sales engineers (421)  
259 Sales representatives, mining, manufacturing, and wholesale (423, 424)  
263 Sales workers, motor vehicles and boats (4342, 4344)  
264 Sales workers, apparel (4346)  
265 Sales workers, shoes (4351)  
266 Sales workers, furniture and home furnishings (4348)  
267 Sales workers, radio, TV, hi-fi, and appliances (4343, 4352)  
268 Sales workers, hardware and building supplies (4353)  
269 Sales workers, parts (4367)  
274 Sales workers, other commodities (4345, 4347, 4354, 4356, 4359, 4362, 4369)  
275 Sales counter clerks (4363)  
276 Cashiers (4364)  
277 Street and door-to-door sales workers (4366)  
278 News vendors (4365)  
283 Demonstrators, promoters and models, sales (445)  
284 Auctioneers (447)  
285 Sales support occupations, n.e.c. (444, 446, 449)  
303 Supervisors, general office (4511, 4513, 4514, 4516, 4519, 4529)  
304 Supervisors, computer equipment operators (4512)  
305 Supervisors, financial records processing (4521)

## SIPP FILES

306 Chief communications operators (4523)  
307 Supervisors, distribution, scheduling, and adjusting clerks (4522, 4524-4528)  
308 Computer operators (4612)  
309 Peripheral equipment operators (4613)  
313 Secretaries (4622)  
314 Stenographers (4623)  
315 Typists (4624)  
316 Interviewers (4642)  
317 Hotel clerks (4643)  
318 Transportation ticket and reservation agents (4644)  
319 Receptionists (4645)  
323 Information clerks, n.e.c. (4649)  
325 Classified-ad clerks (4662)  
326 Correspondence clerks (4663)  
327 Order clerks (4664)  
328 Personnel clerks, except payroll and timekeeping (4692)  
329 Library clerks (4694)  
335 File clerks (4696)  
336 Records clerks (4699)  
337 Bookkeepers, accounting, and auditing clerks (4712)  
338 Payroll and timekeeping clerks (4713)  
339 Billing clerks (4715)  
343 Cost and rate clerks (4716)  
344 Billing, posting, and calculating machine operators (4718)  
345 Duplicating machine operators (4722)  
346 Mail preparing and paper handling machine operators (4723)  
347 Office mach. operators, n.e.c. (4729)  
348 Telephone operators (4732)  
353 Communications equipment operators, n.e.c. (4733, 4739)  
354 Postal clerks, except mail carriers (4742)  
355 Mail carriers, postal service (4743)  
356 Mail clerks, except postal service (4744)  
357 Messengers (4745)  
359 Dispatchers (4751)  
363 Production coordinators (4752)  
364 Traffic, shipping, and receiving clerks (4753)  
365 Stock and inventory clerks (4754)  
366 Meter readers (4755)  
368 Weighers, measurers, checkers, and samplers (4756, 4757)  
373 Expeditors (4758)  
374 Material recording, scheduling, and distributing clerks, n.e.c. (4759)  
375 Insurance adjusters, examiners, and investigators (4782)  
376 Investigators and adjusters, except insurance (4783)  
377 Eligibility clerks, social welfare (4784)  
378 Bill and account collectors (4786)  
379 General office clerks (463)

APPENDIX A7 - OCCUPATION CLASSIFICATION CODES FOR BUSINESSES

383 Bank tellers (4791)  
384 Proofreaders (4792)  
385 Data-entry keyers (4793)  
386 Statistical clerks (4794)  
387 Teachers' aides (4795)  
389 Administrative support occupations, n.e.c. (4787, 4799)  
403 Launderers and ironers (503)  
404 Cooks, private household (504)  
405 Housekeepers and butlers (505)  
406 Child care workers, private hhld (506)  
407 Private hhld cleaners and servants (502, 507, 509)  
413 Supervisors, firefighting and fire prevention occupations(5111)  
414 Supervisors, police and detectives (5112)  
415 Supervisors, guards (5113)  
416 Fire inspection and fire prevention occupations (5122)  
417 Firefighting occupations (5123)  
418 Police and detectives, public service (5132)  
423 Sheriffs, bailiffs, and other law enforcement officers(5134)  
424 Correctional institution officers (5133)  
425 Crossing guards (5142)  
426 Guards and police, except public service (5144)  
427 Protective service occupations, n.e.c. (5149)  
433 Supervisors, food preparation and service occupations(5211)  
434 Bartenders (5212)  
435 Waiters and waitresses (5213)  
436 Cooks (5214, 5215)  
438 Food counter, fountain and rel. occupations (5216)  
439 Kitchen workers, food preparation (5217)  
443 Waiters'/waitresses' assistants (5218)  
444 Miscellaneous food preparation occupations (5219)  
445 Dental assistants (5232)  
446 Health aides, except nursing (5233)  
447 Nursing aides, orderlies, and attendants (5236)  
448 Supervisors, cleaning and building service workers (5241)  
449 Maids and housemen (5242, 5249)  
453 Janitors and cleaners (5244)  
454 Elevator operators (5245)  
455 Pest control occupations (5246)  
456 Supervisors, personal service occupations (5251)  
457 Barbers (5252)  
458 Hairdressers and cosmetologists (5253)  
459 Attendants, amusement and recreation facilities (5254)  
461 Guides (5255)  
462 Ushers (5256)  
463 Public transportation attendants (5257)  
464 Baggage porters and bellhops (5262)

## SIPP FILES

465 Welfare service aides (5263)  
466 Family child care providers (part 5264)  
467 Early childhood teacher's assistants (part 5264)  
468 Child care wrkrs, n.e.c. (part 5264)  
469 Personal service occupations, n.e.c. (5258, 5269)  
473 Farmers, except horticultural (5512-5514)  
474 Horticultural specialty farmers (5515)  
475 Managers, farms, except horticultural (5522-5524)  
476 Managers, horticultural specialty farms (5525)  
477 Supervisors, farm workers (5611)  
479 Farm workers (5612-5617)  
483 Marine life cultivation workers (5618)  
484 Nursery workers (5619)  
485 Supervisors, rel. agricultural occupations (5621)  
486 Groundskeepers and gardeners, except farm (5622)  
487 Animal caretakers, except farm (5624)  
488 Grader and sorter, agricultural products (5625)  
489 Inspectors, agricultural products (5627)  
494 Supervisors, forestry and logging workers (571)  
495 Forestry workers, except logging (572)  
496 Timber cutting and logging occupations (573, 579)  
497 Captains and other officers, fishing vessels (part 8241)  
498 Fishers (583)  
499 Hunters and trappers (584)  
503 Supervisors, mechanics and repairers (60)  
505 Automobile mechanics (part 6111)  
506 Auto mechanic apprentices (part 6111)  
507 Bus, truck, and stationary engine mechanics (6112)  
508 Aircraft engine mechanics (6113)  
509 Small engine repairers (6114)  
514 Automobile body and rel. repairers (6115)  
515 Aircraft mechanics, except engine (6116)  
516 Heavy equipment mechanics (6117)  
517 Farm equipment mechanics (6118)  
518 Industrial machinery repairers (613)  
519 Machinery maintenance occupations (614)  
523 Electronic repairers, communications and industrial equipment (6151, 6153, 6155)  
525 Data processing equipment repairers (6154)  
526 Hhld appliance and power tool repairers (6156)  
527 Telephone line installers and repairers (6157)  
529 Telephone installers and repairers (6158)  
533 Miscellaneous electrical and electronic equipment repairers (6152, 6159)  
534 Heating, air conditioning, and refrigeration mechanics (616)  
535 Camera, watch, and musical instrument repairers (6171, 6172)  
536 Locksmiths and safe repairers (6173)  
538 Office machine repairers (6174)

APPENDIX A7 - OCCUPATION CLASSIFICATION CODES FOR BUSINESSES

539 Mechanical controls and valve repairers (6175)  
543 Elevator installers and repairers (6176)  
544 Millwrights (6178)  
547 Specified mechanics and repairers, n.e.c. (6177, 6179)  
549 Not specified mechanics and repairers  
553 Supervisors, brickmasons, stonemasons, and tile setters (6312)  
554 Supervisors, carpenters and rel. workers (6313)  
555 Supervisors, electricians and power transmission installers (6314)  
556 Supervisors, painters, paperhangers, and plasterers (6315)  
557 Supervisors, plumbers, pipefitters, and steamfitters (6316)  
558 Supervisors, construction, n.e.c. (6311, 6318)  
563 Brickmasons and stonemasons (part 6412, part 6413)  
564 Brickmason and stonemason apprentices (part 6412, part 6413)  
565 Tile setters, hard and soft (part 6414, part 6462)  
566 Carpet installers (part 6462)  
567 Carpenters (part 6422)  
569 Carpenter apprentices (part 6422)  
573 Drywall installers (6424)  
575 Electricians (part 6432)  
576 Electrician apprentices (part 6432)  
577 Electrical power installers and repairers (6433)  
579 Painters, construction and maintenance (6442)  
583 Paperhangers (6443)  
584 Plasterers (6444)  
585 Plumbers, pipefitters, and steamfitters (part 645)  
587 Plumber, pipefitter, and steamfitter apprentices (part 645)  
588 Concrete and terrazzo finishers (6463)  
589 Glaziers (6464)  
593 Insulation workers (6465)  
594 Paving, surfacing, and tamping equipment operators (6466)  
595 Roofers (6468)  
596 Sheetmetal duct installers (6472)  
597 Structural metal workers (6473)  
598 Drillers, earth (6474)  
599 Construction trades, n.e.c. (6467, 6475, 6476, 6479)  
613 Supervisors, extractive occupations (632)  
614 Drillers, oil well (652)  
615 Explosives workers (653)  
616 Mining machine operators (654)  
617 Mining occupations, n.e.c. (656)  
628 Supervisors, production occupations (67, 71)  
634 Tool and die makers (part 6811)  
635 Tool and die mkr apprentices (part 6811)  
636 Precision assemblers, metal (6812)  
637 Machinists (part 6813)  
639 Machinist apprentices (part 6813)

## SIPP FILES

- 643 Boilermakers (6814)
- 644 Precision grinders, filers, and tool sharpeners (6816)
- 645 Patternmakers and model makers, metal (6817)
- 646 Lay-out workers (6821)
- 647 Precious stones and metals workers (Jewelers) (6822, 6866)
- 649 Engravers, metal (6823)
- 653 Sheet metal workers (part 6824)
- 654 Sheet metal wrkr apprentices (part 6824)
- 655 Misc precision metal workers (6829)
- 656 Patternmkr and model makers, wood (6831)
- 657 Cabinet makers and bench carpenters (6832)
- 658 Furniture and wood finishers (6835)
- 659 Misc precision woodworkers (6839)
- 666 Dressmakers (part 6852, part 7752)
- 667 Tailors (part 6852)

## Section A. Instrument Front

---

-INTRO\_D-

-INTRO-

"Hello. I'm ... from the United States Bureau of the Census. Here is my identification card (show ID card). We are conducting a survey on the economic situation of people who live in the United States. I have some questions to ask you."

o Ask respondent if he/she received advance letter; if not, give letter to respondent before proceeding.

o Is the respondent ready to complete the interview?

- (1) Inconvenient time. Try again later
- (2) Reluctant Respondent - Hold for refusal followup
- (3) Noninterview

(P) Proceed

---

-TYPEABC-

### ENTER NONINTERVIEW CODE

#### TYPE A

- (1) No one home
- (2) Temporarily absent
- (3) Refused
- (4) Unable to locate
- (5) Language problem
- (6) Other Type A

#### TYPE C

- (21) Demolished
- (22) House or trailer moved
- (23) Address outside segment
- (24) Converted to permanent business or storage
- (25) Merged
- (26) Condemned
- (27) Unused Serial #/Listing sheet line
- (28) Other Type C

#### TYPE B

- (10) Vacant regular (REG)
- (11) Vacant - storage of household furniture
- (12) Unfit or to be demolished
- (13) Under construction, not ready
- (14) Converted to temp. business or storage
- (15) Unoccupied tent or trailer site
- (16) Permit granted, construction not started
- (17) Temp. occupied by persons with URE
- (18) Occupied by persons under 15 years of age
- (19) Other Type B

-SPECIFY-

Specify the kind of "Other" Noninterview

---

-NI\_RACE-

Enter the Race of the reference person

- (1) White
  - (2) Black
  - (3) American Indian, Aleut or Eskimo
  - (4) Asian or Pacific Islander
  - (5) Other
  - (D) Don't Know
- 

-NI\_SEX-

Enter the Sex of the reference person

- (1) Male
  - (2) Female
- 

-NI\_SIZE-

ASK OR VERIFY WITH SOME KNOWLEDGEABLE INDIVIDUAL

Enter the total number of people in the household. Count all children and adults.

---

-NI\_TENUR-

Are the living quarters --

- (1) Owned or being bought by the occupant(s)
  - (2) Rented for cash
  - (3) Occupied without payment of cash rent
-

-H1KDCOV-

Was your child covered by a health insurance plan other than Medicaid, which you may also know as [state program name], the State Children's Health Insurance Program [state name], or any other public program at any time between [reference month 1] 1st and today?

(1) Yes

(2) No

---

-H2KDCOV-

Which children if any were covered by a health insurance plan other than Medicaid, which you may also know as [state program name], the State Children's Health Insurance Program [state name], or other public program at anytime between [reference month 1] 1st and today?

READ LIST OF CHILDREN'S NAMES DISPLAYED  
ENTER APPROPRIATE LINE NUMBER OF EACH CHILD COVERED  
ENTER (N) FOR NONE OF THESE CHILDREN/NO MORE

---

-HI1OUT-

Are you covered by the health insurance plan of someone who does NOT currently live in the household?

- (1) Yes
  - (2) No
- 

-HI2OUT-

Which children if any were covered by the health insurance plan of someone who does NOT currently live in the household?

READ LIST OF CHILDREN'S NAMES DISPLAYED  
ENTER LINE NUMBER OF EACH CHILD COVERED BY SOMEONE OUTSIDE  
ENTER (N) FOR NONE OF THESE CHILDREN/NO MORE

---

-HINONE-

I recorded that you were NOT covered by any health insurance plan during the month(s) of [reference month(s)].

Which ONE OR MORE of these reasons describe why you were not covered?

(SHOW FLASHCARD H) ENTER (N) AFTER LAST ENTRY

- (1) Too expensive, can't afford health insurance
- (2) No health insurance offered by (employer of self, spouse, or parent)
- (3) Not working at a job long enough to qualify
- (4) Job layoff, job loss, or any reason related to unemployment
- (5) Not eligible because working part time or temporary job
- (6) Can't obtain insurance because of poor health, illness, age, or a pre-existing condition
- (7) Dissatisfied with previous insurance OR don't believe in insurance
- (8) Have been healthy, not much sickness in the family, haven't needed health insurance
- (9) Able to go to VA or military hospital for medical care
- (10) Covered by some other health plan, such as Medicaid
- (11) No longer covered by parents policy
- (12) Other

---

-HISPEC-

Specify the exact "OTHER" reason not covered by health insurance

---

-HIHOWLNGYR-

I recorded that you were covered by health insurance in [reference month 1].  
Before [reference month 1], when was the last time you were WITHOUT health insurance coverage?

In what year was that?

(A) Always covered by health insurance

YEAR: \_\_\_\_

---

-HIHOWLNGMTH-

In what month was that?

MONTH: \_\_\_\_

---

-HIHOWLNGPB-

I recorded the last time you were covered by health insurance was in [year reported] Is that correct?

- (1) Yes
- (2) No

---

-HINOLNGYR-

I recorded that you were not covered by health insurance in [reference month 1].  
Before then, in what year were you last covered?

(N) Never covered by health insurance

YEAR: \_\_\_\_

---

-HINOLNGMTH-

In what month in [year reported] was that?

MONTH: \_\_\_\_

---

-HINOLNGPB-

I recorded the last time you were covered by health insurance was in [year reported].  
Is that correct?

- (1) Yes
- (2) No

**Section K. Programs**

---

**-HOWLONG-**

Now we are going to ask some questions about government programs.

When did you apply for public or subsidized housing?

Month: \_\_\_\_

Year: \_\_\_\_

---

**-WHENAPP-**

When did you move into public or subsidized housing?

Month: \_\_\_\_

Year: \_\_\_\_

---

**-MTHRNT-**

Excluding any rent subsidies, how much do you currently pay in monthly rent?

(N) None

---

**-UTILYN-**

Do you pay for any utilities such as water, electricity, gas, or oil?  
Exclude telephone.

(1) Yes

(2) No

---

**-WAITLIST-**

Now we are going to ask some questions about government programs.

Are you on a waiting list for public or subsidized housing?

(1) Yes

(2) No

---

-EGYASSYN-

Has this household received any energy assistance from the Federal, state, or local government from [reference month 1] 1st to the end of [reference month 4]?

- (1) Yes
- (2) No

---

-EGYPAYMT-

Was this assistance received in the form of -

MARK ALL THAT APPLY. ENTER (N) AFTER LAST ENTRY.

- (1) Checks sent to the household
- (2) Coupons or vouchers sent to the household
- (3) Payments sent directly to the utility company, fuel dealer, or landlord

---

-EGYAMT-

What was the total amount of the energy assistance received by this household from [reference month 1] 1st to the end of [reference month 4]?

\$ \_\_\_\_\_

---

-HOTLUNYN-

From [reference month 1] 1st to the end of [reference month 4], did your child/children usually get a lunch offered at school?

- (1) Yes
- (2) No

---

-WHOHOTLN-

REFERENCE PERIOD IS [reference month 1] 1ST TO THE END OF [reference month 4]  
Which children usually got a lunch at school?

ENTER THE LINE NUMBER OF CHILDREN WHO GOT A LUNCH AT SCHOOL.  
ENTER (N) FOR NO MORE.

---

-FREELNYN-

REFERENCE PERIOD IS [reference month 1] 1ST TO THE END OF [reference month 4]  
Were any of the lunches free or reduced price because your child/children qualified for the National School Lunch Program?

- (1) Yes
- (2) No

---

-FREREDLN-

REFERENCE PERIOD IS [reference month 1] 1ST TO THE END OF [reference month 4]  
Were they free or reduced price?

- (1) Free lunch
- (2) Reduced-price lunch

---

-BRKFSTYN-

From [reference month 1] 1st to the end of [reference month 4], did your child/children usually get breakfast at school under the Federal School Breakfast Program?

- (1) Yes
- (2) No

---

-WHOBRK-

REFERENCE PERIOD IS [reference month 1] 1ST TO THE END OF [reference month 4]  
Which children usually got a breakfast at school?

ENTER LINE NUMBER OF CHILDREN WHO GOT A BREAKFAST AT SCHOOL. ENTER (N) FOR NO MORE

---

-FREEBRK-

Were any of the breakfasts free or reduced-price, because your child/children qualified for the National School Breakfast Program?

- (1) Yes
- (2) No

---

-FREREDBK-

REFERENCE PERIOD IS [reference month 1] 1ST TO THE END OF [reference month 4]

Were they free or reduced price?

- (1) Free breakfast
- (2) Reduced-price breakfast

---

End of Programs Section

**Section L. Education**

---

-ENROLL-

Now I'm going to ask about school enrollment. Were you enrolled in school, either full or part time, at any time between [reference month 1] 1st and the end of [reference month 4]?

INCLUDE ANY REGULAR SCHOOL, SUCH AS ELEMENTARY, HIGH SCHOOL, OR COLLEGE, OR ANY VOCATIONAL, TECHNICAL, OR BUSINESS SCHOOL BEYOND HIGH SCHOOL.

- (1) Yes
- (2) No

---

-FULLPART-

Were you enrolled full time or part time?

- (1) Full Time
- (2) Part Time

---

-MNTHENRL-

Were you enrolled in...

- (1) Yes
- (2) No

[reference month 4]? \_\_\_\_  
[reference month 3]? \_\_\_\_  
[reference month 2]? \_\_\_\_  
[reference month 1]? \_\_\_\_

---

-ENLEVEL-

At what level or grade were you enrolled?

("COLLEGE YEAR" INDICATES THE LEVEL ACCORDING TO ACADEMIC STANDING, NOT THE NUMBER OF YEARS ENROLLED IN COLLEGE.)

- (1) Elementary grades 1-8
- (2) High School grades 9-12
- (3) College year 1 (Freshman)
- (4) College year 2 (Sophomore)
- (5) College year 3 (Junior)
- (6) College year 4 (Senior)
- (7) College year 5 (First year graduate or professional school)
- (8) College year 6+ (Second year or higher in graduate or professional school)
- (9) Vocational, technical, or business school beyond high school level
- (10) Enrolled in college, but not working towards degree

---

-EDCHCK1-

You said that you were ENROLLED in  
[school or grade level]

Earlier I recorded that the highest grade or level you COMPLETED was  
[schooling completed]

Are both of these statements correct?

- (1) Yes, both statements are correct
  - (2) Only COMPLETED statement is correct, ENROLLED statement should be changed
  - (3) Only ENROLLED statement is correct, COMPLETED statement should be changed
  - (4) Both the COMPLETED statement and the ENROLLED statement should be changed
-

-FXENRL-

At what level or grade were you enrolled?

("COLLEGE YEAR" INDICATES THE LEVEL ACCORDING TO ACADEMIC STANDING, NOT THE NUMBER OF YEARS ENROLLED IN COLLEGE.)

- (1) Elementary grades 1-8
- (2) High School grades 9-12
- (3) College year 1 (Freshman)
- (4) College year 2 (Sophomore)
- (5) College year 3 (Junior)
- (6) College year 4 (Senior)
- (7) College year 5 (First year graduate or professional school)
- (8) College year 6+ (Second year or higher in graduate or professional school)
- (9) Vocational, technical, or business school beyond high school level
- (10) Enrolled in college, but not working towards degree

---

-FXEDUC-

What is the highest level of school you have completed or the highest degree you have received?

- (31) Less than 1st grade
  - (32) 1st,2nd,3rd or 4th grade
  - (33) 5th or 6th grade
  - (34) 7th or 8th grade
  - (35) 9th grade
  - (36) 10th grade
  - (37) 11th grade
  - (38) 12th grade, no diploma
  - (39) HIGH SCHOOL GRADUATE - high school DIPLOMA or equivalent (For example: GED)
  - (40) Some college but no degree
  - (41) Diploma or certificate from a vocational,technical, trade or business school beyond the High School level
  - (42) Associate degree in college - Occupational/vocational program
  - (43) Associate degree in college - Academic program
  - (44) Bachelors degree (For example: BA, AB, BS)
  - (45) Master's degree (For example: MA, MS, MEng, MEd, MSW, MBA)
  - (46) Professional School Degree (For example: MD,DDS,DVM,LLB,JD)
  - (47) Doctorate degree (For example: PhD, EdD)
-

-EDCHCK2-

Were you enrolled in a program working towards a degree?

- (1) Yes
- (2) No

---

-EDFUND-

Were any of your educational expenses during the period [reference month 1] 1st through the end of [reference month 4] paid for by any type of educational assistance or financial aid?

**READ IF NECESSARY:**

Include financial assistance such as loans, grants, scholarships, employer assistance, veterans benefits, or any other type of financial aid.

- (1) Yes
  - (2) No
-

-EDASST-

What kind of educational assistance did you receive? Anything else?

(SHOW FLASHCARD I)

ENTER (N) AFTER LAST ENTRY

- (1) Federal PELL Grant
- (2) Assistance from the Department of Veteran's Affairs (VA) such as GI or Montgomery Bill, Survivors and Dependents, other Veterans' Administration Educational Assistance Programs.
- (3) College (or Federal) Work Study Program
- (4) Any other Federal grant or program; for example, SEOG, Health or Nursing Grant, ROTC, NSF Grant
- (5) A loan that has to be repaid, for example, Stafford, Perkins, or SLS
- (6) A grant, scholarship, or tuition remission from the school attended
- (7) A teaching or research assistantship from the school attended
- (8) A grant or scholarship from the state, such as SSIGP, Douglas Scholarships
- (9) A grant or scholarship from some other source, such as a foundation, corporation, or community group, National Merit Scholarship, etc.
- (10) Assistance provided by your employer
- (11) Aid from some other source (EXCLUDE all direct aid from parents, including trusts or college savings funds)

## APPENDIX D

### Evaluation Report: SIPP 2001 Wave 7 Child Well-Being Topical Module

#### Introduction

This memorandum presents basic tabulations used to evaluate the Child Well-Being Topical Module from the Wave 7 interview of the 2001 Survey of Income and Program Participation (SIPP). The data from this topical module were collected February through May 2003. The child well-being data were collected for 18,413 children ages 0 to 17 years linked to 9,925 designated parents.<sup>1</sup> For purposes of analyses in this report, the majority of data are presented with children as the unit of analysis, i.e., each child is an observational unit, as responses were obtained for all children in the household. Data are also presented for the designated parents in Table 2.

The survey universe of children from this module is compared with data from the March 2003 Current Population Survey (CPS), the 1996 Panel Wave 12 (conducted December 1999 through March 2000), the 1996 Wave 6 (December 1997 through March 1998), and the 1992 Panel Wave 9 and 1993 Panel Wave 6 combined Child Well-Being topical modules which were conducted in Fall 1994. Table 1 provides age, sex, and race comparisons. Population distributions from Wave 7 of the 2001 SIPP Panel closely replicate those from the March 2003 CPS, generally within 1 to 2 percentage points by age, race, and sex. One slightly higher difference (2.7 percentage points) occurred for White non-Hispanic children under age 6 in the SIPP compared to the March 2003 CPS.

The difference, however, was less than between the 1996 SIPP Panel Wave 12 and the March 2000 CPS (4.8 percentage points).

#### Allocation Rates

Allocation rates for selected child well-being items by race and Hispanic origin are presented in Table 2. Rates are presented for questions concerning children as well as for questions asking designated parents' views on their children and neighborhood. The allocation rates for Wave 7 are, for the most part, lower than SIPP 1996, Wave 12. The percents for Wave 7 vary from the mid-teens to mid-twenties with an occasional higher rate. The lower allocation rate in Wave 7 as compared with 1996 Wave 12 may be because the topical module was moved to a wave with relatively few topical modules (Annual Income and Retirement Accounts; Taxes, Retirement and Pension Plan Coverage; and Home Health Care).

Allocation rates were generally higher for Blacks than Whites, by an average of about 7 percentage points. However, allocation rates found between Hispanics and White non-Hispanics were smaller, differing by about 1.5 percentage points.

---

<sup>1</sup> The designated parent includes biological, step, and adoptive parents, and may also include other relatives or nonrelatives acting as a guardian for the child in the absence of the parents. In married-couple families, the mother is the designated parent. If the mother is not available for an interview, the father or husband may provide the mother's information as a proxy respondent. In single-parent families, the resident parent is the designated parent. If neither parent is in the household, the guardian is the designated parent.

## Reasonableness of the Child Well-Being Data

Table 3 compares child well-being data from 2001 Wave 7 (2003 data) with the 1996 Waves 12 and 6 (2000 and 1998 data) and the combined 1992 and 1993 waves (1994 data). The 2000 and 1998 data were in the published report, P70-89, "A Child's Day: 2000 (Selected Indicators of Child Well-Being) or in its detailed tables on the Internet. The 1994 data were published in P70-68, "A Child's Day: Home, School, and Play (Selected Indicators of Child Well-Being). A major comparability difference between items in 1994 and the latter years (2003, 2000, and 1998) is that the 1994 data were not allocated.

Data for 2003 (2001, Wave 7) are comparable with 2000 data (1996 Wave 12).

Caution should be exercised when making comparisons between the 1994 SIPP data and the data from all other years (Table 3). Aside from the allocation issue, differences in responses may also arise from seasonal variations between the surveys. In addition, the variable EDAYCARE in the 2001 and 1996 SIPP Panels is not directly comparable with a similar question on ever being in child care which was collected in 1994. In each survey, the two questions were worded exactly the same: "Other than members of ...'s immediate family, has ... ever been cared for regularly in any Head Start, day care or pre-school programs or by any family day care providers or babysitters?" However, two questions in the 1994 surveys included relatives as day care providers which preceded this question. They were: (1) "Is ... now enrolled in family day care, that is, in the home of a neighbor, friend, or relative on a regular basis? By "regular basis" we mean at least once a week." and (2) "Is ... now being cared for by a babysitter or babysitters in the child's home on a "regular basis" (includes care by relatives other than parents)?" The 1994 data, then, potentially included relatives as child care providers. The total "ever care" percentages shown in Table 3 are a combination of ever being in child care among respondents who said "yes" to any of these three items.

Since EDAYCARE for the 2001 and 1996 panels is not comparable with 1994 data, the variables ECAREMTH (age at first child care) and EHRSCARE (hours per week in first child care) are also not comparable. Also in 1994, an average age at first day care could be obtained from ECAREMTH. An average is not possible from the grouped categories used in the 2001 and 1996 panels. For 2004, we are returning to the style of the 1994 survey and asking for exact months in order to obtain an average age at first child care.

For children ever in child care in 2003, the data show a decrease from 2000 for children under 3 years. For children 3 to 5 years and 6 to 11 years, the data are almost identical. For children who have ever repeated a grade, the data are also similar.

For children 1 and 2 years, there was a slight increase between 2000 and 2003 in the percent of children who were not read to in the last week. There was an increase in the percent of children with three types of tv rules since 2000 for children 3 to 5 years and 12 to 17 years. Participation in sports increased for both children 6 to 11 and 12 to 17.

## Summary

The 2001 Wave 7 data on child well-being appear to be reasonable. We have confidence that these data are reliable and useful for analysis of the well-being of America's children as long as caution is exercised in comparing data with prior SIPP surveys which have slightly different item wording or conducted in different seasons which might influence children's activities.

<b>Questions for designated parents</b>											
<b>How often do you feel this way:</b>											
My child is much harder to care for than most children.											
Never	15+	6920	19.4	5405	18.0	4448	17.7	1117	23.8	1056	19.9
Sometimes	15+	2529	22.5	1952	21.7	1540	21.5	407	26.0	452	21.7
Often	15+	277	16.3	229	15.7	191	15.7	35	20.0	42	16.7
Very often	15+	199	23.6	147	22.5	121	23.1	40	25.0	32	21.9
My child does things that really bother me a lot.											
Never	15+	4472	19.2	3453	18.0	22689	18.0	703	24.0	849	18.1
Sometimes	15+	4969	20.6	3930	19.5	3318	18.8	791	24.4	669	22.6
Often	15+	313	18.2	231	16.9	196	16.8	62	16.1	40	20.0
Very often	15+	171	26.9	119	25.2	97	24.7	43	32.6	24	25.0
I find myself giving up more of my life to meet my child's needs than I had expected.											
Never	15+	4917	19.8	3918	18.7	3120	18.6	701	23.7	874	20.0
Sometimes	15+	3290	20.3	2490	19.0	2065	18.1	597	24.0	472	22.0
Often	15+	1014	21.2	798	19.7	683	19.5	159	28.3	127	20.5
Very often	15+	704	22.4	527	21.6	432	22.5	142	24.7	109	18.4
I feel angry with my child.											
Never	15+	4758	19.3	3652	18.5	2862	18.5	836	22.6	874	18.1
Sometimes	15+	4944	20.5	3923	19.1	3306	18.5	718	24.5	679	22.4
Often	15+	156	25.0	122	20.5	105	21.0	28	50.0	19	21.1
Very often	15+	20	35.1	36	36.1	27	37.0	17	35.3	10	30.0
<b>Neighborhood/community questions</b>											
People in this neighborhood help each other out.											
Strongly agree	15+	1901	17.5	1614	15.4	1414	15.0	208	30.8	216	19.0
Agree	15+	5168	20.0	4081	18.3	3379	18.0	769	26.9	776	20.1
Disagree	15+	1333	19.6	956	18.7	687	18.9	287	22.3	295	16.6
Strongly disagree	15+	408	21.6	296	21.6	231	22.5	92	19.6	75	21.3
Have no opinion	15+	1115	19.7	786	20.9	589	22.8	243	16.5	220	15.0
We watch out for each other's children in this neighborhood.											
Strongly agree	15+	2151	17.4	1818	15.5	1597	15.0	245	27.8	240	30.4
Agree	15+	5079	20.0	3941	18.7	3218	18.6	825	25.9	804	19.4
Disagree	15+	1249	20.8	911	20.1	644	20.3	255	24.3	292	18.2
Strongly disagree	15+	343	21.3	259	21.2	206	23.3	68	16.2	57	14.0
Have no opinion	15+	1103	19.0	804	18.3	635	19.2	206	18.5	189	15.3
There are people I can count on in this neighborhood.											
Strongly agree	15+	2483	25.0	2125	15.1	1879	14.7	262	30.2	264	18.2
Agree	15+	5124	19.9	3989	18.7	3226	18.4	807	24.8	839	20.3

12 to 17 years	24867	2587	10.4	23417	2514	10.7	23205	2803	12.1	17058	

/1 Universe consists of children for whom valid answers were reported.

/2 Data for 1994 include children ever cared for by relatives other than the child's parents. The 2003, 1999/2000, and 1997/98 data do not include relatives.

/3 Questions were asked whether there were rules on type of program watched, time of day programs viewed, and number of hours watched.

/4 Universe consists of children who have ever attended or been enrolled in kindergarten, first grade, or any grade in elementary school.
