

James D. Adams is professor of economics at the University of Florida in Gainesville, Florida, and a Research Associate of the National Bureau of Economic Research, Cambridge, Massachusetts. He is a member of the American Economic Association and the Royal Economic Society. Adams has served as an ASA-NSF Research Fellow at the U.S. Bureau of Labor Statistics, has received numerous grants from the National Science Foundation, the Andrew W. Mellon Foundation, the Alfred P. Sloan Foundation, and other organizations, and has held visiting appointments at the Graduate School of Business of the University of Chicago, and the Center for Economic Studies of the U.S. Bureau of the Census.

He has published in the **Journal of Political Economy**, the **Quarterly Journal of Economics**, the **RAND Journal of Economics**, the **American Economic Review**, the **Review of Economics and Statistics**, the **Journal of Law and Economics**, the **Journal of Labor Economics**, and other journals. His fields of specialization are the economics of technical change, labor economics, and public economics. In recent years his work has concentrated on the economics of R&D and technical change, with special emphasis on measurement of the economic impact of university research on productivity.
