

Stanford University

Full-time Research Assistant for Professor David Chan

Professor Chan is seeking a full-time research assistant for two years. The job will involve close collaboration on a number of research projects in applied microeconomics focusing on health care, productivity, and equity. The research assistant will be based at Stanford and will be part of a community of predoctoral researchers at the Stanford, including those at the Stanford Institute for Economic Policy Research (SIEPR). Previous research assistants have been accepted to top Ph.D. programs including Stanford, Harvard, MIT, and Northwestern.

The ideal candidate will have the following qualifications:

- Strong quantitative background
- Strong programming skills
- Strong communication skills
- Ability to work independently and in teams
- Long-term interest in pursuing research in economics
- Excellent academic record
- Prior work experience in research or industry is a plus but not required

We are committed to building a diverse and inclusive research team. We actively recruit and mentor pre-doctoral fellows who bring new perspectives and experiences.

TO APPLY: Please submit an application with a cover letter, CV, and copies of your transcripts [here](#).

Applications will be considered on a rolling basis. Short-listed applicants will be asked to complete a technical exercise and may be called for an interview. Applicants may then be asked to submit recommendation letters at that point.
