Analyses in the Economics of Aging
DAVID A. WISE is the John F. Stambaugh Professor of Political Economy at the John F. Kennedy School of Government, Harvard University. He is also the Peter and Helen Bing Senior Fellow at the Hoover Institution and director of the NBER Program on Aging. Among the many titles he has edited in this area are the recent Themes in the Economics of Aging and Perspectives on the Economics of Aging.
National Bureau of Economic Research

Josh S. Weston, Committee for Economic Development
Gavin Wright, Economic History Association

Directors Emeriti

Carl F. Christ  Paul W. McCracken  Eli Shapiro
Lawrence R. Klein  Peter G. Peterson
Franklin A. Lindsay  Bert Seidman
Relation of the Directors to the Work and Publications of the National Bureau of Economic Research

1. The object of the NBER is to ascertain and present to the economics profession, and to the public more generally, important economic facts and their interpretation in a scientific manner without policy recommendations. The Board of Directors is charged with the responsibility of ensuring that the work of the NBER is carried on in strict conformity with this object.

2. The President shall establish an internal review process to ensure that book manuscripts proposed for publication DO NOT contain policy recommendations. This shall apply both to the proceedings of conferences and to manuscripts by a single author or by one or more co-authors but shall not apply to authors of comments at NBER conferences who are not NBER affiliates.

3. No book manuscript reporting research shall be published by the NBER until the President has sent to each member of the Board a notice that a manuscript is recommended for publication and that in the President’s opinion it is suitable for publication in accordance with the above principles of the NBER. Such notification will include a table of contents and an abstract or summary of the manuscript’s content, a list of contributors if applicable, and a response form for use by Directors who desire a copy of the manuscript for review. Each manuscript shall contain a summary drawing attention to the nature and treatment of the problem studied and the main conclusions reached.

4. No volume shall be published until forty-five days have elapsed from the above notification of intention to publish it. During this period a copy shall be sent to any Director requesting it, and if any Director objects to publication on the grounds that the manuscript contains policy recommendations, the objection will be presented to the author(s) or editor(s). In case of dispute, all members of the Board shall be notified, and the President shall appoint an ad hoc committee of the Board to decide the matter; thirty days additional shall be granted for this purpose.

5. The President shall present annually to the Board a report describing the internal manuscript review process, any objections made by Directors before publication or by anyone after publication, any disputes about such matters, and how they were handled.

6. Publications of the NBER issued for informational purposes concerning the work of the Bureau, or issued to inform the public of the activities at the Bureau, including but not limited to the NBER Digest and Reporter, shall be consistent with the object stated in paragraph 1. They shall contain a specific disclaimer noting that they have not passed through the review procedures required in this resolution. The Executive Committee of the Board is charged with the review of all such publications from time to time.

7. NBER working papers and manuscripts distributed on the Bureau’s web site are not deemed to be publications for the purpose of this resolution, but they shall be consistent with the object stated in paragraph 1. Working papers shall contain a specific disclaimer noting that they have not passed through the review procedures required in this resolution. The NBER’s web site shall contain a similar disclaimer. The President shall establish an internal review process to ensure that the working papers and the web site do not contain policy recommendations, and shall report annually to the Board on this process and any concerns raised in connection with it.

8. Unless otherwise determined by the Board or exempted by the terms of paragraphs 6 and 7, a copy of this resolution shall be printed in each NBER publication as described in paragraph 2 above.
Contents

Preface ix

Introduction 1
   David A. Wise

1. Utility Evaluation of Risk in Retirement Saving Accounts 13
   James M. Poterba, Joshua Rauh, Steven F. Venti, and David A. Wise
   Comment: Robert J. Willis

2. Passive Decisions and Potent Defaults 59
   James J. Choi, David Laibson, Brigitte C. Madrian, and Andrew Metrick
   Comment: Antonio Rangel

3. Characterizing the Experiences of High-Cost Users in Medicare 79
   Thomas MaCurdy and Jeff Geppert
   Comment: Jonathan Skinner

4. The Efficiency of Medicare 129
   Jonathan Skinner, Elliott S. Fisher, and John E. Wennberg
   Comment: Alan M. Garber

5. Intensive Medical Technology and the Reduction in Disability 161
   David M. Cutler
   Comment: Alan M. Garber

</table>
This volume consists of papers presented at a conference held in Carefree, Arizona, in May 2003. Most of the research was conducted as part of the program on the Economics of Aging at the National Bureau of Economic Research. The majority of the work was sponsored by the U.S. Department of Health and Human Services, through the National Institute on Aging grants P01-AG05842 and P30-AG12810 to the National Bureau of Economic Research. Any other funding sources are noted in the individual papers.

Any opinions expressed in this volume are those of the respective authors and do not necessarily reflect the views of the National Bureau of Economic Research or the sponsoring organizations.
