Acknowledgments

This volume contains edited versions of papers presented at the conference Topics in Empirical International Economics: A Festschrift in Honor of Robert E. Lipsey, held at the Federal Reserve Bank of New York, on 3–4 December 1998.

The NBER provided excellent logistical support, as well as support for the North America-based conference participants. The Federal Reserve Bank of New York graciously hosted the conference. The Stockholm School of Economics supported the Sweden-based participants and hosted an elegant reception for conference participants. Special thanks are due to Martin Feldstein for his warm and witty tribute to Bob Lipsey at the main conference dinner at the Federal Reserve Bank of New York.

We greatly appreciate the editorial support for this volume. Two anonymous reviewers, for the NBER and the University of Chicago Press, made very helpful comments and suggestions on the volume. We also greatly appreciate the editorial assistance of Helena Fitz-Patrick of the NBER's Publications Department in preparing the volume for publication.
