

This PDF is a selection from an out-of-print volume from the National Bureau of Economic Research

Volume Title: An Appraisal of the 1950 Census Income Data

Volume Author/Editor: Conference on Research in Income and Wealth

Volume Publisher: Princeton University Press

Volume ISBN: 0-691-04102-4

Volume URL: <http://www.nber.org/books/unkn58-2>

Publication Date: 1958

Chapter Title: Indexes

Chapter Author: Conference on Research in Income and Wealth

Chapter URL: <http://www.nber.org/chapters/c1061>

Chapter pages in book: (p. 447 - 452)

Index of Authors

- Adams, F. Gerard, 36
 Adler, John H., 118 n.
 Alderson, Wroe, 55 n.
 Allen, R. G. D., 324 n.
 Anderson, C. W., 239 n.
 Atkinson, Thomas R., 120 n.

Index of Subjects

- Aggregate income: comparison of CPS with AMS, 309-312; comparison of CPS with IRS tax return data, 69, 81-83; comparison of CPS, SCF, and SSSW with OBE, 69, 70-75, 204-205; comparison of IRS tax return data with OBE, 78-81, 200-201, 203, 273-277; comparison of 1940 census with other wage and salary data, 43; comparison of 1950 census wage data with OBE, 374-381; sources of data and methods of estimation and reconciliation, 97-101; summary of findings on coverage of, 9-15; *see also* Farm income and Income size distribution
- Aggregate income, by type: comparison of CPS with OBE, 75-78; comparison of IRS with OBE, 78-81; *see also* Income size distribution
- Area income data, 118-124
- Agricultural Marketing Service: estimates of aggregate farm income, 309-314, 318; farm income distribution, 307-310
- AMS, *see entry next above*
- Annual Survey of Manufactures wage data, 374-377
- Audit Control Program, *see* Internal Revenue Service
- BLS Survey of Consumer Expenditures: coverage of, 338-344; income distribution data, 68, 87-88
- Brookings Institution data on income distribution, 92-97, 102-107
- Bureau of Agricultural Economics (BAE), *see* Agricultural Marketing Service
- Business expense accounts, and income distribution, 109-110
- Business income on individual income tax returns, 246-249, 256-262, 272
- Canada, size distribution of wage income, 423-428
- Capital gains and losses, 94, 96, 102-106, 108, 113-114
- Census data: on financial subjects, history of, 39-41; on wages and salaries, 374-381; *see also* Current Population Survey, Post Enumeration Survey, and entries next below
- Census of 1940: background, method, and scope of income data, 42-48, 66-67
- Census of 1950: aggregate wage income compared with OBE, 43, 374-381; background, method, and scope of income data, 54-61, 66-67, 82 n., 83 n.; consistency of response with PES, 210-213; farm income aggregates compared with OBE and others, 292-301; farm income distribution compared with CPS, 307-311, 312-313; farm income data described, 293-294, and those from population and agriculture censuses reconciled, 304-405; income questionnaire, 56-57; income size distribution compared with PES, 181-183, 214-231; self-employment income, comparison with PES distribution, 230-231; wage and salaries, comparison with PES distribution, 228-229
- Census Quality Check (CQC), comparison with SCF, 131-156, 157 n., 161-164, 282; consistency of response, 131-132, 142-143, 149-156, 157 n., 282; farm income, 151-152, 162-163; income size distribution, 144-147, 150-151, 153; methods, 128-131, 163-164; sampling procedure, 128-129
- Changes in income distribution: comparison of CPS, OBE, and SCF data since 1947, 88-91; since 1929, 91-97, 108-115
- College students' income, 123-124
- Consistency of response by identical individuals: CQC and SCF, 131-132, 142-143, 149-156, 157 n., 282; extent of matching, 133-138, 145, 170-171, 183-189, 190; matching procedures, 128-130, 163-164, 169-172, 179-181; OASI and PES, 172-178; occupational differences in, 199-200; PES and IRS tax return data, 197-200, 202-203; PES and 1950 census, 210-213; sex differences

INDEX OF SUBJECTS

- Consistency of response, *cont.*
in, 175, 213; summary of findings
on, 6-9, by type of income, 147-
156
- Consumer unit, definition of, 334-335
- Corporate income, estimates of income
change from IRS Audit Control Pro-
gram, 249-253, 263-266, 272-273
- Coverage of units: CQC and SCF sur-
veys, 133-136, 138-141, 143-147,
159-161; CPS and SCF, 159-161;
see also Consistency of response by
identical individuals
- CPS, *see* Current Population Survey
- CQC, *see* Census Quality Check
- Current Population Survey (CPS): ag-
gregate income compared with AMS,
309-312, *and* with OBE and other
surveys, 69-78, 204-205; changes in
income distribution compared with
OBE and SCF, 88-91; coverage of
population compared with SCF, 159-
161; data on low income families,
342-344, 347-348; development of,
49-53; farm income data, character-
istics of, 314-319, *and* coverage of,
307-312, 318; farm income distribu-
tion compared with AMS, 307-310,
and with 1950 census, 307-311, 312-
313; income size distribution com-
pared with IRS tax return data, 68,
with OASI data, 68, *and* with OBE
and SCF, 67, 83-91
- Depletion allowances, and income dis-
tribution, 110-111
- Dissaving, 348-350
- Dividends: comparison of OBE esti-
mates with tax return reports, 204-
205; comparison of SCF and CQC
surveys, 155; *see also* Aggregate in-
come, by type, *and* Income size dis-
tribution
- Doubling up of families, 335-338, 345-
346
- Education, and wage differentials, 421
- Entrepreneurial income, *see* Self-
employment income
- Fair Labor Standards Act, effect on
wage differentials, 369-371, 443-444
- Family, definition of, 57-58, 83-84
- Family composition changes, 86-88,
339-344
- Family vs. individual income data, 45,
57, 63, 66, 223-225, 287-288, 301-
302
- Farm income: AMS estimates of aggre-
gate, 294-301, 309-314, 318; com-
parison of IRS and PES distribu-
tions, 192-193, 195-196, of 1950
census with OBE and other aggre-
gates, 292-301, *and* of SCF and
CQC surveys, 151-152, 162-163;
coverage of CPS distributions, 307-
312, 318; description of 1950 census
data on, 293-294; difference between
IRS and OBE aggregates, 276; esti-
mates of aggregate, 292-306; non-
money income in, 288-289; recon-
ciliation of population and agricul-
ture census data, 304-305; SCF
questionnaire for, 166-167; size dis-
tribution of, 307-317; unpaid family
workers and, 287-288; variability of,
289-292
- Gainful worker concept, 62-63
- Gross vs. net income from self em-
ployment, 9, 12, 62, 158, 304-305
- Gross error, definition of, 207
- Income concept, 16-17, 24-26, 34-35,
180-181
- Income data for small areas, 118-124
- Income distribution, *see* Income size
distribution
- Income other than earnings, compari-
son of 1950 census and PES distri-
butions, 230-231
- Income size distribution: and capital
formation, 32; comparison of CPS
with IRS, 68, of CPS with 1950
census farm income, 312-313, of
CPS with OASI, 68, of CPS and SCF
with OBE, 67, 83-91, of CQC with
SCF, 144-147, 150-151, 153, of IRS
income tax data with PES, 189-196,
201-202, 203, *and* of PES with 1950
census, 181-183, 214-231; concepts
of, 116-118; and cyclical stability,
32-33; factors underlying, 36-37; of
farm income, 307-317; by industry,
382-411; and level of consumption,
30-31; of occupation, 194-195;
sources of data and methods of
estimation and reconciliation, 101-
107; trends in, 33-38, 88-97, 108-
115; by type of income, 194, 195,
229-231; of wage and salary income,
355-360, 423-428
- Income splitting, 108-109, 112-113
- Income tax data, *see* Internal Revenue
Service—

INDEX OF SUBJECTS

- Industrial breakdown of IRS Audit Control Program changes in self-employment income, 256-260
- Industrial distribution of labor force, effect on wage and salary income distribution, 357-358
- Industry, ranked by wage dispersion, 416-420; ranked by wage level, 412-415
- Inequality of income, *see* Income size distribution
- Interest income of persons, 74, 155
- Internal Revenue Service (IRS) Audit Control Program: estimates of income change, 192-194, 202, 244-266; methods and procedures, 203-204, 240-243, 267-271; purpose of, 206, 239-240
- Internal Revenue Service tax return data: aggregate income compared with CPS, 69, 81-83, *and* with OBE, 78-81, 200-201, 203, 273-277; consistency of PES responses with, 197-200, 202-203; extent of matching with PES, 183-189; farm income aggregates, difference from PES, 276; farm income size distribution compared with PES, 192-193, 195-196; income size distribution compared with CPS, 68, *and* with PES, 189-196, 201-202, 203; method of matching with PES, 179-181, 183-189; *see also* Internal Revenue Service Audit Control Program
- IRS, *see entries next above*
- Labor force concept, 62-63
- "Little Steel Formula," 371-373
- Low economic status families: definition of, 321-324; identification of, 324-327, 344-354; income distribution of, 327-330, 337; spending patterns of, 331-334
- Matching procedures: CQC and SCF surveys, 128-130, 163-164; PES and OASI wage records, 169-172; PES and IRS income tax returns, 179-181, 183-189
- Multi-industry employment: effect on earnings data, 432-441; extent of, 429-436
- National Income Division (NID), *see* Office of Business Economics
- National War Labor Board, 371-373, 420
- Net error, definition of, 207
- Nonmoney income, 71-72, 189-190, 288-289
- OASI, *see next entry*
- Old Age and Survivors' Insurance (OASI): consistency of records with PES, 172-178; income size distribution compared with CPS, 68; matching of records with PES, 169-172; use of records for comparison with SCF and CQC, 157 n.
- OBE, *see next entry*
- Office of Business Economics (OBE): aggregate income estimates compared with field surveys, 69, 70-78, 204-205, with IRS tax return data, 78-81, 200-201, 203, 273-277, *and* with 1950 census, 43, 374-381; farm income estimates compared with IRS, 276, *and* with 1950 census, 292-301; income size distribution compared with CPS and SCF, 67, 83-91; self-employment income estimates, derivation of, 74-75; survey of professional incomes, 68, 69; wage and salary data, 376-381
- Pension funds and plans, and income distribution, 110
- Personal income, *see* Aggregate income
- PES, *see next entry*
- Post Enumeration Survey (PES): consistency of responses with IRS tax return data, 197-200, 202-203, with 1950 census data, 210-213, *and* with OASI data, 172-178; extent of matching with IRS tax return data, 183-189; farm income size distribution compared with IRS tax return data, 192-193, 195-196; income size distribution compared with IRS tax return data, 189-196, 201-202, 203, *and* with 1950 census, 181-183, 214-231; method of matching with IRS tax return data, 179-181, 183-189, *and* with OASI wage records, 169-172; purpose, methods, and assumptions, 207-210, 233-238; questionnaire, 237; sampling errors, 213 n., 215, 233; sampling procedure, 233, 234-235; self-employment income, comparison with 1950 census distribution, 230-231; wages and salaries, comparison with 1950 census, 228-229
- Poverty, *see* Low economic status families

INDEX OF SUBJECTS

- Professional income, *see* Self-employment income
- Questionnaire: 1950 census, 238; PES, 237; SCF, 164-168
- Redistribution of income, *see* Income size distribution
- Rental income of persons, 74, 155
- Response error, 278-281, 282-283; *see also* Consistency of response by identical individuals
- Sampling error: farm income, 316-317; PES income estimates, 213 n., 215, 233
- Sampling procedures: CQC, 128-129; farm operator sample, 318-319; IRS Audit Control Program, 240-242, 267-271; 1950 census income question, 56-57; PES, 233, 234-235; SCF, 136
- SCF, *see* Survey of Consumer Finances
- Self-employment income: comparison of 1950 census and PES distributions, 230-231, *and* of SCF and CQC surveys, 149-153; derivation of OBE estimates of, 74-75; IRS Audit Control Program, changes in, 246-249, 256-262, 272; professional, 74, 152-153; *see also* Farm income
- SSSW, *see* Survey of Spending and Saving in Wartime
- Survey of Consumer Finances (SCF): aggregate income compared with other surveys and OBE, 69, 70-75, 204-205; consistency of responses with CQC, 131-132, 142-143, 149-156, 157 n., 282; comparison with CQC, 131-156, 157 n., 161-164, 282; coverage of units compared with CPS, 159-161, *and* with CQC, 133-136, 138-141, 143-147, 159-161; dividends reported compared with CQC, 155; farm income, compared with CQC, 151-152, 162-163; farm income questionnaire, 166-167; income size distribution compared with CQC, 144-147, 150-151, 153, *and* with OBE and CPS, 67, 83-91; method for matching with CQC, 128-130, 163-164; questionnaire, 164-168; sampling procedure, 136
- Survey of Spending and Saving in Wartime (SSSW), 69-75
- Tax laws and practices, effects on income distribution measures, 108-115
- Transfer payments, farm, 313-314
- Underreporting, *see* Aggregate income
- Unions, effect on wage differentials, 368-369, 373-374, 421, 443
- Wage differentials: factors affecting, 367-374, 420-422, 425-428, 441-444; by industry and occupation, 360-367, 406-411, 421-425
- Wages and salaries: comparison of 1950 census and PES, 228-229; distribution by industry, 357-358, 395-411; estimates of audit change from IRS Audit Control Program, 244-245, 254; *see also* Consistency of response, Income size distribution, *and* OASI
