

This PDF is a selection from a published volume from the
National Bureau of Economic Research

Volume Title: Preventing Currency Crises in Emerging Markets

Volume Author/Editor: Sebastian Edwards and Jeffrey A.
Frankel, editors

Volume Publisher: University of Chicago Press

Volume ISBN: 0-226-18494-3

Volume URL: <http://www.nber.org/books/edwa02-2>

Conference Date: January 2001

Publication Date: January 2002

Title: List of Contributors, Indexes

Author: Sebastian Edwards, Jeffrey A. Frankel

URL: <http://www.nber.org/chapters/c10649>

Contributors

Joshua Aizenman
Department of Economics
Social Sciences I
University of California, Santa Cruz
Santa Cruz, CA 95064

Eduardo Borensztein
Room 9-700
International Monetary Fund
700 19th Street NW
Washington, DC 20431

Charles W. Calomiris
Graduate School of Business
Columbia University
3022 Broadway Street, Uris Hall
New York, NY 10027

Luis Felipe Céspedes
Research Department
International Monetary Fund
700 19th Street
Washington, DC 20431

Roberto Chang
Department of Economics
Rutgers University
75 Hamilton Street
New Brunswick, NJ 08901-1248

Giancarlo Corsetti
Department of Economics
University of Rome, III
Via Ostiense, 139
00154, Rome Italy

Robert Dekle
Department of Economics
University of Southern California
Los Angeles, CA 90089

Michael P. Dooley
Deutsche Bank
31 West 52nd Street
NYC01-1204
New York, NY 10019

Rudi Dornbusch
Department of Economics, E52-357
Massachusetts Institute of Technology
50 Memorial Drive
Cambridge, MA 02139

Sebastian Edwards
Anderson Graduate School of Business
University of California, Los Angeles
110 Westwood Plaza, Suite C508
Box 951481
Los Angeles, CA 90095-1481

Martin Feldstein
National Bureau of Economic
Research
1050 Massachusetts Avenue
Cambridge, MA 02138

Kristin J. Forbes
Sloan School of Management,
E52-446
Massachusetts Institute of
Technology
50 Memorial Drive
Cambridge, MA 02142-1347

Jeffrey A. Frankel
Kennedy School of Government
Harvard University
79 JFK Street
Cambridge, MA 02138

Linda S. Goldberg
Research Department, 3rd Floor
Federal Reserve Bank of New York
33 Liberty Street
New York, NY 10045

Simon Johnson
Sloan School of Management,
E52-562
Massachusetts Institute of
Technology
50 Memorial Drive
Cambridge, MA 02142-1347

Ethan Kaplan
Department of Economics
University of California at Berkeley
549 Evans Hall
Berkeley, CA 94720

Kenneth Kletzer
Department of Economics
Social Sciences I
University of California, Santa Cruz
Santa Cruz, CA 95064

Anne O. Krueger
Suite 12-300F
International Monetary Fund
700 19th Street NW
Washington, DC 20431

Amartya Lahiri
Department of Economics
University of California, Los Angeles
Bunche Hall 8357
Box 951447
Los Angeles, CA 90095-1477

Jorge Braga de Macedo

Subject Index

- Africa, and effects on data, 4, 74–75
- Argentina: balance sheet effects, 750; cheap import effect, 106, 107t, 126t; contagion episode (2000), 3, 78, 126–27, 747; foreigners desired holdings in, 34t, 37; IMF program (2000), 747
- Asian countries: bilateral and third-country trade linkages, 82; capital controls (1990s), 432–33; contagion episodes, 295–321; corporate reaction to financial crises, 456–57; currency crises (1997), 2, 81–82, 393, 441, 445–46; current account deficits, 31; domestic bank regulations and financial crises (1997–98), 12–14, 507–57; HFs and role in, 266; U.S. growth and effects on loans, 7, 173n2, 186t, 187. *See also specific country*
- Australia: HLIs and role in, 199, 222, 250–52
- Bailout guarantees: banking system regulations and, 705, 734–37; currency crises and effects of, 707, 727–31, 733; debt denomination risks and, 713–16, 721–22; domestic banks and, 13, 13n7, 16, 17; equilibrium dynamics and, 716–18; exchange rate regimes and, 727; growth and effects of, 730–31; institutional reforms and effects on, 723–24, 737; monetary policies and effects of, 722–23; systematic bailout guarantees, 706–7, 712–13, 720–21, 734; unconditional bailout guarantees, 706, 712–13, 719, 720–21, 734
- Balance sheet effects: corporate sector and, 748; crises prevention policies and, 17, 730–31, 732–33, 749–50; currency crises and, 707–8, 709f, 744–45; emerging-market economies and, 14; exchange rate regimes and, 14, 17, 560–61, 591–97; monetary policies and, 705–40; nontradables/tradables ratios by country, 709f; SS episodes and, 17
- Banking systems: in Asian countries, 12–14, 507–57; bailout guarantees and effects on, 705, 734–37; capital inflows and, 520–22, 525; corporate reliance and borrowing in Asian countries, 528, 530; corruption and cronyism, 489; currency crises and, 522–25, 552–54, 707–8, 710f, 733, 747; economic growth and lending by, 513–20; floating exchange rate regimes and optimal monetary policy, 673–75; index of exchange rates, interest rates and reserve levels, 54–55; regulations and financial crises, 12–14, 507–57
- Brazil: balance sheet effects, 750; contagion episode (1998–99), 2, 21n1, 78, 199; current account deficits (1980s), 28, 747; HLIs role in, 199; timing of financial crises, 749

- Capital controls: corruption and effects on, 12; equity and FDI, 75; exchange rates and, 433; financial crises and effects of, 432–36, 443–45, 455–56; IMF programs vs., 753; political issues and, 458; SS episodes and effects of, 368, 378, 379; stock markets and, 75. *See also specific country*
- Capital inflows: corruption and cronyism, 12, 477–85, 488; crises prevention policies, 12; currency crises and, 461–62, 488, 522–25; domestic banks and foreign, 520–22, 525; FDI and, 12
- Chaebol* capitalism. *See* Korea
- Chile, current account deficits (1980s), 1n1, 9, 28, 106, 508
- China, and SCAD (1997), 35
- Contagion episodes: bond markets, 8, 81, 292, 298–300, 313–15, 331, 334; capital controls and, 438, 455; herding behavior and, 650; measurement issues, 269–71, 322–23, 324–25, 330–33; nonlinearity and distribution-free techniques, 324, 334; parameter stability, 8; pattern of correlation, 321–22; prices vs. volumes, 323; propagation mechanisms, 274–83, 300–302, 323–24, 331, 334; statistical models, 8, 271–74, 293; stock markets, 8, 81, 292, 296–98, 302–4; trade channels and, 129, 283–91, 311–13, 320, 331, 334; transmission mechanisms, 292–321; variances by country, 309–11, 318–20, 323–24; vulnerabilities by countries, 309, 317–18. *See also specific country*
- Corruption and cronyism: bank loans and, 466, 488, 502, 503, 504; capital inflows and, 12, 477–85, 488; corruption index, 506; currency crises and effects of, 11–12; currency for foreign loans and, 486–88; defined, 462, 506; domestic banks and, 12–14, 466, 489; FDI and, 12, 463, 467, 474–77, 488, 502–6; legal system variable, 502–3; loan-FDI ratios, 467–88; monetary policies and, 705n2, 719; self-fulfilling expectations by international creditors and, 462, 488; short-term loans, 486; third-generation speculative attack model, 13. *See also specific country*
- Crisis prevention policies: bailout guarantees and, 13, 16, 17, 730–31; balance sheet effects, 17, 730–31, 732–33, 749–50; capital inflows and, 12; *chaebol* capitalism and Korean crises (1997–98), 15, 656–57; dollar-denominated debt, 16; economic variables, 21; exchange rates and, 17; FDI and, 12; floating exchange rate regimes and, 16, 663–703; G3 and U.S. volatility, 159–60, 159t; interest rate response, 17; reduction of corruption and, 12; SS episodes and, 9; U.S. banks lending practices and, 6–7, 173
- Currency crises: costs of, 752–53; country specific issues, 78–79, 88–89, 128, 504–5; old-style crises vs. new-style crises, 744–45; vulnerabilities and effects on, 89–90, 112, 745–48, 750–52
- Current account behavior: Asian countries and, 29; borrowing constraint model, 31–32; capital account liberalization and effects on, 605–6; current account deficits and, 24; current account reversals, 4, 45–52; domestic saving and investments and, 24; economists views on, 22; equilibrium models of frictionless economies and, 4, 22; financial crises and, 52–65, 73–75; intertemporal phenomenon, 24–28; SS episodes and, 343–44; stock adjustments and, 22; trade flows and, 23–24, 27n7; U.S. current account deficit, 75
- Current account deficits: Brazilian crisis (1980s), 28; Chile (1980s), 28; currency crises and, 4, 745–46; current account sustainability models, 4, 22, 35t, 70–71; equilibrium adjustment paths, 36–39; financial crises and, 21–22, 29, 54, 57–65, 65–66; Lawson's Doctrine and, 28, 30–31; length of time of, 4; Malaysian crisis (1990–96), 31; Mexican crisis (1981), 28; Mexican crisis (1992–94), 30, 31; probability of currency crises and, 4; Thai crisis (1990–96), 31; U.S. sustainability issues, 75; Venezuela crisis (1981), 28
- Current account reversals, 4, 45–52, 55–57, 71–72
- Current account sustainability models, 4, 22, 32–39, 70–71
- Dollarization schemes, 14, 162, 378, 560–61
- Emerging-market economies: balance sheet crises vs. slow motion financial crises,

- 743–45; balance sheet effects and, 14; boom-bust cycles (1990s), 708, 712–18; capital flows from U.S., 134, 141–43, 147f, 149, 154f, 155f, 156, 158, 160–62; exchange rates of, 134n2; financial crises (pre-1990s), 1; floating exchange rate regimes and, 663–703; G3 and, 6, 152–62, 168–69, 170; growth and U.S. economy, 134, 143–52, 156t, 157, 158, 162; growth by country, 711f; lending practices in U.S., 6–7; monetary policies (1980s-1990s), 718–30; optimal monetary policies and, 560–61, 562, 568–74, 600, 663–703; systematic bailout guarantees and effects on, 706–7, 712–13, 720–21; unconditional bailout guarantees and effects on, 706, 712–13, 719, 720–21. *See also* Monetary policies; *specific country*
- Equilibrium models of frictionless economies, current account behavior and, 4, 22
- Exchange-market pressure (EMP) index, currency crises and, 85–89, 110–16, 130
- Exchange rate mechanism (ERM) crises, second-generation speculative attack model and, 12–13, 199, 265–66
- Exchange rate regimes: bailout guarantees and, 727; balance sheet effects and, 14, 17, 560–61, 591–97; capital controls and, 433; crises prevention policies and, 16, 17, 663–703; currency crises and, 745–46; Korean crisis (1997–98), 603–4; monetary policies and, 14, 559–62, 579, 599, 600; North-South trade and, 134, 137–40; optimal monetary policy, 673–75; SS episodes and, 594; welfare effect and, 562, 586, 589, 592–96. *See also* Floating exchange rate regimes
- “Fear of floating” hypothesis, 592–93
- Finland, income effect during Russian crisis, 106, 107t
- First-generation speculative attack model, 1, 12, 17
- Floating exchange rate regimes: clean floating policy model, 699, 700f; crises prevention policies and, 16, 699–701; defined, 663; dirty floating policy, 677, 682–83; emerging-market economies and, 663–703; exchange rate and interest rate correlation, 666, 668, 697, 700–701, 702; exchange rate fluctuations, 663–66; “fear of floating” hypothesis, 592–93; fixed exchange rate policy, 677, 682; interest rate and reserves correlation, 666, 699; intervention optimization and, 688–96; monetary demand shocks responses, 681–88, 697, 699–701, 702, 703; optimal monetary policy model, 666–79, 684–96, 701; pure floating policy, 677, 682; real shocks vs. monetary shocks, 684, 703; reserves and exchange rate correlation, 666, 697, 699; sterilized intervention, 677, 683–84, 699, 701; wage rigidities component in model, 679–84, 702
- Foreign direct investment (FDI): capital controls and effects of, 10, 396–97, 428, 428n27; corruption and, 12, 474–77, 488, 502, 503, 504, 505–6; crises prevention policies and capital inflows from, 12; FDI/GDP ratios and effects on currency crises, 503; FDI levels and effects on currency crises, 488, 502, 503, 504, 505–6; GDP ratio and effects on currency crises, 463–66, 503; Malaysian crises (1997–98), 10; portfolio and U.S. outward capital flows, 481–82, 483
- Goldman Sachs’s GS-SCAD model (1997), 32, 34
- Group Of Three (G3) exchange rate volatility: capital flows to emerging-market economies, 6, 152, 153f, 156, 158, 160–62, 168–69; emerging-market economies and, 6, 152–60, 162, 169, 170; exchange rates of emerging-market economies, 134n2; growth in emerging-market economies, 156t, 157, 158, 159t, 162, 163t, 169; portfolio flows to emerging-market economies, 6; target bands, 133–34, 135–36, 140, 169–70
- Group Of Three (G3) interest rate volatility: capital flows in emerging-market economies and effects of, 152, 154f, 156, 169, 170; welfare effect, 134, 136–37, 140, 167–68
- Hedge funds (HFs): Asian crisis, 266; Australian crisis (1998), 222, 250–52; financial crises and role of, 197, 199, 216, 218, 221–27; Hong Kong market manipulation (1998), 222, 247–49; in-

 investors and, 265; Malaysia crisis (1997–98), 222, 249–50; New Zealand, 222; Singapore, 222; South Africa, 222, 252–53; Thai crisis (1997), 8, 199, 243–46; U.K. currency devaluation (1990s), 222
- Highly leveraged institutions (HLIs): Australian crisis (1998), 199, 222, 250–525; behavior in currency markets, 199, 221–43; Brazilian crisis (1998–99), 199; defined, 7, 197, 199; ERM and, 12–13, 199, 265–66; financial crises (1997–99), 221–27, 253–54; financial crises and role of, 197–221, 254–56, 258–64; herding and signaling phenomena, 197–98, 211–14, 217–18, 219; Hong Kong market manipulation (1998), 7, 8, 199, 215, 247–49; investors and, 198, 218–19, 265; Malaysia crisis (1997–98), 8, 199; markets effects, 7–8, 214–17, 219–21, 253–54, 267; Mexican peso crisis (1994–95), 199; Russian contagion episode (1998), 199; Thai crisis (1997), 8, 199; U.S. bond market crisis (1994), 199; vulnerabilities of countries and, 198, 200, 209–11
- Hong Kong: balance sheet effects, 750; contagion episodes (1997 and 1998), 2; current account behavior (1982–90), 29; HFs and role in, 247–49; HLIs and role in, 7, 8, 215
- India's Second Five Year Plan, 24
- Indonesia, 12, 29, 748
- International financial institutions: financial crisis and effects of, 424–25, 426f, 436, 438–39; trade channels, 5, 77–83, 121
- International Monetary Fund (IMF) programs: currency crises and, 750–52, 753; Korean crisis (1997–98), 10, 384–85, 614–17; Malaysia crisis (1997–98), 425, 427f, 428, 437, 440; Mexican crisis (1992–94), 31; Turkish crisis (2000–01), 747
- Japan, trade linkages and export competition with U.S., 81–82
- Korea: balance sheet effects, 748; banking system and *chaebol* capitalism, 627–37, 638, 649; bank regulations, 14–15, 528–34, 536–44, 556; capital account liberalization, 605–6; *chaebol* capitalism, 14–15, 199, 601–61; competitiveness index, 101, 106, 107t, 654–55; corporate governance, 656; corruption and cronyism, 12, 14–15, 602n1, 604–5; crises prevention policies (1997–98), 15, 656–57; current account behavior (1982–90), 29; economic growth (1960s–1990s), 606–13, 650–51; exchange rate regimes, 603–4; financial variables and crisis (1997–98), 618–27; IMF adjustment program (1997–98), 10, 384–85, 614–17; industrial/financial structure, 651–54; regulatory reforms, 655–56; timing of financial crises, 749
- Large traders/players. *See* Highly leveraged institutions (HLIs)
- Latin America: bilateral and third-country trade linkages, 82, 85n9; capital controls and, 29, 436; contagion episodes, 292–321; growth rate per capita (1980s and 1990s), 753t; international financial crises effects in, 436; intertemporal phenomenon effects on current account behavior, 28; U.S. growth and effects on loans, 7, 173, 186t, 187, 188
- Lawson's Doctrine, current account deficits and, 28, 30–31, 73
- Malaysia: bank regulations, 14, 528–34, 537–44; capital controls and financial crisis (1997–98), 9–10, 11, 393–440, 441–58; competitiveness index during Thai crisis, 101, 106, 107t; current account behavior (1982–90), 29; current account deficits (1990–96), 31, 437, 748t; economics and role in financial crisis (1997–98), 395, 399, 423–24, 439; FDI and capital controls, 10, 396–97, 428, 437–38, 457, 458; heterodox adjustment program (1997–98), 10–11; HFs and role in financial crisis (1997–98), 222, 249–50, 437; HLIs and role in financial crisis (1997–98), 8, 199, 437; IMF-style policies and role in financial crisis (1997–98), 425, 427f, 428, 437, 440; interest rates role in financial crisis (1997–98), 438; international financial institutions and financial crisis (1997–98), 424–25, 426f, 438–39; macroeco-

- nomics of, 446–48; nonperforming loans and role in financial crises (1997–98), 748; political role in financial crisis (1997–98), 395–96, 423–24, 428, 437, 439, 441–42, 454–55; social issues and role in financial crisis (1997–98), 438, 440, 457, 458; time-shifted difference-in-differences methodology (1997–98), 396–98, 402–6; timing of financial crises (1997–98), 406–14, 428, 429; trade linkages and financial crisis (1997–98), 438; vulnerability to financial crises, 444, 451–53, 456, 458
- Mexico: balance sheet effects, 750; business cycle model, 341, 342t, 388–99; contagion episodes, 294, 296, 297t, 298, 299; corruption and cronyism, 12; currency collapses in, 746; current account deficits (1980s and 1990s), 28, 30, 31; foreigners desired holdings, 34t, 37; peso crises (1994–95), 1–2, 16, 71–72, 81, 199; portfolio investment and current account deficits (1992–94), 30; SS episodes, 340, 388–99; timing of financial crises, 749
- Monetary policies: bailout guarantees and effects on, 722–23; balance sheet effects and, 705–40; boom cycles and, 720–27; commitment issues and, 572t, 574, 576–79; corruption and cronyism and, 705n2, 719; debt denomination risks and, 721–22; economic model, 562–68, 600; emerging-market economies (1980s–1990s), 718–30; exchange rate regimes and, 14, 559–62, 579, 599, 600; financial regulations and, 725–26; foreign banks and role in, 726; inflation targeting, 582–86, 587f, 588f; welfare effect and, 572, 579, 582, 586, 599–600
- New Zealand: HLIs and role in, 222, 467–68, 469
- North-South trade: exchange and interest rate volatility, 134, 137–40; exports/imports, 145t
- Optimal monetary policies, emerging market economies and, 560–61, 562, 568–74, 600, 663–703
- Philippines, current account behavior (1982–90), 29, 748t
- Poland, income effect during Russian crisis, 106, 107t
- Portfolio diversification model, country liabilities and, 71, 703
- Russia: balance sheet effects, 750; contagion episode (1998–99), 2, 21n1, 78, 81, 199, 294t, 295–99; timing of financial crises, 749
- Second-generation speculative attack model, 3, 12–13, 17
- Self-fulfilling expectations by international creditors, corruption and, 462, 488
- Singapore: balance sheet effects, 750; contagion episodes (1997 and 1998), 2; corruption and loan-FDI ratios, 467–68, 469; current account behavior (1982–90), 29; domestic bank regulations and financial crises, 528–30, 533, 534–35, 537, 538–44; HFs and role in, 222
- South Africa, HFs and role in, 222, 252–53
- Spillovers effects: financial crises and, 81, 83, 173
- Sudden stop (SS) episodes: asset-pricing features, 373–78; balance sheet effects, 17; business cycle model with liquidity constraints, 343–49; capital controls and effects on, 368, 378, 379, 384; competitive equilibrium and business cycle transmission mechanism, 350–54; credit issues, 337–38, 344, 351, 354, 384; current account behavior, 386; defined, 17, 335–38, 378; dollarization schemes, 378, 384; exchange rate regimes and, 594; financial crises and effects of, 8–9, 75; macroeconomic volatility and, 339–43; prices and, 339, 340–41, 386–87; quantitative analysis of business cycles, 354–73; welfare effect, 366–69, 370f, 373, 379, 385–87, 388
- Sustainable current account deficits (SCAD), country liabilities and, 32, 34, 35, 71
- Taiwan: contagion episodes (1997, 1998), 2; domestic bank regulations and financial crises, 528–34, 537, 538–44; economic growth (pre-1990s), 606n5; timing of financial crises, 749
- Thailand: attack on Thai baht (1997), 8, 199, 243–46; capital controls (1997),

- Thailand (*cont.*)
 456; corruption and loan-FDI ratios, 467–68, 469; current account deficits (1980s and 1990s), 29, 31, 748t; domestic bank regulations and financial crises, 14, 528–34, 536–44, 556; HLIs and role in, 7, 8, 81; nonperforming loans, 746
- Third-generation speculative attack model: corruption issues in Asian countries (1997–98), 13; defined, 3; financial crises and, 522–23, 552, 554, 555, 708; SS episodes and, 17
- Trade channels: cheap import effect, 5, 79, 85, 101–9, 110n26, 112, 117, 119; competitive effects, 79, 85, 101, 104–5t, 108–10, 112, 117, 119; competitiveness indicators, 5; contagion episodes and, 129, 311–13; currency devaluation and, 83–84; impact of trade linkages on, 84, 127–28; income effect, 5, 79, 85, 101–9, 110n26, 112, 117, 119; international financial institutions effects on, 5, 77–83, 121; spillovers effects and, 81, 83, 173
- Trade linkages: bilateral and third-country trade linkages, 82; binary-probit model, 80; correlation to financial flows, 79, 82n4; financial linkages, 82–83, 112, 120, 438; measurements across countries, 79; model, data set and statistics for measurement of, 80–81, 89–101, 120, 129; regression estimates, 101–8, 120; responses to exchange-market pressure and, 112, 117–19, 127–28; sensitivity tests, 81, 108–12; stock markets and effects of, 78, 81, 112, 120, 128–30; vulnerability to financial crises and, 78, 82–83, 85–86, 89–90, 108, 119–21, 162
- Turkey, financial crisis (2000–01), 3, 747, 749
- United Kingdom (U.K.), HFs and currency devaluation (1990s), 222
- United States (U.S.): capital flows to emerging-market economies, 134, 141–43, 147f, 149, 150t, 154f, 155f, 156, 158, 160–62; FDI and portfolio flows, 143; growth of emerging-market economies, 134, 143–52, 156t, 157, 158, 162; portfolio data and capital flows, 481–82, 483
- United States (U.S.) bank lending practices: characteristics of banks and international exposure, 172, 174–82, 191; emerging-market economies and effects of, 6–7, 171–74, 188–89, 193–95; foreign claims of banks, 172–73, 178–79, 182–85; growth in U.S. and effects on, 7, 173n2, 185–87, 188, 191; macroeconomy of foreign countries and effects on, 7; regression analysis, 185–88; trade linkages and export competition with Japan, 81–82
- Uruguay, corruption and loan-FDI ratios, 467–68, 469
- Venezuela, current account deficits (1981), 28
- Welfare effect: exchange rate regimes and, 562, 586, 589, 592–96; G3 interest rate volatility, 134, 136–37, 140, 167–68; monetary policies and, 572, 579, 582, 586, 587t, 599–600; SS episodes, 366–70, 373, 379, 385–87, 388
