

This PDF is a selection from an out-of-print volume from the National Bureau of Economic Research

Volume Title: Risky Behavior among Youths: An Economic Analysis

Volume Author/Editor: Jonathan Gruber, editor

Volume Publisher: University of Chicago Press

Volume ISBN: 0-226-31013-2

Volume URL: <http://www.nber.org/books/grub01-1>

Publication Date: January 2001

Chapter Title: List of Contributors, Indexes

Chapter Author: Jonathan Gruber

Chapter URL: <http://www.nber.org/chapters/c10696>

Chapter pages in book: (p. 523 - 538)

Contributors

Jay Bhattacharya
RAND
1700 Main Street

Subject Index

- Abortion: effect of laws on teen motherhood, 211; effect of restrictions on teen sexual activity, 205; rates for teens (1972–98), 169–74
- Accident rates, motor-vehicle: for passenger-car occupants (1988–97), 133–34, 138; teen involvement and survivability, 133–42; tow-away accidents for passenger-car occupants, 134–35, 138
- Accidents, motor vehicle: characteristics of passenger-vehicle occupants, 138–39; Fatal Accident Reporting System (FARS), 123, 127, 135, 139, 153
- Addiction: to marijuana, 280–81; rational-addiction model, 3–4
- Affective development, 4
- Air bags, 141–42
- Alcohol-control policies: influence of excise taxes on, 376, 384; minimum legal drinking age (MLDA), 136, 149; minimum purchase age (MPA), 375–76; Uniform Drinking Age Act (1984), 383
- Alcohol (ethyl alcohol): consumption per capita, 410, 411t; effect of beer tax and MPA on consumption of, 410, 411t; involvement in fatal crashes by time of day, 135–36; social influences on teen consumption of, 412–13. *See also* Bingeing, teen; Driving behavior; Drunk-driving policies; Excise taxes
- Antismoking policies: advertising restrictions, 93; clean-air regulation, 92, 97, 103–4, 117–19; counteradvertising, 93; licensing of retailers, 93; penalties on tobacco purchases by minors, 93; youth-access restrictions, 92–93, 97, 103–4, 117–19
- Armed Forces Qualifying Test (AFQT), 339, 349–50, 387
- Automobiles: crashworthiness, 138–42; incidence of teens' travel by, 130–32. *See also* Driving behavior; Fatalities, motor vehicle
- Beer tax. *See* Excise taxes
- Behavioral economics, 31–32, 63–65
- Beliefs: about future behavior, 42–43; irrational, false, or exaggerated, 58–60; not affecting behavior, 43
- Bingeing, teen: probability of persistence and habit, 413–16; social influences, 412–13
- Birth control. *See* Contraception
- Birth rates: to teen mothers (1972–98), 169–74; to teens by race and ethnicity (1988–98), 170–71, 173
- BMI. *See* Obesity
- Clinton administration: on increasing price of cigarettes, 2; tobacco regulation bill, 69

- Cognitive development, 4
- Contraception: literature about teen use of, 182–88; teen sexual activity without, 211–12; use among teens in United States, 174–82
- Crime: effect of deterrence on, 370; effect of incapacitation on, 370
- Crime, youth: analysis of effect of criminal justice system on, 365–71; data sources to study, 336–37; determinants of involvement in, 333–36; incidence of juvenile involvement in, 327–31, 336–57; outcomes at age thirty, 357–60; social cost in United States, 331–33
- Crime predictors: biological factors as, 334; economic factors as, 335; punishment as deterrent, 335; social factors as, 334–35
- Criminal justice system: state-level panel-data analysis of effect of, 365–71
- Data sources: AFDC data, 200; for analysis of public policy influence on youth smoking, 89–93; Behavioral Risk Factor Surveillance System (BRFSS), 140, 148–49; census data, 360–65; Chicago homicide data, 327, 360–61; city surveys, 149; Current Population Survey (CPS), 131, 132, 440–41, 447; Drug Abuse Warning Network (DAWN), 280; Epidemiological Catchment Area study, 280; Fatal Accident Reporting System (FARS), 123, 127, 135, 139, 153; General Social Survey (GSS), 257, 440, 458–62; Health Behaviour in School-Aged Children Study (HBSC), 377; *Illegal Drug Price/Parity Report (IDPPR)*, 290–91, 296; Monitoring the Future (MTF), 271, 274, 289–90, 302–6, 375, 379–80, 422–35; National Abortion and Reproductive Rights Action League (NARAL), 200; National Automotive Sampling Survey (NASS), 133; National Center for Health Statistics (NCHS), 487; National Comorbidity Study, 280; National Crime Victimization Survey (NCVS), 330n3, 332; National Health and Nutrition Examination Survey (NHANES), 485–92, 497, 512, 515; National Hospital Discharge Survey, 227; National Household Survey on Drug Abuse (NHSDA), 271; National Longitudinal Study of Adolescent Health (NSLAH), 337, 356; National Longitudinal Survey of Adolescent Health (Add-Health), 188, 201, 223, 227, 239, 260; National Longitudinal Survey of Youth (NLSY), 282, 327, 330, 333, 336–38, 348–50, 356–57, 376, 377, 386, 413, 418–20, 440, 447; National Personal Transportation Survey, 128, 131, 132; National Survey of Family Growth (NSFG), 175–82; School Enrollment Supplements, CPS, 441; to study youth risky behavior, 2, 8–14, 24; System to Retrieve Information from Drug Evidence (STRIDE), 290; TANF data, 200; Vital Statistics, 222, 226–27; Vital Statistics Natality data, 71; Youth Risk Behavior Surveillance System (YRBSS)
- Decision making: differences between adult and youth, 4–5; discount factor in youth, 37–46; economic incentives in youth, 21–23; evidence of adult, 35–36; evidence related to youth, 33–36; modeling youth, 6–7; teen sexuality, 183–85; undervaluing the future, 456–57. *See also* Risk taking
- Depression: correlation with suicide, 234–37; determinants among teens of, 248–54; as factor in suicide attempts, 239–48; factors leading to youth, 234–36
- Dietary recall. *See* Nutrition status
- Discounting: economic definition, 37–38; heuristic, 38–39; in youth decision making, 37–46. *See also* Projection bias
- Drinking, teen: coefficient stability of participation (1976, 1986, 1996), 424–35; effect of alcohol-control policies on, 376; effect of environment on, 383–413; incidence in United States, 375–78; international comparison, 377; means and definitions from MTF, 422–23; potential for forming drinking habit, 413–20; probability of persistence and habit, 413–16; relation of socioeconomic characteristics to bingeing and, 387–97; social influences, 412–13; in states with low MPA, 376; trends in, 379–83; twelfth-graders' thirty-day prevalence of bingeing and (1976–96), 379–83. *See also* Bingeing, teen; Drunk-driving policies; Mini-

- mum legal drinking age (MLDA); Minimum purchase age (MPA)
- Driving behavior: factors influencing teens', 130–32; under influence of alcohol, 278–79; under influence of marijuana, 278–79. *See also* Drunk-driving policies
- Drug Enforcement Administration (DEA): Domestic Cannabis Eradication and Suppression Program, 294; Partnership for a Drug Free America, 276; price data from publications of, 290–91
- Drug use: correlation between marijuana and hard drug use, 274–77, 281–83; marijuana use relative to all, 272–73; National Household Survey of Drug Abuse (NHSDA), 72–73; teen use of alcohol, 375–76; trends in prevalence of teen (1975–98), 276. *See also* Marijuana
- Drunk-driving policies: driving with specific BAC, 149–50, 159–61; effectiveness of, 150, 161–62; license revocation, 150, 159–61
- Education: effect of aggregate variables on outcomes of, 473–80; effect of family background on outcomes of, 459–64; effect of local variables on outcomes of, 464–73; as human capital investment, 452–57; to reduce risky behavior, 64; trends in completion of, 441–52
- Educational levels: decomposition of trends in school completion, 457–80; incidence of GED certification, 447–48; measures by year of birth of completed, 449–52; of parents as determinant of seat belt use, 142–43; of parents as determinant of youth smoking, 76–79, 105–7; of teen mothers, 209
- Excise taxes: estimates of effect of beer tax on drinking and bingeing, 383–432; federal and state alcohol, 383–84; state-level tax on beer, 384–85
- Fatalities, motor vehicle: alcohol-related teen, 122; daytime and nighttime, 136–38; decline in teen (1982–97), 130–42; distribution for three age groups (1998), 124–25; historical and cross-sectional data of teen, 123–32; male and female teen (1982–97), 130–31; males as occupants of cars (1982–97), 130, 142; passenger-vehicle-occupant (1983, 1990, 1995), 129; percent change in passenger-vehicle-occupant (1983, 1990, 1995), 129–30; reduced risk with seat belt use, 142, 146; for teens (1975–97), 122–32; for three age groups (1975–97), 125–26
- Fertility: costs of behavior related to, 198–209; effect of welfare generosity on non-marital, 187–88, 200, 205–7; factors influencing teen behavior, 185–88; relation to labor market conditions, 186–87, 205–8; teen rates in United States and other industrialized countries (1975–97), 173–74
- Food insecurity. *See* Nutrition status
- Food Stamp Program (FSP), 492–93, 516
- FSP. *See* Food Stamp Program (FSP)
- Government policy. *See* Laws/regulation; Public policy
- Health: as form of human capital, 496; model of investment in, 496–97; National Health Interview Survey (NHIS), 71–73; of regular marijuana users, 277–80; smoking-related illness, 70
- Health Eating Index (HEI): components of and uses for, 486–87; in model of nutrition status measures, 497
- Homicides: Chicago homicides by census-tract-level panel data, 360–65; correlation of youth suicide rates with youth homicides, 229–30
- Human capital: drinking as deficit in acquisition of, 376; educational attainment in accumulation of, 439; investment model, 440, 452–57, 480; nutrition as investment in formation of, 496–97
- Intermodal Surface Transportation Efficiency Act (1991), 141
- Labor market activity: as alternative to juvenile crime, 335–36; of teen mothers, 209
- Laws/regulation: antismoking policies, 92–93, 97, 103–4, 117–19; auto speed limits, 150–51; minimum legal drinking age (MLDA), 136, 149; minimum purchase age (MPA), 376, 379–80, 383–86, 391–96t, 397–412; NCI criteria for

- Laws/regulation (*cont.*)
 rating state youth-access laws, 117–19;
 Nutrition Labeling and Education Act (1990), 494; nutrition programs, 504–7;
 seat belt use, 145–50; traffic-safety policies, 145–62
- Marijuana: developing dependence on, 280–81; effect of decriminalization on demand for, 284–86; as gateway drug, 281–83; physical and cognitive effects of using, 277–80; youth demand for, 283–88, 302–17
- Marijuana use among youth: behavior associated with, 4, 272–73; compared to other illicit substance abuse, 272–77; diminished psychomotor performance with, 278–79; evidence of diminished cognitive function with, 277–78; health effects associated with, 279–80; perceived risk of harm from use, 292–302
- Marijuana use among youth model: harm as endogenous variable, 294–95, 297; price variable, 295–97; purity or potency in demand function, 296–97; regression analysis, 297–302
- Minimum legal drinking age (MLDA): movement calling for age twenty-one, 149; state laws related to, 136, 149
- Minimum purchase age (MPA): effect of policy for, 376, 384–86; estimates of effect on drinking and bingeing, 391–96t, 397–412; higher state-level (1980s), 379–80, 383
- MLDA. *See* Minimum legal drinking age (MLDA)
- Monitoring the Future (MTF) surveys, 2, 8; in analysis of public policy influence on youth smoking, 89–90; determinants of youth smoking (1976–97), 76–79; trends in youth smoking (1976–97), 71–73
- Motherhood, teen, 209–11
- MPA. *See* Alcohol-control policies; Minimum purchase age (MPA)
- National Highway Transportation Safety Administration (NHTSA) data, 123
- National Personal Transportation Survey (NPTS), 128
- Nutrition: effects in adolescents of poor, 488–89, 496; factors influencing outcomes of, 504–6; Nutrition Labeling and Education Act (1990), 494
- Nutrition programs: effect of school programs, 506–7; effects of participation in, 504–5
- Nutrition status: based on physical examinations, 487–88; dietary recall, 485–87; differences by gender, 512–14; differences by race and ethnicity, 506–12; food insecurity, 484–85; measures based on physical examinations, 487–88. *See also* Obesity
- Obesity: body-mass index as measure of, 487; effect of television watching on, 504–6; international comparisons of child, 494–95; long-term effects among children, 488–89; trends in United States, 489
- Preferences: discounting future, 46–53, 61–63; effect of projection bias on, 46–48; excessive myopia related to, 38–39; projection bias, 46–53; related to education choices, 456–57; time-inconsistent, 40–42; timing of gratification of, 41–46. *See also* Projection bias
- Pregnancies, teen: costs to teens of, 198–209; factors related to pregnancy risk, 189–91t, 197–98; incidence in United States, 167–74; as problem in United States, 167; teens at risk for, 181–82; in United States and other industrialized countries (1992–95), 174
- Prices: data on marijuana prices, 290–92; effect on levels of youth smoking, 87–107; as factor in marijuana demand and use, 283–86; price elasticity of demand for marijuana, 317–19; related to perceived harm from marijuana use, 294–302
- Projection bias: evidence of effect of, 46–48; formulation of, 48–49; leading to errors, 49–51; relevance for youth, 51–52; youth-to-adult, 52–53. *See also* Discounting
- Public policy: direct and indirect influence on youth risk taking, 23–24; effectiveness of criminal-justice system, 335, 365–70; effect of antismoking policy on youth smoking, 74–76; effect of

- marijuana decriminalization, 284–85; effect on levels of youth smoking, 87–104; implications of behavioral economics analyses for, 63–65; influences on teen traffic fatalities, 149–62; minimum purchase age (MPA), 376, 383–413; potential effect on teen sexual behavior, 213–14; requiring seat belt use, 145–50; response to teen sexual activity without contraception, 212–13; role in deterring youth smoking, 69–71. *See also* Alcohol-control policies; Anti-smoking policies; Drunk-driving policies; Laws/regulation; Seat belts; Traffic-safety policies
- Race: changing composition of teenage population, 443; as determinant of youth smoking, 76–79, 105–7; rates of black teen suicide by, 232; sexual activity and contraceptive use by, 175–82; teen birthrates by (1988–98), 170–71, 173
- Risk taking: changes in incidence of youth and adult, 14–20; developmental psychology perspective on, 4–6; economic incentives associated with, 10, 21–22; effect of government policy on youth, 23–24; incidence among youths, 8–14; link between youth and adult, 22–23; proposed future work associated with youth, 24–26
- Risky behavior: behavioral model, 58–63; Behavioral Risk Factor Surveillance System (BRFSS), 109, 140; correlation of adult and youth, 22–23; correlation of youth smoking with other, 86–87; differences between adult and youth, 31; excessive myopia associated with, 38–39; policy considerations related to, 63–64; rational-choice model, 54–58, 61–63; relation to future preferences, 45–53; repeated risky choices, 53–60; self-control, 44–45; social development and reactions to, 4–5; trade-offs in, 37; as traffic safety indicator, 143–45; trends across time in adult, 18–20
- Risky behavior, youth: bad-seed model of decisions about, 13; conservation-of-risk model of decisions about, 13; correlation with adult risky behavior, 22–23; costs of additional risk taking, 11, 13; effect of economic environment on, 21–22; future work, 24–25; importance of incentives in, 21; incidence by age, 8–11; intensity in carrying out, 11–12; negative externalities from, 30; trends across time, 14–18, 22
- Roe v. Wade*, 211
- School dropouts: data sources for analysis of, 440–41; incidence of return to continue or complete schooling, 447–48; relation to marijuana use, 278; trends in, 441–52
- School enrollment: correlation with completion of education, 447–48; data sources for analysis of, 440; decomposition of trends in, 457–80; rates for young men and women, 441–46; trends, 441–52
- Seat belts: effect of mandatory laws for use of, 145–50; rates of teen use of, 122; reduction of fatality risk, 142, 146; use rates, 140–41, 148
- Sexual behavior: effect of AIDS epidemic on, 187, 204, 206–8
- Sexual behavior, teen: among girls, 175–82; boys' and girls' use of contraception, 188–98; determinants of and factors related to, 182–89; potential public policy affecting, 213–14; related to geographic cost differences, 201–9; without contraception, 211–12
- Sexuality: developmental models of, 184–85; literature about teen, 182–88; teen decision tree, 183–84
- Smoking, adult: decline in (1990s), 69; implications of youth smoking for future, 107–15
- Smoking, youth: changes in coefficients (1976, 1986, 1997), 81–84; characteristics and attitudes of smokers, 76–87; data sources for trends in, 71–74; determinants of, 76–87; effect of changes in attitudes related to, 86; effect of price on incidence of, 74–76; increased incidence of (1990s), 69–70; intertemporal implications of, 107–15; previous literature on, 74–76; time-series trends in, 71–74. *See also* Antismoking policies
- Smoking behavior: effect of tax on youths' smoking, 112–15; illness related to, 70; intertemporal correlation across co-

- Smoking behavior (*cont.*)
horts, 109–11. *See also* Antismoking policies
- Social development and reactions, 4–5
- Suicide: adult, 219–20, 224–25, 261; changes in state-level rates (1950–90), 260–63; factors influencing rise in youth, 263–65
- Suicide, youth: contagion theory, 255–56, 265; economic and social roots of, 219–24; geographical distribution in United States, 230–32; instrumentality theory, 257, 261; local spillovers, 223–24; methods, 232–34; rates, 225–28; rational or depression theory, 256, 267–68; strategic-suicide theory, 260, 265–67
- Suicide attempts, youth: contagion theory, 233, 237–38, 248; distinction between suicide and, 223; evidence, 239–50; instrumentality hypothesis, 234, 238–39; parasuicide and deliberate self-harm, 227; racial and economic differences in, 227t, 232; rates (1995), 227–28; rational or depression theory, 233–36, 241, 248–54; strategic-suicide theory, 233, 236–37, 241, 254, 265
- Suicide rates: for youths (1950, 1990), 219–20, 224–25
- Taxation. *See* Alcohol (ethyl alcohol); Excise taxes
- Television watching: effect on nutrition outcomes, 504–6; teen depression related to, 254
- Traffic fatalities. *See* Fatalities, motor vehicle
- Traffic safety: teen choices, 142–45
- Traffic-safety policies: to improve teen behavior, 145–62; literature about influences of, 149–53; state-level coverage (1975–96), 151
- Uniform Drinking Age Act (1984), 383
- Vital Statistics Natality data, 90–93, 98–105
