

This PDF is a selection from an out-of-print volume from the National Bureau of Economic Research

Volume Title: Asymmetric Information, Corporate Finance, and Investment

Volume Author/Editor: R. Glenn Hubbard, editor

Volume Publisher: University of Chicago Press, 1990

Volume ISBN: 0-226-35585-3

Volume URL: <http://www.nber.org/books/glen90-1>

Conference Date: May 5, 1989

Publication Date: January 1990

Chapter Title: List of Contributors, Indexes

Chapter Author: R. Glenn Hubbard

Chapter URL: <http://www.nber.org/chapters/c11478>

Chapter pages in book: (p. 333 - 346)

Contributors

William A. Brock
Department of Economics
University of Wisconsin
1180 Observatory Drive
Madison, WI 53706

Michael Devereux
Institute for Fiscal Studies
180/182 Tottenham Court Road
London W1P 9LE, United Kingdom

Roger E. A. Farmer
Department of Economics
University of California
Los Angeles, CA 90024

William G. Gale
Department of Economics
University of California
Los Angeles, CA 90024

Bruce C. Greenwald
Bell Communications Research
435 South Street
Morristown, NJ 07901

Takeo Hoshi
Graduate School of International Relations and Pacific Studies
University of California, San Diego
La Jolla, CA 92093-0001

R. Glenn Hubbard
Graduate School of Business
Columbia University
New York, NY 10027

Anil Kashyap
Division of Research and Statistics
Federal Reserve Board
Washington, DC 20551

Robert A. Korajczyk
Department of Finance
Kellogg Graduate School of Management
Northwestern University
Evanston, IL 60208

Blake LeBaron
Department of Economics
University of Wisconsin
1180 Observatory Drive
Madison, WI 53706

Deborah Lucas
Department of Finance
Kellogg Graduate School of Management
Northwestern University
Evanston, IL 60208

Jeffrey K. MacKie-Mason
Department of Economics
University of Michigan
Ann Arbor, MI 48109

Colin Mayer
City University
Business School
Frobisher Crescent, Barbican Centre
London EC2Y 8HB, United Kingdom

Robert L. McDonald
Department of Finance
Kellogg Graduate School of Management
Northwestern University
Evanston, IL 60208

John R. Meyer
John F. Kennedy School of Government
Harvard University
Cambridge, MA 02138

John Pound
John F. Kennedy School of Government
Harvard University
Cambridge, MA 02138

Peter C. Reiss
Graduate School of Business
Stanford University
Stanford, CA 94305

David Scharfstein
Sloan School of Management
Massachusetts Institute of Technology

Fabio Schiantarelli
Department of Economics
Boston University
Boston, MA 02215

Joseph E. Stiglitz
Department of Economics
Stanford University
Stanford, CA 94305

John S. Strong
School of Business Administration
College of William and Mary
Williamsburg, VA 23185

Richard J. Zeckhauser
John F. Kennedy School of Government
Harvard University
Cambridge, MA 02138

Discussants and Other Participants

Carliss Y. Baldwin
Harvard Business School
Boston, MA 02163

Ben S. Bemanke
Woodrow Wilson School
Princeton University
Princeton, NJ 08544

David Bizer
Department of Economics
The Johns Hopkins University
Baltimore, MD 21218

Charles W. Calomiris
Department of Economics
Northwestern University
Evanston, IL 60208

Geoffrey Carliner
National Bureau of Economic Research
1050 Massachusetts Avenue
Cambridge, MA 02138

Steven M. Fazzari
Department of Economics
Washington University
St. Louis, MO 63130

Martin Feldstein
National Bureau of Economic Research
1050 Massachusetts Avenue
Cambridge, MA 02138

Benjamin M. Friedman
Department of Economics
Harvard University
Cambridge, MA 02138

Mark L. Gertler
Department of Economics
University of Wisconsin
Madison, WI 53706

Gary Gorton
The Wharton School
University of Pennsylvania
Philadelphia, PA 19104

James Kahn
Department of Economics
University of Rochester
Rochester, NY 14627

Bruce N. Lehmann
Graduate School of Business
Columbia University
New York, NY 10027

Andrew Lo
Sloan School of Management
Massachusetts Institute of Technology
Cambridge, MA 02139

Frederic S. Mishkin
Graduate School of Business
Columbia University
New York, NY 10027

Frank Packer
Graduate School of Business
Columbia University
New York, NY 10027

Bruce C. Petersen

equity). In this volume, contributors instead consider the provider of such funds, and ask if firms care whether public or private sources provide their funding. International patterns of corporate finance are also explored and are found to include the dominance of internal funds in financing investment, the importance of bank finance for external funding, and systematic variations in financing patterns across firms of various sizes.

The insights afforded here will prove valuable for applied research in financial markets, industrial organization, and public policy.

R. GLENN HUBBARD is professor of economics and finance at the Graduate School of Business at Columbia University.

Books of Related Interest

Corporate Capital Structures in the United States

Edited by BENJAMIN M. FRIEDMAN

"An NBER classic of consistently high quality by leading scholars, [which] has an excellent introductory and summary essay by Benjamin Friedman.

. . . The scope of the essays is extremely wide, covering the history and structure of corporate balance sheets, the relationship between real and financial investment decisions of firms, and supply and demand factors in the pricing of corporate securities."—Francis H. Schott, *Business Economics*

An NBER Project Report

1985 408 pages Cloth ISBN: 0-226-26411-4

The Effects of Taxation on Capital Accumulation

Edited by MARTIN FELDSTEIN

The contributors to this volume examine the influence of taxes on capital formation, focusing specifically on the determinants of saving and the process of investment in plant and equipment. The findings reported demonstrate that changes in tax rules can have powerful effects on business investment in plant and equipment, on personal saving, and on the realization of capital gains.

"The volume contains much of the best recent research on the relationship of taxes to capital accumulation. This collection of papers should prove valuable to anyone interested in applied work in this area."—Lawrence H. Goulder, *Journal of Economic Literature*

An NBER Project Report

1987 ix, 490 pages Cloth ISBN: 0-226-24088-6

Risk and Capital Adequacy in Commercial Banks

Edited by SHERMAN MAISEL

This collection offers insight into the problems of monitoring and controlling the probability and frequency of bank failures in the United States. It considers how risks in financial institutions arise, how they can be measured, and how they can be kept at the lowest possible levels.
