

This PDF is a selection from a published volume from the
National Bureau of Economic Research

Volume Title: Economic Aspects of Obesity

Volume Author/Editor: Michael Grossman and Naci H. Mocan,
editors

Volume Publisher: University of Chicago Press

Volume ISBN: 0-226-31009-4
ISBN13: 978-0-226-31009-1

Volume URL: <http://www.nber.org/books/gros09-1>

Conference Date: November 10-11, 2008

Publication Date: April 2011

Chapter Title: Indexes

Chapter Authors: Michael Grossman, Naci H. Mocan

Chapter URL: <http://www.nber.org/chapters/c12884>

Chapter pages in book: (381 - 394)

Subject Index

Note: Page numbers followed by f or t refer to figures or tables, respectively.

- Adolescent obesity. *See* Child obesity; Obesity
- Adult obesity, 35; growth in fast-food restaurants and, 6–7. *See also* Child obesity; Obesity
- African American children vs. white children, obesity and, 138
- Aggregate U.S. spending on obesity, 2–3
- American Chamber of Commerce
 Researchers Association (ACCRA)
 Cost of Living Data, 68–71, 86–88, 129, 132–33
- Beauty, impact of, on wages, 349–50
- BMI. *See* Body mass index (BMI)
- Body mass index (BMI), 1, 68; of children, and environment, 8; health insurance coverage and, 12; medical expenses and, 335–36; neighborhood quality and, 7–8; real minimum wage and, 4, 25–29; self-esteem and, 11, 360–66; total health expenditures and, 11; wages and, 315–18, 366–69. *See also* Wages
- Body weight: of children, recreational facilities and, 12; conceptual framework for determination of, 66–67; conclusions about health insurance coverage and, 54–57; data for, 68; econometric analysis of, 71–75; effect of increasing generosity of health insurance coverage on, 45–48; health insurance coverage and, 5; insured vs. uninsured and, 48–54; long-term consequences of food prices and, 5; real food prices and, 66; real minimum wage and, 4; results of study of food prices and, 75–83. *See also* Body mass index (BMI); Obesity
- Built environments: child obesity and, 181–82; data for, 185–91; descriptive statistics for child obesity and, 191–95; endogeneity of amenity location and, 207–11; estimation strategy for, 195–96; FE regressions for, 203–6; literature on child obesity and, 182–85; results of study for, 196–202
- Child Development Supplement of the Panel Study of Income Dynamics (CDS-PSID), 129–32
- Child obesity, 145–46, 350; African American children vs. white children and, 138; built environments and, 181–82; contextual variables and, 138–40, 139t; data for, 129–33, 153–56; descriptive statistics for built environments and, 191–95; discussion and conclusions of study of, 140–42; economic factors and, 128–30; empirical model of, 133–35; fast-food prices and, 141; food-related outlet availability and,

- Child obesity (*cont.*)
135–38; food store availability and, 140,
141–42; food subsidy programs and,
142; parents' SES and work status and,
138; price elasticities and, 142; race-
ethnicity and, 148–49; recent studies of
economic factors and, 128–29; results
of study of, 135–40; socioeconomic
status (SES) and, 148–49; theoretical
framework for, 149–53. *See also* Adult
obesity; Obesity
- Cigarette excise taxes, 9
- Consumer Expenditure Survey (CES),
228–29
- Convenience stores, availability of, obesity
and, 11–12
- Deaths: leading causes of, in United States,
2; obesity and, 2
- Earnings. *See* Wages
- EBT cards. *See* Electronic benefit transfer
(EBT) cards
- Economic factors of obesity, 128–29
- Education: impact of, on wages, 368–69;
impact of obesity on, 10; obesity and,
12–13; policy implications between
physical activity and, 279–80
- Educational attainment, 10; conclusions on
obesity and, 304–8; data for, 290–92;
descriptive analysis for, 292–96, 293t,
294t, 295t; effect of weight status on
level of, 296–303; empirical framework
for, 286–90; instrumental variable
(IV) estimates for, 303–4; obesity and,
283–84; previous literature on obesity
and, 284–86
- Electronic benefit transfer (EBT) cards, 224,
244–45
- Environment, children's BMI and, 8. *See*
also Built environments
- Ethnicity, race and, 148–49
- Excise taxes. *See* Cigarette excise taxes
- Exercise. *See* Physical activity
- External costs of obesity, 36, 38–39
- Fast-food consumption, role of real mini-
mum wage and, 18–19
- Fast-food prices, 141
- Fast-food restaurants, 5; data for, 187–88;
growth in, and adult obesity, 6–7; obe-
sity and, 18
- Fat taxes, 65–66, 127
- FE regressions, for built environments,
203–6
- Financial rewards, 6, 91–92; attrition for
study of, 106–8; data for study of,
101–3; description of study of, 95–98;
descriptive statistics of study of, 103,
104t; enrollment for study of, 103–6;
hypotheses for study of, 98–101; meth-
odology for study of, 101–3; previous
literature on, and weight loss, 119–23t;
studies of, for weight loss, 93–95; for
weight loss, 6; weight loss results at end
of program, 108–18
- Food consumption: data for, 228–39; factors
affecting, 17–18; participation in Food
Stamp Program and, 227–28
- Food consumption patterns, body weight
and, 8–9
- Food expenditures: descriptive analysis
for, 234–36; multivariate analysis for,
236–44; research design for food stamp
caseload and, 230–34
- Food prices, 128; adult obesity and, 6–7;
children's weight and, 141; conceptual
framework for study of body weight
and, 66–67; data for, 68–70, 132–33;
literature on body weight and, 66;
long-term consequences of, 5; meth-
odology for study of body weight
and, 71–75; results of study of body
weight and, 75–83; store formats and,
81. *See also* Real food prices, body
weight and
- Food Stamp Program (FSP), 8–9; changes
in participation in, 225–27; consump-
tion and, 227–28; descriptive analysis
for, 234–36; effect of, 223–25; multi-
variate analysis for, 236–44; participa-
tion, and food consumption, 227–28;
research design for food expenditure
and, 230–34; welfare reform and,
226–27
- Food subsidy programs, child obesity and,
141
- Health, physical activity and, 250–51
- Health and Retirement Study (HRS), body
mass in index in, 66
- Health care costs of obesity, 36
- Health care expenditures: obesity and, 37;
studies of, 37–39; total, BMI and, 11

- Health club memberships, consumer behavior and, 6
- Health insurance coverage: BMI and, 12; body weight and, 5; conclusions about body weight and, 54–57; effect of increasing generosity of, on body weight, 45–48; external costs of obesity associated with, 38–39
- Health insurance elasticities, 36–37
- Health insurance pools, obesity and, 36
- Health insurance premiums, obesity rates and, 5
- High-socioeconomic status (SES) children, BMI gap between low-socioeconomic status (SES) children and, 7
- Incentives. *See* Financial rewards
- Indiana University Regenstrief Medical Records System (RMRS), 186
- Instrumental variable (IV) estimates, for educational attainment, 303–4
- Insurance coverage. *See* Health insurance coverage
- Insured, vs. uninsured, body weight and, 48–54
- Long-term consequences of food prices and body weight, 5
- Low-socioeconomic status (SES) children, BMI gap between high-socioeconomic status (SES) children and, 7
- Maternal perceptions of neighborhood quality, child body weight and, 156–68
- Medical expenses, BMI and, 335–36, 337f
- Minimum wage. *See* Real minimum wage
- Neighborhood characteristics: background literature on, 146–48; BMI and, 7–8; data for, 153–56; descriptive statistics, 157–58t; endogeneity of amenity location and, 207–10; maternal perceptions of, and child body weight, 156–68; Oaxaca-Blinder decomposition, 168–73; police protection and, 164–68, 172; theoretical framework for, 149–53
- Oaxaca-Blinder decomposition, 168–73; correlates of perceived, 173–76
- Obesity: aggregate U.S. medical spending on, 2–3; availability of convenience stores and, 11–12; conclusions about health insurance coverage and, 54–57; deaths and, 2; determinants of, 3; economic factors and, 128; education and, 12–13; external costs of, 36, 38–39; fast-food restaurants and, 6–7, 18; generosity of health insurance coverage and, 45–48; health care costs of, 36; health care expenditures and, 37; health insurance pools and, 36; impact on wages and, 10; insured vs. uninsured and, 48–54; measuring, 1; model of social costs of, 39–44; nonhealth consequences of, 10; policy implications of, 13–14; positive externality of, 14; primary economic causes of, 35; public health consequences of, 1; real minimum wage and, 25–29; recent evidence on causes of rising, 127–28; socioeconomic status and, 3; trends, and physical activity, 249–50. *See also* Adult obesity; Body weight; Child obesity
- Obesity rates, 1–2, 2t, 17; health insurance premiums and, 5
- Obesogenic environments, 146
- Panel Study of Income Dynamics (PSID), 317–19
- Peabody Individual Achievement Test (PIAT), 293–95
- Physical activity, 9–10; basic model of economic determinants of, 254–56; data for, 257–59; determinants of, 9–10; economics and, 251–53; by gender, 264–66, 265–66t; health and, 250–51; by income category, 269, 272–77t; methodology for, 259; obesity trends and, 249–50; participation in any, 260–64, 261–63t; policies and, 253–54; policy implications between education and, 279–80; results for models of vigorous, 266–68, 267–68t; results for models of vigorous and moderate, 269, 270–71; results of study of, 259–69; sin goods and, 12; trends in, 251
- Police protection, child body weight and, 164–68, 172
- Price elasticities, child obesity and, 142
- Race: child obesity and, 148–49; wages and, 329–32
- Real food prices, body weight and, 66

- Real minimum wage, 18; BMI and, 4, 25–26;
body weight and, 4; calculating, 19–22;
discussion of study's results, 26–29;
multivariate linear regressions for
effects of, 22–23; obesity and, 25–26;
potential policy implications of increas-
ing, 29–32; results of regressions of,
23–25; role of, and consumption of fast
food, 18–19
- Recreational facilities, children's body
weight and, 12
- Rewards. *See* Financial rewards
- Self-esteem: BMI and, 11, 360–66; data for
study of, 354–60; descriptive statistics
for, 356–58; determinants of, 361–63;
determinants of, controlling for past
BMI and past self-esteem, 374, 376t;
determinants of, controlling for race
and gender, 369–74, 375t; empirical
specification of, 352–53; obesity and,
11, 351
- Sin goods, 9; exercise and, 12
- Sin taxes, 65
- Social costs of obesity, model of, 39–44
- Social optimum, 57–62
- Socioeconomic status (SES): children's obe-
sity and, 148–49; obesity and, 3
- StickK.com, 94
- Supermarkets: availability of, obesity and,
11–12; data on, 187–88
- Transportation costs, role of, 11–12, 81
- Uninsured, vs. insured, body weight and,
48–54
- Wages: BMI and, 315–18, 366–69; conclu-
sions of study of BMI and, 336–41;
determinants of, 367–68, 370–71t;
determinants of, controlling for base-
line BMI, 369, 373–74t; determinants
of, controlling for race and gender,
374–78, 377t; full sample results of
BMI and, 321–29; impact of beauty
on, 349–50; impact of education on,
368–69; impact of obesity on, 10–11;
instrumental variation (IV) estima-
tion of, 329; methodology for study
of BMI and, 319–21; obesity and,
350–51; Panel Study of Income Dy-
namics data for, 317–19; race and,
329–32; simulations of BMI and,
332–35
- Weight loss: financial rewards and, 6, 108–
16; reasons for failure at, 92–93
- Weight loss programs, failure of, 14
- Weight reduction products, 2–3
- Welfare reform, Food Stamp Program and,
226–27
- White children vs. African American chil-
dren, child obesity and, 138
- William Hill betting agency, 94
