Relation of the Directors to the
Work and Publications of the
National Bureau of Economic Research

1. The object of the NBER is to ascertain and present to the economics profession, and to
the public more generally, important economic facts and their interpretation in a scientific
manner without policy recommendations. The Board of Directors is charged with the respon-
sibility of ensuring that the work of the NBER is carried on in strict conformity with this
object.

2. The President shall establish an internal review process to ensure that book manuscripts
proposed for publication DO NOT contain policy recommendations. This shall apply both to
the proceedings of conferences and to manuscripts by a single author or by one or more co-
authors but shall not apply to authors of comments at NBER conferences who are not NBER
affiliates.

3. No book manuscript reporting research shall be published by the NBER until the Presi-
dent has sent to each member of the Board a notice that a manuscript is recommended for
publication and that in the President’s opinion it is suitable for publication in accordance with
the above principles of the NBER. Such notification will include a table of contents and an
abstract or summary of the manuscript’s content, a list of contributors if applicable, and a
response form for use by Directors who desire a copy of the manuscript for review. Each
manuscript shall contain a summary drawing attention to the nature and treatment of the
problem studied and the main conclusions reached.

4. No volume shall be published until forty-five days have elapsed from the above notifi-
cation of intention to publish it. During this period a copy shall be sent to any Director request-
ing it, and if any Director objects to publication on the grounds that the manuscript contains
policy recommendations, the objection will be presented to the author(s) or editor(s). In case
of dispute, all members of the Board shall be notified, and the President shall appoint an ad
hoc committee of the Board to decide the matter; thirty days additional shall be granted for
this purpose.

5. The President shall present annually to the Board a report describing the internal manu-
script review process, any objections made by Directors before publication or by anyone after
publication, any disputes about such matters, and how they were handled.

6. Publications of the NBER issued for informational purposes concerning the work of the
Bureau, or issued to inform the public of the activities at the Bureau, including but not limited
to the NBER Digest and Reporter, shall be consistent with the object stated in paragraph 1.
They shall contain a specific disclaimer noting that they have not passed through the review
procedures required in this resolution. The Executive Committee of the Board is charged with
the review of all such publications from time to time.

7. NBER working papers and manuscripts distributed on the Bureau’s web site are not
deemed to be publications for the purpose of this resolution, but they shall be consistent with
the object stated in paragraph 1. Working papers shall contain a specific disclaimer noting that
they have not passed through the review procedures required in this resolution. The NBER’s
web site shall contain a similar disclaimer. The President shall establish an internal review
process to ensure that the working papers and the web site do not contain policy recommenda-
tions, and shall report annually to the Board on this process and any concerns raised in con-
nection with it.

8. Unless otherwise determined by the Board or exempted by the terms of paragraphs 6 and
7, a copy of this resolution shall be printed in each NBER publication as described in para-
graph 2 above.

This book compiles the papers presented at the conference “Crime, Institutions, and Policies,” co-organized by the Inter-American Seminar on Economics of the National Bureau of Economic Research (NBER) and LICIP (Laboratorio de Investigaciones sobre Crimen, Instituciones y Políticas) of Universidad Torcuato Di Tella in Buenos Aires, Argentina, on November 29–30, 2007. We are extremely grateful to the Tinker Foundation for generously supporting the activities at the LICIP, including the organization of this conference, as well as to the Inter-American Development Bank and Fernando de Santibañes. We thank David Pervin and two anonymous reviewers for very helpful comments. Luciana Esquerro, Juan Marcos Wlasiuk, Cecilia de Mendoza, and David Lenis provided excellent research assistance.
