

This PDF is a selection from a published volume from the  
National Bureau of Economic Research

Volume Title: The Economics of Crime: Lessons for and from  
Latin America

Volume Author/Editor: Rafael Di Tella, Sebastian Edwards, and  
Ernesto Schargrotsky, editors

Volume Publisher: University of Chicago Press

Volume ISBN: 0-226-15374-6 (cloth); 0-226-79185-8 (paper)  
ISBN13: 978-0-226-15374-2 (cloth); 978-0-226-79185-2 (paper)

Volume URL: <http://www.nber.org/books/dite09-1>

Conference Date: November 29-30, 2007

Publication Date: July 2010

Chapter Title: Indexes

Chapter Authors: Rafael Di Tella, Sebastian Edwards, Ernesto  
Schargrotsky

Chapter URL: <http://www.nber.org/chapters/c12886>

Chapter pages in book: (457 - 472)

*Page numbers followed by “f” or “t” refer to figures or tables, respectively.*

- Abortion, legalization of, decline in crime and, 285–86, 287f, 288–90f
- Adaptation. *See* Victim adaptation
- Age structures, changes in, murder rates and, 47
- Alarms, victim adaptation and, 190–91, 191f, 191t
- Area-level crime function, 362–63
- Argentina: educational requirements for inmates in, 248–49; penal legislation, 247–48; prison-based education programs in, 241–42. *See also* Buenos Aires
- Arrest laws, mandatory: cost of reporting abuse to police and, 432–33; domestic abuse and, 431–36; estimates on effectiveness of, 436–46; interactions between abusers and victims and, 432–34; intimate partner homicide and, 446–48; by state, 433t. *See also* Domestic violence
- Arrest rates: as deterrence variable for crime, 275, 276f; murders in Newark, NJ, and, 330–31, 331t, 332t
- Arrests, for spousal abuse, experimental evaluations for, 426–31
- Asset accumulation: determinants of, 162–68, 164–66t; empirical analysis of impact of internal conflict upon, 148–52
- Asset deprivation, structural poverty and, 140
- Asset losses: in Colombia, empirical analysis of, 145–46; crime and, 7–8; data sources for studying, 141–42; determinants of, 159–62, 160t; empirical analysis of impact of internal conflict upon, 148–52; from forced displacement, 152–62; housing, physical capital, and land, 154, 155t; in internal conflicts, 137; land seizure and, 155–56
- Asset recovery, 156–57
- Assets: shocks and, 139; strategies to prevent disposing of, during crises, 139–40
- Australia, homicide rates in, 273, 273f
- Average treatment effect (ATE), 423
- Bogotá: homicide rates in, 14; as landmark for crime prevention, 50–51. *See also* Colombia
- Brazil. *See* São Paulo
- Buenos Aires, crime study of: data for, 182–83; design for, 180–82; empirical strategy for, 183–85; home robbery victimization rates of, 187–88, 189f, 189t; impact of victim adaptation on home robbery in, 194–95; total victimization rates of, 185–86, 186f, 187f, 187t; victim adaptation in, 189–94, 190f, 190t, 191f, 191t; victimization rates of, 186–88, 188f, 188t

- Canada: homicide rates in, 273, 273f; number of executions and homicide rates in, 281, 282f
- Capital punishment, as deterrence variable for crime, 280–81, 281f
- Civil conflict. *See* Internal conflicts
- Colombia: aggression against civilians in, 141; crime data for, 104–11; crime in, 102; data sets for, 142–44; displaced households in, 146–48; drug trafficking in, 141; empirical analysis of effects of severe shocks on asset losses in, 144–68; empirical strategy and estimation of effect of crime and violence on house values and rental prices, 111–21, 113–17t; firms in, 74–76, 75t; forced displacement in, 141; geographic distribution of firms in, 76, 77t; historical perspective of violent crime in, 67–70; history of civil conflict in, 141; importance of social networks in, 148; instrumenting crime rate in, 121–30; kidnappings by year and department for, 94–95t; literature on crime in, 102–4; statistics on kidnappings and crimes in, 70–76, 71t. *See also* Bogotá; Internal conflicts; Kidnappings
- Compstat (New York City), 338, 339–41
- Cost channels, 86–87, 89–90
- Crack cocaine hypothesis, 293
- Credit constraints channels, 86, 87–89
- Crime: alternative determinants of, 284–92; asset losses and, 7–8; Colombian literature on, 104; data for Buenos Aires study of, 182–83; determinants of, 8–9; determinants of, for Latin American countries and comparison countries, 42–46, 44t; deterrence variables for, 274–84; different approaches to fighting, 4–5; difficulty of estimating full costs of, 7; economics of, in Latin America, 6–10; economists' knowledge about, 269–70; effect of prison population on, 327–28; estimating burden of, 175–76; fighting, different ideological traditions and, 4–5; as hindrance to economic activity, 63–65; impact of, across different groups, 8; incidence of, demographic factors as determinant of, 41–42; incidence of, economic growth as determinant of, 41; incidence of, income inequality as determinant of, 41; incidence of, in Latin America, 21–22; intangible costs of, 25–27; international evidence on, 10–14; investment in study of, in Latin America, 3–4; Latin American production of drugs and, 22; material costs of, 23–24; measurement error and, 28–33; measuring magnitude of negative consequences of, 23–24; multivariate regressions of U.S., 295–97; nonmonetary dimensions of, 25; perverse effects of, 27–28, 27t; possible calculation for burden of, 195–97; reasons for different rates of, across countries, 292–94; role of prisons and, 9–10; theory of incentives and, 11–14; victim-adaptation model of, 179–80; welfare implications of, 20, 23–28. *See also* Buenos Aires; Mortality; Victimization rates; Violence
- Crime-avoiding activities, data on, 176
- Crime displacement, criminology studies of, vs. economic studies of, 360
- Crime distribution, 176–77
- Crime effects, direct and indirect, 362–63
- Crime function, area-level, 362–63
- Crime patterns, in Latin America, 33–40
- Crime prevention: Bogotá as landmark for, 50–51; São Paulo as landmark for, 51–53
- Crime rates: descriptive statistics for, 29–30, 30t; incarceration rates and, 46–47; increase in income inequality and, 47; in Latin America, 2–3, 2f, 3f; from victimization surveys, by country, 33–35, 36–37t; from victimization surveys, for world regions, 33–35, 35t
- Crime reporting rates, 29; correlation between development and, 30–33, 32t; income per capita and, 29–30, 31f; institutional development and, 33, 34f
- Crime studies, 421–22
- Criminals, economists vs., 408–10
- Criminology, 1; use of randomized experiments and, 421
- Death penalty, as crime deterrent, 12–13. *See also* Execution
- Death penalty laws: impact of, 393–401, 394t; panel data for, 398–401
- Death row, average duration on, 401–2, 401t
- Demand channels, 86, 87

- Demographic composition, homicide rates and, 46–47
- Demographic factors, as determinant of incidence of crime, 41–42, 43–45, 44t
- Design-based studies (DBS), 421–25
- Deterrence, crime scholarship and, 422
- Deterrent variables, for crime, 274–84
- Diadema, Brazil, 52
- Displaced households, in Colombia, 146–48
- Displacement. *See* Forced displacement
- Domestic violence: experimental approaches to, 446–50; experimental evaluations for arrests for, 426–31; experiments of, 436; reporting of, victims and, 434–36. *See also* Mandatory arrest laws
- Drug enforcement-generates-violence hypothesis, 293–94
- Drug prohibition, use of violence to resolve disputes and, 292–94
- Drugs: association between murder and, in Newark, NJ, 334–35, 335t, 336t; crime and, 10; implications of Latin American production, for organized crime and institutional stability, 22
- Economic growth, as determinant of incidence of crime, 41, 43, 44t
- Economics and law, as field of study, 1
- Economists, criminals vs., 408–10
- Education programs, prison-based: in Argentina, 241–42; conceptual framework for estimating impact of, 245–47; data, 249–53; estimating propensity to participate in, 260–63; formal, behavior in prisons and, 9–10; probit estimates for, 253–60; requirements of, for inmates, 248–49. *See also* Prisons; Quality of life
- Emergency Humanitarian Aid (EHA), 143–44, 143n4
- Execution, risk of, 401–5. *See also* Death penalty
- Execution rates, by state, 391t
- Experimental approaches, 424–25; to studies of domestic violence, 446–50
- Experiments, in policy debates, 421
- Familial abuse, 448
- Fertility, mortality and, 25
- Field experiments, 421–22
- Firm investment. *See* Investment, firm
- Firms: directly affected by kidnappings, 80–81, 82t; foreign, and kidnapping of foreign citizens, 83–85, 83t; kidnappings that target, 79–80. *See also* Foreign firms
- Forced displacement, in Colombia, 141; asset losses from, 152–62, 153t; empirical analysis of, 145–46; unemployment rates and, 157–58
- Foreign citizens, kidnapping of, 83–85, 83t
- Foreign firms, kidnapping of foreign citizens and, 83–85, 83t. *See also* Firms
- Formal policy evaluations, difficulty of, 4
- Gallup World Poll, 2
- Guerrilla-related violence, 141
- Guns: prices and availability of, in Newark, NJ, 335–38, 337t; suicides by, in NJ, 337, 337t
- Gunshot wounds, U.S. cost of, 102
- Heterogeneity, 449
- Home robbery: impact of security devices on, 196t; impact of victim adaptation on, 194–95
- Homicide rates: across countries, 273, 274t; between 15 and 24, for selected Latin American countries, 39–40, 40f; changes in age structures and, 46–47; determinants of, 386–93, 387t, 388t, 390t, 392t, 402t, 403t, 404t; due to violence, 19–20, 21t; impact of death penalty laws on, 393–401, 394t, 399t, 400t; in Latin America, 2–3; for selected Latin American countries, 37–39, 38f; in world regions, 19–20, 20t. *See also* Newark, New Jersey; São Paulo
- Homicides: estimates of effects of explanatory variables on, 47–50, 48t; intimate partner, mandatory arrest laws and, 446–48; risks of committing, 382–86; for various countries, 274t. *See also* Crime; Newark, New Jersey; São Paulo
- “Hot spot” policing strategies, 360
- Housing values, effect of crime and violence on, in Colombia, 111–21, 113–17t
- Human capital, structural poverty and, 140
- Incarceration rates: cross-country comparisons of, 278, 279f; as deterrence variable for crime, 276–80; estimates of effects, on homicides, 47–50, 48t; of

- Incarceration rates (*continued*)  
 São Paulo, 219; for United States, 277–78, 278f
- Incarceration rates, crime rates and, 46–47, 48t
- Incentives: conclusions for, 410–14, 411–12t; data on, 381; empirical model of, 381–86; rationality and reaction to, 379–81; theory of, crime and, 11–14
- Income inequality: as determinant of incidence of crime, 41, 47, 48t; estimates of effects, on homicides, 47–50, 48t
- Income per capita, crime reporting rates and, 29–30, 31f
- Income per capita, estimates of effects, on homicides, 47–50, 48t
- Index of quality of life (ICV), 106, 106n9
- Index of Unsatisfied Basic Needs (NBI), 106
- Industry tradability, 87, 87t
- Inequality. *See* Income inequality
- InfoCrim, 52, 208
- Institutional development, crime reporting rates and, 33, 34f
- Instrumental variables, 423
- Intangible costs, of crime, 25–27
- Internal conflicts: asset losses in, 137; costs of, 138; empirical analysis of impact of, upon asset losses and asset accumulation, 148–52; history of, in Colombia, 141; illegal appropriation and, 140–41; structural poverty legacy of, 137–38. *See also* Colombia; Poverty traps
- International Crime Victim Survey (ICVS), 23, 29
- Investment, firm: crime as hindrance for, 63–65; cross-country regressions linking kidnappings and, 65–67; kidnappings and, 79–80, 79t; limitations of analysis of, 85–86
- Jewels, avoiding use of, 193–94, 193f, 194t
- Kidnappings, 7; cost channels and, 86–87, 89–90; credit constraints channel and, 86, 87–89; cross-country regressions linking, and investment, 65–67; demand channels and, 86, 87, 88t; empirical strategy to measure firm investment and, 76–78; firm investment and, 79–80, 79t; firms directly affected by, 80–81, 82t; of foreign citizens, and foreign firms, 83–85, 83t; limitations of analysis of, 85–86; in other industries, 81–83; in same industry, 81–83; statistics on, for Colombia, 70–76, 71t; that target firms, 79–80; by year and department, for Colombia, 94–95t. *See also* Colombia
