**RELATION OF THE DIRECTORS
TO THE WORK AND PUBLICATIONS
OF THE NATIONAL BUREAU OF ECONOMIC RESEARCH**

1. The object of the National Bureau of Economic Research is to ascertain and to present to the public important economic facts and their interpretation in a scientific and impartial manner. The Board of Directors is charged with the responsibility of ensuring that the work of the National Bureau is carried on in strict conformity with this object.
2. To this end the Board of Directors shall appoint one or more Directors of Research.
3. The Director or Directors of Research shall submit to the members of the Board, or to its Executive Committee, for their formal adoption, all specific proposals concerning researches to be instituted.
4. No report shall be published until the Director or Directors of Research shall have submitted to the Board a summary drawing attention to the character of the data and their utilization in the report, the nature and treatment of the problems involved, the main conclusions, and such other information as in their opinion would serve to determine the suitability of the report for publication in accordance with the principles of the National Bureau.
5. A copy of any manuscript proposed for publication shall also be submitted to each member of the Board. For each manuscript to be so submitted a special committee shall be appointed by the President, or at his designation by the Executive Director, consisting of three Directors selected as nearly as may be one from each general division of the Board. The names of the special manuscript committee shall be stated to each Director when the summary and report described in paragraph (4) are sent to him. It shall be the duty of each member of the committee to read the manuscript. If each member of the special committee signifies his approval within thirty days, the manuscript may be published. If each member of the special committee has not signified his approval within thirty days of the transmittal of the report and manuscript, the Director of Research shall then notify each member of the Board, requesting approval or disapproval of publication, and thirty additional days shall be granted for this purpose. The manuscript shall then not be published unless at least a majority of the entire Board and a two-thirds majority of those members of the Board who shall have voted on the proposal within the time fixed for the receipt of votes on the publication proposed shall have approved.
6. No manuscript may be published, though approved by each member of the special committee, until forty-five days have elapsed from the transmittal of the summary and report. The interval is allowed for the receipt of any memorandum of dissent or reservation, together with a brief statement of his reasons, that any member may wish to express; and such memorandum of dissent or reservation shall be published with the manuscript if he so desires. Publication does not, however, imply that each member of the Board has read the manuscript, or that either members of the Board in general, or of the special committee, have passed upon its validity in every detail.
7. A copy of this resolution shall, unless otherwise determined by the Board, be printed in each copy of every National Bureau book.

*(Resolution adopted October 25, 1926,
as revised February 6, 1933, and February 24, 1941)*

Acknowledgments

Our indebtedness to those who patiently read the several drafts of this manuscript is great. At the National Bureau, Geoffrey H. Moore, Ilse Mintz, Hyman P. Minsky, Jacob Mincer, Raymond W. Goldsmith, and Gary S. Becker provided us with constructive advice and criticism. Our thanks also go to the reading committee of the Board of Directors: Lester V. Chandler, Marion B. Folsom, and Gottfried Haberler.

This report is part of a broad study of consumer credit being conducted by the National Bureau, made possible by research grants from Associates Investment Company, C.I.T. Financial Corporation, General Motors Acceptance Corporation, and Pacific Finance Corporation. These firms, however, are not responsible for any of the statements made or views expressed in this report.

Members of the Advisory Committee to the Consumer Credit Study gave valuable help by offering comments at different stages of the study. The committee is composed of Paul W. McCracken (chairman), University of Michigan; Gordon E. Areen, Associates Investment Company; Frank Barsalou, Pacific Finance Corporation; Dorothy S. Brady, University of Pennsylvania; John M. Chapman, Columbia University; Mona Dingle, Division of Research and Statistics, Board of Governors of the Federal Reserve System; Bertrand Fox, Harvard University; Raymond W. Goldsmith, Yale University; Robert E. Lewis, First National City Bank of New York; Roger F. Murray, Columbia University; Roland I. Robinson, Michigan State University; Herbert Stein, Committee for Economic Development; Van Buren Thorne, Jr., General Motors Acceptance Corporation; and William L. Wilson, C.I.T. Financial Corporation. Others who formerly served on the Advisory Committee are Willcox Adsit, George Dimmier, George W. Omacht, Sidney E. Rolfe, and LeRoy A. Weller.

In addition, helpful comments were made by Robert W. Johnson, C. R. Warfel, and John C. Dawson. Statistical assistance was capably furnished by Florence Liang, Bette Fishbein, Linda Fulton, and Julia Clones. Margaret T. Edgar edited the manuscript, and H. Irving Forman drew the charts.
