

This PDF is a selection from a published volume from the National Bureau of Economic Research

Volume Title: Social Security Programs and Retirement around the World: Historical Trends in Mortality and Health, Employment, and Disability Insurance Participation and Reforms

Volume Author/Editor: David A. Wise, editor

Volume Publisher: University of Chicago Press

Volume ISBN: 0-226-90309-5; 978-0-226-90309-5

Volume URL: <http://www.nber.org/books/wise11-1>

Conference Date:

Publication Date: September 2012

Chapter Title: Indexes

Chapter Author(s): David A. Wise

Chapter URL: <http://www.nber.org/chapters/c13356>

Chapter pages in book: (p. 449 - 459)
