Page numbers followed by the letter *f* or *t* refer to figures or tables, respectively.

- Adenauer, Konrad, 310
- Alternative specifications to Phillips curve, 206–7
- Bank of Canada: inflation targeting and, 45–48; lessons from experiences of, 48–49; policies after 1987, 41–48; policies prior to 1987, 37–41
- Bank of Japan (BOJ), 17, 357–60; econometric analysis of the “mistake,” 378–84; Great Inflation from 1979 to 1980 and, 373–77; the “mistake” of June 1972 and, 364–67; monetarist rhetoric for independence and, 371–73; overview of the “mistake” and, 361–64; reasons for the “mistake,” 369–71; reasons tightening did not come earlier after the “mistake,” 367–69; transition from Bretton Woods to free floating and, 360–61
- Bank of New Zealand, 25; effectiveness of inflation policies of, 31–33; inflation before 1984 and, 26–27; inflation targeting and, 29–31; Lange/Douglas Labour Government and, 27–29; reasons for decline of inflation in, 33–34; Reserve Bank Act of 1989 and, 30–31. *See also* New Zealand
- Barsky-Killian (2002) variant, of Great Inflation, 157–58
- Berkeley story, 9
- Blue Chip Economic Indicators, 224, 224n8, 225f
- BOJ. *See* Bank of Japan (BOJ)
- Bretton Woods system, 12; rise and fall of, 304
- Brimmer, Andrew F., 68
- Brunner, Karl, 61, 64, 65–66, 67–68, 71
- Bundesbank. *See* German Bundesbank
- Burns, Arthur F., 265–66; wage and price controls and, 62–63
- “Business as usual” model of monetary policy: empirical implications of, 194–95; equilibrium outcomes, 188–91; Great Inflation and, 196–202; implementing, 194–95; objectives of, 186–88
- Business cycle, effect of, 149–51
- Canada. *See* Bank of Canada
- Cecchetti et al. (2007) variant, of Great Inflation, 160
- Central banks: expansionary policies of, 12; lessons from Great Inflation for policies of, 505–8; lessons from history, 499–501, 503–8
- Consumer sentiment, survey of (University of Michigan), 224–25
- Council of Economic Advisors (CEA), 258–61
- Credit Restraint Program (CRP), 227–28, 227n10

- Decision-Makers Poll, 224, 224n7, 225–26, 225f
- DeLong (1997) variant, of Great Inflation, 159–60
- Demand shocks, 123
- Deutsche Bundesbank. *See* German Bundesbank
- Edmonton Manifesto, 42, 43n7
- Employment Act of 1946 (US), 219–20, 220n4, 258
- Energy shocks. *See* Oil price shocks
- Erhard, Ludwig, 310
- European Central Bank (ECB), lessons of history and monetary policy of, 508–10
- Expectations traps, 8
- Federal Open Market Committee (FOMC), 3, 72, 450; narrative analysis of meetings, 18; narrative evidence (1959–1965) of decision making of, 454–63; narrative evidence (1966–1971) of decision making of, 463–70; overview of decision making of, 452–54; quantitative evidence of decision making of, 470–78
- Federal Reserve: SOMC challenge to, 64–71; under Volcker, 226–28
- FOMC. *See* Federal Open Market Committee (FOMC)
- Food price shocks: before and after Great Stagflation, 160–63; of Great Inflation, 141–42; importance of, for Great Inflation, 146–48
- German Bundesbank, 16–17, 301–3; German reunification and, 318–20; legacy of, 309–13; monetary targeting and, 313–21, 313n16; rise and fall of Bretton Woods regime and, 304; role of monetary policy and, 301–2
- Germany: inflation rates in (1960–1998), 304–6; lessons drawn from experience of, 320–21; monetary policies of, versus United States, 330–37; reunification of, Bundesbank and, 318–20
- Gold Pool, 18, 24–480
- Great Inflation: “business as usual” model of monetary policy and, 196–202; debate over causes of, 6–12; dimensions of, 2–6; empirical model of monetary policy during, 228–34; empirical observations, 137–38; end of price controls and, 142–45; evidence on, 137–52; evidence on adverse aggregate supply shocks and, 235–36; evolution of expectations over, 218–28; explanations of, 306–9; faulty economic theories of, 234–35; food price shocks of, 141–42; future lessons about, 240; importance of doctrine when studying, 395–98; initial shocks of, 138–46; as international phenomenon, 11–12; lessons from, for central bank policies, 505–8; misinformation and, 10–11; mismeasurement of homeownership costs and, 145–46; misperceptions of sacrifice ratio and, 238; monetary policy as cause of, 156–60; natural rate misperceptions and, 238; oil price shocks of, 139–41; pass-through of food and energy shocks into core inflation and, 146–49; perspectives on early years of, 223f; perspectives on final years of, 227f; policy rules and, 10; political explanations for, 8–9, 239–40; productivity and, 3–5, 4f; role of supply shocks and monetary policy, 504–5; Shadow Open Market Committee and, 61–62; simulation of SOMC policy rule for, 77–93; time inconsistency problems and, 239; as two episodes, 121; unemployment and, 2–3, 4f, 5; US economy and, 1–2; as worldwide phenomenon, 2, 3f, 11–12. *See also* Great Stagflation; Inflation; Inflation expectations; United States’ inflation
- Great Stagflation, 121–23; food price shocks before and after, 160–63; oil price shocks before and after, 160–63; supply-shock explanation of, 123–37. *See also* Great Inflation
- Heller, Walter, 258
- Homeownership costs, mismeasurement of (1979–1980), 145–46
- Hypotheses, for Great Inflation, 6–12
- Inflation, study of, and lessons of past for future, 513–16. *See also* Great Inflation; United States’ inflation
- Inflation expectations: evolution of, 218–28; lessons from history, 501; measures of long-term, 15, 221–23, 222f. *See also* Great Inflation

- Inflation targeting: in Canada, 45–48; as end of history, 35–36; in New Zealand, 29–31
- Interest Equalization Tax (IET) initiative, 18, 480
- Japan. *See* Bank of Japan (BOJ)
- Joint Economic Committee (JEC), 220n4
- Keynesian properties, 123, 123n7
- Keynesians, 6, 12; SOMC challenge to, 64–71
- Lange/Douglas Labour Government (NZ), 27–29
- Lessons from history: central banks, 499–501; inflation expectations, 501; need for debate and communication, 501–2; need for humility, 502
- Livingston Survey, 218–23, 228
- Martin, William McChesney, 258, 260–62, 506
- MCI (Monetary Conditions Index), 34
- Meltzer, Allan H., 61, 66–67, 69
- Misinformation, Great Inflation and, 10–11
- “Mistake,” the. *See* Bank of Japan (BOJ)
- Monetarists, 6; challenge to Federal Reserve by SOMC, 64–71
- Monetary Conditions Index (MCI), 34
- Monetary neglect hypothesis, 8
- Monetary policies: as of cause of Great Inflation, 156–60; comparison of German and US, 330–37; of ECB and lessons of history, 508–10; literature on, 329–30; optimal control, 255–56, 270–73, 275–81; role of, Great Inflation and, 504–5; role of money demand shocks and, 338–40; simple policy rule, 282–84; stop-and-go, 201; of United Kingdom, 337–38
- Monetary targeting: as commitment device, 321–29; German Bundesbank and, 313–21, 313n16
- Money demand shocks, role of, and monetary policies, 338–40
- NAIRU. *See* Nonaccelerating inflation rate of unemployment (NAIRU)
- New Economics, 5–6, 258–60
- New Keynesian Phillips curve, 15, 506–7; modification of, 206–7
- New Zealand: inflation record of, before 1984, 26–27; inflation targeting and, 29–31; Lange/Douglas Labour Government and, 27–29; reasons inflation fell in, 33–34. *See also* Bank of New Zealand
- Nonaccelerating inflation rate of unemployment (NAIRU), 136, 263n5
- Oil price shocks: before and after Great Stagflation, 160–63; of Great Inflation, 139–41; importance of, for Great Inflation, 146–48
- Oil tax, 130–32
- Okun, Arthur, 259–60
- Optimal control policies/techniques, 15–16, 255–56, 270–73; performance of, 275–81
- Phillips curve, 9; alternative specifications to, 206–7; New Keynesian, 15, 506–7
- Policy rule: comparison of empirically estimated, 330–38; Great Inflation and, 10; performance of simple, 282–84; simulation of SOMC, for Great Inflation, 77–93; SOMC, 71–77
- Politics, Great Inflation and, 8–9
- Price controls. *See* Wage and price controls
- Price shocks: food, 139–41, 160–63; oil, 139–41, 160–63
- Productivity, Great Inflation and, 3–5, 4f
- Real Business Cycle (RBC) core, 302
- Reserve Bank Act of 1989 (New Zealand), 30–31; effectiveness of, 31–33
- Roosa bonds, 18
- Sacrifice ratio, misperceptions of, 238
- Saskatoon Manifesto, 39
- Shadow Open Market Committee (SOMC), 14, 61–62; comments about, 107–16; differences between Federal Reserve policymakers and, 64–71; framework of, 64–71; Great Inflation and, 62–64; key differences between Keynesian policymakers and policymakers of, 64–71; policy recommendations of, 94–104; policy rule of, 71–77; reasons for formation of, 63–64; simulation of policy rule of, for Great Inflation, 77–93
- Shocks. *See* Demand shocks; Food price shocks; Money demand shocks; Oil price shocks; Supply shocks
- Simple policy rule, 282–84
- Smithsonian Agreement (1971), 12

- SOMC. *See* Shadow Open Market Committee (SOMC)
- Stagflation, 3. *See also* Great Stagflation
- Stop-and-go monetary policies, 201
- Supply-shock explanation: arguments against, 152–60; of Great Stagflation, 123–37; propositions of, 119–21
- Supply shock hypothesis, 6–7
- Supply shocks, 119, 123–24; role of, Great Inflation and, 504–5; types of, 125–29
- Survey of consumer sentiment (University of Michigan), 224–25, 225t
- Targeting. *See* Inflation targeting; Monetary targeting
- Taylor policy rule, 10–11, 15, 16–17, 221, 240
- Taylor principle, US monetary policy and, 329
- Time-inconsistency problem of discretionary monetary policy model, 7–8
- Unemployment: Great Inflation and, 2–3, 4f, 5; views of policymakers regarding natural rate of, 257–67
- United Kingdom: estimated structural model for, in 1970s, 416–27; Great Inflation in, 393–95; inflation in, 17–18; monetary policy of, 337–38; official doctrine on inflation during 1970s, 398–404
- United States: Great Inflation and economy of, 1–2; Great Inflation in, 393–95; monetary policies of, versus Germany, 330–37; official doctrine on inflation during 1970s, 404–16; policy of, against inflation during 1960s, 427–32
- United States' economy: estimated model of, 267–69; expectations and, 273; model simulations, 274–75; simulations methods and, 273–74
- United States' inflation, 181–83; early perspectives on, 223f; empirical implications of “business as usual” and, 194–95; equilibrium outcomes with “business as usual” of model of, 188–91; implementing “business as usual” outcomes of model and, 191–94; model components of, 183–86; objectives of monetary policy and model of, 186–88; perspectives of final years of, 227; statistical time-series model of, 196–98. *See also* Great Inflation; Inflation
- University of Michigan, survey of consumer sentiment of, 224–25
- Volcker, Paul, 266–67, 329
- Wage and price controls, 62–63; end of, and Great Inflation, 142–45
