

This PDF is a selection from a published volume from the National Bureau of Economic Research

Volume Title: Human Capital in History: The American Record

Volume Author/Editor: Leah Platt Boustan, Carola Frydman, and Robert A. Margo, editors

Volume Publisher: University of Chicago Press

Volume ISBN: 0-226-16389-X (cloth); 978-0-226-16389-5 (cloth); 978-0-226-16392-5 (eISBN)

Volume URL: <http://www.nber.org/books/bous12-1>

Conference Date: December 7-8, 2012

Publication Date: October 2014

Chapter Title: Indexes

Chapter Author(s): Leah Platt Boustan, Carola Frydman, Robert A. Margo

Chapter URL: <http://www.nber.org/chapters/c13794>

Chapter pages in book: (p. 395 – 406)

Contributors

Subject Index

Page numbers followed by the letter *f* or *t* refer to figures or tables, respectively.

- American Recovery and Reinvestment Act (ARRA), 72–73
- American system, 23n10
- Artisans, substitution of machines for, 17–18
- Assimilation. *See* Immigrant assimilation
- Atack-Bateman manufacturing samples, 25, 28, 32; construction of, 48–49
- Barro-Becker framework, in economics, 277–78
- Berkman v. City of New York*, 328–29
- Biases, self-serving, 363
- Capital, skilled labor and, 16
- Capital deepening, 15, 18; shift toward factory production and, 25, 26t; steam power and, 25–27
- Capital-skill complementarity, 16–17; data for, 27–28
- Childbearing. *See* Fertility
- Child labor: establishment size and, 31–32; regressions of, 29–30t, 29–31; role of, in early industrialization, 28; steam power and, 31
- Cohabitation, 241; divergence in, across educational groups, 249; economic models of, 250–55; prevalence of, 249, 249t; serial, 249; in United States versus European countries, 247. *See also* Marriage
- Complementarities, 15–16; capital-skill, 16–17, 27–28; interpreting historical, 21–43
- Comprehensive School Reform (CSR) grants, 73
- Computer revolution, 15–16
- Credulous Bayesians, 384–85
- De-skilling, 16–17, 165; division of labor and, in nineteenth-century manufacturing, 24–35
- Developing counties, comparisons with, and with US slaves, 148–53
- Discrimination: economics of, 360–62; hatred versus, 364–65; hierarchical models of, 315; model of, 313–15; society-wide, 383–84; statistical theory of, 315, 363. *See also* Pollution theory of discrimination
- Division of labor, de-skilling and, in nineteenth-century manufacturing, 24–35
- Economic development, gender equality and, 164–65
- Education, 2; attainment of, and role of health, 121–24; effects of height on, 138–42; mortality and, 153–55; trends in, 137–38. *See also* Health Education Longitudinal Study (ELS), 66–67

- Education policies, US: changes in federal polices, 70–73; changes in local policies and practices, 74–76; changes in state policies, 73–74; recent changes in, 68–76. *See also* High school dropout; High school graduation rates; Teacher labor market
- Electricity revolution, 15–16, 24
- Elementary and Secondary Education Act (ESEA), 70–73
- Establishment size: female/child labor and, 31–32; manufacturing and, 19
- Family entrepreneurs, 369–71
- “Family macro” subfield in economics, 277–78
- Female labor: demand for, industrialization and, in nineteenth century, 165–66; establishment size and, 31–32; regressions of, 29–30t, 29–31; role of, in early industrialization, 28; steam power and, 31
- Female labor force participation, 2–3, 161–64; American experience versus other developed countries, 167–71; black versus white differences in, 205–6; decline in, in early US industrialization, 166; and economic development, 174–76; and economic development, 1950–2005, 176–82; evidence on intergenerational transmission, 221–32; female slaves and, 206, 206n1; long-run trends in, 171–73, 172f; personal characteristics and racial differences in, 1870–2010, 213–21; trends in, by race, 207–13
- Female occupational distribution, racial differences in, 210–13
- Fertility: changing relationship between mothers’ education and, 296–302; integrating neoclassical model with supply side for, 278–81; timing of work and persuasion and, 385–86
- Fertility declines, US: conclusions for post-1960 period, 302–8; exceptionalism of post-1960 period, 281–90; literature on causes of, 273–76; models of, in economics and demography, 277–78; neoclassical theory of, 277–78. *See also* “Second Demographic Transition” (SDT)
- Fertility rates: across educational groups, 249; similarities in early and later twentieth-century period, 281–84
- Fertility transitions, twentieth-century US, 276–77
- Frog ponds, 341–42
- Fundamental attribution error, 363
- Gender, structural transformation and, 182–88; in developed countries, 183f, 184–88, 187t
- Gender equality, economic development and, 164–65
- Gender-related beliefs: attitudes toward women and work, 358–60; discrimination and social formation of, 358–65; emergence and changes in, 355–58; social formation of, 360–64; systematic biases an, 363
- Goldin-Katz framework, 21, 22–23
- Hatred, discrimination versus, 364–65
- Health: commonly used contemporary samples, 134; comparisons with US slaves and developing countries, 148–53; data, 129–34; educational attainment and, 121–24; height as measure of, 122–24; theoretical framework for, 124–29; Union Army soldiers data, 129–33; World War II enlisted men data, 133–34. *See also* Height
- Height: effects of, on education, 138–42; as measure of health, 122–24; trends in, 134–37; wealth and, 142–48. *See also* Health
- High school dropout: literature on, 64–66; regional variations in, 63f, 65–66
- High school graduation rates, 59–64, 62f; income inequality and, 59–60, 77–84; literature on factors influencing, 66–68; relevance of, 60–61; by US regions, 62–63, 63f. *See also* Education policies, US
- High school movement, 19, 61–62
- Hollowing out, 35–38; defined, 16–17; of occupational skill distribution, in twentieth century, 47
- Human capital, Becker’s model of, 60
- Immigrant assimilation, 97–99; children and their parents, 99–100, 110–16; data, 100–106; discussion of results,

- 116–18; regression results, 106–10; summary statistics for parents, 104t
- Immigrant children, parents' assimilation and, 99–100
- Income inequality, high school graduation rates and, 59–60, 77–84
- India, study of height of adult males, 151–53
- Industrialization: decline in female labor force participation rate, in early US, 166; demand for female labor, in nineteenth-century, 165–66
- Integrated Public Use Microdata Series (IPUMS), 19, 35–36, 50–53, 100
- Intertemporal commitments: long-term, 253–54; marriage as, 242–43
- Jim Crow South, 362
- Machinery: artisans and, 17–18; special purpose, sequentially implemented, 17
- Manufacturing: establishment size and, 19; shift to, in United States, 18; technological regimes in, 21–24
- Market entrepreneurs, 367–69
- Marriage: changes in, since 1950 in United States, 241–42; decoupling of, and motherhood, 293–96; divergence in, across educational groups, 249; economic models of, 250–55; economics of, 242; as intertemporal commitment, 242–43; investments in children and, 255–62; retreat from, 1950–2010, 243–50; trends in, and class divergence, 263–66. *See also* Cohabitation
- Monotonic skill upgrading, 20
- Mortality, education and, 153–55
- National Education Longitudinal Study (NELS), 66–67
- Neoclassical theory, of fertility decline, 277–78
- No Child Left Behind Act (NCLB), 71–72
- Nonmarital births, rising rates of, 245–46
- Occupational changes, 20
- Occupational distributions, 19–20; construction of, 49–53; estimation of, in manufacturing, 50–51; estimation of overall, 51–53; racial differences in female, 210–13; of US civilian employment, 1920–2010, 45–46t; of US labor force, 1850–1910, 36–37, 37t
- Occupational segregation: long-term trends in, 327n28; manufacturing in early twentieth century and, 329–31; office work in mid-twentieth century, 331–40; origins and maintenance of, 326–29; post-1950s, 340–42
- Occupational wage differentials, in nineteenth century, 39–43, 42t
- Occupations: distributions, in United States, 1850–1910, 37t; in nineteenth-century America, 35–39; technical change and, in twentieth century, 43–47, 45–46t
- Political entrepreneurs, 366–67
- Pollution theory of discrimination, 315–16; formation of daughters' beliefs, 376–82; frog ponds and, 341–42; model of, in real world, 325–42; model setup, 316–25; third-generation parental preferences and, 371–82; usefulness of, 386–87. *See also* Discrimination
- Pontiac v. Secretary of Education*, 72
- Quiet revolution, in women's economic status, 242, 243
