NOTES TO A. CONSTRUCTION CONTRACTS

^aData are comparable as to coverage within segments. Revisions of data on one- and two-family houses for the period 1947-56 (37 states) have been excluded. The revised data which are comparable to the 48 state segment, except for geographic coverage, are as follows:

	1947	1948	1949	1950	1951	1952	1953	1954	1955	1956
Total construction, value, \$ mill.	9,175.2	11,120.7	11,826.0	16,592.0	17,150.9	18,070.2	18,804.2	20,595.6	24,631.6	24,627.7

1- and 2-family dwellings, value, \$ mill.	3,693.9	4,449.7	4,416.5	7,327.9	6,115.2	6,586.1	6,809.2	8,327.5	9,960.9	8,930.3

^b Except for the total value series, data for years 1919 and 1920 apparently cover 25 rather than 27 states, since they are consistent with the 25-state totals published in the *Statistical Abstract* for 1931. Data for 1921 include 25 states January to April, and 27 states beginning in May. It is stated that the addition of 2 states, North Carolina and South Carolina, had little effect on the total.
