Roger F. Murray
Ralph L. Nelson
G. Warren Nutter
Richard T. Selden
Lawrence H. Seltzer
Robert P. Shay
George J. Stigler
Norman B. Ture
Herbert B. Woolley
Victor Zarnowitz
RELATION OF THE DIRECTORS TO
THE WORK AND PUBLICATIONS OF THE
NATIONAL BUREAU OF ECONOMIC RESEARCH

1. The object of the National Bureau of Economic Research is to ascertain and
to present to the public important economic facts and their interpretation in
a scientific and impartial manner. The Board of Directors is charged with
the responsibility of ensuring that the work of the National Bureau is carried
on in strict conformity with this object.

2. To this end the Board of Directors shall appoint one or more Directors of
Research.

3. The Director or Directors of Research shall submit to the members of the
Board, or to its Executive Committee, for their formal adoption, all specific
proposals concerning researches to be instituted.

4. No report shall be published until the Director or Directors of Research shall
have submitted to the Board a summary drawing attention to the character
of the data and their utilization in the report, the nature and treatment of
the problems involved, the main conclusions, and such other information as
in their opinion would serve to determine the suitability of the report for
publication in accordance with the principles of the National Bureau.

5. A copy of any manuscript proposed for publication shall also be submitted to
each member of the Board. For each manuscript to be so submitted a special
committee shall be appointed by the President, or at his designation by the
Executive Director, consisting of three Directors selected as nearly as may be
one from each general division of the Board. The names of the special manu-
script committee shall be stated to each Director when the summary and
report described in paragraph (4) are sent to him. It shall be the duty of each
member of the committee to read the manuscript. If each member of the
special committee signifies his approval within thirty days, the manuscript
may be published. If each member of the special committee has not signified
his approval within thirty days of the transmittal of the report and manu-
script, the Director of Research shall then notify each member of the Board,
requesting approval or disapproval of publication, and thirty additional days
shall be granted for this purpose. The manuscript shall then not be pub-
lished unless at least a majority of the entire Board and a two-thirds majority
of those members of the Board who shall have voted on the proposal within
the time fixed for the receipt of votes on the publication proposed shall have
approved.

6. No manuscript may be published, though approved by each member of the
special committee, until forty-five days have elapsed from the transmittal of
the summary and report. The interval is allowed for the receipt of any
memorandum of dissent or reservation, together with a brief statement of his
reasons, that any member may wish to express; and such memorandum of
dissent or reservation shall be published with the manuscript if he so desires.
Publication does not, however, imply that each member of the Board has read
the manuscript, or that either members of the Board in general, or of the
special committee, have passed upon its validity in every detail.

7. A copy of this resolution shall, unless otherwise determined by the Board, be
printed in each copy of every National Bureau book.

(Resolution adopted October 25, 1926,
as revised February 6, 1933, and February 24, 1941)
