RELATION OF THE DIRECTORS TO THE WORK AND PUBLICATIONS
OF THE NATIONAL BUREAU OF ECONOMIC RESEARCH

1. The object of the National Bureau of Economic Research is to ascertain and to present to the public important economic facts and their interpretation in a scientific and impartial manner. The Board of Directors is charged with the responsibility of ensuring that the work of the National Bureau is carried on in strict conformity with this object.

2. To this end the Board of Directors shall appoint one or more Directors of Research.

3. The Director or Directors of Research shall submit to the members of the Board, or to its Executive Committee, for their formal adoption, all specific proposals concerning researches to be instituted.

4. No report shall be published until the Director or Directors of Research shall have submitted to the Board a summary drawing attention to the character of the data and their utilization in the report, the nature and treatment of the problems involved, the main conclusions and such other information as in their opinion would serve to determine the suitability of the report for publication in accordance with the principles of the National Bureau.

5. A copy of any manuscript proposed for publication shall also be submitted to each member of the Board. For each manuscript to be so submitted a special committee shall be appointed by the President, or at his designation by the Executive Director, consisting of three Directors selected as nearly as may be one from each general division of the Board. The names of the special manuscript committee shall be stated to each Director when the summary and report described in paragraph (4) are sent to him. It shall be the duty of each member of the committee to read the manuscript. If each member of the special committee signifies his approval within thirty days, the manuscript may be published. If each member of the special committee has not signified his approval within thirty days of the transmittal of the report and manuscript, the Director of Research shall then notify each member of the Board, requesting approval or disapproval of publication, and thirty additional days shall be granted for this purpose. The manuscript shall then not be published unless at least a majority of the entire Board and a two-thirds majority of those members of the Board who shall have voted on the proposal within the time fixed for the receipt of votes on the publication proposed shall have approved.

6. No manuscript may be published, though approved by each member of the special committee, until forty-five days have elapsed from the transmittal of the summary and report. The interval is allowed for the receipt of any memorandum of dissent or reservation, together with a brief statement of his reasons, that any member may wish to express; and such memorandum of dissent or reservation shall be published with the manuscript if he so desires. Publication does not, however, imply that each member of the Board has read the manuscript, or that either members of the Board in general, or of the special committee, have passed upon its validity in every detail.

7. A copy of this resolution shall, unless otherwise determined by the Board, be printed in each copy of every National Bureau book.

(Resolution adopted October 25, 1926 and revised February 6, 1933 and February 24, 1941)
NATIONAL BUREAU OF ECONOMIC RESEARCH

Committee on Research in Finance

In the planning and conduct of its studies in finance the National Bureau benefits from the advice and guidance of its Committee on Research in Finance. The members of the Committee are:

RALPH A. YOUNG, Chairman—Director, Division of Research and Statistics, Board of Governors of the Federal Reserve System
RAYMOND J. SAULNIER, Secretary—Barnard College, Columbia University; Director, Financial Research Program, National Bureau of Economic Research
BENJAMIN HACCOBT BECKHART, Columbia University; Economic Consultant, The Chase National Bank
ARTHUR F. BURNS, Chairman, Council of Economic Advisers
WILLIAM J. CARSON, University of Pennsylvania; Executive Director, National Bureau of Economic Research
GEORGE W. COLEMAN, Economist, Mercantile Trust Company
EDISON H. CRAMER, Chief, Division of Research and Statistics, Federal Deposit Insurance Corporation
ERNEST M. FISHER, Columbia University
F. CYRIL JAMES, Principal and Vice-Chancellor, McGill University
WALTER LICHTENSTEIN
WALTER MITCHELL, Jr., Managing Director, Controllers Institute of America
WILLIAM J. MYERS, Dean, College of Agriculture, Cornell University
JAMES J. O'LEARY, Director of Investment Research, Life Insurance Association of America
GEORGE B. ROBERTS, Vice-President, The National City Bank of New York; Treasurer, National Bureau of Economic Research
HAROLD V. ROELSE, Vice-President, Federal Reserve Bank of New York
CASIMIR A. SIENKIEWICZ, President, Central-Penn National Bank of Philadelphia
WOODLIEF THOMAS, Economic Adviser, Board of Governors of the Federal Reserve System
DONALD S. THOMPSON, First Vice-President, Federal Reserve Bank of Cleveland
JOHN H. WILLIAMS, Nathaniel Ropes Professor of Political Economy, Harvard University; Economic Adviser, Federal Reserve Bank of New York
JOHN H. WILLS, Vice-President and Economist, Northern Trust Company
LEO WOLMAN, Columbia University; Research Staff, National Bureau of Economic Research
DONALD B. WOODWARD, Chairman, Finance Committee, Vick Chemical Company
PREFACE

This volume on farm mortgage distress in the United States is the second publication in the National Bureau's series of Studies in Agricultural Finance. The first, "Costs and Returns on Farm Mortgage Lending by Life Insurance Companies, 1945-47," was published as an Occasional Paper in 1949; several others are in various stages of completion.

The present investigation was carried out under a cooperative agreement between the National Bureau of Economic Research and the Bureau of Agricultural Economics of the United States Department of Agriculture. Mr. Jones, on assignment from BAE, had primary responsibility for Part I, "The Economic Geography of Farm Mortgage Distress"; Dr. Durand, of the National Bureau staff, for Part II, "Farm Mortgage Distress and Individual Farm Organization." The study was financed largely with funds made available to the National Bureau through grants from the Association of Reserve City Bankers, the Life Insurance Investment Research Committee, acting for the American Life Convention and the Life Insurance Association of America, and the Rockefeller Foundation. The aid given by all of these agencies is very gratefully acknowledged.

R. J. SAULNIER
Director, Financial Research Program

September 1953
<AUTHORS' ACKNOWLEDGMENT>

Since the main purpose of our project was to determine some of the important causes of farm mortgage distress, we have given primary emphasis to the two decades between the world wars, when widespread debt difficulties occurred. We have, however, touched on the financial experience of farmers both before and after that period.

Basic data for our study were provided by the federal land banks, the central office of the Farm Credit Administration, several life insurance companies, the Federal Deposit Insurance Corporation, the Board of Governors of the Federal Reserve System, and the Bureau of Agricultural Economics. Without their cooperation the study would have been impossible. Also, great assistance in the form of supplemental background information about specific geographical areas was personally provided by many individuals both within and without the United States Department of Agriculture.

We are especially indebted to R. J. Saulnier, Director of the National Bureau's Financial Research Program, and Norman J. Wall, Head of the Division of Agricultural Finance of the Bureau of Agricultural Economics, for making the administrative arrangements that enabled the work to be carried forward on a cooperative basis, and for their reading and criticism of the manuscript; to Fred L. Garlock, also of the Bureau of Agricultural Economics, for his counsel at many stages in the work; to Frederick C. Mills and George J. Stigler for thoughtful criticisms as members of the National Bureau's reading committee; to Ruth Harris for drawing many of the charts; to Catherine Martin, Inge Falk, and Olive K. Britt for statistical computations and checking; and to Mary Phelps for editorial assistance. But above all, our thanks go to F. F. Hill, of Cornell University, for his indispensable aid. Serving as technical adviser and editorial critic, Dr. Hill devoted a great deal of time to the study, and contributed richly from his sound judgment and his extensive background in agriculture and agricultural credit.

LAWRENCE A. JONES AND DAVID DURAND

**PREFACE** ix  
**AUTHORS' ACKNOWLEDGMENT** xi  

**INTRODUCTION: HISTORICAL BACKGROUND**  
- Nineteenth Century 3  
- Twentieth Century through World War I 5  
- The Interwar Period 9  
- World War II and the Early Postwar Years 13  
- Financial Position of Agriculture, 1953 17  
- Scope of the Study 21  

**PART I: THE ECONOMIC GEOGRAPHY OF FARM MORTGAGE DISTRESS**  

1. LOCATION OF AREAS OF FARM MORTGAGE DISTRESS 25  
- Indicators of Farm Mortgage Distress 25  
- Distress Transfers of Farms 26  
- Experience with Federal Land Bank Loans 31  
- Experience with Land Bank Commissioner Loans 33  
- Experience with Loans by Life Insurance Companies 37  
- Commercial Bank Data 43  
- Trends in Land Values 51  
- Location of High and Low Distress Areas 55  

2. GREAT PLAINS AND MOUNTAIN STATES 59  
- Physical Characteristics of the Area 59  
- Economic History before 1920 61  
- Variations in Mortgage Distress in the Twenties 68  
- Variations in Mortgage Distress in the Thirties 71  
- Areas of Relatively Little Distress during the Interwar Period 71  

3. THE CORN BELT 77  
- Physical Characteristics 77  
- Types of Farming 79  
- Speculative Inflation of Land Values 80  
- The Price Collapse 82  
- Mortgage Experience 83  

4. THE COTTON BELT 90  
- Crop and Livestock Enterprises in the Cotton Belt 91  
- Changes in Cotton Acreage, 1909-49 93  
- Cotton Prices, 1920-40 95
# CONTENTS

Geographic Variations in Mortgage Experience 97  
*Eastern Cotton States* 98  
*Delta Cotton States* 102  
*Texas and Oklahoma* 106

5. OTHER AREAS: DAIRYING, TRUCK AND FRUIT, TOBACCO, AND GENERAL FARMING 111  
The Northeast 111  
Appalachian States 115  
Florida 118  
Lake States 120  
Cut-over Country 122  
*Commercial Dairy Belt* 124  
Pacific Coast States 126

**PART II: FARM MORTGAGE DISTRESS AND INDIVIDUAL FARM ORGANIZATION**

6. A RESUME OF MORTGAGE EXPERIENCE STUDIES 135  
Quality of Land 137  
Debt Load 139  
Size of Farm 140  
Other Factors 140  
Appraisal of the Findings 140

7. A RESUME OF SOME FARM INCOME STUDIES 143  
Frederick County, Maryland 144  
Soils and Incomes in the Newfane Area 147  
Wheat Yields and Land Values in Northern Idaho 154  
Studies of Typical Farms by the Bureau of Agricultural Economics 157  
Implications of Farm Income Studies 162

8. MARKET VALUES, EARNING POWER, AND LENDING STANDARDS 165  
Imperfections of the Land Market 165  
Amenities and Other Factors 167  
Market Values versus Earning Power as Loan Security 168  
Relation of Loan to Long-term Market Value 170  
Earnings Coverage 172  
Adjustment for Living Costs 173  
Adjustment for Off-farm Work 174  
Adjustments for Unpaid Labor 174
