The Labor Force in War and Transition
Four Countries

What! a young knave, and begging!
Is there not wars? Is there not employment?
Doth not the King lack subjects?

FALSTAFF

CLARENCE D. LONG
Professor of Economics
The Johns Hopkins University

OCCASIONAL PAPER 36

NATIONAL BUREAU OF ECONOMIC RESEARCH, INC.
1952
This paper owes much to the careful work of my assistants, Esther McPherson Donahue and Susan Dischka. H. Irving Forman drew the charts. Martha Anderson edited the manuscript. Arthur F. Burns, Solomon Fabricant, Thor Hultgren, Frederick C. Mills, Geoffrey H. Moore, Theodore W. Schultz, Boris Shishkin, George Stigler, and Leo Wolman read the manuscript at one stage or another and made comments in keeping with the best traditions of the National Bureau.

CLARENCE D. LONG
OFFICERS

1952

Harry Scherman, Chairman
C. C. Balderston, President
Percival F. Brundage, Vice-President
George B. Roberts, Treasurer

W. Braddock Hickman
Leo Wolman

F. F. Hill
Thor Hultgren
Simon Kuznets
Clarence D. Long
Ruth F. Mack
Frederick C. Mills
Raymond J. Saulnier
Lawrence H. Seltzer
George J. Stigler
RELATION OF THE DIRECTORS
TO THE WORK AND PUBLICATIONS
OF THE NATIONAL BUREAU OF ECONOMIC RESEARCH

1. The object of the National Bureau of Economic Research is to ascertain
and to present to the public important economic facts and their interpretation
in a scientific and impartial manner. The Board of Directors is charged with
the responsibility of ensuring that the work of the National Bureau is carried
on in strict conformity with this object.

2. To this end the Board of Directors shall appoint one or more Directors
of Research.

3. The Director or Directors of Research shall submit to the members of
the Board, or to its Executive Committee, for their formal adoption, all specific
proposals concerning researches to be instituted.

4. No report shall be published until the Director or Directors of Research
shall have submitted to the Board a summary drawing attention to the char-
acter of the data and their utilization in the report, the nature and treatment
of the problems involved, the main conclusions and such other information
as in their opinion would serve to determine the suitability of the report for
publication in accordance with the principles of the National Bureau.

5. A copy of any manuscript proposed for publication shall also be sub-
mitted to each member of the Board. For each manuscript to be so submitted
a special committee shall be appointed by the President, or at his designation
by the Executive Director, consisting of three Directors selected as nearly as
may be one from each general division of the Board. The names of the special
manuscript committee shall be stated to each Director when the summary
and report described in paragraph (4) are sent to him. It shall be the duty
of each member of the committee to read the manuscript. If each member of
the special committee signifies his approval within thirty days, the manuscript
may be published. If each member of the special committee has not signified
his approval within thirty days of the transmittal of the report and manu-
script, the Director of Research shall then notify each member of the Board,
requesting approval or disapproval of publication, and thirty additional days
shall be granted for this purpose. The manuscript shall then not be published
unless at least a majority of the entire Board and a two-thirds majority of
those members of the Board who shall have voted on the proposal within the
time fixed for the receipt of votes on the publication proposed shall have
approved.

6. No manuscript may be published, though approved by each member of
the special committee, until forty-five days have elapsed from the transmittal
of the summary and report. The interval is allowed for the receipt of any
memorandum of dissent or reservation, together with a brief statement of
his reasons, that any member may wish to express; and such memorandum
of dissent or reservation shall be published with the manuscript if he so de-
sires. Publication does not, however, imply that each member of the Board
has read the manuscript, or that either members of the Board in general,
or of the special committee, have passed upon its validity in every detail.

7. A copy of this resolution shall, unless otherwise determined by the Board,
be printed in each copy of every National Bureau book.

(Resolution adopted October 25, 1926 and revised February 6, 1933 and February 24, 1941)
