Primack, Martin, 3*n*, 71–73, 85, 129
Prime movers, definition, 443
Production:
data and capital formation, 12–13
estimates of flows of materials, 71
for "own use," xiv
Productivity:
changes in, xiii
grain production (1840–1910), 523–582
railroad sector (1840–1910), 583–646
textile industry, 227–232, 240
Professional services, 59
Property, ratio of appraised to market value, 252–259
Providence Tool Co., 500
Pure Oil Co., 392, 394, 396

Quincy, Josiah, 169

Radford, William A., 275
Railroads (1840–1910), 583–646
air brakes, 632, 634, 637, 645
Arkansas, 196
automatic couplers, 632, 634, 637, 645
block signaling, 632
capital-output ratio, 630–631
capital stock, 583–584, 589–612
checks on estimates, 609–610
in constant and current dollars, 589–593, 612
defects in Ulmer's estimates, 589–594, 608–609, 611–612
estimates, 589–612
competition, 628
construction series, 60
decline of, 628
economies of scale, 630, 631, 633
effect on mineral mining, 313–315
1840, 197–198
employment, 121–123, 133, 191–200, 583, 612–618
alternative estimates, 614
data, 612–614, 616–617
length of workweek, 612
productivity, 593
receipts and, 612, 614–616
training, 645
wages, 637–638
firm size, 631–632
fuel consumption, 583, 618–626, 637
effect of technological change, 619
expenditures, 624, 637
per locomotive-mile, 623, 625
wood and coal, 418–420, 437–438, 619–624
hauling dead weight, 641, 645
increase in train size and load, 636–637
innovations, 632–634
cost savings, 636
measuring significance of, 642–645
inputs and outputs, 630, 645
Iowa, 195–196
locomotives, 595, 601, 603–605, 619, 621*n*, 635, 645
Louisiana, 196
measures of development, 584–626
capital stock, 589–612
fuel consumption, 618–626
labor, 612–618
output, 584–589
Minnesota, 195–196
Missouri, 195–196
Mountains and Pacific, 197

Railroads (1840–1910) (*Continued*)
output, 583, 584–589
estimates of passenger-miles and ton-miles, 584–587
factors, 628*n*
rate of growth, 626, 629
receipts and rate information, 586–588
passenger and freight cars, 601, 635, 641
price index, 608–610
productivity, 583–646
changes, 584, 645–646
effect of air brakes, 584, 632, 634, 637, 645
effect of automatic couplers, 584, 632, 634, 637, 645
effect of improved rolling stock, 584, 633
effect of innovations, 584, 642–645
effect of steel rails, 584, 632, 633, 635, 639–641, 645
evaluation of factors, 631–646
index, 629
output, input, and, 626–645
total factor productivity index, 642–644
profits, 646
rate differences, 646
safety features, 636
standardization, 633
statistical methods, 583–584
steel rails, 593, 600*n*, 619*n*, 632, 633, 635, 639–641, 645
tank cars, 367
technological change, 633–642
trackage and equipment, 594–608
train speed, 637–638
Randall, S. S., 202*n*
Rasmussen, Wayne D., 83–84, 90, 179, 622
Real estate, 257, 266, 268–276
Records:
state and local, 281
study of business, 214–215, 216*n*, 233
Reed, Congressman, 170–172
Rees, A., 272
Regional economic development:
coal mining, 415
effect of mineral mining on, 319–346
export base, 319–320, 347
metal mining industries and, 319–346
Reid, Margaret G., 273–274, 286
Rein, Selma, 293*n*
Rents, 21, 40, 57–59, 63
Residential dwellings, 257, 266, 268–276
Richey, H. G., 125*n*
Riem, J., 274*n*
Ringwalt, J. L., 601*n*
Ripley, Samuel, 183*n*
Robertson, Ross, xii, xiv, 479–495, 518
Rockefeller Foundation, 243*n*
Roe, Joseph Wickham, 479*n*, 487*n*, 497, 499, 500, 510
Rogin, Leo, 570*n*
Rosenberg, Nathan, xiii*n*, xiv, 221*n*, 491
Rossiter, W. R., 160
Rostow, W. W., 502
Rural population, estimates, 134–135
Ruschenberger, William S. W., 171*n*, 172
Russel, R., 229*n*
Russia, petroleum industry, 369, 382, 386

Salt mining, 175
Sampson, Paul, 243*n*
Sandberg, C. P., 639*n*
Savings, domestic rates, 14
Schilling, Don C., 523*n*
Schmookler, Jacob, 632*n*
Schoolcraft, Henry, 174*n*
Schools, construction of, 247–250, 276
