THE NATIONAL BUREAU ENTERS ITS FORTY-FIFTH YEAR

FORTY-FOURTH ANNUAL REPORT
A RECORD FOR 1963 AND PLANS FOR 1964

NATIONAL BUREAU OF ECONOMIC RESEARCH, INC.
261 MADISON AVENUE, NEW YORK, NEW YORK 10016
The National Bureau of Economic Research was organized in 1920 in response to a growing demand for objective determination of the facts bearing upon economic problems, and for their interpretation in an impartial manner. The National Bureau concentrates on topics of national importance that are susceptible of scientific treatment.

The National Bureau seeks not merely to determine and interpret important economic facts, but to do so under such auspices and with such safeguards as shall make its findings carry conviction to all sections of the nation.

No report of the Research Staff may be published without the approval of the Board of Directors. Rigid provisions guard the National Bureau from becoming a source of profit to its members, directors, or officers, and from becoming an agency for propaganda.

By issuing its findings in the form of scientific reports, entirely divorced from recommendations on policy, the National Bureau hopes to aid all thoughtful men, however divergent their views of public policy, to base their discussions upon objective knowledge as distinguished from subjective opinion.

The National Bureau assumes no obligation toward present or future contributors except to determine, interpret, and publish economic facts for the benefit of the nation at large, and to provide contributors with copies of its publications.
RELATION OF THE DIRECTORS
TO THE WORK AND PUBLICATIONS
OF THE NATIONAL BUREAU OF ECONOMIC RESEARCH

1. The object of the National Bureau of Economic Research is to ascertain and to
present to the public important economic facts and their interpretation in a scientific
and impartial manner. The Board of Directors is charged with the responsibility of
ensuring that the work of the National Bureau is carried on in strict conformity with
this object.

2. To this end the Board of Directors shall appoint one or more Directors of
Research.

3. The Director or Directors of Research shall submit to the members of the Board,
or to its Executive Committee, for their formal adoption, all specific proposals
concerning researches to be instituted.

4. No report shall be published until the Director or Directors of Research shall
have submitted to the Board a summary drawing attention to the character of the
data and their utilization in the report, the nature and treatment of the problems
involved, the main conclusions, and such other information as in their opinion would
serve to determine the suitability of the report for publication in accordance with the
principles of the National Bureau.

5. A copy of any manuscript proposed for publication shall also be submitted to each
member of the Board. For each manuscript to be so submitted a special committee
shall be appointed by the President, or at his designation by the Executive Director,
consisting of three Directors selected as nearly as may be one from each general
division of the Board. The names of the special manuscript committee shall be stated
to each Director when the summary and report described in paragraph (4) are sent
to him. It shall be the duty of each member of the committee to read the manuscript. If
each member of the special committee signifies his approval within thirty days, the
manuscript may be published. If each member of the special committee has not signified
his approval within thirty days of the transmittal of the report and manuscript, the
Director of Research shall then notify each member of the Board, requesting approval
or disapproval of publication, and thirty additional days shall be granted for this
purpose. The manuscript shall then not be published unless at least a majority of the
entire Board and a two-thirds majority of those members of the Board who shall have
voted on the proposal within the time fixed for the receipt of votes on the publication
proposed shall have approved.

6. No manuscript may be published, though approved by each member of the special
committee, until forty-five days have elapsed from the transmittal of the summary
and report. The interval is allowed for the receipt of any memorandum of dissent or
reservation, together with a brief statement of his reasons, that any member may wish
to express; and such memorandum of dissent or reservation shall be published with
the manuscript if he so desires. Publication does not, however, imply that each member
of the Board has read the manuscript, or that either members of the Board in general,
or of the special committee, have passed upon its validity in every detail.

7. A copy of this resolution shall, unless otherwise determined by the Board, be
printed in each copy of every National Bureau book.

(Resolution adopted October 25, 1926,
as revised February 6, 1933, and February 24, 1941)
NATIONAL BUREAU OF ECONOMIC RESEARCH

1964

OFFICERS
Albert J. Hettinger, Jr., Chairman
Arthur F. Burns, President
Frank W. Fetter, Vice-President
Donald B. Woodward, Treasurer
