How to Obtain National Bureau Publications

The National Bureau of Economic Research is a nonprofit membership corporation organized to make impartial studies in economic science.

Its books are published and distributed by the Princeton University Press; its Occasional Papers and Technical Papers are published and distributed by the National Bureau itself.

The National Bureau's publications may be obtained either on subscription or by purchase.

Contributing subscription rates, effective January 1, 1959, are the standard rate of $75 a year and the educational rate of $35 a year. The educational rate is open to teachers, students, other individuals, and libraries of recognized educational institutions, and to public libraries; and to individual members and libraries of scientific societies or of private nonprofit research agencies.

Contributors of these amounts or more are entitled to receive a complimentary copy of each current publication—books, Occasional Papers, Technical Papers, and the Annual Report—in advance of release to the public. In addition, contributors are entitled to a one-third discount on all National Bureau publications purchased.

The associate subscription rate is $10. A contributor of this amount receives a complimentary copy of each current Occasional Paper, Technical Paper, and the Annual Report, and is entitled to a one-third discount on all publications purchased. Only the following are eligible to become associates: teachers, students, other individuals, and libraries of recognized educational institutions, and public libraries; and individual members and libraries of scientific societies or of private nonprofit research agencies.

The subscription rate of Occasional Papers is $4 for five issues. A contributor of $4 receives the next five Occasional Papers (or any Technical Papers issued during this period may be substituted) and the Annual Report.

Contributions to the National Bureau are deductible in calculating federal income taxes.
