

This PDF is a selection from an out-of-print volume from the National Bureau of Economic Research

Volume Title: Financial Aspects of the United States Pension System

Volume Author/Editor: Zvi Bodie and John B. Shoven, editors

Volume Publisher: University of Chicago Press

Volume ISBN: 0-226-06281-3

Volume URL: <http://www.nber.org/books/bodi83-1>

Publication Date: 1983

Chapter Title: List of Contributors, Indices

Chapter Author: Zvi Bodie, John B. Shoven

Chapter URL: <http://www.nber.org/chapters/c6040>

Chapter pages in book: (p. 441 - 454)

# Subject Index

- A&P Corporation, 23
- Accounting data, in inflationary period, 182–83
- Accrued benefits, defined, 45
- Accrued liabilities, defined, 149
- Actuarial assumptions, in overfunding, 50
- Advisory Council on Social Security, 231
- Age: effect on asset choices, 413; and wealth appreciation, 375
- Aged: asset vulnerability of, 242–43; financial status of, 12–13; labor force participation of, 1. *See also* Elderly; Older workers; Retirees
- Age Discrimination in Employment Act, 82
- Age-earnings profiles, 61
- Alloytek, 48
- Annuitant age, and real benefit risks, 297
- Annuitants, choice of plans, 321–22, 325
- Annuities: indexed, 254; life, 6, 269. *See also* Nominal annuities; Variable annuities
- Annuity designs, alternative, 306–7
- Asset allocation, 91, 92, 94–101, 126–31; and bankruptcy, 127; and earnings volatility, 128; and prospective risk, 129; and tax status, 130
- Asset choices, 413, 420, 422; effects of private plan wealth on, 413, 437; by individuals, 403–4
- Asset demand equations, 416–19
- Asset distribution, 110–17
- Asset returns, 160–69
- Assets: high yield, 128; matched to liabilities, 52
- Backloading, 44, 45, 51
- Balance sheet, corporate, 131–34
- Bankruptcy: and asset allocations, 127; probability of, 122, 127
- Bargaining agreements, 29, 33. *See also* Compensation negotiations; Salary negotiations
- Benefit formulas, 66
- Benefit payments, distribution over time, 296
- Benefits: ad hoc increases in, 22; and aggregate per capita consumption, 271; changes in, 246–47; consumption linked, 262–68; dependent on individual contributions, 346; educational, 6; effect of inflation on, 317; eligibility requirement for, 327; employee response to, 207n.29; expected present value of, 72, 73, 74, 79; formulas, 67; guaranteed, 45; indexing of, 241–43, 250; legislative increases in, 357n.13; maternity, 6; payment options, 321–22; percentage of total compensation, 20; plan options, 321–22; present value of, 351; risks with aging annuitant, 297; and standard of living, 246–47; as termination policy, 52; vested, 45. *See also* Social security benefits; Vested benefits
- Blue-collar workers, 86
- Bond market, elderly participation in, 369
- Bonds: indexed, 318; tax advantages of, 30; for variable annuities, 291, 294; wage linked, 271
- Braniff, 49

- Business ownership, among elderly, 369
- Canada and Quebec Pension Plans, 408
- Canadian Registered Home Ownership Savings Plan, 410
- Capital asset pricing model, 181, 185, 246
- Capital stock, and pension plan growth, 2
- Capital structure, and pension funding, 149–50
- Chrysler Corporation, 49
- Common stock, return of, 320; for variable annuities, 307
- Compensation negotiations, 24–28
- Consumer Price Index, 248–49, 251; for indexing social security benefits, 351. *See also* Cost of living
- Consumption: per capita, 269, 270; and retirement benefits, 271; tax, 272
- Consumption indexed public plan, feasibility of, 274–75; merits of, 269, 271–74
- Consumption tax, 353
- Contingent claims, valuation of, 92–93
- Contracts, implicit, 19, 33
- Contributions, individual, 346
- Corporate balance sheet, 131–34
- Corporate Pension Plan Study*, 58, 67
- Corporate pension policy, 3
- Cost of living: adjustments for retirees, 292; ceiling on adjustments, 301; for elderly, 360–61; index, 248–50, 251
- Credit, availability of, 326
- Cyclops, 49
- Deferred life annuities, present value of, 6
- Defined benefit plans: advantages of, 43–44; defined, 3; differentiated from defined contribution plans, 3; and ERISA, 18, 39–51; expected present value of, 72, 73, 78; fixed nominal annuity in, 213; as form of severance pay, 7; funding of, 91–105; and older workers, 44; ownership of, 7, 18–24, 28–31, 37; pension fund performance in, 213; reasons for using, 43–44; tax consequences of, 28; value of, 4
- Defined contribution plans, 75, 76, 77; defined, 3; distinguished from defined benefit plans, 3; equity investment in, 146n.26; expected value of benefits, 74, 76, 77
- Distributions, lump sum, 22
- Early retirement, 58; benefits, 21–22; in lieu of severance pay, 44; and pension values, 7, 84
- Earnings, management of, 124–25
- Earnings-smoothing hypothesis, 123–25
- Earnings volatility, and equity allocation, 128
- Economic rents, 24
- Economic well-being, income as an indicator of, 379
- Economy, real rate of growth, 353
- Educational benefits, 6
- Elderly: bond market participation, 369; business ownership among, 369; and cost of living, 360–61; farm ownership among, 369; financial problems of, 387; home mortgages among, 369; home ownership among, 369; incomes of, 361–66; labor force participation of, 362; opinion poll of, 387; participation in savings accounts, 369; per capita income compared with general population, 394; protection from inflation, 252; stock market participation, 369; wealth of, 366, 368–76. *See also* Aged; Older workers; Retirees
- Employee Retirement Income Security Act of 1974 (ERISA), 17; and asset allocation, 8; and corporate pension policy, 3; difficulties in applying, 47–49; effects of, 7, 23, 29–31, 37; and equity stake of employees, 7; Form 5500, 109–10, 113, 137–42; ineffective provisions of, 51; and optimal pension funding, 8; reform of, 51–52; and underfunded plans, 54; vesting under, 21
- Employees, and salary negotiations, 24–28
- Employee turnover, 63–64, 86
- Equilibrium: in financial markets, 333–36; in goods and labor markets, 336–38; perfect market path, 338–49; when human capital is not tradable, 338–49; when human capital is tradable, 328–38
- Equilibrium model, intertemporal, 262–68
- Equity allocation, and earnings volatility, 128
- ERISA. *See* Employment Retirement Income Security Act of 1974
- Expenditure tax, individual, 274
- Family relations, change in, 1
- Family support, decline in importance of, 1
- Farm ownership, among elderly, 369
- Federal employees, pensions for, 251n.2
- Financial Accounting Standard Board, 6, 53n
- Formulas, for benefits, 66

- Funding: actuarial assumptions, 50; asset allocation decisions in, 94–103; of defined benefit plans, 91–105; level of, 283–84; overfunding, 31, 38, 42–44, 46, 50; tax benefits of, 201; tax reasons for full, 150; underfunded plans, 40–42, 46, 49–50, 54, 124, 148, 150, 427
- Funding ratio, and prospective risk, 129
- Future, planning for, 282–83
- Graduated payment plan, 321
- Grumman Corporation, 23, 33
- Guaranteed Income Supplement (GIS), 408
- Hedge portfolios, 246
- Holding period, 154–56; defined, 9; length of, 156–57, 160, 170–71; risk of stock return falls in, 161
- Home mortgages, among elderly, 369
- Home ownership: among elderly, 369; tax advantages of, 413, 421
- Household size, and wealth, 427
- Human capital, 40–41, 278, 380; defined, 24–25, 331; nontradability of, 326, 327; redistribution of, 328; tradable, 328–38
- Implicit contracts, 19, 33
- Income: estimates of, 432–34; as indicator of economic well-being, 379; per capita, 394; redistribution of, 281; and wealth, 376–80
- Income tax, indexing of brackets, 238
- Indexing of bonds, 318
- Indexing of pensions: aggregate per capita consumption as base of, 11; alternatives to, 231; effect on real economic behavior, 250; and high income employees, 228n.4; for inflation, 241–46; as insurance, 235, 238; methods of, 11, 238, 255; performance method, 11; as precommitment, 238, 240–41; price-level system, 11; private pensions, 10, 241–46; public pensions, 233–41, 256; and risk aversion, 215–16; tax bracket, 238; with riskless social security, 219–24; without social security, 212–19; with uncertain social security, 224–27; using Treasury bills, 213, 216; vesting provisions, 243–44
- Inflation: and annuity return, 300; correlation between expected and actual, 253; effect on elderly, 242–43, 252, 381–84, 386–87; effect on pension benefits, 317; effect on pension system, 10; and indexing of private plans, 10, 241–46; and social security, 219–27; Treasury bills as hedge against, 213; uncertainty about, 216; vulnerability to, 395
- Information costs, 273; economies of scale in, 11, 260–61
- Interest rate: average, 192; and present value of vested benefits, 189; real, 247
- Interest rate assumptions, 187–93, 201–3; and accrued pension liabilities, 202; actuarial, 208; reasons for differing choices, 201–5
- Internal Revenue Service, ERISA form requirement of, 109–10, 113, 137–42
- Investment choices, 92–105, 206n.19
- Investment horizon, 154–56
- Investments: in defined contribution plans, 146n.26; of pension funds, 30; tax strategies in, 148
- Labor, inelastic supply of, 338–44
- Labor contract model, 24–27; justification for using, 28
- Labor force, participation of elderly in, 1, 362
- Labor market behavior, contractual models of, 5
- Labor mobility, 58; severance pay to guarantee, 58
- Laspeyres index, 360
- Leisure time, 330, 331
- Liabilities: actuarial concepts of, 147n.34; actuarial values of, 145n.11; hidden nature of, 124; present value of, 37–38; unfunded, 121. *See also* Pension liabilities
- Life-cycle rationality, 282

## Books of Related Interest

### **Pensions in the American Economy**

Laurence J. Kotlikoff and Daniel E. Smith

The most comprehensive guide to American government and private pension plans ever compiled, this book has hundreds of tables and a lucid text that explains and highlights the information. Without the aid of a pension specialist, any reader can now compare pension vesting, retirement, and benefit provisions by plan type, plan size, industry, union status, and many more characteristics. A book equally useful for workers, employers, pension specialists, and scholars.

An NBER Monograph

1983 450 pages (est.) ISBN: 0-226-45146-1

### **New Developments in Productivity Measurement and Analysis**

Edited by John W. Kendrick and Beatrice N. Vaccara

Kendrick and Vaccara present a sampling of research on concepts, measurements, and analysis of productivity, with respect not only to causal factors, but also to the interrelation of productivity, costs, and prices in the United States and abroad.

“This volume is an important one, both as a report on the results of measuring and analyzing productivity growth, and as an affirmation of improving methodology.”—J. R. Norsworthy, *Journal of*

1980 x, 718 pages Cloth ISBN: 0-226-43080-4

### **Modeling the Distribution and Intergenerational Transmission of Wealth**

Edited by James D. Smith

Using modern statistical and simulation techniques, the contributors explain the process of wealth transmission and the persistent problem of the unequal distribution of wealth. The authors examine such issues as the ways in which assets are distributed by divorce, the patterns of bequests and gifts, the factors that influence savings, and decisions about ownership between spouses.
