Subject Index

Activities of daily living (ADL), 162, 177, 201–3
Age: death rates and, 128, 326; disability models and, 125; DP model and, 329; nursing home admission and, 129, 192; user cost of housing and, 71, 85
Age-earnings profile, 293, 295, 301–2, 308, 313
Age-productivity profile, 295, 301, 313
Altruism, 171
Alzheimer's disease, 162, 203
American Housing Survey (AHS), 36. *See also* Annual Housing Survey
Annual Housing Survey, 91
Assets, 71; housing demand and, 64–70; liquid, 55; retirement decisions and, 213, 232, 243–44, 248. *See also* Wealth

Baby boomers, 149, 287, 295–97, 301–2
Bankruptcy, firm, 301, 307
Bequests, 3, 35, 55; allocation between housing and other assets, 14–32; housing equity and, 82; marginal utility of, 57
Bond portfolio, pension investments in, 297–300, 307
Budget constraint, lifetime, 244
Buyouts, 10, 302–6

Cancer, institutionalization and, 176
Capital gains, 72; DP model and, 320–21, 354, 359, 364–65; housing and, 3, 35, 51–54, 83, 86, 364; long-term, 53; negative consumption and, 359, 364–65; new house purchase and, 364
Case management, long-term care of the elderly and, 178
Catastrophic health costs, 173
Child bearing, delayed, 308
Children: financial support from, 161; geographic location of, 160–61; health status of, 163, 165; income of, 5–6, 150, 162, 164, 167–68; marital status of, 164; never leaving home, 110; number of, 5, 149, 160; physical contact with, 161
Children, living with, 5–6, 102, 149–72; after death of spouse, 104; economic gain from, 152; health status and, 106–7, 158, 162; income effects and, 156–58; institutionalization and, 190; parents' vs. children's preferences, 6; predictors of, 129–30; probability of, 99, 112; proportion of elderly, 160; structural model of, 151–58, 169–72
Community care, nursing home utilization and, 176, 178
Compensation: expected future, 207; productivity and, 313. *See also* Earnings
Consumption, 1; DP model and, 320, 359–66; gradual reduction of, 321, 359; housing share of, 3; negative, 359, 364–66; society's preferences for, 115
Contracts, lifetime, 314
Couples, joint retirement decisions of, 9, 231–58. *See also* Marital status

Daughters, care provision and, 160
Death. *See* Mortality
Dementia, 7, 176, 179, 190
Dependency, income level and, 4
Dependent sharing: predictors of, 129–30; race and, 133; types of, 137–38. *See also* Children, living with
Disabilities, 125–26; chronic, 177; death rates and, 128; income and, 327; institutionalization and, 7, 129, 132; marital status and, 327; probability of, 126, 326, 336; termination of, 325–26; transitions after onset of, 104–7
Discrete-time models, retirement decision and, 319
Disequilibrium model, 31
Dividend policies, 297
Divorce, 126, 146
DP model. *See* Stochastic dynamic programming (DP) model
Dynamic stochastic programming model. *See* Stochastic dynamic programming (DP) model

Earnings: cumulated, 207–8; estimate of future, 215; indirect utility from, 212; less than marginal product, 293, 295; life-cycle determination of, 287, 293; lifetime marginal product, 300–301; present value of lifetime, 301–2; productivity and, 287, 293; retirement decision and, 234; tied to jobs, 308. *See also* Income
Earnings profiles, 293, 295, 301
Education level: disability and, 126; living arrangements and, 162, 165; nursing home utilization and, 7, 190
Elderly: demographic trends and, 174, 288; event history analysis of, 121–47; income effects and, 368; isolated, 4, 90, 110, 112; living alone, 149–72
Employees, future compensation of, 207
Employment status: DP model and, 339–48; health status and, 327; historical, 339, 341, 346; instantaneous, 339, 341; marital status and, 328; part-time, 11, 327, 341, 346; self-classification of, 339–341
Event history analysis of aging, 121–47
Expectations, responses to new information and, 9–10, 259–85

Family: financial assistance from, 173; living with, 4, 5, 89–90, 94–95. *See also* Children
Firms, 10–11, 293–307
Food stamps, 90
Friends: financial assistance from, 173; living with, 4
Functional impairments, 4, 6–7, 176–77, 190, 194

Head of household, 94–95, 99, 103
Health care costs, 4
Health status, 325–26; of children, 163, 165; disabled spouse and, 129; DP model and, 331–38; employment status and, 327; income and, 324, 328; institutionalization and, 176–77, living arrangements and, 83, 100, 104–7, 161–62, 165; marital status and, 327; men's retirement decision and, 231; moving probability and, 21, 100; retirement decision and, 214, 228, 231, 245, 247, 250, 338, 375; self-reported, 322–23; socioeconomic factors and, 7, 190
Health transition probability matrix, 332–38
Hebrew Rehabilitation Center for the Aged (HRCA) Elderly Survey (1986), 6, 150, 159–60. *See also* HRC-NBER Child Survey
Home health services, 177
Homeowner cost index, 44
Homeowners: capital gains and, 3, 35, 51–54, 83; children living with, 150; deductible expenses and, 34, 51–54; housing costs, 34; inflation and, 54; institutionalization and, 186; insurance rates of, 47; mobility of, 59–61
Home sales, transaction costs of, 34
Household: consumption policies of, 30, 55, 58; dissolution of, 3–4, 89–119; survival probabilities for husband-wife, 64
Housing: cost of, 3, 35–36; equity, 1–2, 13–32; market, 65, 75–78, 306; price index, 36, 85; prices, 3, 40, 83, 85–86, 93; quality of, 79, 82–83; share of income devoted to, 85; size of, 86; wealth in, 11, 18, 89, 321, 359
Housing decisions: determinants of, 82–83; housing cost and, 3; inflation rates and,

83; life-cycle, 33, 54–58, 82; market conditions and, 75–78; transaction costs of, 33; user cost of housing and, 33–35, 86–87
Housing demand: assets and income expectations and, 64–70; determinants of, 31; discounting and, 59; dynamics of, 2–3, 33–87; housing equity and, 30; need and, 87
Housing demand equation, 16–17
Housing, user costs of, 3, 71–75, 83–87; capital gains and, 86; components of, 84; declining, 78; dwelling size and, 3, 41, 78–79, 86; expected present value of, 34–36; housing decisions and, 33–34, 86–87; income and, 75, 85; life-cycle model and, 54–58
HRCA Elderly Survey. *See* Hebrew Rehabilitation Center for the Aged (HRCA) Elderly Survey
HRC-NBER Child Survey (1986), 6, 150, 159–60
Human capital, 293, 302–3, 314

Income, 130–31; aging and, 70, 368; of children, 150, 162, 164, 167–68; children's support and, 161; dependent sharing and, 129; disability and, 125–26, 327; DP model and, 320, 354–55; employability and, 327; estimating stochastic process of, 366–71; expected utility of, 381; health status and, 324, 328; housing and, 2–3, 64–70, 75, 85; institutionalization and, 4–5, 102, 110, 129, 177, 190; life expectancy and, 4, 133, 136, 326; life history and, 135; living alone and, 90, 149–50, 162, 164; living arrangements and, 5–6, 156–58, 166–69; moving and, 14, 22–26, 31, 100; race and, 328; retirement decision and, 367, 375; widowhood probabilities, 127; women and, 146. *See also* Earnings
Income/needs ratios, 130–31
Income tax deductions, homeowners and, 51–54
Independent living arrangements. *See* Living arrangements, independent
Inflation, home ownership and, 54
Information, access to, 284
Information processing, theory of, 268
Institutional living arrangements. *See* Living arrangements, institutional
Instrumental activities of daily living (IADL), 177, 202
Insurance rates, homeowner, 47
Interest rates: mortgage, 3, 47, 51, 59; wage growth and, 297
Intergenerational inequity, 90

Job search decision, 322, 326–27, 349–53, 382
Job turnover, 225, 303–5, 309

Labor force: graying of, 290; histories, 339; participation, 8–9, 145, 205, 231–32, 287–316, 343, 349–53; policies, 10–11
Labor market behavior, 8–9
Leisure: spouse's, 232; value of, 210, 213, 215, 302, 328
Life annuity, present value of, 58
Life-cycle planning, income expectations and, 64–70
Life expectancy, 131, 133, 136. *See also* Mortality
Life-prolonging technology, 7
Living alone, 149–72, 177. *See also* Living arrangements, independent
Living arrangements, 1–7, 89–119; death of spouse and, 99, 100, 102–4, 111, 117; demographics and, 5, 149; health status and, 100, 104–7, 162, 165; income and, 5–6, 149–50, 156–58, 166–69; living alone and, 149–172, 177; models of, 151–58, 169–72; parent vs. child's preferences in, 166–67; public policy and, 118; quality of life and, 118; sequences of, 93, 100; and society, 115–17; stability of, 4, 95, 97, 107, 110–11, 116; structural model of, 151–58, 169–72; types of, 94. *See also* Children, living with; Living arrangements, independent; Living arrangements, institutional; Living arrangements, shared
Living arrangements, independent, 94; gender differences and, 100, 109, 111–12; income distribution and, 90; increase in, 130; marital status and, 109; in years preceding death, 107
Living arrangements, institutional, 6–7, 94–95, 173–203; after death of spouse,

Living arrangements, institutional (*cont.*) 103–4; age and, 192; contact with children and, 161; costs of, 89, 102, 173; demographic factors and, 174, 176; disability and, 132; DP model and, 332; duration of, 175–76; extent of, 132; gender differences and, 111, 133–35; health status and, 176–77; homeowners and, 186; income and, 4, 110, 177; increasing rate of, 116; insurance for, 173, 200, 202–3; life histories and, 133–35; marital status and, 177; old old and, 149; predicting, 129, 182–83; previous studies of, 175–78; prior living arrangements and, 5; probability of, 102; quality of life and, 118; risk for, 112, 176–78; society's preferences and, 116; socioeconomic factors and, 7, 190; in years preceding death, 108
Living arrangements, shared, 5; gender differences and, 111–12; health status and, 106–7; housing costs and, 110; predictors of, 129–30; quality of life and, 115; race and, 109, 117; supply-side variable for, 99; unrelated persons and, 94; in years preceding death, 107. *See also* Children, living with
Long-term care. *See* Living arrangements, institutional

Maintenance, dwelling, 47
Marital status: of children, 164; death rates and, 128–29, 326; DP model and, 329–30; employment status and, 328; health status and, 125, 327; institutionalization and, 6, 102, 129, 177, 190; job search decision and, 327; living arrangements and, 102–4, 109, 111, 129, 164; moving costs and, 31; moving probability and, 21, 99–100; standard of living and, 130–32, 145. *See also* Widowhood
Marriage models, 126–27
Medicaid, nursing home care and, 6–7, 173, 190–92, 202
Medical care, 89–90
Medicare, nursing home care and, 173, 195, 202
Men: disabled, 5; end-of-life-cycle behavior of, 317–82; institutionalization and, 4–5, 7, 102, 133–35, 176, 191–93; labor force participation of, 232, 288–89, 305–6; retirement behavior of, 10–11, 231–32, 235–43, 305; shared living arrangements and, 110–12; widowhood probabilities of, 127
Mentally impaired, nursing home entry and, 6
Mortality, 325; age and, 326; factors in, 190; housing decisions and, 83; income and, 4, 326; living arrangements preceding, 107–10; marital status and, 326; predictors of, 128–29, 185, 336–38; user cost of housing and, 85
Mortgage: interest rates, 3, 47, 51, 59; reverse annuity, 1–2, 13, 26–27, 29–32, 82
Moving, household, 2, 59–61, 75–78; change in housing equity and, 20–27; probability of, 17, 19–21; transaction costs of, 1–3, 13–34, 82–83
Myopic life-cycle labor supply model, 227–28

National Long-Term Care Demonstration (Channeling), 6, 174, 178–79, 197–98
New Beneficiary Survey, 9, 232–34, 255–56
Nursing homes. *See* Living arrangements, institutional

Old old, 149, 174
Option value model, retirement decisions and, 212–16, 225–29

Panel Study of Income Dynamics (PSID), 3–4, 33–34, 70–78, 92, 121–22, 136–43
Pension plans: access to, 146; cliff-vesting, 225–26; dedicated portfolio strategy, 297–300; defined benefit, 8–11, 206, 292, 300, 303–5, 309; defined contribution, 10, 292, 304–5, 309; demographic changes and, 307; firms' stock ownership and, 300; funded, 300; implicit buyouts and, 303–6; indexed, 147; life-cycle planning and, 66; percent of workers covered, 292; portable, 309; present value of benefits of, 207–12; retirement decision and, 205–29, 244, 303–6; Social Security offset and, 208; spousal benefits in, 130; survivor benefits in, 146; Treasury bill investments and, 297, 300; unfunded liabilities of, 307; women and, 146–47, 309

Population rates, age-specific, 288
Poverty: households, sampling of, 70; rates, 122
Preventive care, 90
Private insurance, nursing home care and, 6, 191
Productivity: age-earnings profiles and, 302; changing age distribution and, 11, 308; compensation and, 287, 293, 301, 313; early retirement and, 306; internal vs. external, 302; spot enhancement of, 315; younger workers and, 315
Promotions, aging workforce and, 308, 315–16
Property taxes, 34, 47–51
PSID. *See* Panel Study of Income Dynamics
Public policy, living arrangements and, 4

Race: disability and, 125–26; income and, 328; institutionalization and, 7, 190; life expectancy and, 131; living arrangements and, 109, 112, 117, 133; moving probability and, 99
Rational modeling, Social Security benefit expectations and, 259–85
Real estate brokerage fees, 47
Remarriage, 330, 382
Rent, 36–40
Renters, 34, 59–61, 71–75
Retirement, 8–10; actual vs. predicted rates of, 215; average age at, 305; cross-wage effects, 232; defining, 372; DP model and, 371–75; expected value associated with, 213; health status and, 214, 228, 245, 247, 250, 338, 375; income and, 66, 367, 375; joint husband/wife decision, 9, 231–58; labor supply models of, 212–16, 225–29; leisure time and, 210, 213, 215; mandatory, 206, 231, 305, 313–15; men's behavior and, 11, 231–32; partial, 228, 343; pension inducements and, 205–29, 244; postponing, 209, 213; present value of benefits and, 207–12; probability of, 214, 346; smooth transition into, 321, 339, 343; Social Security and, 218–21, 244; Stone-Geary utility function and, 243–52; work after, 11
Retirement, early, 8, 212–17, 306–7; option value model and, 212–16, 225–29; productivity and, 306; substantial assets and, 232; Social Security and, 205, 210–11, 218–21, 266, 323, 374
Retirement History Survey (RHS), 2, 10–11, 14–28, 30, 91, 231, 260, 263, 316–18
